Dear Bruce:

I was finally able to see your cable dealing with the same subject as the enclosed piece. I liked your thoughts very much and believe -- with a few details of difference -- we are in accord. My paper was prepared at Newsom's request with strict instructions not to cut anyone else in except those shown as clearing and Peter. So please protect me absolutely.

Planning for the Shah to Come to the United States

This paper outlines some concepts we should address in considering the Shah's desire to come to the United States. We believe there are three broad questions:

- What new circumstances could justify a change in the USG position?
- What conditions should we seek from the Shah or state prior to his arrival here?
- What arrangements should we make for Embassy personnel to provide protection?

1. New Circumstances

The PGOI has laid out a plan for the adoption of a new constitution and election of a new government. If the plan is followed -- and that seems unlikely -- elections for an assembly of experts will be held on August 3. The assembly will conclude its work in one month; the draft constitution, which the experts will have reviewed, will be submitted to a popular referendum probably in September; and elections for a president and Majlis could take place as early as October. Because the Iranian government has placed a high priority on establishing a stronger and legitimate single authority for the country, we believe the PGOI and Khomeini will make every effort to meet this schedule. Even with the inevitable delays, there is a good chance that the process will be completed by the end of 1979.

Once it is completed, we should inform the new government that we wish to clear our decks of old issues on the agenda. One of those old issues will be the status of the Shah. We could inform the government that we have resisted intense pressures to allow him to come to the U.S. because we did not wish to complicate the PGOI's problems or our efforts to construct a new relationship. Now with the new government firmly established and accepted, it seems appropriate to admit the Shah to the U.S. The new government may not like it, but it is best to get the issue out of the way. This discussion with the new GOI should take place after it is in place some 2-3 weeks and some few days before the Shah would come here. In the meantime,

SECRET/SENSITIVE

SECRET/SENSITIVE

2

~~we should begin to prepare the Iranians by telling them of the intense pressures for the Shah to come here -- pressures which we are resisting despite our traditional open-door policy.~~

If the constitutional process does not proceed and Iranian instability seriously increases, and if there is no prospect for Iran to settle down, there may be an argument for going ahead and admitting the Shah anyway to get that inevitable step behind us, but it will be necessary first to review how dangerous the situation is.

~~In either of these scenarios we should aim for a positive change in our position on the Shah by January 1980.~~ If this plan is adopted it probably would not be advisable to disseminate it beyond a close circle in the Executive Branch; perhaps a few key individuals outside might be informed so as to reduce pressures for a change. We would also have to discuss the issue with Members of Congress to indicate that we were addressing the issue and hope to resolve it successfully. This would reduce pressures which could lead, for example, to a Congressional resolution calling on the Administration to admit the Shah. However, this would increase the likelihood of leaks and our having to deal with the PGOI before we are ready.

2. Conditions

It would help substantially in explaining our position to the Iranians if the Shah were to renounce his family's claim to the throne. We believe the likelihood of his doing so is extremely remote, but the idea could be explored privately by trusted intermediaries so that if the Shah refused he would have no possibility of blaming the USG for a course he rejected.

Should the Shah refuse to renounce his claim, we should leave no doubt in the Iranian mind as to our attitude. We should make it quite clear publicly that we consider any claim to the throne by his family rendered invalid by the Iranian constitutional process, and we should make it clear privately to the Shah and his friends that we would not tolerate any counter-revolutionary acts here which might violate U.S. law, or our customary policies regarding political activities of persons admitted for temporary visits.

3. Security

We have the impression that the threat to U.S. Embassy personnel is less now than it was in the spring; presumably the threat will diminish somewhat further by the end of this year. Nevertheless, the danger of hostages being taken in Iran will persist.

We ~~should make no move towards admitting the Shah until we have obtained and tested a new and substantially more effective guard force for the Embassy.~~ Secondly, when the decision is made to admit the Shah, we should quietly assign additional American security guards to the Embassy to provide protection for key personnel until the danger period is considered over.

Before proceeding further we should have more detailed work on the legal, security and Congressional relations issues.

SUBJECT: FY 80 CAP for Iran

The attached FY 80 Commercial Action Program for Iran is submitted for your clearance. Since I shall be in Saudi Arabia on a TDY assignment from June 7 - July 9, please telephone your clearance and/or additions to Mark Johnson (tel. 632-0915). Mark will handcarry the CAP to Iran during his visit to the Post in July.

In presenting the CAP, Mark will emphasize (1) that the program we have prepared envisions an improved political climate and that conditions may not permit all the activities we have suggested; (2) that the intention of the CAP is to provide some guidelines and priorities to assist the incoming team; and (3) that the Post is free to make substantial changes since we in Washington have had little information on which to devise a program.

Thank you for your input and cooperation.

COMMERCIAL ACTION PROGRAM FOR IRAN

Section I - Overview

Iran has been one of the more important markets worldwide for U.S. goods and services. In 1978 Iran's non-military imports from the United States totaled \$3.6 billion. The political upheavals of 1978 and 1979 will result in a major decline of total Iranian imports and, consequently, of U.S. exports to Iran during 1979.

The political turmoil in Iran has caused widespread labor strikes, considerable damage to plant and property, and a paralysis in the country's vital services. Petroleum exports, the chief source of foreign exchange, declined in October 1978, halted completely in late December, and did not resume until March 1979. During this period Iran lost nearly \$7 billion in revenues.

The outlook for calendar 1979 is not encouraging; a serious stagflation has created critical unemployment and rising prices. The country's planners must reestablish confidence, reorder priorities and begin to lay the framework for future economic growth. In the current political climate, these will be difficult objectives to achieve.

Looking beyond this immediate period, there is hope. Iran's oil will assure the country of sizable income. At present petroleum prices, Iran should look forward to earnings of \$18 - \$20 billion for the next fiscal year. In addition,

foreign exchange reserves of nearly \$10 billion provide a cushion. The key to any sustained growth will not be money, but effective management.

The most important U.S. commercial objective in Iran is to help American firms rebuild a strong market position and tap the opportunities which are expected to emerge in FY 80. The purpose of this document, which assumes a return to more normal political and economic conditions, is to establish a management plan and priorities toward this end. Special emphasis is given to servicing American business visitors and alert reporting on major projects. Campaigns in agribusiness and housing are projected. These sectors have been identified by the Government as high priority areas. The campaigns are not organized around Department of Commerce sponsored events, but instead emphasize development of information and contacts. As conditions change, revisions of the goals, priorities and actions may become necessary. The document establishes a framework for a dialogue on the commercial program between the Post and the Departments of State and Commerce at four month intervals. This periodic reporting requirement will provide a useful format for assessing the role which U.S. Government personnel will have in expanding U.S. exports to Iran and for planning future market promotion events.

Section III - Campaign Development

Campaign Number 1

Priority Rank 3

Campaign Title: Agribusiness

Campaign Manager: Commercial Attache and designated FSN

Objective and Rationale: Development of the agricultural sector, which received low priority by the previous regime is a major priority of the new government. Attention will be focused on improving the system which now exists, rather than on instituting large agribusiness projects. U.S. competitiveness in this field is well established, and the United States has traditionally held a strong market share in Iran's agribusiness market. Goals of this campaign are: (1) identifying the type of agricultural reform the government plans to undertake and the means of implementation, including the types and nature of government supports and subsidies; (2) reporting on major government expenditures related to agriculture, including plans for irrigation; (3) reporting on the status of local agribusiness manufacturing facilities; (4) establishing, with the cooperation of the Agricultural Attache, contacts with Ministry of Agriculture officials, local manufacturers and agents; (5) developing trade opportunities for U.S. suppliers and consultants; and (6) identifying suitable trade promotion events for Department of Commerce sponsorship in FY 82 and FY 83.

Campaign Number 2

Priority Rank 4

Campaign Title: Housing Systems and Related Equipment

Campaign Manager: Commercial Attache and designated FSN

Objective and Rationale: There is a strong demand for low income housing, which the new government has already said it will attempt to satisfy. This will probably be locally constructed or pre-fabricated housing, with emphasis on making use of local suppliers. There should be some opportunity for consulting or licensing agreements in this area as well as in providing pre-fabricated or modular housing units, but cost will be a significant factor. Sales opportunities should also exist for suppliers of air conditioning equipment and other equipment and supplies related to the housing industry. The goals of this campaign are: (1) obtaining and analyzing the sections of the new government plan relating to housing; (2) establishing contacts in the Plan Organization and in ministries supervising housing projects, as well as with private sector engineering and construction firms; (3) identifying trade opportunities for U.S. equipment and supplies exporters and locating agents for these exporters; and (4) identifying suitable trade promotion events for the Department of Commerce to sponsor in FY 82 and FY 83.

Section IV - Other Special Post Efforts

Activity No. 1 Business Services Priority 1

Primary responsibility: Commercial Attache

Description/Justification

Maintaining the traditionally strong U.S. market position will require considerable and imaginative assistance by the Embassy staff to individual American businessmen. In addition to the normal services, priority will be given to the following: (1) performing advance work and follow up services for visiting American businessmen as requested; (2) making appointments and providing translating services whenever appropriate and possible; (3) attempting to settle trade disputes resulting from outstanding claims and other unsettled issues; (4) responding to Washington requests on behalf of American firms; and (5) preparing handout materials for visitors and correspondence. The Post's initiatives and some specific examples of services rendered should be identified in progress reports three times during the year as outlined under Section VII.

Activity No. 2 Major Projects Priority 2

Primary responsibility: Commercial Attache

Continual alert reporting on major projects is one of the most important goals of the commercial program. Two major projects sectors --agribusiness and housing-- are the subjects of campaigns, and other important areas should be identified by the Embassy and reported to Washington on a continuing basis. Goals and actions indicated under this effort include: (1) reporting major projects leads on an alert basis and following up such leads at appropriate intervals; (2) expanding contacts in major projects areas, including in the Plan Organization and ministry planning departments, and making annotated lists of contacts under heading such as Power, Housing, and so forth; (3) identifying projects whenever possible prior to the prefeasibility phase; (4) developing status reports by sector, including long and short range plans; (5) reporting changes in laws and procedures; and (6) selecting projects as candidates for 661 (Foreign Assistance Act) pre-project studies; (7) updating the major projects list prepared in 1978. Progress towards these goals should be reported in progress reports three times a year as outlined under Section VII.

Activity No. 3 Investment Protection/Facilitation Priority 5

Primary responsibility: Commercial Attache

The changed political conditions have given rise to a number of unsettled issues relating to American investments in Iran. The Embassy will inform Washington of any substantive changes in laws or procedures relating to foreign investment. It will also give prompt attention to and attempt to settle issues relating to American investment brought to its attention by Washington or by the principals concerned.

Activity No. 4 Foreign Traders Index Priority 6

Primary responsibility:

Iranian agent/distributor firms have undergone considerable changes recently, and American firms will require updated information on these changes as well as information on new potential agents. Updating WTDRs on established agents and preparing WTDRs or PIRs on new agents will require a special initiative.

Activity No. 5 Trade Opportunities Reporting Priority 7

Primary responsibility:

Establishing contacts in the private manufacturing sector and indentifying trade opportunities for American products is an important goal. At least six plant visits in addition to those conducted under the two campaigns should be carried out each period.

Activity No. 6 Trade Promotion Event Planning Priority 8

Primary responsibility: Commercial Attache

With the possible exception of the Tehran International Trade Fair, there are no Department of Commerce sponsored trade promotion events scheduled during FY 80, and there are none planned presently for FY 81. However, planning for events to be held in FY 82 and 83 will be undertaken during the year. The Post will identify, on a spot basis, themes and vehicles for future trade promotion events for consideration by Commerce in the process of developing an events program. Early identification will permit a more active program for FY 82. The Post will also prepare, upon receipt of instructions from Washington, a Best Prospects Report (no longer a CERP requirement), a preliminary CCP for FY 82 and a CAP for FY 81.

Subject: Iranian Investment Corporation

Mr. Iradj Keynejad, Managing Director, Pars Investment Corp., called today about a visa.

Mr. K. estimates that the Iranian industrial sector, outside of oil, is functioning at about 20 percent of capacity. He expects increasing bankruptcies of companies over the next few months.

Pars Investment is a subsidiary of the old consortium, formed to invest locally as a favor to the government. He has about 300 million rials which he would like to transfer abroad, capital which has not been invested. Central Bank permission is pending. An embarrassment since some of the companies in which Pars holds interests are hard up for cash, near bankruptcy. No dividends have been repatriated for about a year.

consult

Mr. K. will ~~xxxxxx~~ American oil company stockholders. Expects that the consortium will meet in New York shortly to discuss company affairs.

Mr. K. has been harassed by committees; called in and held three days; interrogated blindfolded by unknowledgable types. Later by an educated man who decided that he had not done wrong by sending routine commercial reports to London.

US MILITARY MISSIONS AND ACTIVITIES

MAAG is the principal US military presence in Iran. Its mission is to promote competence of Iranian military forces, and to further US interests in Iran's ability to resist aggression and to further US interests in Iran.

The United States Lend Lease Mission was established in Iran in 1941. This mission was reorganized as "ARMISH" (United States Military Mission with the Iranian Army) in 1943. In 1947, the basic agreement between the United States and the Government of Iran (GOI) which provided for continuing US military advisor assistance to the Army, Navy, and Air Force was signed. In 1950, the Mutual Defense Assistance to the United States (MDA) agreement was signed by the USG and GOI. This agreement was separate and distinct from the ARMISH agreement, providing for US military administration of the Military Aid Program (MAP). In 1942, the first grant aid was delivered to the Iranian Armed Forces. In 1958, ARMISH and MAAG were consolidated into the Foreign Military Sales (FMS) and Credit program was started. The success of the program resulted in the phase-out of the Grant Aid program in 1972.

MAAG is commanded by a Major General, and his principal advisory mission is to provide daily advice to the Chief of the Supreme Commander's Staff and other high ranking Iranian military commanders, as well as to provide technical assistance with His Imperial Majesty to discuss Iran's military and future development.

MAAG of the ARMISH/MAAG provides advice to the Supreme Commander's Staff of the Imperial Iranian Armed Forces, (the military staff of the Imperial Iranian Armed Forces). Each of the major Iranian staff directorates, such as the Chief of Staff, Operations, Intelligence, Logistics, Plans and Programs, and Personnel Management has one or more advisors assigned, usually in the rank of Colonel. ARMISH/MAAG is fully committed to meeting the multiple requirements of the Imperial Iranian Armed Forces (IIA) modernization program. Inception of the FMS Program in 1972, Iran has ordered equipment and services valued in excess of ten-billion dollars. Current discussions are focused on the requisition of this equipment and the training of IIA personnel in the use of the equipment. To aid the GOI in accomplishing the job, the GOI has purchased the services of United States Technical Assistance Field Teams (TAFT's). All costs associated with this program are borne by the Government of Iran (GOI). The TAFT's have fluctuated based on GOI needs and supportive capabilities of the USG. The TAFT's operate under the guidance and direction of the MAAG and for the most part are geographically dispersed throughout Iran, collocated with the IIA forces they advise. In

Army and Air Force. It has been apparent that the evidence under which IIA has developed are valid; the proof of this is evident throughout the armed forces. For example, the Imperial Iranian Air Force (IIAF) growth in technical competence has allowed us to increasingly move away from technical assistance toward management assistance where we can concentrate on the development and training of middle managers and future leadership. The Imperial Iranian Ground Forces (IIGF) are beginning to show definite progress in such areas as maintenance and supply procedures. The Imperial Iranian Navy (IIN) smallest service and last to get started, is working well on fleet expansion and the achievement of operational readiness. Overall, we are seeing IIA personnel beginning to perform tasks on a routine basis which would have been extremely difficult, if not impossible a short time ago. Despite this progress, ARMISH-MAAG continues to stress and seek management attention on such key areas as utilization of TAFT resources and counterpart relationships. An advisory section is collocated at headquarters of the Imperial Ground Forces, Air Force and Navy. A Brigadier General heads the Army and Air Force Sections, and the Chief of the Navy Section is a Rear Admiral. Field teams are located in Kermanshah, Shiraz, Tabriz, Ahadan, Ahwaz, Mashed-E-Soleman, Kerman, Gazvin, Mashad, Rezaiyeh, Ferozjerd and Isfahan with the principal headquarters and schools.

Effective 1 July 1977 ARMISH-MAAG Staff Sections were redesignated the following Directorate organization. (Organization chart at Section 2)

Directorate of Personnel Support Management (ARPSM) previously ARPSM

HIS RESPONSE TO NEARLY ALL THESE SITUATIONS WHICH INCLUDED ATTEMPTED ASSASSINATION WERE EXEMPLIFIED BY CALMNESS, DECISIVENESS AND RATIONAL THINKING. WHEN THE LOCAL SITUATION DETERIORATED TO THE POINT THAT AMERICANS HAD TO BE EVACUATED, CAPTAIN HOLLINGWORTH PLAYED A KEY ROLE IN THE PLANNING, COORDINATION AND EXECUTION PHASES OF THIS MAJOR EVACUATION EFFORT. HIS EXPERTISE, INITIATIVE AND RESPONSIVENESS INSURED THE SAFE AND TIMELY MOVEMENT OF MANY THOUSANDS OF AMERICANS AND OTHER FOREIGNERS OUT OF THE COUNTRY. HIS UNTIRING AND UNSELFISH EFFORTS AIDED IMMEASURABLY IN A HIGHLY SUCCESSFUL EVACUATION. SEVERAL TIMES CAPTAIN HOLLINGWORTH ACTED AS DEFENSE ATTACHE DURING THE ABSENCE OF THE DATT. IN THIS CAPACITY HE READILY ACCEPTED THE RESPONSIBILITY AND EFFECTIVELY MANAGED THE DEFENSE ATTACHE OFFICE. CAPTAIN HOLLINGWORTH IS AN EXCELLENT OFFICER WHO IS REGARDED AS A TRUE PROFESSIONAL AND HIGHLY COMPETENT ATTACHE BY HIS COUNTERPARTS. HIS PERSONAL BEHAVIOR WAS NORMALLY EXEMPLIFIED BY HIGH STANDARDS OF BEARING, CONDUCT AND COURTESY WHICH ENHANCED THE IMAGE OF THIS NAVAL OFFICER. HIS DIRECT AND EXPERT SUPPORT TO THE MILITARY MISSION IN TEHRAN ADDED GREATLY TO THE OVERALL EFFECTIVENESS OF THE DEFENSE ATTACHE OFFICE.

1. (S) CURRENT SUBJECT GUIDANCE DATED 12 MAR 1979 IS AS FOLLOWS:
QUOTE: DISCLOSURE OF CLASSIFIED MILITARY INFORMATION TO IRAN (U)
(U) OBJECTIVE

TO PROMULGATE NATIONAL DISCLOSURE POLICY COMMITTEE (NDPC)
GUIDELINES GOVERNING THE DISCLOSURE OF CLASSIFIED MILITARY INFOR-
MATION TO THE GOVERNMENT OF IRAN (GOI).

(C) BACKGROUND

(C) A. THE POLITICAL AND MILITARY TURMOIL WHICH IS EVIDENT
IN IRAN AT THIS TIME AND WHICH IS EXPECTED TO CONTINUE FOR THE
NEAR TERM, PLACES IN QUESTION THE ABILITY OF THE GOI TO ADEQUATELY
PROTECT UNITED STATES CLASSIFIED MILITARY INFORMATION.

(C) B. IT CAN BE ASSUMED THAT UNITED STATES CLASSIFIED MILITARY

PAGE 2 RUEKJCS 4204 S E C R E T
INFORMATION PREVIOUSLY RELEASED TO THE GOI HAS BEEN SUBJECTED TO
COMPROMISE. THE UNITED STATES GOVERNMENT CANNOT AFFIRM THE EXTENT
OF SUCH COMPROMISE AT THIS TIME.

(C) C. NOTWITHSTANDING, MEASURES MUST BE ADOPTED TO ENSURE
THAT DISCLOSURES CULMINATING FROM PRIOR UNITED STATES GOVERNMENT
COMMITMENTS ARE HELD TO AN ABSOLUTE MINIMUM AND NO NEW INITIATIVES
ARE UNDERTAKEN REGARDING IRAN WHICH MAY INVOLVE THE DISCLOSURE OF
MILITARY INFORMATION WHICH, IF COMPROMISED, WOULD BE DETRIMENTAL TO
THE SECURITY INTERESTS OF THE UNITED STATES.

(U) GUIDELINES FOR DISCLOSURE

(C) A. NEW INITIATIVES SHALL NOT BE UNDERTAKEN WHICH COULD
REASONABLY BE EXPECTED TO RESULT IN THE DISCLOSURE OF CLASSIFIED
MILITARY INFORMATION OR MATERIEL TO THE GOI WITHOUT SPECIFIC NDPC
APPROVAL.

(S) B. EFFECTIVE IMMEDIATELY, THE GOI'S ELIGIBILITY LEVELS
AS REFLECTED IN ANNEX A, NDP-1, FOR CATEGORY 1 (ORGANIZATION,
TRAINING AND EMPLOYMENT OF MILITARY FORCES), CATEGORY 2 (MILITARY
MATERIEL AND MUNITIONS), CATEGORY 4 (PRODUCTION INFORMATION),
CATEGORY 5 (COMBINED MILITARY OPERATIONS, PLANNING AND READINESS)
AND CATEGORY 6 (MILITARY INTELLIGENCE) ARE SUSPENDED. THIS SUSPEN-

PAGE 3 RUEKJCS 4204 S E C R E T

SION WILL REMAIN IN EFFECT UNTIL SUCH TIME AS: (1) THE NDPC CAN DETERMINE THAT THE GOI CAN ADEQUATELY PROTECT U.S. CLASSIFIED MILITARY INFORMATION AND, (2) THE GOI FORMALLY REAFFIRMS THE PROVISIONS OF THE UNITED STATE/IRANIAN GENERAL SECURITY OF INFORMATION AGREEMENT, DATED JUNE 6, 1974. EXCEPT AS NOTED IN C., BELOW, WHILE THE SUSPENSION IS IN EFFECT, ALL REQUIREMENTS FOR THE DISCLOSURE OF U.S. CLASSIFIED MILITARY INFORMATION AT ANY LEVEL WILL BE HANDLED AS AN EXCEPTION TO POLICY IN ACCORDANCE WITH PROCEDURES ESTABLISHED BY NDP-1. THIS SUSPENSION IS APPLICABLE TO BOTH NEW INITIATIVES AND TO THE DELIVERY OF CLASSIFIED MATERIEL AND DOCUMENTATION UNDER PRIOR COMMITMENTS.

(C) C. THIS SUSPENSION DOES NOT APPLY TO THE ORAL/VISUAL DISCLOSURE OF CMI PREVIOUSLY AUTHORIZED BY DESIGNATED DISCLOSURE AUTHORITY TO PERMIT IRANIAN PERSONNEL TO COMPLETE ONGOING, PROGRAMMED AND SCHEDULED TRAINING WHICH IS NECESSARY FOR THE OPERATION AND MAINTENANCE OF MATERIAL PROVIDED TO THE GOI UNDER PREVIOUSLY APPROVED FMS OR GRANT AID PROGRAMS, UNLESS DESIGNATED DISCLOSURE AUTHORITIES DETERMINE SUCH DISCLOSURE WOULD NOT BE IN THE BEST INTEREST OF THE UNITED STATES.

(C) D. THESE GUIDELINES ALSO APPLY TO CLASSIFIED INFORMATION

DEVELOPED IN THE UNITED STATES WHICH MAY CONCEIVABLY REACH IRAN THROUGH THE CENTRAL TREATY ORGANIZATION (CENTO). END QUOTE.
