MEMORANDUM FOR: WH/Personnel

SUBJECT: Recruitment of a Retired CIA or Military Officer for Contract Status in Mexico.

1. Mexico City needs a replacement in September or October 1963 to work on a technical operation. The Station does not want a staff employee, but a Contract Agent.
2. The Contract Agent would need the following requirements:
 - a. Must be retired, and move permanently to Mexico under cover of a retired U. S. citizen, with the appropriate guaranteed income required under Mexican law. (\$320 for husband and wife *per me*)
 - b. Must have technical training which would enable him to work on a technical operation, possibly involving the care and upkeep of recorders, etc.
 - c. Must have a working knowledge of Spanish, or the ability to acquire this fluency prior to arrival in Mexico.
 - d. It will be necessary for the employee to work with people, make early and late meetings, and to spend a good deal of time driving around town. Therefore, the candidate must drive a car and be physically fit to work long hours.
3. It is requested that information on any candidates be furnished WH/3/MEXICO or C/WH/3 for consideration.

Ref: A. HMMA-20156
 B. MEXI 2384

1. The following report is submitted in accordance with CSFHB-F 52-6-1, section V, paragraph 2 (d) (1).

A. EXPLOITATION OF LEADS

(1) LIFEAT/Soviet During the reporting period, LIFEAT coverage of Svyatoslav F. KUZNETSOV provided an important and valuable check confirming the reporting of a number of KUBARK controlled double agents targeted against this Soviet officer. Also, coverage of the Soviet Bulletin Office, although not considered vital, does complete Station coverage of the Soviet target and does provide daily information on the activities and contacts of the Bulletin Office personnel.

(2) LIFEAT/Polish LIFEAT continued to provide vital information concerning the BEKNAVE/BECHICK operation with coverage of both individuals and their daily activities.

(3) LIFEAT/Yugoslav Besides the usual coverage of day-to-day activities of the official installation, LIFEAT leads have indicated the possibility of a successful recruitment of a Mexican employee of that installation. LIFEAT information will become even more valuable for continuing assessment of the potential agent and forming of a plan for approach to the Mexican in question.

(4) LIFEAT/Communist Party Coverage in this area gave Station its first information concerning the second arrest of LINLUCK, as well as providing some information on important persons in the Mexican Communist movement.

HEADQUARTERS FILE NUMBER 50-6-32/3	

(5) LIFEAT/Exile LIFEAT provides continuing coverage of the daily activities and contacts of Juan Jose AREVALO Bermejo. Although most of the leads gathered will depend on future exploitation, one contact with an ODYOKE official was noted by LIFEAT (see reference b).

(6) LIFEAT/Cuban Of late, much of the emphasis of the LIFEAT operation has been directed toward support of Station operations in this area. Coverage included monitoring of the activities of AMSTET-1 for the interested Case Officer. This information provided daily leads for the Case Officer in his contacts with AMSTET-1. LIFEAT also covered three lines in support of the AMSTRUT operation. Of this support the interested Case Officer has noted LIFEAT provided very valuable coverage of the important AMSTRUT operation during October. The coverage gave valuable operational leads and resolved what would otherwise have been areas of uncertainty or groundless suspicion. This allowed the case officers to move with more certainty in developing the operation than would otherwise have been prudently possible. It is noted that LIFEAT's continuing coverage is proving to be most helpful.

(7) LIFEAT/American Communists LIFEAT continued to provide information of interest to ODENVY. Travel and contacts of the ACGM are particularly worthwhile.

(8) LIFEAT/Miscellaneous LIFEAT continued its coverage of former Station asset LIVESTOCK-2. This was in keeping with Station's policy of making periodic checks of the activities of former, potentially dangerous agents.

It should be noted that it is the Station's opinion that LIFEAT's excellent overall service, plus its ability to provide unilateral coverage of targets of opportunity on short notice (sometimes on as little as two hours notice), make LIFEAT a dependable daily contributor to the fulfilling of the Station's mission.

B. PROCESSING OF TAKE

No change from previous report.

C. LIAISON

During the month of October the two playback recorders used by the ODENVY processor broke down. These were repaired by the LIFEAT technician, David M. WILSTED. ODENVY continued to process take from the LIFEAT/American Communists in Mexico lines.

D. SECURITY

There have been no known adverse security incidents effecting the LIFEAT operation during the reporting period. LIFEAT meeting sites continue to be changed periodically. The fourteen regular and six alternate sites used for daily contact between the Station Case Officer and WILSTED and Wayne C. DRABAND are considered adequate. Numerous meeting sites are used for contacts between WILSTED/DRABAND and the basehouse keepers.

E. TECHNICAL

Audio and dial tape recorders ordered by the Station in support of the LIFEAT operation began to arrive at the end of October. These were placed in immediate service. It is noted that the automatic tape stop on the new model Revere audio recorder has thus far proven to be of no use to the operation.

and on occasion has caused some minor problems. It is believed that these problems are temporary and will be eliminated when WILSTED has time to by-pass this cut off switch.

The new Annex VI (see reference A) was placed in full operation on 23 October and presently provides coverage of four target lines.

F. COVERAGE

During the month of October 1962, LIFEAT covered a total of 25 target lines. Coverage by target was as follows:

1. Soviet Bulletin Office
2. Svyatoslav F. KUZNETSOV
3. Aleksandr G. SIDOROV
4. and 5. Polish Embassy (two lines)
- 6, 7, 8, 9, and 10. Yugoslav Embassy (five lines)
- 11, 12, and 13 BEKNAVE/BECHICK operation
14. Juan Jose AREVALO Bermejo
15. Peter WATKINS
16. AMSTET-1
- 17, and 18. AMSTRUT operation
19. Psychiatrist attending AMSTRUT-2
20. Carlos ILLESCAS
21. Suspected PCM safehouse
22. LIVESTOCK-2
23. Albert (Margaret) MALTZ
24. Charles SMOLIKOFF (aka SMALL)
25. Noah SEBORER

G. PERSONNEL

LIEMBRACE-8 was reintroduced to LIFEAT in order that he may brush up on its daily operation. LIEMBRACE-8 will temporarily replace David M. WILSTED as LIFEAT technician during the latter's home leave December 1962 and January 1963.

Steps were initiated to amend the clearance of LIEMPTY-19 for work as a part time LIFEAT processor/translator.

2. During the reporting period, LIFEAT operation provided a total of 62 reels of raw take from ACGM lines to local ODENVY for their processing. In addition, a number of memos were prepared by the Station for passing to local ODACID and ODENVY based wholly or in part on LIFEAT provided material.

1. The following report is submitted in accordance with CSFHB-F 52-6-1, Section V, Paragraph 2 (d) (1).

A. EXPLOITATION OF LEADS

(1) LIFEAT/Soviet In this reporting period LIFEAT provided vital information and live-monitoring support during the installation phase of a successful Station technical operation targeted against Aleksandr G. SIDOROV, Soviet Military Attache in Mexico.

(2) LIFEAT/Cuban This coverage provided valuable operational support during the period leading up to the recruitment of AMSTRUT-2 giving timely advance information of AMSTRUT-2's arrival in Mexico, as well as his day to day activities and contacts. Following AMSTRUT-2's recruitment, LIFEAT gave an excellent account of AMSTRUT-2's activities for those period he was not under the control of his case officers. This was invaluable proof of his full cooperation with KUBARK and added a safety factor for the case officers making the recruitment and initial handling which would not have been otherwise available.

(3) LIFEAT/Polish and LIFEAT Yugoslav These coverages continue to provide excellent information of the daily activities of the Satellite officials assigned to Mexico. The LIFEAT support of the BEKNAVE/BECHICK operation continues as noted in reference.

(4) LIFEAT/Exile LIFEAT coverage of Juan Jose AREVALO Bermejo provides information and operational leads which, though valuable now, would be invaluable if ODYOKE's policy toward AREVALO becomes sufficiently defined to fully exploit all the information provided by LIFEAT.

(5) LIFEAT/American Communists LIFEAT continues to provide information of interest to ODENVY (who initially requested this coverage and processes this take.) Local ODENVY has noted recently that the information concerning travel of American leftists to Mexico and their contacts while here are particularly worth while.

(6) LIFEAT/Miscellaneous LIFEAT coverage was reinstated on LIVESTOCK-2 in Station periodic check on the activities of this former agent.

B. PROCESSING OF TAKE

No change from previous report (see reference).

C. LIAISON

No change from previous report (see reference).

D. SECURITY

There have been no known adverse security incidents effecting the LIFEAT operation during the reporting period. The "coyote" incident noted in reference, paragraph 1, D. is now settled and should pose no further difficulty to this operation.

E. TECHNICAL

No change from previous report (see reference).

F. COVERAGE

During the month of September 1962, LIFEAT covered a total of 16 target lines. Coverage by target was as follows:

1. Soviet Bulletin Office
2. Svyatoslav F. KUZNETSOV
3. Aleksandr G. SIDOROV
4. BECHICK's place of employment.
5. Individual considered for cut out in BEKNAVE/BECHICK operation
6. and 7. Polish Embassy (two lines)
- 8., 9., and 10. Yugoslav Embassy (three lines)
11. Juan Jose AREVALO Bermejo
12. Peter WATKINS
13. LIVESTOCK-2
14. Albert MALTZ
15. Charles SMOLIKOFF (aka SMALL)
16. AMSTRUT Operation

G. PERSONNEL

LIFEUD-24 and LIFEUD-26 obtained a basehouse on 29 September which will take the place of the old Annex VI (closed when LIFEUD-5 and LIFEUD-11 were terminated due to their pending divorce). It has been decided to retain the same annex designation, i. e., Annex VI, since the area of coverage is the same as that provided by the old basehouse.

2. During the month of September 1962, LIFEAT operation provided a total of 54 reels of raw take from the ACGM lines to the local ODENVY office for their processing. In addition, a number of memos were prepared by the Station for passing to local ODACID and ODENVY based wholly or in part on LIFEAT provided material.

5 June 1960

MEMORANDUM FOR THE RECORD

SUBJECT: DESCRIBING OF DAVID M. WILSTED (ps)

1. On 1 June 1960 Mr. John G. Hayn and Mr. John Kennedy of WHU, Mr. Robert Brown of CI/OPS, Mr. Robert Bryant of FI/OPS and Mr. Charles Bray of FI/D met with David M. WILSTED (ps).

2. WILSTED emphasized that the whole telephone system in Mexico City is undergoing a reformation. The company Telefonos de Mexico, S.A., has sub-contracted this work of cleaning up and reorganizing the phone system to the independent firm, Intel. They are cleaning up unused and old lines, putting in new and spare lines, redefining exchange areas, laying underground cables, etc. Eventually we should be better off because there should be more surplus lines. The renovation work has hampered much of the LIFEAT work, principally because many of the lines now are underground and we cannot get access to them before they enter the central. This is particularly true with respect to the Czech Embassy, to whose telephone lines we cannot obtain access from the vantage point we now occupy.

3. WILSTED said that we try to keep track of the activities of "Intel" but since they seem to attack "Colonias" at random, we have no prior warning of their presence in a certain area.

4. In the recent past, Mexico has been using houses for listening posts for security reasons. We have more control over the access of phone company inspectors or repairmen to houses. However, under new regulations, all new apartment buildings must have telephone lines installed in the building by the phone company during the construction phase. This means that the lines and their destination are concealed. WILSTED proposed that this will mean we can again use apartments since we can siphon off a line destined for use by another tenant in such a way that the phone company cannot trace its destination without tearing the building apart and we can then install a separate line to the building and hook up the subscriber to this line which, if checked, will belong to a legitimate subscriber.

5. One system which has been used effectively is to take one-half of two separate pairs which have one faulty line each. These two half pairs then form one good pair which we can use.

6. WILSTED explained that it cost about 3000 pesos to get a regular telephone. This entails the purchase of a telephone company bond, which later can be sold.

SECRET

SECRET

7. Personnel involved in the tapping of the lines are:

Rens - who has access to the centrals. He contacts the following men:

Two brothers

Jose - does exchange connections.

8. The take from each basehouse is collected early in the morning before office hours by RAFANELLI. He only enters one basehouse which is occupied by an elderly couple. All other contacts are in automobiles made at different spots each day of the week. RAFANELLI then takes the material to a meeting between him, WILSTED and SECHEN where RAFANELLI turns the material over to SECHEN and they all discuss the problems and plans for the day.

9. According to WILSTED there is no live monitoring done by any of the basehouse keepers.

10. There follows a list of the basehouses and the lines covered at each base:

- | | |
|----|--|
| a) | Formerly covered American consuls, now no lines. Being held for future use. |
| b) | Cuban residence
Russian Commercial
E. T. (Nicaraguan) |
| c) | 2 Polish
Seborer
Propete
Bekiar |
| d) | Cuban military office
Cuban Ambassador's office
Campos (travel agency)
1 spare |
| e) | UAR
Ejercito Nacional S/O (name of person unknown) |
| f) | - facilities for three lines. Formerly processed the Czech lines. Now nothing but being held open. |
| g) | 3 Soviet Embassy (tapped in the Central)
1 Soviet propaganda office (tap in box) |

<p>1. The following report is submitted in accordance with CSHB-F 52-6-1, Section V, paragraph 2 (d) (1).</p> <p>A. <u>Exploitation of Leads</u></p> <p>(1) LIFEAT/SOVIET With the departure of Vladimir G. NOVIKOV during the month of August 1962, it was decided that LIFEAT should pick up coverage of his replacement Svyatoslav F. KUZNETSOV. The continued coverage of Aleksandr G. SIDOROV, which includes extensive periods of live-monitoring and special processing of the take, is considered essential to those Station assets involved in the attempt to place the technical surveillance noted in last month's report (see reference A). Coverage of the Soviet Bulletin Office continues to provide interesting personality data on Soviet officials assigned to Mexico.</p> <p>(2) LIFEAT/POLISH LIFEAT coverage in support of the BEKNAVE/BECHICK operation continues to be vital to that operation. Additional coverage for this operation has been undertaken, leads from which will probably determine future direction of the operation as well as aid KUBARK in controlling the operation.</p>

(4) LIFEAT/EXILE LIFEAT coverage in this area has been most rewarding in providing leads to the contacts of Juan Jose Arevalo Bermejo, former Guatemalan President. Spanish Republican Exiles were covered for approximately one-half month in August, at which time it was decided that the coverage no longer provided sufficient leads and information to justify continued LIFEAT effort.

(5) LIFEAT/American Communist Group in Mexico (ACGM)
This coverage is at the request of the local office of ODENVY and the processing of take in this area is done by that office. One of the most interesting items provided from this coverage was the fact that the American Communists Albert MALTZ and Margaret Larkin MALTZ had separated and that Albert MALTZ would probably reside in the U.S. with Margaret remaining in Mexico. Concerning the LIFEAT coverage of the ACGM, the local office of ODENVY wrote on 23 August 1962: "This office feels that the coverage mentioned is quite valuable and many useful leads are obtained from this coverage, particularly with regard to travel in and out of Mexico of American Communists who are in contact with individuals on whom coverage is maintained".

B. Processing of Take

No change from that noted in reference A.

C. Liaison

No change from that noted in reference A.

E. Technical

In addition to re-supplying LIFEAT with audio recorders (as reported in reference A), the Station has ordered ten new dial tape recorders for the project. Funds for this purpose were included in the latest Project Renewal Request (forwarded by reference B).

F. Coverage

During the month of August 1962, LIFEAT covered a total of 15 target

lines. The coverage by target was as follows:

1. Soviet Bulletin Office
2. Svyatoslav F. KUZNETSOV
3. Aleksandr G. SIDOROV
4. BECHICK's place of employment (and place of contact with BEKNAVE)
5. and 6. Polish Embassy (two lines)
- 7., 8., and 9. Yugoslav Embassy (three lines)
10. Juan Jose AREVALO Bermejo

15. Charles SMOLIKOFF (aka SMALL)

G. Personnel

The basehouse operators for LIFEAT Annex VI, LIFEUD-5 and LIFEUD-1, after a long period of family disagreements, have mutually decided on a divorce. Both are being terminated by KUBARK since their usefulness as basehouse keepers for the project will end with their divorce. The agents have agreed to the termination and it will be accomplished on a friendly basis.

B. The following reports were based in whole or in part on positive intelligence which is provided as a by-product of the LIFEAT operation:

HMM-6605
HMM-6626
HMM-6663

1. The following report is submitted in accordance with CSHB-F 52-6-1, Section V, paragraph 2 (d) (1):

A. Exploitation of Leads

(1) LIFEAT/SOVIET LIFEAT coverage in this area was concentrated on known RIS officers: Vladimir G. NOVIKOV and Aleksandr G. SIDOROV.

LIFEAT coverage of the Soviet Bulletin Office, in addition to the above coverages, has provided information on the daily activities of individual Soviet officials assigned to Mexico, including collection of travel and biographical data.

(2) LIFEAT/POLISH LIFEAT coverage has been vital to the BEKNAVE/BECHICK operation. LIFEAT has even provided live-monitoring of an international call to BECHICK from a former admirer. Also in the Polish area, LIFEAT provided names of Polish Embassy contacts who were invited to Polish national holiday celebrations at the Polish Embassy, as well as information concerning the impending arrival of the new Polish Ambassador.

(3) LIFEAT/YUGOSLAV In the Station's increased operations against this target, basic biographical, personnel assignment, and personnel daily activity information is essential. LIFEAT has been providing just this type information since coverage commenced in May.

HEADQUARTERS FILE NUMBER	
50-6-32/3	

(4) LIFEAT/EXILE LIFEAT coverage of exile and revolutionary groups has been concentrated on coverage of Central American and Spanish Republican groups and individuals. Coverage of Juan Jose AREVALO Bermejo, former President of Guatemala, has provided the Station with valuable information concerning his contacts and future

(5) LIFEAT/American Communist Group in Mexico (ACGM)

Targets covered in this category are in answer to a long standing requirement laid on by ODENVY and approved by Headquarters. In the past ODENVY has noted the coverage as valuable and worthwhile to them. As in the past, reliable information was provided on the activities, travel, and contacts of the ACGM.

B. Processing of the Take

LIFEAT processors continue to process all take for the LIFEAT operation except for the three ACGM lines which are processed by the local ODENVY office.

C. Liaison

No change.

E. Technical

New recorders provided in May to LIFEAT are now in operation and appear superior to previous models used. It is planned, with the approval of Project LIFEAT for FY 1963, to completely re-equip LIFEAT with new recorders and possibly dial tape recorders.

F. Coverage

During the month of July 1962, LIFEAT covered a total of 16 target lines. Specifically, the coverage by target was as follows:

1. Soviet Bulletin Office
2. Viadimir G. NOVIKOV

3. Aleksandr G. SIDOROV
4. BECHICK
5. and 6. Polish Embassy (two lines)
7. and 8. Yugoslav Embassy (two lines)
9. Juan Jose AREVALO Bermejo
10. Peter WATKINS
11. Juan Simeon VIDARTE Franco Romero
12. Dr. Eugenio ARAUZ
13.
14. Albert MALTZ
15. Noah SEBORER
16. Charles SMOLIKOFF

G. Personnel

Clearance was received on LIFEUD-24 and he will commence work shortly to fill the gap left with the resignation of Olivia N. GLADMON (ps). (See project renewal forwarded HMMA-19129.) OBOLD, was made available to process completely the take from the Yugoslav lines. He is working out well with no evident security danger to either himself or LIFEAT.

2. A. Since submission of the last Project LIFEAT Renewal Request and Project Review, 72 reels of LIFEAT on the American Communist Group in Mexico (ACGM) have been passed to the local office of ODENVY. In addition, a number of memos were prepared by the Station for passing to the local ODACID and ODENVY based in whole or in part on LIFEAT provided material.

B. Despite the fact that LIFEAT is used primarily to support Station operations, some positive intelligence is gathered as a by product of the operation. The following reports were forwarded to Headquarters based on LIFEAT material:

HMM-6421
HMM-6452
HMM-6479
HMM-6499
HMM-6565

3. The Station has applied the RYBAT control to this dispatch to ensure the Desk's control of the information contained herein.

E. Personnel

The assistant outside case officer, Ralph B. RAFANELLI (ps), will depart Mexico City for a new assignment within the next month. David M. WILSTED (ps) will undertake complete outside work for LIFEAT for a temporary period while a locally obtained replacement for RAFANELLI is being cleared and trained.

2a. During the reporting period information from 236 LIFEAT reels on coverage of the American Communists in Mexico was passed to the local office of ODEVNY. In addition, numerous memos were prepared by the Station for passing to the local ODACID and ODEVNY based on LIFEAT provided material.

were transferred to the Intercept Center where they are now responsible for doing the full transcription of the tapes covering lines of interest to KUBARK.

C. Liaison

During the month of June COS was in contact with LIELEGANT on the average of four times each week. As stated in paragraph one above, COS met with LITENSOR on 18 June.

D. Security

It is believed that the security of the project has been improved with the closing of Unit C and the elimination of all Unit C personnel with the exception of LIENVOY/6 and 7 who were transferred to the Intercept Site. During the absence of Arnold F. AREHART, Malcolm Q. EDELAND was in direct contact with LIENVOY/2 and took advantage of this contact to repeatedly stress the necessity for tight security of this operation as well as personal security of the various LIENVOYs. For operational efficiency, contact once a week will be maintained between LIENVOY/2 and EDELAND.

E. Technical

Early in June AREHART returned to Headquarters to convert to Staff Agent and pick up his family to return Pcs Mexico City. He and his family arrived 24 June. AREHART reported on his return that some of the equipment was in need of attention but that there were no technical problems during his absence.

F. Personnel

With the elimination of Unit C the following personnel were terminated during the month of June:

- LITABLE/2
- LITABLE/3
- LITABLE/4
- LIENVOY/13

G. Production

The following fifty-seven (57) reports, cables and information dispatches were based wholly or in part on LIENVOY during the month of June 1960.

g. Personnel

David M. WILSTED (ps) departed Mexico City on 21 May 1960 for home leave and Headquarters consultation of approximately two months duration. His duties as outside Case Officer and principal technician have been undertaken by Ralph B. RAFANELLI (ps) and LIFEUD-8.

2. a. During the month of May 1960, information from twenty-three LIFEAT reels on coverage of American Communists in Mexico were passed to the local ODENVY office for its information. During the period 10 May through 16 June LIFEAT processed this take as the ODENVY processor was on home leave. Twenty-six reels of LIENVOY coverage of Sam Brooks were also passed to the local ODENVY office under the guise of LIFEAT material.

b. The following reports, cables, information dispatches, and memoranda were based wholly or in part on LIFEAT material during May 1960:

HMM-4921	HMMA-14942	MEXI-5662
HMM-4924	HMMA-14950	MEXI-5615
HMM-4943	HMMA-14956	MEXI-5593

MEMORANDUM FOR: C/WH/3/Mexico

AS
CHARLES W. ANDERSON
WH/FI

cc: CI/OPS/WH (Mr. Brown)

S E C R E T

6 June 1960

MEMORANDUM FOR THE RECORD

SUBJECT: DEBRIEFING OF DAVID M. WILSTED (ps)

1. On 1 June 1960 Mr. John G. Hayn and Mr. John Kennedy of WHD, Mr. Robert Brown of CI/OPS, Mr. Robert Bryant of FI/OPS and Mr. Charles Bray of FI/D met with David M. WILSTED (ps).
2. WILSTED emphasized that the whole telephone system in Mexico City is undergoing a reformation. The company Telefonos de Mexico, S.A., has sub-contracted this work of cleaning up and reorganizing the phone system to the independent firm, Intel. They are cleaning up unused and old lines, putting in new and spare lines, redefining exchange areas, laying underground cables, etc. Eventually we should be better off because there should be more surplus lines. The renovation work has hampered much of the LIFEAT work, principally because many of the lines now are underground and we cannot get access to them before they enter the central. This is particularly true with respect to the Czech Embassy, to whose telephone lines we cannot obtain access from the vantage point we now occupy.
3. WILSTED said that we try to keep track of the activities of "Intel" but since they seem to attack "Colonias" at random, we have no prior warning of their presence in a certain area.
4. In the recent past, Mexico has been using houses for listening posts for security reasons. We have more control over the access of phone company inspectors or repairmen to houses. However, under new regulations, all new apartment buildings must have telephone lines installed in the building by the phone company during the construction phase. This means that the lines and their destination are concealed. WILSTED proposed that this will mean we can again use apartments since we can siphon off a line destined for use by another tenant in such a way that the phone company cannot trace its destination without tearing the building apart and we can then install a separate line to the building and hook up the subscriber to this line which, if checked, will belong to a legitimate subscriber.
5. One system which has been used effectively is to take one-half of two separate pairs which have one faulty line each. These two half pairs then form one good pair which we can use.
6. WILSTED explained that it cost about 3000 pesos to get a regular telephone. This entails the purchase of a telephone company bond, which later can be sold.

S E C R E T

S E C R E T

7. Personnel involved in the tapping of the lines are:

Rams - who has access to the centrals. He contacts the following men:

Two brothers

Jose - does exchange connections.

8. The take from each basehouse is collected early in the morning before office hours by RAFANELLI. He only enters one basehouse which is occupied by an elderly couple. All other contacts are in automobiles made at different spots each day of the week. RAFANELLI then takes the material to a meeting between him, WILSTED and SECHEN where RAFANELLI turns the material over to SECHEN and they all discuss the problems and plans for the day.

9. According to WILSTED there is no live monitoring done by any of the basehouse keepers.

10. There follows a list of the basehouses and the lines covered at each base:

- | | |
|----|--|
| a) | formerly covered American comms, now no lines. Being held for future use. |
| b) | Cuban residence
Russian Commercial
E. T. (Nicaraguan) |
| c) | 2 Polish
Seborer
Tropete
Bekier |
| d) | Cuban military office
Cuban Ambassador's office
Campos (travel agency)
1 spare |
| e) | JAR
Ejercito Nacional S/O (name of person unknown) |
| f) | - facilities for three lines. Formerly processed the Czech lines. Now nothing but being held open. |
| g) | 3 Soviet Embassy (tapped in the Central)
1 Soviet propaganda office (tap in box) |
