FOIPA Request No.: 1398432-001
Subject: 100-HQ-358086

Dear Mr. Greenewald:

Records responsive to your request were previously processed under the provisions of the Freedom of Information Act (FOIA). Below you will find informational paragraphs relevant to your request. Please read each item carefully.

Enclosed are 1,622 pages of previously processed documents and a copy of the Explanation of Exemptions. This release is being provided to you at no charge.

Documents or information referred to other Government agencies were not included in this release.

Please be advised that additional records responsive to your subject exist. If this release of previously processed material does not satisfy your information needs for the requested subject, you may request the additional records for processing.

Requester Response

☐ Yes, process and provide me the additional records responsive to my subject.

☐ No, close my request.

Please submit your response within thirty (30) days by mail or fax to—Work Processing Unit, 170 Marcel Drive, Winchester, VA 22602, fax number (540) 868-4997. Please cite the FOIPA Request Number in your correspondence.

If we do not receive your decision within thirty (30) days of the date of this notification, your request will be closed.

For your information, Congress excluded three discrete categories of law enforcement and national security records from the requirements of the FOIA. See 5 U.S. C. § 552(c) (2006 & Supp. IV (2010). This response is limited to those records subject to the requirements of the FOIA. This is a standard notification that is given to all our requesters and should not be taken as an indication that excluded records do, or do not, exist.

For questions regarding our determinations, visit the www.fbi.gov/foia website under “Contact Us.” The FOIPA Request Number listed above has been assigned to your request. Please use this number in all correspondence concerning your request.

You may file an appeal by writing to the Director, Office of Information Policy (OIP), United States Department of Justice, Suite 11050, 1425 New York Avenue, NW, Washington, D.C. 20530-0001, or you may submit an appeal through OIP's FOIA online portal by creating an account on the following web site: https://www.foiaonline.gov/foiaonline/action/public/home. Your appeal must be postmarked or electronically transmitted within ninety (90) days from the date of this letter in order to be considered timely. If you submit your appeal by mail, both the letter and the envelope should be clearly marked “Freedom of Information Act Appeal.” Please cite the FOIPA Request Number assigned to your request so it may be easily identified.

You may seek dispute resolution services by contacting the Office of Government Information Services (OGIS) at 877-684-6448, or by emailing ogis@nara.gov. Alternatively, you may contact the FBI's FOIA Public Liaison by emailing foipaquestions@fbi.gov. If you submit your dispute resolution correspondence by email, the subject heading should clearly state "Dispute Resolution Services." Please also cite the FOIPA Request Number assigned to your request so it may be easily identified.

Sincerely,

David M. Hardy

EXPLANATION OF EXEMPTIONS

SUBSECTIONS OF TITLE 5, UNITED STATES CODE, SECTION 552

(b)(1) (A) specifically authorized under criteria established by an Executive order to be kept secret in the interest of national defense or foreign policy and (B) are in fact properly classified to such Executive order;

(b)(2) related solely to the internal personnel rules and practices of an agency;

(b)(3) specifically exempted from disclosure by statute (other than section 552b of this title), provided that such statute (A) requires that the matters be withheld from the public in such a manner as to leave no discretion on issue, or (B) establishes particular criteria for withholding or refers to particular types of matters to be withheld;

(b)(4) trade secrets and commercial or financial information obtained from a person and privileged or confidential;

(b)(5) inter-agency or intra-agency memorandums or letters which would not be available by law to a party other than an agency in litigation with the agency;

(b)(6) personnel and medical files and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy;

(b)(7) records or information compiled for law enforcement purposes, but only to the extent that the production of such law enforcement records or information (A) could reasonably be expected to interfere with enforcement proceedings, (B) would deprive a person of a right to a fair trial or an impartial adjudication, (C) could reasonably be expected to constitute an unwarranted invasion of personal privacy, (D) could reasonably be expected to disclose the identity of confidential source, including a State, local, or foreign agency or authority or any private institution which furnished information on a confidential basis, and, in the case of record or information compiled by a criminal law enforcement authority in the course of a criminal investigation, or by an agency conducting a lawful national security intelligence investigation, information furnished by a confidential source, (E) would disclose techniques and procedures for law enforcement investigations or prosecutions, or would disclose guidelines for law enforcement investigations or prosecutions if such disclosure could reasonably be expected to risk circumvention of the law, or (F) could reasonably be expected to endanger the life or physical safety of any individual;

(b)(8) contained in or related to examination, operating, or condition reports prepared by, on behalf of, or for the use of an agency responsible for the regulation or supervision of financial institutions; or

(b)(9) geological and geophysical information and data, including maps, concerning wells.

SUBSECTIONS OF TITLE 5, UNITED STATES CODE, SECTION 552a

(d)(5) information compiled in reasonable anticipation of a civil action proceeding;

(j)(2) material reporting investigative efforts pertaining to the enforcement of criminal law including efforts to prevent, control, or reduce crime or apprehend criminals;

(k)(1) information which is currently and properly classified pursuant to an Executive order in the interest of the national defense or foreign policy, for example, information involving intelligence sources or methods;

(k)(2) investigatory material compiled for law enforcement purposes, other than criminal, which did not result in loss of a right, benefit or privilege under Federal programs, or which would identify a source who furnished information pursuant to a promise that his/her identity would be held in confidence;

(k)(3) material maintained in connection with providing protective services to the President of the United States or any other individual pursuant to the authority of Title 18, United States Code, Section 3056;

(k)(4) required by statute to be maintained and used solely as statistical records;

(k)(5) investigatory material compiled solely for the purpose of determining suitability, eligibility, or qualifications for Federal civilian employment or for access to classified information, the disclosure of which would reveal the identity of the person who furnished information pursuant to a promise that his/her identity would be held in confidence;

(k)(6) testing or examination material used to determine individual qualifications for appointment or promotion in Federal Government service the release of which would compromise the testing or examination process;

(k)(7) material used to determine potential for promotion in the armed services, the disclosure of which would reveal the identity of the person who furnished the material pursuant to a promise that his/her identity would be held in confidence.

SUBJECT: DELINQUENCY IN SECURITY INVESTIGATIONS

SYNOPSIS:

Each month we follow the field closely on the status of security work by analyzing the backlog of pending active cases and delinquency in espionage, internal security, security matter, foreign intelligence and racial matters cases in classifications 65, 100, 105 and 157. Status of these cases as of July 31, 1967, is set forth below.

In July, 1967, there was a decrease in pending active matters in the field in classifications 65, 100 and 105 from 21,779 to 21,315. Delinquent matters increased from 1,300 to 1,573. The percentage of delinquent matters increased from 6.0 per cent to 7.4 per cent.

During the same month, pending active matters in the 157 classification increased from 4,410 to 4,621 while delinquent matters increased from 246 to 312. The field-wide delinquency in this classification increased from 5.6 per cent to 6.8 per cent.

Letters are being sent to the offices indicated by asterisks on pages 4 and 5 herein, commenting on their delinquency and pointing out the necessity for bringing their cases in these classifications to a current status.

ACTION:

The field will continue to be followed closely regarding delinquency in the 65, 100, 105 and 157 classifications and you will be advised of the results of the review of the administrative report for August, 1967.

SECURITY MATTER - C

The files of the Passport Office, United States Department of State (USDS), Washington, D.C., were reviewed on August 11, 1967, by a representative of the Federal Bureau of Investigation, and disclosed the following information:

On June 20, 1966, at Washington, D.C., [redacted] was issued Passport Number [redacted] for one year's travel to France for the purpose of study in Paris, France, during her Junior college year.

She indicated on her passport application dated June 16, 1966, at New York, New York, that she would depart from New York on September 8, 1966, via the S.S. "Aurelia."

[redacted] stated that she was born [redacted] at Brooklyn, New York. She listed her father as [redacted] born June 10, 1911, in Austria and her mother as [redacted] born March 6, 1912, at Brooklyn, New York. Both parents were listed as United States citizens. She requested that both parents be notified at Bronxville, New York, in the event of her death or accident.

[redacted] listed her permanent residence as [redacted] Bronxville, New York, Westchester County, 10708, and her mailing address as [redacted] New York, New York. She stated that she was never married.

This passport is valid for travel to all countries except Albania, Cuba and those portions of China, Korea and Vietnam under communist control. This passport will expire June 19, 1969, and may be renewed for two additional years.

ENCLOSURE

[redacted]

The files of the Passport Office further disclosed a USDS Affidavit of Identifying Witness form, required only when the applicant for a passport is unable to establish his identity to the satisfaction of the Clerk of the Court or Passport Agent. This form attached to [redacted] passport application failed to reflect the name or signature of her identifying witness. The form did reflect that the identifying witness was her brother, who gave his address as [redacted] New York, New York, and stated that he had known Scheier for twenty years, knew her to be a citizen of the United States and indicated that her statements in her passport application are true.

The following description was obtained from the files of the Passport Office:

Height:	Five feet five inches
Eyes:	Blue
Hair:	Brown
Occupation:	Student

SUBJECT: DELINQUENCY IN SECURITY INVESTIGATIONS

SYNOPSIS:

Each month we follow the field closely on the status of security work by analyzing the backlog of pending active cases and delinquency in espionage, internal security, security matter, foreign intelligence and racial matters cases in classifications 65, 100, 105 and 157. Status of these cases as of August 31, 1967, is set forth below.

In August, 1967, there was an increase in pending active matters in the field in classifications 65, 100 and 105 from 21,315 to 21,851. Delinquent matters decreased from 1,573 to 1,254. The percentage of delinquent matters decreased from 7.4 per cent to 5.7 per cent.

During the same month, pending active matters in the 157 classification increased from 4,621 to 5,099 while delinquent matters decreased from 312 to 280. The field-wide delinquency in this classification decreased from 6.8 per cent to 5.5 per cent.

Letters are being sent to the offices indicated by asterisks on pages 4 and 5 herein, commenting on their delinquency and pointing out the necessity for bringing their cases in these classifications to a current status.

SUBJECT: DELINQUENCY IN SECURITY INVESTIGATIONS

SYNOPSIS:

Each month we follow the field closely on the status of security work by analyzing the backlog of pending active cases and delinquency in espionage, internal security, security matter, foreign intelligence and racial matters cases in classifications 65, 100, 105 and 157. Status of these cases as of September 30, 1967, is set forth below.

In September 1967, there was an increase in pending active matters in the field in classifications 65, 100 and 105 from 21,851 to 22,298. Delinquent matters increased from 1,254 to 1,393. The percentage of delinquent matters increased from 5.7 per cent to 6.2 per cent.

During the same month, pending active matters in the 157 classification decreased from 5,099 to 4,879 while delinquent matters increased from 280 to 336. The field-wide delinquency in this classification increased from 5.5 per cent to 6.9 per cent.

Letters are being sent to the offices indicated by asterisks on pages 4 and 5 herein, commenting on their delinquency and pointing out the necessity for bringing their cases in these classifications to a current status.

ACTION:

The field will continue to be followed closely regarding delinquency in the 65, 100, 105 and 157 classifications, and you will be advised of the results of the review of the administrative report for October, 1967.

PROPOSED CHANGE IN THE
FOREIGN OPERATIONS POLICY MANUAL

Section 7C, page 3, paragraph 2, of the Foreign Operations Policy Manual should be amended in accordance with the portions underscored as follows:

The Bureau in its over-all responsibilities in the internal security field must be in a position to keep abreast of current activities and patterns of espionage and subversive activities in the U. S. and foreign countries on the part of the Soviets and other communist countries. It is imperative that all Legal Attaches through established contacts and sources secure and forward to the Bureau on a continuing basis all information on the current activities and patterns of Soviet or other communist espionage and subversion in all countries where the Bureau has foreign posts.

PROPOSED CHANGES IN
MANUAL OF INSTRUCTIONS

Volume III, Section 87D, Page 57, should be amended as follows:

(7) Periodic verification of addresses OF SECURITY INDEX SUBJECTS

(b) The whereabouts of all security index subjects should be known at all times. The residence and business addresses of all security index subjects must be checked at least once each six months, except those imprisoned and those who were included in the security index because of disaffection for the U. S. (defection to a Sino-Soviet-bloc country, including Cuba since 10-1-60) (see section 105G, item 3, volume IV, of this manual). The residence and employment of those who were included in the security index because of disaffection for the U. S. must be verified every thirty days. The case of any security index subject who is out of the country must be followed at least each six months to determine if he has returned to this country.

REC-42 100-358056-311

Perfect arrangements to be advised on a current basis of any indication that the subject is engaged in subversive activities, is exhibiting violent tendencies, or plans to change his residence or employment. Periodic checks to verify residence or business addresses may be made under appropriate pretext by telephone, or other expeditious means.

SUBJECT: FOREIGN OPERATIONS POLICY MANUAL

RECOMMENDED CHANGE RELATING TO
SECURITY INVESTIGATIONS of Individuals

This memorandum recommends a change in the Foreign Operations Policy Manual (FOPM) to indicate that the Bureau's interests in patterns of espionage and subversive activities relate not only to the Soviets but to all communist countries.

Section 7C of the FOPM, wherein are defined the intelligence objectives of the Bureau's foreign offices, states that the Bureau in its over-all responsibilities in the internal security field must be in a position to keep abreast of current activities and patterns of Soviet espionage and subversive activities in the U. S. and foreign countries. Inasmuch as the Bureau's responsibilities are not limited to espionage and subversive activities of only the Soviets but extend as well to the satellite countries; Cuba; Communist China; and Yugoslavia (to put it simply, to all communist countries), it is therefore considered advisable to at this time expand the language in the FOPM to include all communist countries.

ACTION:

Attached for approval is a recommended change in the FOPM, Section 7C, page 3, paragraph 2. No other manuals are affected; nor the Handbook.

SUBJECT: DELINQUENCY IN SECURITY INVESTIGATIONS

SYNOPSIS:

Each month we follow the field closely on the status of security work by analyzing the backlog of pending active cases and delinquency in espionage, internal security, security matter, foreign intelligence and racial matters cases in classifications 65, 100, 105 and 157. Status of these cases as of October 31, 1967, is set forth below.

In October, 1967, there was an increase in pending active matters in the field in classifications 65, 100, and 105 from 22,298 to 22,685. Delinquent matters decreased from 1,393 to 1,096. The percentage of delinquent matters decreased from 6.2 per cent to 4.8 per cent.

During the same month, pending active matters in the 157 classification increased from 4,879 to 4,911 while delinquent matters decreased from 336 to 237. The field-wide delinquency in this classification decreased from 6.9 per cent to 4.8 per cent.

Letters are being sent to the offices indicated by asterisks on page 4 herein, commenting on their delinquency and pointing out the necessity for bringing their cases in these classifications to a current status.

Status of Security Work by Individual Office

The offices with delinquency in either category are listed alphabetically, and these statistics reveal their progress during October, 1967, in the 157 classification and in composites for the 65, 100 and 105 classifications. The delinquencies shown are based on pending active matters.

Letters are being directed to offices indicated by asterisks on the following schedule, commenting on their delinquency and pointing out the necessity for bringing their cases in these classifications to a current status.

3 Pentagon War Protesters Are Given Jail Sentences

By BRIAN KELLY
Star Staff Writer

Three young men accused of crossing guard lines at the Pentagon peace demonstration last month were found guilty of disorderly conduct yesterday in federal District Court at Alexandria.

Two of the demonstrators were found guilty by a jury, and the third was convicted by Judge Oren R. Lewis in a day-long, joint trial.

Found guilty by the jury of nine men and three women were Jose Cassiagnol, 22, a student at Howard University, and Donald Beatty, 22, a staff member of the Committee for Nonviolent Action, which has its headquarters on a farm in Voluntown, Conn.

Lewis sentenced Cassiagnol to 20 days in jail, but gave him credit for 6 days the demonstrator already had spent in custody.

He sentenced Beatty to 19 days, which matched the time he spent awaiting trial, so he was released.

In the third case, Lewis found Bruce Grant, 19, of Philadelphia guilty of the disorderly charge and sentenced him to 20 days, with 6 days off for time already spent in custody.

He deferred execution of the two unexpired sentences pending a hearing today on defense motions to dismiss the cases altogether.

In the trial yesterday, all three defendants and their attorneys contended that they did not cross the protective lines of military police and U.S. marshals guarding the Pentagon entrances the weekend of Oct. 21.

Meanwhile, another pair of demonstrators charged with the same disorderly conduct count were exonerated in rulings by Lewis yesterday after government prosecutors moved to have the charge dismissed.

The two men who were released were identified as Louis Shivitz of Long Beach, N.Y., and Jerry Gelm, 22, of Philadelphia.

Shivitz at first refused to accept the government's motion to dismiss his charge. Lewis agreed to try him, but quickly acquitted the young man when the prosecutor said they had no evidence to offer. The action took less than one minute.

The demonstrators were taken into Lewis' court, despite the petty nature of their charge, because they had refused to have their cases disposed by U.S. commissioners, who handled the bulk of cases stemming from the Vietnam war protest at the Pentagon.

Three Youths Get Jail Terms in Pentagon Protest

Three youthful pacifists were convicted yesterday of disorderly conduct during the massive Pentagon peace demonstration when they appeared before Judge Oren R. Lewis in Federal Court in Alexandria.

They are Bruce Grant, 19, of Philadelphia, and Jose Cassagnol, 22, of 1415 Tuckerman st. nw. and Donald Batty, 22, Voluntown, Conn. Lewis sentenced Batty to 19 days in jail but then freed him by crediting him for time already served. Batty, who said he had conscientious objections to cooperating with court procedures, had refused release on bond pending trial and had been in jail since his arrest at the demonstration on Oct. 21.

Grant and Cassagnol were given 20-day jail sentences but were credited with the six days they served before being released on bond. Execution of their sentences was delayed pending the outcome of a hearing today on motions to dismiss their cases.

The day-long trial of the three, who presented their cases together, was punctuated by an outburst from a courtroom spectator who objected to questioning of Cassagnol by Judge Lewis.

The spectator, Kenneth Trapp, a teacher at Hine Junior High School in Washington, refused to sit down at a marshal's direction and said the Judge's questioning "isn't even relevant." He was put in a cell for three hours and then apologized to the Judge for his "emotional response."

Cassagnol and Batty were found guilty by a jury that deliberated 45 minutes. Grant was tried by the judge alone, relinquishing his right to a jury trial.

An analysis of the status in the field of pending active cases and delinquency in espionage, internal security, security matter, foreign intelligence and racial matters (RM) cases in classifications 65, 100, 105, and 157 was conducted for the month of November, 1967.

There was an increase in pending active matters in classifications 65, 100, and 105 from 22,685 to 23,289, a difference of 604. Delinquent matters increased from 1,096 to 1,407, a difference of 311. The percentage of delinquent matters increased from 4.8 per cent to 6.0 per cent.

Pending active matters in the 157 classification increased from 4,911 to 5,020, a difference of 109. Delinquent matters increased from 237 to 265, a difference of 28. The field-wide delinquency percentage increased from 4.8 per cent to 5.3 per cent.

Letters are being sent to the following offices commenting either on their over-all security delinquency or on their racial matters delinquency. This is indicated by an asterisk.

Office	65	100	105	Over-all Security	157 (RM)

SECURITY INVESTIGATIONS OF INDIVIDUALS - GENERAL
(INTERNAL SECURITY)

Recent developments have indicated that it may be desirable to re-evaluate the Bureau's security investigation procedures which have been directed toward coverage of the activities of the Communist Party (CP) and other such groups which seek the overthrow or destruction of the U. S. Government. Since 1939, numerous programs have been in effect such as the identification of members of such organizations, the security index, reserve index and investigations of communist infiltration of various groups and subversive front group organizations. These investigations have been guided by certain report writing procedures. The programs which have been in effect have provided excellent coverage on a continuing basis.

MAILED 8
DEC 20 1967
FBI

The emergence and rapid expansion of racially militant or "black power" groups as well as individuals comprising the New Left have posed dangers closely paralleling the threat of communist activity in the U. S. There is no indication that the expansion of such groups will diminish, but rather that it will be even more widespread. The leaders and members of such organizations represent an increasing threat to the U. S. requiring increased penetration and investigation as well as the expansion of the informant program to develop necessary coverage.

These developments have made it increasingly important that all current security programs and procedures be carefully analyzed to insure that we are keeping pace with the growth of racially militant and New Left groups so that our manpower is continually utilized for maximum coverage in the most dangerous areas. Although we must not diminish our current investigative attention of communist and/or subversive organizations, we must give consideration to re-evaluating our existing programs and standards in order to streamline or even do away with certain programs and standards which may no longer be serving the purpose for which originally intended.

Each office should within two weeks of receipt of this communication advise the Bureau of its comments and recommendations concerning the re-evaluation of standards for including or deleting individuals in the Security Index, altering report writing procedures regarding Security Index subjects and re-evaluating the standards for inclusion of individuals in the reserve index. Specific comments should be included regarding recommendations for retaining or eliminating Reserve Index A and/or Reserve Index B.

As you are well aware, the altering of security index standards must be approved by the Department and this matter must receive close attention. It is, however, our responsibility to recommend timely changes and, therefore, your comments and recommendations are being solicited. All replies will be considered by the Bureau and no action should be taken at this time concerning your specific recommendations. All current programs and procedures will remain in effect until all offices are notified to the contrary.

NOTE: By memorandum W. M. Felt to Mr. Tolson dated 12/7/67, captioned "INSPECTION - NEW YORK OFFICE, (SECURITY AND RACIAL MATTERS)", it was recommended and approved that larger field divisions be surveyed for views as to the advisability and feasibility of altering current standards and practices in security investigations in view of recent developments and expansion of racially militant and New Left groups. Comments and recommendations of offices receiving copies of this airtel are being sought.

SUBJECT: INSPECTION - NEW YORK OFFICE
(SECURITY AND RACIAL MATTERS)

Assistant Director Sullivan of Domestic Intelligence Division asked Inspection Division to make a special evaluation during recent inspection of New York Office concerning procedures and reporting methods for handling of security subjects. Underlying reason for this study relates primarily to insuring sufficient manpower is made available to completely discharge Bureau responsibilities in racial, "new left," and espionage fields. Mr. Sullivan believes time has arrived for some constructive changes to be made and that views of New York Office as well as those of Domestic Intelligence Division could be helpful in the matter. In line with this thinking matter was carefully studied during New York Office inspection.

BACKGROUND

Since 1939, most of Bureau's security investigations have been directed toward coverage of activities of Communist Party (CP) and other such groups who seek to overthrow Government. Numerous programs, such as identification of members, Security Index, Reserve Index, Communist infiltration and front group investigations as well as reporting procedures have been established to control activities of the CP, USA, the best organized and most dangerous group from security standpoint. These programs and procedures have been effective and broad coverage on continuing basis has been achieved.

REC 33 100-358086-3787

ST-119

NOT RECORDED

CP, USA, continues to be most important threat to internal security of the United States. However, we have recognized emergence and rapid expansion of racially militant and "new left" groups which pose dangers closely paralleling threat of Communist activity in United States. Undoubtedly we will be confronted increasingly with responsibilities for identifying and being fully informed concerning these groups. We must identify leaders and members who represent potential troublemakers, all of which requires substantial increased penetration of these organizations with excellent informants. Recent developments make it vitally important that all current security programs and procedures be carefully analyzed to insure that we are keeping abreast of current social flux in the country and that manpower is diverted for maximum coverage of the most dangerous areas.

INSPECTION FINDINGS:

Inspection Division and New York Office are in agreement that streamlining is possible without reducing Bureau's security effectiveness, thus making available

additional manpower to be diverted to expansion of our coverage of racial and "new left" matters (administrative write-up prepared by New York Office is attached).

Briefly, we must not diminish our current relevant intensive investigative coverage of active Communists or Communist groups but at same time we must give consideration to (1) re-evaluating application of standards for individuals to be placed on or retained on Security Index (SI), (2) alteration of reporting procedures on SI subjects who are inactive and (3) sharply re-evaluating standards for individuals to be included in Reserve Index.

OBSERVATIONS:

Inspection Division agrees with the Domestic Intelligence Division that streamlining suggestions should be considered at this time. The New York Office concurs and suggests possible changes. We must make sure we are in a leadership position to cope with problems created by the "new left" and racial militants. Any altering of Security Index standards would, of course, have to be approved by Department. However, it is our responsibility to recommend any timely changes. Departmental approval would not be necessary for changes in reporting procedures or standards for inclusion on Reserve Index. It is felt Domestic Intelligence Division should secure views of other large field divisions and to thereafter propose any indicated changes for your consideration.

RECOMMENDATION:

That Domestic Intelligence Division be authorized to survey other large field divisions for views as to advisability and feasibility of altering in line with foregoing some current procedures in handling of security investigations.

O.K. but W.C.S. I am not approving any blanket survey. It can be accomplished by correspondence.

SECURITY AND RACIAL MATTERS
DIVISION IV

4F-2, GG

ASSISTANT DIRECTOR W. M. FELT: Since 1939, a large portion of the Bureau's security investigations have been directed toward coverage of the activities of the communist and other such groups which seek to overthrow the government. Many programs, such as identification of members, Security Index, Reserve Index, communist infiltration and front group investigations, etc., and various reporting procedures have been established to control the activities of the CPUSA, the best organized and most dangerous group from a security standpoint. These programs and procedures have been effective and broad coverage on a continuous basis has been achieved.

Today, however, a new type of militant agitator has appeared. Evolving from unsettled racial and social conditions, these militants are inciting riots and preaching and instigating anarchy and revolt. Their ranks include not only members of the racial hate groups but also members of groups supporting "New Left" concepts. These individuals are daily becoming more militant in their efforts to thwart this nation's effectiveness, particularly with relation to the current conflict in Vietnam. Many of these individuals are Chinese communist oriented.

While the CPUSA continues to be the most important single threat to the internal security of the United States, the rapid rise of racial militant and "New Left" groups poses a danger paralleling that of the CPUSA. In light of this, it is vitally important that we carefully analyze and evaluate current programs to insure that we have proper balance in the allotment of manpower and resources to achieve the most efficient coverage in both areas.

In line with the above, you are instructed to carefully analyze all existing programs and procedures that have been established, with the view to suggesting for Bureau consideration altering, streamlining, or even eliminating any such programs or procedures. Particular emphasis should be directed toward the handling and maintenance of Security Index and Reserve Index cases, with a view toward determining whether your over-all total of approximately 5,000 cases can be reduced without material damage to the country's security or the Bureau's security effectiveness, thus making available additional manpower for utilization in connection with racial and "New Left" investigations. With regard to the Security Index, you are reminded that the standards for the Index have been approved by the Department of Justice, and any suggested

change or revision would have to be agreed upon by officials of the Department.

Upon completion of your analysis of these programs and procedures, you should furnish your comments together with your recommendations for future handling of this vital area of the Bureau's responsibilities.

Comments of SAC, Division IV, and ADIC MALONE requested.

SAC HOWELL: (DWH:MEW) 10/27/67

The New York Office has constantly reviewed the various programs in the security field to insure the manpower is adequate and properly assigned. With the climate in America today, particularly in the civil rights and racial fields, the New York Office has given aggressive, investigative attention to infiltrate those groups posing the greatest threat to our national security.

The Inspector's comments and observations are most pertinent, timely and certainly set forth the current situation with which the Bureau is faced in our internal security responsibilities.

The following are the New York Office analysis, observations, and recommendations. These are being set forth, recognizing this is an overall Bureau challenge, and not limited to any one office.

There has been noted an increasing number of groups which have threatened and in instances acted with militant resistance. These groups have been simplified in the popular press as "The New Left" and "Black Power." Both groups seem to involve themselves with hate of duly elected leadership and demonstrate in an anti-government action. Although both groups were originally somewhat integrated, the Negro radicals seem to have moved into a separatist or national camp and are now popularly referred to as the "Black Power" extremists. The remaining group, referred to as the "New Left", is primarily a non-ghetto educated white group. The "New Left" is open to "Black Power" but not vice-versa.

With the conclusion of the October 20-22, 1967, demonstration at The Pentagon, we should alert ourselves to the probability of active resistance from "New Left" forces. From the results observed of destruction in the ghettos during the summer of 1967, we have been alerted to the menace of such "Black Power" groups as SNCC and RAM. They have, in fact, announced their intentions of violence.

Our effective and comprehensive coverage in the communist field has shown that its influence in "Black Power" and "New Left" groups has not been great. Yet there are communist groups in the "New Left" and communists who are "Black Power" advocates. However, we should carefully evaluate our current programs of communist investigations to make certain we have a proper balance to achieve efficient coverage of these new radicals and yet maintain a comprehensive coverage of communist groups.

At the same time, we are also concerned with the counter-radical element on the right. These groups, although less vocal, are equally dangerous, i.e., witness the arms cache of the extreme right wing.

It is felt with streamlining and updating certain of our communist reporting, we will be in a position to redirect personnel to investigation of these new radicals and yet give proper and balanced investigative attention to both. In this regard, it is believed timely to re-examine our current Communist Party reporting procedures to eliminate miscellaneous reporting and concentrate all major activity. Saving time on preparation, without losing effectiveness, should be the goal.

Communist Investigations and Reporting

Our investigation of communist groups is directed to identify individual members, the organization itself, fronts, and groups it influences. In so doing, we report information under the Security Index and Reserve Index A (annually), and Reserve Index B (biennially) program, quarterly reports on the organization, and semi-annual reports on fronts and cominfil cases and key figures.

Security Index

In general under the Security Index program a member of a basic revolutionary organization is placed on the Security Index and an annual report is submitted for as long as membership is continued. For a period of five years after cessation of such membership, the individual is retained on the Security Index and an annual communication is submitted to the Bureau bringing the individual's activities up to date or reporting negative information.

Consideration should be given to the reducing of the five year period for retention on the Security Index after cessation of membership. Consideration should be given to the elimination of annual reports on those Security Index subjects who have reached an advanced age, are inactive, or are physically disabled and are not in a leadership position.

Reserve Index

Basically, those individuals who do not or no longer qualify for the Security Index but have been members of a basic revolutionary organization since 1/1/49, are included on the Reserve Index. We open these cases on an annual or a biennial basis, verifying residence and employment, checking informants and indices review. If there is sufficient subversive data in the file, a communication is submitted to the Bureau.

Since these people have not been active members for a period of time, we should consider either up-dating the period for inclusion on the Reserve Index or consider possible elimination of this program. In either case, we should maintain cards of those individuals who have been on the Reserve Index or Security Index as an investigative aid.

Fronts

We now submit reports on a semi-annual basis concerning the activities of about a hundred communist fronts. Some of these fronts are paper organizations, others somewhat inactive, yet both require attention. Consideration should be given to have SOG or the field, as in the case of Key Figures and Top Functionaries, identify fronts as major or minor fronts. The major fronts would require our present procedures, but minor fronts would require letterhead memoranda on an annual basis.

Cominfil Cases

At present we have a number of cominfil cases on groups whose primary purpose is most legitimate and politically acceptable, i.e., Tenants' Councils. Cominfil cases should be reviewed with the thought in mind that our primary interest is the influence communists have in the organization rather than the infiltration of communists. Also, consideration might be given to emphasizing investigations of influential organizations (i.e. Labor Unions, racial organizations), with less attention to such groups as Tenants' Councils.

Miscellaneous

One type of investigation which we conduct, which at the field level does not seem to be desirable, is the submission of letterhead memoranda on many individuals with subversive backgrounds, and on whom security investigations

have been conducted, who travel abroad. It would seem that our primary interest is in notifying United States agencies of those prominent subversives who will travel abroad (i.e. Key figures and Top functionaries). Of secondary interest are Security Index subjects. Those who qualify for Reserve Index or cannot make Reserve Index are believed of little interest to other agencies.

It would seem that we could well limit our travel letterhead memoranda to the Security Index subjects or consider sending letterhead memoranda only on Key figures or Top functionaries.

Conclusion

We should not diminish our current intensive investigative activities directed at communist members and groups. With certain up-dating and streamlining of our reporting procedures, we should be able to make personnel available for assignments on new radical groups. It is believed this can be done without any damage to the country's security or the Bureau's security effectiveness.

ADIC MALONE: (DWH:MEW) 10/30/67

The New York office will continue to afford close attention to the investigation of the militant racial and "New Left" organizations. I concur in the above observations and recommendations and feel these should be considered based on the overall needs of the Bureau and their adaptability on a Bureau-wide basis.

SUBJECT: DELINQUENCY IN SECURITY AND RACIAL MATTERS INVESTIGATIONS

An analysis of the status in the field of pending active cases and delinquency in espionage, internal security, security matter, foreign intelligence and racial matters (RM) cases in classifications 65, 100, 105, and 157 was conducted for the month of December, 1967.

There was a decrease in pending active matters in classifications 65, 100, and 105 from 23,289 to 22,786, a difference of 503. Delinquent matters increased from 1,407 to 1,584, a difference of 177. The percentage of delinquent matters increased from 6.0 per cent to 7.0 per cent.

Pending active matters in the 157 classification increased from 5,020 to 5,197, a difference of 177. Delinquent matters increased from 265 to 325, a difference of 60. The field-wide delinquency percentage increased from 5.3 per cent to 6.3 per cent.

Letters are being sent to the following offices commenting either on their over-all security delinquency or on their racial matters delinquency. This is indicated by an asterisk.

Office	65	100	105	Over-all Security	157 (RM)
Cleveland	0.0%	14.4%	8.5%	10.8%*	6.5%
Dallas	20.0%+	2.4%	7.0%	5.6%	12.3%*
Detroit	0.0%	9.3%	3.8%	6.5%	10.6%*

REC- 14

Federal Bureau of Investigation
Memphis, Tennessee

Dear

I have received your suggestion that Forms FD-128 and FD-128a be revised to place a particular notation in bold print at the bottom of these items. It is a pleasure for me to advise you a modification of your proposal is being adopted and these words will appear in two locations on the forms.

The interest and initiative which prompted you to bring this matter to my attention are indeed appreciated.

Sincerely yours,

J. Edgar Hoover

Training Division recommends a modification of this proposal be approved. The single designation of "REGISTERED MAIL" on each form is not definite to indicate that original and copies should all be forwarded in this fashion. It is more desirable to place the designation "Registered Mail" by copies to Bureau and in a location to apply to copies being sent to another field office. On approval, this letter will serve as authority for the Forms Management Desk, Training Division, to take appropriate action.

SUGGESTION

It is suggested that Forms 128 and 128a (used in changing Office of Origin in security-type cases) be revised to show "REGISTERED MAIL" in bold black print at the bottom of the forms. (See attached samples).

EXP. PROC.
30 DEC 11 '67

Current practice or rule (Include manual citation as well as facts)

These forms presently reflect the abbreviation "Reg." in initial caps only opposite the space for designation of copies at bottom of form. (MRR, Part II, Sec.4,pg.54,4d)(MRR, Part II, Sec.3, page 3a,e)

Advantages of suggestion and annual savings (include basis for estimate)

The above-listed forms are used exclusively in Index O security-type cases and should in all instances be sent via Registered Mail. In view of the sensitive nature of the Bureau's investigations of individuals considered as security risks and of groups and organizations, the activities of which are considered to be against the best interest of the U. S., it is essential that Bureau correspondence pertaining to such matters be afforded maximum security in transmittal via U. S. Mails. It is felt by use of a bold, darker block type spelling out the words REGISTERED MAIL, the possibility of such correspondence being sent via Regular Mail rather than Registered Mail would be lessened. Also it has been noted in instances where an abbreviation for "REGISTERED MAIL" is set forth

(SEE PAGE 2)

Disadvantages of suggestion

None.

(The use by the United States of my suggestion shall not form the basis of a further claim of any nature by me, my heirs, or assigns upon the United States. I understand that I will be considered for any justified award only if my suggestion is adopted within two years after submission.)

Recommendations and comments of Division Head: Adoption of suggestion would tend to minimize possibility of overlooking "Registered Mail." Recommend suggestion be adopted at time current supplies of forms on hand are expended and new forms are printed.

on correspondence, this most frequently appears as "RM" instead of "Reg."

Forms 122 and 122a (used in connection with Security Index and Reserve Index subjects) presently bear similar mailing instructions pre-printed on the forms, which is most satisfactory.

CUBAN EMERGENCY PLANS
INTERNAL SECURITY - CUBA

The name of [redacted] FBI file number 105-132509, was approved for inclusion in the Security Index by Departmental letter dated March 10, 1965. By letter dated April 13, 1965, you advised that the Immigration and Naturalization Service had been requested to preposition the necessary documents calling for the apprehension of [redacted] a Cuban alien, when so instructed by the Attorney General.

For your information, Special Agents of this Bureau have interviewed [redacted] In recent months he has been cooperating with us in our continuing investigation of Cuban intelligence matters. In view of his cooperation, it is felt that he no longer fits the criteria for retention in the Security Index. His name, therefore, is being removed from the Security Index.

SECURITY INVESTIGATIONS OF INDIVIDUALS

ReBuairtel to Albany, copies to all offices, dated 12/5/67, and reurlet 1/19/68, both captioned "Students for a Democratic Society, IS-SDS."

It is noted that in referenced letter you stipulate that investigation is being conducted on some Students for a Democratic Society (SDS) leaders. However, referenced letter does not indicate a clear understanding by your office with regards to security investigations required of these individuals.

Instructions in referenced airtel specify that where not previously done, investigations are to be promptly started concerning the activities of SDS officers and leading activists. A review of your letter of 1/19/68 reveals a considerable number of individuals in that category. Therefore, in line with current instructions, security investigations of those individuals should be opened unless already done. In each instance a thorough and complete security investigation must be conducted and results submitted in report form under individual case captions as pointed out in referenced Bureau airtel. Accompany each report with your recommendation as to inclusion of the individual's name in the Security Index.

Bring this to the attention of all supervisory and Agent personnel in your Division handling security investigations in order to insure that no misunderstanding exists with regard to their responsibilities in this matter.

SECURITY INVESTIGATIONS OF INDIVIDUALS

ReNYlet dated 1/5/68, captioned "Students for a Democratic Society, IS-SDS."

Referenced letter set out names of some officers of the various Students for a Democratic Society (SDS) chapters within your Division, and indicates that identities of many SDS officers and activists are not known. There is no indication in referenced letter as to the status of security investigations of the individuals named in referenced letter and no statement was made as to your plans to identify the unknown SDS officials and to institute investigations of their activities. You are referred to specific instructions contained in Bureau airtel to Albany, 12/5/67, and in particular to the last paragraph on page three of that airtel wherein it is stipulated, where not previously done, investigations are to be promptly initiated concerning the activities of SDS officers and leading activists. Therefore, if not already done, the requested action must be taken immediately.

In each instance a thorough and complete security investigation must be conducted and results submitted in report form under individual case captions as pointed out in the above airtel of 12/5/67. Accompany each report with your evaluation as to inclusion of the individual's name in the Security Index.

Bring this to the attention of all supervisory and Agent personnel in your Division handling security investigations of individuals in order to insure that no misunderstanding exists with regard to their responsibilities in this matter.

SECURITY INVESTIGATIONS OF INDIVIDUALS

ReBuairtel to Albany, copies to all offices, dated 12/5/67, and your report dated 1/10/68, both captioned "Students For A Democratic Society, IS - SDS."

Report of reference failed to indicate whether your office was opening investigations on those leaders and leading activists in the various SDS chapters in your area.

Airtel of reference specifically instructs that, where not previously done, investigations of the leaders and leading activists are to be initiated promptly. A review of the report of reference reveals a considerable number of individuals in the above categories who are not included in the Security Index. In this connection, your report advised that the SDS chapter in the University of Oregon had a membership of 40; however, the majority of the members therein were not listed. Therefore, unless already done, security investigations should be immediately initiated concerning those individuals in the above categories. A thorough and complete investigation must be conducted in each instance, the results of which should be submitted in report form under the individual case caption along with your recommendation as to the inclusion of the individual's name in the Security Index. In considering these individuals for the Security Index, your attention is directed to page 45, Section 87D, Manual of Instructions, Items C and D.

SUBJECT: SECURITY INDEX STATISTICS

A report of the statistics of the Security Index in the past has been made on a weekly basis and on a summary monthly basis.

These statistics show the specific number of cards added and/or canceled and the net change by total only.

A detailed table by field office is printed on a monthly basis by the Voucher-Statistical Section showing the total number of Security Index subjects by field office.

The statistics for the additions or cancellations of the Security Index are maintained in the Special Investigations Unit of the Internal Security Section and are available forready reference.

The elimination of the preparation of these memoranda will conserve Agent and stenographic time and will streamline our procedures.

ACTION:

Unless advised to the contrary, the procedure of preparing memoranda showing weekly and a monthly summary Security Index count will be discontinued.

SUBJECT: SECURITY INVESTIGATION OF INDIVIDUALS

PURPOSE

To recommend streamlining procedures for handling Reserve Index - A and Reserve Index - B investigations.

SYNOPSIS

Bureau responsibility in this field originated with Presidential Directives, the first one in September, 1939. The purpose of these investigations is to identify potentially dangerous individuals who are affiliated with subversive movements. This is field wide and is closely related to the Emergency Detention Program which involves plans for the apprehension and detention of potentially dangerous individuals in the event of an emergency.

The emergence of the new left and expansion of the racial militant now poses dangers which parallel the threat of communism to the internal security of the United States and we are seeking to streamline our operations to effect the greatest possible use of existing manpower to provide the increased coverage we need of the new left movement and militant racial activity. During the recent New York inspection observations were obtained and we have also secured comments of offices having a significant number of these cases for suggested procedural changes. As a result of the Inspection Division's observations and field office observations, we can streamline our procedures and the following recommendations are being made to do so:

1. The criteria for placing individuals in the Security Index (SI) and the procedures in handling the investigations of these individuals remain the same.

2. The criteria for placing individuals on the Reserve Index - A (RI-A) remain the same. Current procedures for annual reopening and limited investigation in these cases be suspended at this time. The field office file for an RI-A subject should be reviewed by the field whenever informant information or other information is channeled to the file to determine if additional investigation is warranted.

3. The criteria for placing subjects on the Reserve Index - B (RI-B) remain the same. The current procedures for reopening of these cases be suspended at this time. The field office file of an RI-B subject be reviewed by the field whenever informant information or other information is channeled to the file to determine if additional investigation is warranted.

4. Maintenance of the RI-A and RI-B by the field office and the Bureau will remain the same.

OBSERVATIONS

To bring RI-A and RI-B cases up to date by investigation is desirable; however, it is felt that examination of the case file by the field when new information is placed in the file will serve as a backstop to catch those cases which have an accumulation of minor activity indicating that active investigation is required. Coverage of subversive activity through informants or other sources will reveal any activity which will require active investigation. We are streamlining our procedures without sacrificing essential controls. These changes will free manpower to handle investigations of emerging new subversives in the "new left" movement.

RECOMMENDATIONS:

1. That attached SAC Letter incorporating above be approved.

2. That attached manual revisions be approved.

Memorandum C.D.Brennan to W.C.Sullivan
RE: Security Investigation of Individuals

DETAILS

Presidential Directives, the initial one being issued in September, 1939, and since repeated on several occasions, charged the Bureau with the responsibility of investigation of individuals in the internal security field. We are the collecting agency of the entire executive branch for subversive information and have the responsibility of seeing that such information is distributed to those Government agencies having a legitimate interest in these individuals. The purpose of these investigations is to identify those individuals who because of affiliation with subversive organizations may present a potential threat to the internal security of the United States in the event of an emergency and the development of evidence of violation of Federal statutes on part of these individuals. If it is determined that an individual does pose a potential threat to the internal security of the United States, he is scheduled for apprehension under the Emergency Detention Program by the inclusion of his name in the SI. Close attention is given these investigations to insure that we are fully discharging our responsibility.

The emergence of the new left and the expansion of the racial militant now poses dangers which parallel the threat of communism to the internal security of the United States.

This expansion of work has put a serious strain on our manpower. During the recent New York inspection, observations were obtained recommending procedural changes to streamline these investigations. We also secured comments of offices having a significant number of these cases. In line with the field comments and our own experience, we have evaluated the standards for including or deleting individuals on the SI and Reserve Index.

The SI represents those individuals who have been determined through investigation to be dangerous or potentially dangerous because of their membership in or affiliation with or espousal of doctrines of basic revolutionary organizations and/or front organizations who will be apprehended upon receipt of instructions from the Attorney General.

442416

Memorandum C.D.Brennan to W.C.Sullivan
RE: Security Investigation of Individuals

The criteria for placing and retaining names in the SI is governed by the following:

No name shall be added to or retained in the Security Index unless one or more of the following situations have been established through investigation:

(A) Subject has had membership or participation in the activities of a basic revolutionary organization within the last 5 years as shown by overt acts or statements established through reliable sources, informants, or individuals.

(B) Subject has had membership or participation in the affairs of one or more front organizations, which adhere to the policies and doctrines of a revolutionary group, in a leadership capacity or by active substantial participation in the furtherance of the aims or purposes of the front organizations within the last 3 years as shown by overt acts or statements established through reliable sources, informants, or individuals.

(C) Investigation has developed information that an individual, though not a member or a participant in the activities of a subversive organization, has anarchist or revolutionary beliefs and is likely to seize upon the opportunity presented by a national emergency to endanger the public safety as shown by overt acts or statements within the last 3 years established through reliable sources, informants, or individuals.

(D) Although investigation has failed to establish overt acts or statements on the part of a subject within the time limits set out above, facts have been developed which clearly and unmistakably depict the subject as a dangerous individual who could be expected to commit acts inimical to the national defense and public safety of the U. S. in time of emergency.

As of 1/26/68, the Security Index contains 10,109 individuals.

442417

Memorandum C.D.Brennan to W.C.Sullivan
RE: Security Investigation of Individuals

When the field has completed an investigation and the subject's activities meet the criteria for inclusion in the SI, a report and FD-122 are submitted to the Bureau with recommendations for inclusion in the SI. The substantive Supervisor, Unit Supervisor in Charge, Section Chief and Assistant Director of the Domestic Intelligence Division approve the field's recommendation. The employment and residence of SI subjects are verified every six months and an investigative report is submitted annually.

The Reserve Index was established in 1960 to include those individuals whose subversive activities do not bring them within the SI criteria but who in a time of national emergency are in a position to influence others against the national interest or are likely to furnish financial or material aid to subversive elements due to their subversive affiliation and ideology. These individuals are scheduled to receive priority consideration with respect to investigation following the apprehension of SI subjects. The criteria for placing individuals in the Reserve Index is as follows.

Individuals are to be included in the Reserve Index when, following investigation, the information does not justify the inclusion of the subject's name in the Security Index when there is evidence of:

(a) Membership in a basic revolutionary organization subsequent to January 1, 1949, together with some indication of sympathy or association with such an organization or a subversive front organization subsequent to the reported membership and no reliable evidence of defection.

(b) Investigation has failed to substantiate allegations of membership in a revolutionary organization within the past five years, coupled with some evidence or information indicating activity, association, or sympathy for the subversive cause within the same period, and no reliable evidence of defection.

442418

(c) The individual, within the past five years, by his associations, writings, financial support, or conduct in relation to and support of subversive organizations or the international communist movement is in a position to influence others at the time of a national emergency and no reliable evidence of defection.

(d) Leadership or substantial activities in a major subversive front group over three years ago, together with some evidence of continuing activity, association, or sympathy for the subversive cause within three years and no reliable evidence of defection.

(e) Membership in a subversive front organization within the past three years and no reliable evidence of defection.

The Reserve Index is divided into two sections, Section A and Section B. If a subject does not meet the criteria for the SI or is deleted from the SI, he is considered for either section of the Reserve Index. Those individuals who are included in Section A fall within the following categories: professors, teachers and educators, labor union organizers, writers, lawyers, doctors and other potentially influential persons on a local or national level or individuals who could furnish material or financial aid. Current procedures call for investigation of those individuals in the RI-A to be reopened and brought up to date annually and considered for SI status or retention in the RI-A. This investigation is limited to verification of residence and employment, check of informants and file review to determine if additional investigation and/or submission of a report is warranted. Section B contains the names of all other individuals in the Reserve Index and is maintained only by the field office. These cases are reopened every two years. The investigation is limited to verification of residence, employment and contact with logical informants. If the results of the case are negative, the case is then closed.

442419

Memorandum C.D.Brennan to W.C.Sullivan
RE: Security Investigation of Individuals

As of 1/26/68, there were 1,959 individuals in the Reserve Index - A.

In order to streamline our procedures, the following recommendations are being made.

1. The criteria for placing individuals in the Security Index and the procedures in handling the investigations of these individuals remain the same.

2. The criteria for placing individuals on the Reserve Index - A remain the same. Current procedures for annual reopening and limited investigation in these cases be suspended at this time. The field office file for an RI-A subject should be reviewed by the field whenever informant information or other information is channeled to the file to determine if additional investigation is warranted.

3. The criteria for placing subjects on the Reserve Index - B remain the same. The current procedures for reopening of these cases be suspended at this time. The field office file of an RI-B subject be reviewed by the field whenever informant information or other information is channeled to the file to determine if additional investigation is warranted.

4. Maintenance of the RI-A and RI-B by the field office and the Bureau will remain the same.

PROPOSED CHANGES IN MANUAL OF INSTRUCTIONS

Section 87D, 7, a, (3), III, page 42b, currently reads:

III. Periodic review of section A of the reserve index Investigations of individuals listed in section A of the reserve index are to be brought up to date annually and considered for security index status or retention in the reserve index. Form FD-154a may be used for the annual review. This investigation should include, as a minimum:

(A) Verification of residence and employment
(B) Indices search and file review to determine whether additional investigation is warranted or whether an interview with the individual is desirable
(C) If additional investigation is conducted or if there is unreported information of a subversive nature contained in the files, submit a report.

Section 87D, 7, a, (3), III, page 42b, should be amended to read as follows:

III. The field office file of a reserve index A subject should be reviewed whenever informant information or other information is channeled to the file. A determination should be made as to whether additional investigation is warranted and whether current information is sufficient for inclusion in the reserve index.

PROPOSED CHANGES IN MANUAL OF INSTRUCTIONS

Section 87D, 7, a, (3), (b), I and II, page 42c, currently reads:

(b) Section B

I. This section is to contain the names of all other individuals included in the reserve index. This section is to be maintained only in the field office. Cases falling within this category should be thoroughly reviewed and analyzed from an investigative viewpoint at least once every two years on a continuing basis. As a minimum this review should include verification of residence and employment and contact with logical* subjects for interview as means of developing potential sources, informants, and witnesses. Also be alert for recommending individuals for inclusion in section A of the reserve index or the security index if warranted. Form FD-154a may be used for this review.

II. Changes in office of origin are to be handled by submission of form FD-128a. Forward section B cards to new office of origin.

*sources and informants. Be alert to selecting logical

Section 87D, 7, a, (3), (b), I and II, page 42c, should be amended to read as follows:

(b) Section B

I. This section is to contain the names of all other individuals included in the reserve index. This section is to be maintained only in the field office. The file of a reserve index B subject should be reviewed whenever informant information or other information is channeled to the file. A determination should be made at that time as to whether additional investigation is warranted.

SUBJECT: DELINQUENCY IN SECURITY AND RACIAL MATTERS INVESTIGATIONS

An analysis of the status in the field of pending active cases and delinquency in espionage, internal security, security matter, foreign intelligence and racial matters (RM) cases in classifications 65, 100, 105, and 157 was conducted for the month of January, 1968.

There was an increase in pending active matters in classifications 65, 100, and 105 from 22,786 to 23,048, a difference of 262. Delinquent matters decreased from 1,584 to 1,274, a difference of 310. The percentage of delinquent matters decreased from 7.0 per cent to 5.5 per cent.

Pending active matters in the 157 classification increased from 5,197 to 5,450, a difference of 253. Delinquent matters increased from 325 to 349, a difference of 24. The field-wide delinquency percentage increased from 6.3 per cent to 6.4 per cent.

Letters are being sent to the following offices commenting either on their over-all security delinquency or on their racial matters delinquency. This is indicated by an asterisk.

Office	65	100	105	Over-all Security	157 (RM)
Albany	0.0%	13.5%	6.9%	10.4%*	0.0%
Boston	4.5%	6.7%	6.7%	6.6%	15.4%*
Buffalo	0.0%	6.0%	6.5%	6.1%	11.8%*
Charlotte	0.0%	2.0%	8.3%	3.9%	11.8%*
Jacksonville	0.0%	5.6%	16.2%	10.8%*	8.8%
Omaha	0.0%	11.5%	10.8%	10.8%*	0.0%
St. Louis	0.0%	15.4%	9.9%	12.1%*	28.8%*

ACTION: We will continue to follow closely the delinquency in these classifications, and you will be advised accordingly.

(E) SECURITY INVESTIGATION OF INDIVIDUALS -- The emergence of the new left and expansion of the racial militant now pose dangers which parallel the threat of communism to the internal security of the United States.

In order to provide increased coverage of the new left movement and militant racial activity, the handling of investigations of individuals in the Reserve Index - A and Reserve Index - B is being changed as follows:

1. The criteria for placing individuals in the Security Index and the procedures in handling the investigations of these individuals remain the same.

2. The criteria for placing individuals on the Reserve Index - A remain the same. Current procedures for annual reopening and limited investigation in these cases be suspended at this time. The field office file for an RI-A subject should be reviewed by the field whenever informant information or other information is channeled to the file to determine if additional investigation is warranted.

3. The criteria for placing subjects on the Reserve Index - B remain the same. The current procedures for reopening of these cases be suspended at this time. The field office file of an RI-B subject be reviewed by the field whenever informant information or other information is channeled to the file to determine if additional investigation is warranted.

4. Maintenance of the RI-A and RI-B by the field office and the Bureau will remain the same.

Appropriate manual changes will be forwarded.

SUGGESTION

That ~~forms~~ FORM FD-122 and FD-122a be revised (sample attached).

O SECURITY INDEX - GENERAL

Current practice or rule (Include manual citation as well as facts)

FD-122 and FD-122a revised 1/20/67, currently being utilized.

E

FORMS AS REVISED

Advantages of suggestion and annual savings (include basis for estimate) Domestic Intelligence Division has reorganized security matter investigations. Additional tabulations for Security Index are now being used. This revision will eliminate the necessity for extensive manual notations made at the Bureau in preparing the information for the Voucher-Statistical Section in order to place this information in Automatic Data Processing.

It has been determined there are currently on hand 7,400 thin yellow, 3,300 white bond and 3,800 thin white of FD-122 and 1,500 thin blue and 2,600 thin yellow of FD-122a. The value is estimated to be approximately $24.00. In view of savings in clerical time as result of revision, it is believed revision should be effective upon completion of preparation and printing of revised form.

Disadvantages of suggestion

None

(The use by the United States of my suggestion shall not form the basis of a further claim of any nature by me, my heirs, or assigns upon the United States. I understand that I will be considered for any justified award only if my suggestion is adopted within two years after submission.)

Suggestor recommends that forms FD-122 and FD-122a (forms for recommending Security Index inclusion or changes on the Security Index card) be revised to include various organizations so that these organizations can be checked as against making handwritten notations as is the current practice. Additionally the suggestor recommends that, item, Interested Agencies, listed under Key Facility Data be deleted inasmuch as this data is not included on the Security Index card, which is the purpose of the form.

Including the various organizations recommended by the suggestor in the above-mentioned forms will lead to uniformity in the execution of the forms and also a savings of time at the Seat of Government inasmuch as handwritten notations will be replaced by a check off system.

The Domestic Intelligence Division recommends that this suggestion be adopted and that the revision should be effective upon the completion and printing of this revised form if approved.

Attached hereto are the proposed revised forms.

SUBJECT: SECURITY INVESTIGATION OF INDIVIDUALS — General

As you know, the build up of investigations of the New Left and the racial militant is placing a serious strain on our manpower. Accordingly, we are exhaustively and continually examining our procedures and policies to eliminate everything except absolute essentials in our operations. In this connection, we have recently noticed several instances where field offices have not taken into consideration the health and well-being of subjects when submitting recommendations for inclusion and retention in the Security Index.

The field should be reminded that it must take a hard look at Security Index subjects at the time of semiannual verification of residence and employment or at the time of due date for an annual investigative report. Each subject is to be re-evaluated as to his subversive activity, physical well-being and potential dangerousness to determine if retention on the Security Index is justified. This does not mean we are attempting to reduce the total Security Index. We are eliminating those investigations that are not deemed essential to insure that our list of Security Index subjects is most current and meaningful.

(F) SECURITY INDEX CARD TABULATIONS -- For administrative purposes in handling the Security Index, the tabulation of the Security Index by designating organizational affiliation is being revised. In addition to the present abbreviations currently being used, the following should also be utilized:

Students for a Democratic Society	SDS
Spartacist League	SPL
Provisional Organizing Committee for a Marxist-Leninist Communist Party	POC
Workers World Party	WWP
Revolutionary Action Movement	RAM
Student Nonviolent Coordinating Committee	SNC

In those cases involving investigation of the New Left in which there is no designated organizational affiliation, the tabulation should be designated Anarchist (ANA).

In those cases involving investigation of Racial Matters in which there is no designated organizational affiliation, the tabulation should be designated Black Nationalist (BNT).

A supply of revised FD-122 and FD-122a forms will be forwarded to you in the near future.

Appropriate manual changes are being prepared.

For administrative purposes in handling the Security Index, the tabulation of the Security Index by designating organizational affiliation is being revised.

The revised tabulations of the Security Index will be utilized for administrative purposes primarily in connection with the statistics published each month by the Voucher-Statistical Section. This revision is based primarily on the increase in the number of New Left and racially militant subjects being placed on the Security Index. The office submitting new recommendations for inclusion in the Security Index will use the new organizational affiliations which will in turn be placed on the Security Index cards. When the monthly statistical sheet is run off, it will be much more readily understandable and the breakdown of organizational affiliations will also be more readily available.

There are eight new abbreviations being adopted for organizational affiliation. These are: Students for a Democratic Society (SDS), Spartacist League (SPL), Provisional Organizing Committee for a Marxist-Leninist Communist Party (POC), Workers World Party (WWP), Revolutionary Action Movement (RAM), and Student Nonviolent Coordinating Committee (SNC). In addition, the abbreviation ANA (Anarchist) will be utilized where there is no designated organizational affiliation in investigations involving the New Left. In cases involving racial matters with no designated organizational affiliation, the abbreviation BNT (Black Nationalist) will be utilized.

Appropriate letter to all Special Agents in Charge has been prepared as well as proposed changes in the Manual of Instructions concerning these new abbreviations.

SUBJECT: SECURITY INDEX LISTS

Enclosed herewith is one copy each of the following lists for transmittal to the SAC, Quantico, for storage with other vital records maintained by him:

1) Alphabetical list of Security Index (SI) subjects.
2) Geographical list of SI subjects.
3) Special Section of the SI.
4) List of Key Figures and top functionaries.
5) List of SI subjects out of country.
6) List of subjects whose citizenship status is unknown.
7) List of aliens.
8) List of SI subjects of Chinese descent.
9) List of SI subjects sympathetic to Communist China.
10) List of SI subjects sympathetic to Cuba.
11) List of SI subjects sympathetic to Cuba and China.
12) List of SI subjects who are defectors.
13) List of Progressive Labor Party members.
14) List of SI subjects who are Chinese defectors.
15) List of SI subjects who are Cuban defectors.
16) List of missing SI subjects.

The SAC, Quantico, should destroy by burning the lists furnished January 22, 1968. When this action has been taken, he should so note on this memorandum and return it to the Internal Security Section.

ACTION:

If you approve, this memorandum and the attached lists will be forwarded to SAC, Quantico, for the above action.

SECURITY INVESTIGATIONS OF INDIVIDUALS

Reference is made to the report of SA [redacted] dated 1/23/68 at San Diego, the case entitled "Students of the Independent Left (SIL), University of California at San Diego; Internal Security - C."

b6
b7C

Report of reference set forth information regarding the activities of SIL which for the most part were anti-American, pro-Chinese communist, and anarchistic in character.

If not already done, individual case files should be opened on all individuals listed in the report of reference and reports submitted in each case setting forth the individual's activities and/or statements along with your recommendation in each instance with regard to the Security Index (SI) status of the individual involved. With regard to the SI status of each individual involved, you are referred to Manual of Instructions, Section 87D, page 45, Items C and D, which concerns revolutionary and/or anarchistic statements and activities.

JAJ:jes
(6)

NOTE: SIL is an extreme leftist organization at the University of California, SD. Its members sponsored a dance 10/21/67 where the walls were decorated with pictures of Mao, Ho Chi-Minh, and other communist leaders. They have been quite active in demonstrations against selective service and recruiting of students on campus. On 11/8/67 this organization celebrated the Russian Revolution where procommunist literature was made available and the North Vietnam flag was flown.

Dear [redacted]

I have received your suggestion that clerical employees be trained to write annual reports on a selective basis in certain instances. You may be interested to know that similar proposals have been considered in the past and not adopted due to numerous disadvantages which would be involved in such a procedure. Report writing is one of the most exacting duties in the field and it was decided it should remain the responsibility of our agent personnel.

Although favorable action was not taken in this instance, the interest you displayed in submitting your idea to me is indeed appreciated.

a knowledgeable person in a mere minimum amount of time. The facts are all in the file to report. The case could be assigned to an agent who would verify addresses and places of employment. The clerk could review the file and record data from channelizing memoranda and then write the report.

Similar ideas have been considered previously and not adopted. Clerks do not have the necessary education, training, experience, and background knowledge of security matters to enable them to write reports. Suggestion appears to be based on premise that all information to be reported is already in file in form of channelizing memoranda. This is not entirely sound since in many cases information developed by agent's investigation is required to round out report. Information in some memoranda cannot be merely copied when placed in reports. It must be carefully paraphrased in order to protect identity of sources. In addition, separating subversive from nonsubversive information is difficult for experienced agents at times. Information must be analyzed, correlated, and a succinct factual picture presented and this responsibility should not be placed on clerks. Characterizations must be shown in reports and writer of report is responsible to see that these items are up to date. Report writing is a complicated procedure and Training Division recommends current idea not be adopted.

Security Index General

Current practice or rule (Include manual citation as well as facts)

Only Special Agents may write annual reports.

Advantages of suggestion and annual savings (include basis for estimate)

This would free the agents from very time-consuming duties inside the office and place him on the street for active investigation. It would aid the entire organization in line with our present personnel commitment.

Savings is time spent by GS-3 Clerk ($4,566) as opposed to GS-10 ($8,821) agent.

Disadvantages of suggestion

None.

(The use by the United States of my suggestion shall not form the basis of a further claim of any nature by me, my heirs, or assigns upon the United States. I understand that I will be considered for any justified award only if my suggestion is adopted within two years after submission.)

☒ Mr. ☐ Mrs. ☐ Miss [redacted] SA
Suggester

Recommendations and comments of Division Head Suggestion would conserve Agent time, but reports could be written only by specially trained clerks with proper educational background & very extensive experience in Bureau (not by Gs-3s as suggested). Most offices would not have clerks with necessary qualifications. Appears impractical.

SUGGESTION

That a printed form (sample attached) be approved for use in advising a field office that a subject's name should be removed from the Security Index. The form is to be printed on four types of paper: Optional Form 10 (original); thin whites (for copy to field file and ticklers); blocked yellow (100-398030, Emergency Detention Program); and plain yellow (for Bureau file). The form letter will consist of one page.

Current practice or rule (Include manual citation as well as facts)

The above letters to the field are handled by fully typed letter when information is received that a subject should be removed from the Security Index. Gen'l

Advantages of ~~suggestion and annual~~ savings (include basis for estimate)

This is currently handled by fully typed letter in an estimated 50 cases per month. There will be a considerable saving of time in dictating, transcribing and proofreading.

Disadvantages of suggestion

Additions to each specific case will have to be made on copies for the field, yellows, and ticklers.

(The use by the United States of my suggestion shall not form the basis of a further claim of any nature by me, my heirs, or assigns upon the United States. I understand that I will be considered for any justified award only if my suggestion is adopted within two years after submission.)

ADDENDUM: DOMESTIC INTELLIGENCE DIVISION EMJ:sal 2/1/68

Suggestor recommends that a form be approved for use in advising a field office that a subject's name should be removed from the Security Index, pointing out that it will be necessary in each specific case to make additions. The current procedure is to dictate a letter to the field requesting subject's name to be removed from the Security Index. It is estimated that approximately 50 letters of this nature are sent to the field per month.

The use of a form in this instance appears desirable even though additions will have to be made to each form. The suggestion offers a savings of time in dictating, transcribing and proofreading,

The Domestic Intelligence Division recommends this suggestion be adopted and recommends that printed forms (samples attached) be approved.

SUBJECT: DELINQUENCY IN SECURITY AND RACIAL MATTERS INVESTIGATIONS

An analysis of the status in the field of pending active cases and delinquency in espionage, internal security, security matter, foreign intelligence and racial matters (RM) cases in classifications 65, 100, 105, and 157 was conducted for the month of February, 1968.

Pending active matters in combined classifications 65, 100, and 105 increased by 151, as the total increased from 23,048 to 23,199. Delinquent matters decreased by 211, as the total decreased from 1,274 to 1,063. The percentage of delinquent matters decreased from 5.5 per cent to 4.6 per cent.

Pending active matters in the 157 classification increased by 557, as the total increased from 5,450 to 6,007. Delinquent matters decreased by 26, as the total decreased from 349 to 323. The field-wide delinquency percentage decreased from 6.4 per cent to 5.4 per cent.

Letters are being sent to the following offices commenting on their racial matters delinquency. No office reported over-all security delinquency in excess of 9.2%.

Office	65	100	105	Over-all Security	157 (RM)
Columbia	0.0%	6.1%	5.9%	5.8%	13.5%
New Orleans	0.0%	4.7%	3.7%	4.1%	15.0%

ACTION: We will continue to follow closely the delinquency in these classifications, and you will be advised accordingly.

SUBJECT: SECURITY INDEX - GENERAL
SUGGESTION 601-68 SUBMITTED BY
SA PHILIP F. ENLOW
DOMESTIC INTELLIGENCE DIVISION

SUGGESTION: That Form FD-122 (Recommendation for Preparation of, or Change in, Security Index Card) and FD-122a (Recommendation for Preparation of, or Change in, Reserve Index Card) be revised according to the samples attached.

ADVANTAGES: The suggester states the Domestic Intelligence Division has reorganized security matter investigations. Additional tabulations for Security Index are now being used. The proposed revisions will eliminate the necessity for extensive handwritten notations made at the SOG in preparing the information for the Voucher-Statistical Section in order to place this information in Automatic Data Processing equipment. SA Enlow has determined there are currently on hand 7,400 thin yellow, 3,300 white bond and 3,800 thin white of FD-122 and 1,500 thin blue and 2,600 thin yellow of FD-122a. The value is estimated to be approximately $24. In view of savings in clerical time as a result of revisions, it was felt revisions should be effective upon completion of preparation and printing of revised forms.

OBSERVATIONS: Domestic Intelligence Division noted that including the various organizations recommended by the suggester in the above-mentioned forms will lead to uniformity in the execution of the forms and also provide a saving of time at the SOG inasmuch as handwritten notations will be replaced by a check-off system.

Voucher-Statistical Section, Administrative Division, advised the proposed revisions appear to have merit and as far as handling the forms in this section was concerned, there was no objection to the forms being modified as suggested.

REC-15 62-3820

Training Division does not oppose this action since these forms should be revised to implement the SAC Letter dated 2/14/68 which is presently being printed to facilitate handling the administrative procedures attendant with handling the Security Index and Racial Matters. Samples of current FD-122 and FD-122a attached.

Memo Casper to Mohr
Re: SECURITY INDEX - GENERAL
SUGGESTION 601-68 SUBMITTED BY
SA PHILIP F. ENLOW
DOMESTIC INTELLIGENCE DIVISION

RECOMMENDATIONS: (1) That the suggestion be adopted and the attached letter of appreciation forwarded to the suggester. He has been thanked by prior letter.

(2) On approval, this memorandum will serve as authority for the Forms Management Desk, Training Division, to take appropriate action. When the new forms have been prepared, the old forms should be destroyed and the new ones utilized immediately.

ADDENDUM: DOMESTIC INTELLIGENCE DIVISION EMJ:mrr 2-15-68

Suggestor recommends that forms FD-122 and FD-122a (forms for recommending Security Index inclusion or changes on the Security Index card) be revised to include various organizations so that these organizations can be checked as against making handwritten notations as is the current practice. Additionally the suggestor recommends that, item, Interested Agencies, listed under Key Facility Data be deleted inasmuch as this data is not included on the Security Index card, which is the purpose of the form.

Including the various organizations recommended by the suggestor in the above-mentioned forms will lead to uniformity in the execution of the forms and also a savings of time at the Seat of Government inasmuch as handwritten notations will be replaced by a check off system.

The Domestic Intelligence Division recommends that this suggestion be adopted and that the revision should be effective upon the completion and printing of this revised form if approved.

Attached hereto are the proposed revised forms.

Mr. Thomas E. Dolan

Domestic Intelligence Division has advised that the suggested form is not necessary. Form FD-305 (Insert to Cover Memoranda in Security Index Cases Transmitting Reports to the Bureau), which is used in reporting results of evaluation of SI subjects to determine if they do or do not meet criteria for retention on the index, is sufficient and must accompany the quarterly, semiannual, or annual reports (letters or reports may be used in cases of SI subjects other than Top Functionaries or Key Figures). Copy of FD-305 is attached for information. For this reason Training Division recommends no further action on the suggestion.

#109-68

To: Director, FBI	From: (Suggester's name) SAS [redacted] & THOMAS E. DOLAN	Division of Assignment NEW YORK	Date 3/20/68

SUGGESTION

See sample memorandum form attached.

This form could be produced for use in the field with the obvious resulting savings.

Also, consideration could be given to authorizing the blanks to be filled in by longhand and thus an added saving.

Authorization could be granted to each field office to prepare a copy of this form for duplication by the most economical means for their needs.

Expedite consideration should be given this matter since the current program which this is designed for will be completed in about six months.

Current practice or rule (Include manual citation as well as facts) ReBuairtel to Albany dated 2/8/68 and captioned "SECURITY INVESTIGATIONS OF INDIVIDUALS". This communication and oral bureau instructions call for a separate letter, on each subject evaluated, to be submitted to the Bureau.

Advantages of suggestion and annual savings (include basis for estimate)

NY Volume	Estimated number SI subjects 2,700, ½ of which will be open for verification of residence & employment & thus form is applicable.	1,350
NY Cost Saving	Saving of time: agent dictation, steno or typist, mail handling. (Previously published cost of submitting letter to Bureau $1.65 X 1,350)	$2,227.50
Field Saving (Unknown)	Estimated cost of handling in recommended way including memo expense and 1/6 agent time spent.	500.00
	(Saving in New York)	$1,727.50

Disadvantages of suggestion

None

(The use by the United States of my suggestion shall not form the basis of a further claim of any nature by me, my heirs, or assigns upon the United States. I understand that I will be considered for any justified award only if my suggestion is adopted within two years after submission.)

Domestic Intelligence Division has advised that the suggested form is not necessary. Form FD-305 (Insert to Cover Memoranda in Security Index Cases Transmitting Reports to the Bureau), which is used in reporting results of evaluation of SI subjects to determine if they do or do not meet criteria for retention on the index, is sufficient and must accompany the quarterly, semiannual, or annual reports (letters or reports may be used in cases of SI subjects other than Top Functionaries or Key Figures). Copy of FD-305 is attached for information. For this reason Training Division recommends no further action on the suggestion.

SUGGESTION

See sample memorandum form attached.

This form could be produced for use in the field with the obvious resulting savings.

Also, consideration could be given to authorizing the blanks to be filled in by longhand and thus an added saving.

Authorization could be granted to each field office to prepare a copy of this form for duplication by the most economical means for their needs.

Expedite consideration should be given this matter since the current program which this is designed for will be completed in about six months.

SUBJECT: SECURITY INDEX - CUBA
(SEMI-ANNUAL REVIEW AND ANALYSIS)

1. Origin: This program was instituted November, 1960.

Purpose: To keep track of dangerous individuals having pro-Castro sympathies and who are engaged in activities considered inimical to the United States to insure they are neutralized in event of hostilities involving Cuba.

Scope: Program applies to two categories of pro-Castro Security Index subjects against whom appropriate action would be taken in case of emergency.

(A) Cuban Special Section (individuals on Security Index solely based on their pro-Castro activities or sympathies).
(B) Security Index tabbed C for "Pro-Cuban." (Individuals placed on Security Index for other reasons, such as members of Communist Party who, by reason of pro-Castro activities and/or sympathies, are considered dangerous in the event of hostilities with Cuba).

2. Tie-In with Other Programs: Program is coordinated with overall Security Index program. As of 3/15/68, 343 individuals were tabbed "Pro-Cuban;" 241 individuals were included in the "Cuban Special Section," 95 of which were aliens.

Magnitude: In the event of hostilities with Cuba, the Government could immediately proceed to pick up those individuals listed on the Security Index who are Cuban Aliens. We

keep Immigration and Naturalization Service (INS) informed concerning the aliens and the Attorney General is having documents prepositioned against them, which documents would facilitate their arrest by INS should the eventuality arise.

3. Administrative Control: A Bureau Supervisor has direct responsibility for following this matter and assuring field handles program properly. Accordingly, it receives a continuing review.

Adequacy and Currentness of Instructions: SAC Letters 60-54 dated 11/22/60, 62-55 dated 10/5/62, 63-61 dated 12/17/63, and 64-48 dated 9/29/64 furnished the overall instructions regarding program. Specific instructions concerning disaffection of U. S. citizens abroad were set forth in Bureau letter to all offices dated 9/17/64. With regard to Cuba, these instructions relate to individuals who have manifested disaffection from United States since 10/1/60. Instructions are current and complete.

4. Dissemination: Pertinent data regarding Security Index subjects is furnished Secret Service at field and Headquarters level. Dissemination is also made to Department, State, Central Intelligence Agency, and the military intelligence agencies, when it appears that these agencies have an interest. In those cases involving Cuban aliens, dissemination is also made to INS both at field and Headquarters level. Instructions regarding dissemination were furnished field in SAC letters 64-48 (C) dated 9/29/64, 65-10 (G) dated 3/9/65, and 67-18 (G) dated 3/28/67. Instructions with respect to dissemination to Secret Service were reiterated to the New York Office by letter dated 6/7/65, captioned "Nationality Group Coverage, Internal Security - Cuba."

5. Past or Present Weaknesses: Program was instituted in view of possible limited emergency growing out of situation existing between United States and Cuba in 1960. Program serves to more completely discharge our responsibilities in security field as they relate to Cuba and to insure that these responsibilities are continuously being met. No present weakness in the program.

6. Contemplated Action: Program should be continued as now constituted.

ACTION: For information. Program will be analyzed again October, 1968.

SUBJECT: SECURITY INVESTIGATIONS OF INDIVIDUALS

The purpose of this memorandum is to recommend that attached proposed SAC Letter be approved advising the field of its investigative responsibility of keeping abreast of the activities of individuals connected with the new left movement who engage in violence or unlawful acts.

With the emergence of the new left movement, a new subversive force has lifted its ugly head to present us another challenge in the security field. Many of the individuals in this movement are not members of any basic revolutionary organization, as such, but are in themselves violent anarchists. They would be a definite threat to internal security of this country in time of a national emergency.

Attached proposed SAC Letter reminds the field of its continuing responsibility to investigate individuals whose activities threaten the internal security of the U. S., and points out the increased dangers being brought about by the new left. The letter sets additional guidelines for use by the field in initiating investigations of new left individuals and evaluating their Security Index status.

SUBJECT: SECURITY INVESTIGATIONS OF INDIVIDUALS — GENERAL

Violent demonstrations against U. S. policies in the war in Vietnam have recently erupted in London, Paris, Rome and Germany. Information has been received that U. S. citizens, American students and black power advocates, have been active participants in these demonstrations. Previous instructions have been furnished the field and the Legats relative to handling investigations of individuals in the New Left groups who, for the most part, have been active in these demonstrations.

Instructions are being set forth for the Legats to identify the U. S. citizens who are actively engaging in disruptive tactics in foreign countries and to furnish pertinent information to interested field offices. The interested field office will initiate a security matter investigation and determine the potential dangerousness to the U. S. of the subject. Recommendations are to be submitted as to whether or not the activities of the subject warrant inclusion in the Security Index and/or Agitator Index. Accordingly, there is attached an airtel to all offices and Legats furnishing instructions for appropriate handling of these investigations.

SUGGESTION

That a printed form (sample attached) be approved for the field's use in submitting letters in lieu of annual reports in those cases where an individual on the Security Index has had no subversive activity during the past year. The form letter will consist of one page and should be printed on Optional Form No. 10 with a yellow file copy.

Security Investigations Group

Current practice or rule (Include manual citation as well as facts)

The present practice is to submit fully typed letter in cases cited above. (Section 87D, page 74, Manual of Instructions)

Advantages of suggestion and annual savings (include basis for estimate)

It is estimated that the field submits 1,000 letters per year averaging two pages in length. Use of the form will cut this to one page. In addition, all letters will be uniform and the form will insure that all pertinent information is included. This will represent a savings in dictating time, transcribing time, and proofreading. Based on Grade GS-4 for a stenographer and GS-11 for an Agent, it is estimated that approximately $1,200 per year will be saved.

Disadvantages of suggestion

None known.

(The use by the United States of my suggestion shall not form the basis of a further claim of any nature by me, my heirs, or assigns upon the United States. I understand that I will be considered for any justified award only if my suggestion is adopted within two years after submission.)

SEE ADDENDUM OF THE TRAINING DIVISION ON PAGE THREE

ADDENDUM: DOMESTIC INTELLIGENCE DIVISION EMJ:ebb 2/23/68

FORM FD 400

The suggester recommends that a form be prepared (sample attached) for the field's use in submitting letters in lieu of annual reports. Letters in lieu of reports are submitted in those cases where an individual on the Security Index has had no subversive activity during the previous year. The suggester recommends that this form consist of one page printed on Optional Form #10 with a yellow file copy for the field office.

Letters submitted in lieu of annual reports are standard inasmuch as they show verification of residence, employment, and informants and sources contacted. The advantages of utilizing a preprinted form instead of a fully-typed letter are numerous. This form will save Agent time, clerical time, and add the element of uniformity. It will also practically eliminate correspondence to the field often times necessary when the field has left out pertinent requirements in a letter of this nature. There are approximately 10,000 individuals included in the Security Index on which either reports or letters in lieu of reports are submitted on a yearly basis. Although an exact breakdown cannot be furnished, it is estimated that letters in lieu of reports are submitted in about 10 per cent of the cases.

The Domestic Intelligence Division feels that utilization of a preprinted form in place of letters submitted in lieu of reports is highly desirable. It is a time and money-saving suggestion. It is further recommended by the Domestic Intelligence Division that only one copy of this form be sent to the Bureau, inasmuch as these letters require no action other than to review for correctness and accuracy. This would afford additional economy in paper and space. Domestic Intelligence Division recommends that the above suggestion be adopted, and the sample form be prepared and printed.

WCB

ADDENDUM OF THE TRAINING DIVISION, JER:cam, 2/27/68

Training Division has no objection to proposed form in view of the anticipated saving in time it would achieve. Based on the yearly average of 1,000 letters, two pages in length (2,000 pages), it is estimated savings of $1,170 per year will be achieved not including proofreading time eliminated and filing space conserved. The figure is based on the fact that the latest field-wide production average for stenographers was four pages per hour. Since the form would cut the present 2,000 pages to 1,000 pages, on the basis of four pages per hour, 250 hours would be saved. Since the lowest grade stenographer is GS-4 @ $2.40 per hour, this would amount to $600 a year. Added to this would be a saving in dictation time by a GS-11 Agent at $4.64 per hour (it is felt that few GS-10 Agents would be handling Security Index subjects) of half the approximate 15 minutes it now takes to dictate a two-page letter. This would be about 7,500 minutes or 125 hours times $4.64, or $570. Total estimated savings are, therefore, $1,170. From this figure the cost of the new form, about $20, must be deducted for a net yearly saving of $1,150. For this saving suggester could be granted an incentive award of $60 which is in line with the accepted scale for such awards.

RECOMMENDATIONS: (1) That the suggestion be adopted and Mr. Wells be granted an incentive award of $60 to be handled by the Commendation, Supervisory Approval, and Special Action Unit, Administrative Division, in lieu of other acknowledgment.

(2) On approval this addendum will authorize Forms Management Desk to take necessary action with respect to the form and Domestic Intelligence Division to issue necessary instructions. Manuals Desk also.

SUBJECT: SECURITY INDEX - CENTRAL

We forward to the field quarterly an alphabetical list of each office's Security Index in order that the Security Index cards maintained in the field may be checked and reconciled with Bureau records.

There is attached a proposed letter to all field offices containing appropriate instructions regarding the handling of the list.

RECOMMENDATION:

There is attached for approval the yellow file copy and letter to SAC, Albany, with copies to all offices. After approval, the attached should be returned to Supervisor Philip F. Enlow, Room 918 Federal Triangle Building, for preparation and distribution to the field.

SECURITY INVESTIGATIONS OF INDIVIDUALS

Reurlet 4/17/68.

The proposals set forth in relet regarding the submission of information concerning American citizens engaged in antiwar activities abroad have been carefully considered.

It is essential that information developed regarding anti-U. S. activities of U. S. citizens abroad be promptly furnished to the Bureau in form suitable for dissemination to the State Department and other interested agencies. You should, therefore, continue to comply with instructions contained in Bulet dated 3/28/68 captioned as above.

In this connection, it is noted that in all instances birth dates and other descriptive data must be obtained in order that a search of passport records and Bufiles be made. In many instances in the past, information transmitted to the Bureau by Legat, London, has not been sufficient to enable the Bureau to conduct necessary indices and passport checks. Information regarding individuals is frequently received from your office in the form of news clippings transmitted by routing slip without any indication regarding action taken or recommended. This is an undesirable practice which should be discontinued.

Legat, London, advised this would unduly burden the Legat and suggested that names and identifying data be submitted to the Bureau for transmittal to office of origin which would prepare LHM for dissemination. This would result in delay in dissemination. Legat, London, therefore, being instructed to comply with previous Bureau instructions.

SUBJECT: CRIMDEL

Re San Francisco letter, dated 4/8/68.

A NEW SUMMER IN SAN FRANCISCO

Sources within the "Haight-Ashbury Hippie" community in San Francisco disclosed that the lonely, rootless, and disillusioned hippies who have discarded the "love ethic as not practical" now look forward to the summer and the expected arrival of thousands of new "runaways" and other teenagers.

They feel that these expected new arrivals will be potential purchasers for the large amounts of marijuana, LSD, and other hallucinogens so readily available in the Haight-Ashbury as well as recruits for their amorphous and anarchistic philosophy.

The entire area has changed since large numbers of the original hippies have moved to rural areas to avoid the drug peddlers. The "new left" and the disillusioned feel they have little voice in their future, willingly join any protest organized by "new left " groups in the belief that the war and the draft are convenient things to blame for their lack of money, lack of friends, and the fact that most are without skills or initiative.

There is also reported a new and vague militancy displayed by the protests against the establishment and advacacy of anarchy exhibited at recent "happenings." Some have indicated that should there be any racial disturbances "they are going to be in it."

SAN FRANCISCO'S CASBAH

The Haight-Ashbury area has also become a Casbah as subversives and criminals can find refuge, food, entertainment, and relative freedom in wandering throughout the area where felonies such as smoking marijuana in the open are a common occurence and nudes wander through a populated area without any unusual attention.

The community has no stability, investigators with 20 years of law enforcement work are amazed at human beings living in such conditions and have found conditions similar to that reported by the U.S. Public Health Service in a survey conducted in the area.

50 percent of their subjects averaged 21.4 years, (taking into account that many males exceed this average), moved once a week or oftener, 21 percent had no place to sleep on the evening preceding the interview; only 47 percent had a friend on whom they thought they could rely in San Francisco; 53 percent lived on less than $20 a week; 31 percent lived on less than $10.

While this presents police and investigative problems among this concentration of "drop outs" from society and drug users they also at times display a phenomenon as in official investigation .
recently, one hippie gave detailed accurate and explicit details to the FBI as to how a fugitive could be located and then refused to furnish his identity by stating that he wished no record made of his cooperation with "Agents of the establishment."

SF 94-872
JFS:lwq

The attached pictures were taken on a recent Sunday in the vicinity of the Haight-Ashbury area in San Francisco. The crowds are a problem to control, the nudes are common, the marijuana is apparent from the manner in which the cigarettes are burning. The age of the members of the "psychedelic community" is lower than last year and can be judged from the accompanying photographs.

On April 18, 1968, a hippie stripped off all his clothes on the steps of San Francisco City Hall to publicize himself as a man of nature and caused a group of nuns attending an educational conference to flee in understandable distress.

This hippie, age 17, a high school drop out, came to San Francisco 7 months ago and, after stripping, walked 13 blocks before being arrested. It was noted that he waited for traffic signals during his 13 blocks of total exposure.

(D) INTERVIEWS IN RACIAL AND SECURITY MATTERS -- As you are aware, virtually every report and letterhead memorandum is disseminated at the Seat of Government to agencies and officials of the Government, often at the very highest level. Any vagueness or inadequacies in interviews or the reporting of such, places the Bureau in a poor light and on occasion necessitates needless delay in dissemination while additional or clarifying information is obtained from the field.

A review of recent security and racial-type communications submitted by the field has revealed what appears to be carelessness in reporting and a lack of thoroughness in the conducting of interviews during the course of your investigations. The principal weaknesses noted are as follows:

Failure to fully cover the principal allegations involved and to conduct an in-depth interview.

Failure to clearly show that the source was or was not reporting from first-hand knowledge.

Failure to adequately describe the source's reliability and capacity to have the information furnished.

Failure to show, where pertinent, that the source did not have additional relevant information.

Failure to include additional investigation resolving the allegations or failure to set forth appropriate leads on the cover pages indicating that allegations and leads will be resolved.

It is imperative that thorough, penetrative interviews be conducted and that the reporting thereof is complete, accurate, and concise in all respects. I will not tolerate a lack of thoroughness in interviews, carelessness in reporting, or the failure to detect these errors by field supervisors. You are instructed to follow this matter closely and periodically bring it to the attention of all investigative and supervisory personnel.

SUBJECT: MAINTENANCE OF CANCELLED SECURITY INDEX CARDS AT QUANTICO

Under GENERAL Vital Records Program a duplicate set of the master Security Index cards is maintained at the Quantico relocation site. Additions, cancellations and changes of the Security Index are made on a continuing basis to keep the Index in a current status. Under our current procedures, when a Security Index card is changed, the old card is then destroyed; when an individual is removed from the Security Index, the card is cancelled and is retained at the Bureau for a period of 3 years filed alphabetically by year. The cards at Quantico have been maintained on an indefinite basis. We now have 25,000 cancelled Security Index cards stored at Quantico. These cards are retained to serve as a ready list of individuals who do not meet the criteria for the Security Index at this time; however, because of previous activities, they could represent a potential danger to the internal security of the U. S. in time of an emergency.

In line with our continuing analysis to streamline our procedures, it is recommended that the cancelled Security Index cards over 5 years old maintained at Quantico be destroyed and hereafter be maintained for the period of 5 years filed alphabetically by year.

OBSERVATIONS:

The destruction of these cancelled cards will release 4 file drawers of vitally needed storage space. During this 5-year period if a subject's activities would warrant, he would be placed back on the Security Index or Reserve Index. It is believed that this period of time is sufficient to determine if an individual's activities would warrant reconsideration for inclusion on the Security Index. This will serve as a backup for a ready list of individuals who could be potentially dangerous in time of emergency.

100-358086

RECOMMENDATIONS:

NOT RECORDED

1) That the cancelled Security Index cards over 5 years old maintained at Quantico be destroyed and hereafter be maintained for a period of 5 years filed alphabetically by year.

2) If approved, this memorandum be forwarded to SAC, Quantico for appropriate handling.

SUBJECT: DELINQUENCY IN SECURITY AND RACIAL MATTERS INVESTIGATIONS

An analysis of the status in the field of pending active cases and delinquency in espionage, internal security, security matter, foreign intelligence and racial matters (RM) cases in classifications 65, 100, 105, and 157 was conducted for the month of April, 1968.

Pending active matters in combined classifications 65, 100, and 105 decreased by 69, as the total decreased from 23,133 to 23,064. Delinquent matters increased by 211, as the total increased from 1,376 to 1,587. The percentage of delinquent matters increased from 5.9 per cent to 6.9 per cent.

Pending active matters in the 157 classification increased by 869, as the total increased from 6,582 to 7,451. Delinquent matters increased by 177, as the total increased from 328 to 505. The field-wide delinquency percentage increased from 5.0 per cent to 6.8 per cent.

(A) DETPRO - SECURITY INVESTIGATIONS OF INDIVIDUALS -- The primary purpose of the investigation of subversive individuals is to determine their identities, activities, and/or whether they present a serious threat to the internal security of the country. If investigation develops positive evidence indicating that an individual presents a threat or potential threat to the internal security, his name is included in the Security Index. The Security Index contains names of individuals who are considered for immediate apprehension and detention in the event of a national emergency, in order to safeguard the internal security of the United States. The list now consists of over 10,000 names. Effective immediately, the following Priority Apprehension Program and report writing procedures will be instituted:

1. The Priority Apprehension Program is being divided into three Priority levels.

   a. Priority I. This list will consist of hard core national and state basic revolutionary organization leaders and those leaders of other subversive organizations and unorganized groups and individuals who have indicated a propensity for violence and/or have received special training in sabotage, espionage, and/or guerrilla warfare. Individuals employed in or having access to key and/or defense facilities will be included on this list. Verification of residence and employment of each individual will be made every three months. A report will be submitted every six months.

   b. Priority II. This list will consist of second level leadership of basic revolutionary organizations and other subversive organizations and individuals who present a significant threat but are in less influential positions than those in Priority I. Verification of residence and employment of each individual will be made every six months. A report will be submitted on an annual basis.

c. Priority III. This list will consist of all other individuals on the Security Index. Verification of residence and employment of each individual will be made every six months. A report will be submitted every two years.

d. Each Priority List will be broken down into nationalistic tendencies and/or organizational affiliations so that apprehensions can be made in each category on a selected basis.

e. Individuals in each Priority will be apprehended only upon the Attorney General's authorization that their immobilization is in the best interests of the national defense of the United States.

2. The category "Key Figure" is being deleted. Consideration should be given to placing these individuals in Priority I.

3. The category "Top Functionary" is being continued, and these individuals should be placed in Priority I.

4. Each office should immediately review its Security Index and by letter under above caption advise by name, Bureau file number, and organizational affiliation those individuals who are to be included in Priority I and Priority II. This should reach the Bureau by July 5, 1968. The Chicago, Los Angeles, New York, and San Francisco Offices may submit their letters to reach the Bureau by July 15, 1968. Hereafter, when recommending an individual for the Security Index, the FD-122 should indicate the Priority.

Appropriate manual changes will be forwarded.

Dear [redacted]

I have received your suggestion that Forms FD-122 and FD-128 be revised to include space for certain information and that file covers on such cases contain the priority numbers. You may be interested to know that several changes were being prepared regarding this matter when your proposal was received and spaces will be provided on these items for the numbers involved. It has been decided the other action mentioned by you is not warranted at this time.

The interest and initiative which prompted you to give me the benefit of your observations on this subject are indeed appreciated.

Sincerely yours,

NOTE: Suggests since the Security Index (SI) is now being set up on a priority system that Forms FD-122 (Recommendation for Preparation of, or Change in, Security Index Card) and FD-128 (Letter Changing Office of Origin in Security Cases) (samples attached) be revised to provide space for inserting priority of subject of case. Further, suggests space be provided on these forms, to be used only if subject falls in priority I or II, in which to explain reason for being placed in either of these priorities. Also, suggests file covers on SI subjects have added under the letters SI the priority number.

Domestic Intelligence Division has advised that several changes are being made regarding the handling of security investigations of individuals including revision of the forms mentioned to provide spaces for entering the priority number. Another change will be in the colors used for the Security Index Card, a different one for each priority, so no need will exist to place priority on file covers. Reason for being placed in a particular priority should be contained in a succinct summary on second page of communication recommending subject be placed on SI. FD-128 does not need to have reason thereon. Due to these views, Training Division recommends no further action regarding this idea.

SUGGESTION

It is suggested that with the Security Index now being set up on a Priority system that the security forms FD-122 and FD-128 be revised to provide a space for inserting the Priority of the subject of the case. It is further suggested that a space be provided on these forms, to be used only if the subject falls in Priority I or II, in which to explain the reason for being placed in either of these Priorities.

It is also suggested that the file covers on Security Index subjects have added under the letters SI the Priority number.

Current practice or rule (Include manual citation as well as facts)

Priority designation does not appear on file covers or FD-122 or FD-128.

Recording the Priority number on the form FD-122 will make a permanent record in the subject file as to the subject's Priority without the necessity of preparing a separate memorandum but yet make a uniform reporting system. The Priority space and the space explaining the reason for the subject being placed in a specific Priority would be completed on form FD-122 only in cases of recommending a subject for the Security Index or when the Priority was being changed in a case. This would assist the Bureau in keeping all field offices uniform in placing subjects in the various priorities. It would also greatly assist all field offices in the handling of Security Index cases where such cases are re-assigned from time to time and it becomes necessary for an Agent, new to the case, to know what Priority the subject is in and why the subject was given this Priority if in Priority I or II.

In the years to come, this would greatly facilitate an extensive file review since the Agent would know that the Priority rating and the reason therefore would be on the FD-122 or the FD-128.

With respect to the annual savings that could be expected, a given sum would be difficult to estimate. It should be noted, however, that countless hours of file review in cases of extremely active subjects would be saved.

PROPOSED CHANGE IN
MANUAL OF INSTRUCTIONS

Section 87D, 7b, (6), (a), page 50, should be amended to read as follows:

(a) At Bureau
The entire security index is maintained at the Bureau through the utilization of IBM tabulating cards. The 5- by 8-inch security index cards are printed by Automatic Data Processing and transmitted to the field. Through the use of this device, the security index can be broken down into the various categories of information appearing on the security index cards when such breakdowns become necessary for administrative purposes at the Bureau. This procedure makes it possible to maintain the content of the security index in the field and at the Bureau in an identical condition at all times.

An alphabetical breakdown of the true names and all aliases of security index subjects is also maintained at the Bureau for administrative purposes.

SUGGESTION

Inasmuch as the status of security index subjects has been expanded to Priority I, II, and III it is suggested this information be added to the bottom of FD305. It is further suggested each priority be given a box for checking to indicate subject's status.

Current practice or rule (Include manual citation as well as facts)

NONE

Advantages of suggestion and annual savings (include basis for estimate)

The status of each security index subject would be readily apparent and would relieve dictating and typing the subject's status on the administrative page. Savings would be minimal.

PROPOSED CHANGE IN
MANUAL OF INSTRUCTIONS

Section 87D, 8a, (9), paragraph 2, page 81, should be amended to read as follows:

Under the terms of the agreement, it is essential to advise Secret Service of the reason or reasons for referral - statement of the class or classes in appendix B of the agreement which the individual referred fits. For this purpose utilize form FD-376, which is designed to serve as a letter of transmittal for both local dissemination and dissemination at the SOG. The original and one copy of this form should be forwarded to the Bureau. A copy is to be maintained in the main case file and upon transferral of office of origin in any case, the new office of origin is to be furnished a copy. Careful consideration must be given to insure that the individual is properly categorized. In the case of a subject being recommended for the security index, withhold dissemination pending Bureau approval of his security index status only in those cases in which the subject is categorized as falling within Category 3 of the "Agreement between the Federal Bureau of Investigation and the Secret Service Concerning Presidential Protection." Forward FD-376 as in any other case. Prompt dissemination should be made of information developed regarding individuals falling within other than Category 3.

(A) Cases of all other security index subjects must be followed by administrative ticklers set up so as to insure submission of a periodic investigative report according to priority designation. If, following investigation, no subversive data is developed and the only available information consists of verification of residence and employment and negative contacts with security informants and sources, submit in lieu of a report a letter to Bureau setting forth identities of informants and sources contacted, any additional administrative data deemed necessary, and form FD-305 properly executed. The cases shall be opened and assigned 45 days prior to the date the periodic report is due. Such cases shall also be opened and assigned six months after submission of the annual report to accomplish verification of addresses and further verification must be handled in accordance with 87D 7b (7) (b). Upon such verification, the cases should be closed administratively.

PROPOSED CHANGE IN
MANUAL OF INSTRUCTIONS

Section 105, L6, a, paragraphs 2 and 3, page 39, should be amended to read as follows:

All offices are to submit by cover letter revision and addition pages (original and six copies) on February 1 and on August 1 each year. If no revision or addition pages are forthcoming and there are no changes in a listed individual's security index or priority status, the Bureau should be so advised by routing slip. Do not submit a revision page just to indicate a change in security index or priority status of an individual, but advise the Bureau of this change by letter.

Information concerning changes in a listed individual's security index or priority status, and any deletions from the list, should be submitted by letter and when such a letter is prepared also include a statement as to the total number of security index subjects in part I and part II. Under a heading of "Deletions," if there are any, set out data re individual's name, Bufile, and office file; and set forth the reason for the deletion, such as individual moved to new locale, died, or is no longer considered to fall within the scope of the program.

Dear [redacted]

Thank you very much for the suggestion that three particular forms be combined into one when our present supply is exhausted. As a matter of possible interest to you, these items were designed for specific purposes and it was decided any attempt to place all the necessary information on one format would cause confusion.

I appreciate the thoughtfulness which prompted you to give me the benefit of your observations on this subject.

Sincerely yours,

SUGGESTION

It is suggested that when current supply of FD-122, FD-122 a and FD-397 is exhausted, these three forms be consolidated into one printed form. (Ten copies of proposed form attached).

FORMS

SECURITY INDEX

EXPEDITE
38 AUG 27 1968

Current practice or rule (Include manual citation as well as facts)

Current practice calls for separate forms in Agitator Index (racial matter) and Security Index and Reserve Index (security matters), and manual provisions regarding submission of each are identical.

Advantages of suggestion and annual savings (Include basis for estimate)

Consolidation of three forms into one printed form would reduce inventory of forms necessary to include subjects on each above-mentioned index; and, where subject's activities warrant inclusion on both Security and Agitator Index, submission of a form with justification for both Indexes would eliminate an entire agent, stenographic, clerical and SOG supervisory operation.

Disadvantages of suggestion

None. Involves only minor typographical change in format to be used for next printing when current supplies exhausted.

(The use by the United States of my suggestion shall not form the basis of a further claim of any nature by me, my heirs, or assigns upon the United States. I understand that I will be considered for any justified award only if my suggestion is adopted within two years after submission.)

Domestic Intelligence Division opposes adoption. It is more practical to have separate forms for these three programs. By having them combined into one format, additional work would be involved on part of Agents handling these matters on part-time basis in determining which items are needed for particular program he is working with at the time. Each form was designed for a specific purpose and combining them would result in confusion on part of field. These forms are prepared separately and maintained separately and would not be feasible to handle as one format. Training Division agrees and recommends idea not be approved. u

SUBJECT: SECURITY INDEX LISTS

GENL.

Enclosed herewith is one copy each of the following lists for transmittal to the SAC, Quantico, for storage with other vital records maintained by him:

1) Alphabetical list of Security Index (SI) subjects.
2) Geographical list of SI subjects.
3) Special Section of the SI.
4) List of Key Figures and top functionaries.
5) List of SI subjects out of country.
6) List of subjects whose citizenship status is unknown.
7) List of aliens.
8) List of SI subjects of Chinese descent.
9) List of SI subjects sympathetic to Communist China.
10) List of SI subjects sympathetic to Cuba.
11) List of SI subjects sympathetic to Cuba and China.
12) List of SI subjects who are defectors.
13) List of Progressive Labor Party members.
14) List of SI subjects who are Chinese defectors.
15) List of SI subjects who are Cuban defectors.

The SAC, Quantico, should destroy by burning the lists furnished July 22, 1968. When this action has been taken, he should so note on this memorandum and return it to the Internal Security Section.

ACTION:

If you approve, this memorandum and the attached lists will be forwarded to SAC, Quantico, for the above action.

Employee Suggestion
(See 252 (Rev. 9-11-59))

#142-69

Date: 9/5/68

To: Director, FBI

From: (Suggester's name)

Division of Assignment: ~~FIELD~~ MILWAUKEE

SUGGESTION It is suggested that a modified version of FD-154 (Verification of Information on Security Index Cards) form be made for handling of Verification of Information on Agitator Index Cards. Original and nine copies of suggested are attached.

O Security Index - General

EXP. PROC.
34 32 SEP 6 1968

Current practice or rule (Include manual citation as well as facts) Manual of Instructions, IV-122 p.18 Each three months the office of origin is to verify the residence and employment (of each of the individuals included in its agitator index) and review its files for pertinent, unreported information. (See page 2)

Advantages of suggestion and annual savings (include basis for estimate).

Advantages to the suggestion would be that this form would contain information re residence and employment from subject's Agitator Index Card, and verification of same could be indicated thereon. It would also indicate if FD-397 should be submitted to Bureau and/or if letterhead memorandum should be submitted to the Bureau and Secret Service in the event of any change in information contained thereon. Form could also be used as basis for reopening file for each three month verification.

Disadvantages of suggestion

LIAISON WITH PASSPORT OFFICE
DEPARTMENT OF STATE

We make available to Mr. Robert Johnson, General Counsel of the Passport Office, Department of State, a list of our top functionaries and key figures on a quarterly basis for his utilization in the issuance of passports.

By memorandum A. H. Belmont to Mr. Ladd dated December 8, 1950, captioned "State Department Request for a List of Known Communists from the Bureau," it was recommended and approved by the Director that a list of top functionaries and key figures be furnished to the Passport Division, Department of State, as a check list against issuing U. S. passports. This list is prepared by the Automatic Data Processing Unit of the Administrative Division and has been very useful as the Department of State alerts the Bureau to contemplated travel abroad by subversives.

ACTION

1) There is enclosed a list of top functionaries and key figures prepared as of August 15, 1968. This list should be furnished Mr. Johnson by liaison with the understanding that it is to be held in the strictest confidence by him at all times in his office safe and is to serve only as an alert list upon which State can take no action but must contact us for reports.

2) That the prior list furnished Mr. Johnson be retrieved and returned to Mr. Rosack for destruction.

Dear [redacted]

I have received your suggestion that a form which you devised be approved for use on a field-wide basis in connection with a particular program. As a matter of interest to you, a form for the same purpose is now in preparation as the result of an earlier idea.

Although prior action had been taken in this regard, the initiative you displayed in giving me the benefit of your thoughts on this subject is indeed appreciated.

Sincerely yours,
J. Edgar Hoover

CHINESE EMERGENCY PLANS
INTERNAL SECURITY - CHINA

Reference is made to the report of Special Agent [redacted] dated September 5, 1968, at San Francisco, California, regarding [redacted]

[redacted] name has been included in the Security Index since 1950 as a United States citizen. His name was approved for retention in the Security Index by the Internal Security Division of the Department of Justice on March 20, 1961.

As indicated in the referenced report, investigation has revealed [redacted] alleged father was not a United States citizen and as a result [redacted] is considered an alien illegally in the United States. In view of this recent development, you may desire to arrange for a warrant to be issued for subject's arrest by the Immigration and Naturalization Service in the event of a national emergency involving the United States and Communist China.

It is requested you advise us of your decision in this matter.

(F) SECURITY INVESTIGATIONS OF INDIVIDUALS -- Effective immediately, revised Security Index criteria are as follows: (Underscoring indicates new or changed wording.)

(A) Subject has had membership in, or participation in the activities of, a basic revolutionary organization within the last 5 years as shown by overt acts or statements established through reliable sources, informants, or individuals.

(B) Subject has had membership in, or participation in the affairs of, one or more front organizations which adhere to the policies and doctrines of a basic revolutionary organization, in a leadership capacity or by active substantial participation in the furtherance of those aims and purposes of the front organization which coincide with those of a basic revolutionary organization, within the last three years as shown by overt acts or statements established through reliable sources, informants, or individuals.

(C) Investigation has developed information that an individual, though not a member of or a participant in the activities of a basic revolutionary or front organization, has anarchist or revolutionary beliefs and is likely to seize upon the opportunity presented by a national emergency to commit acts of espionage or sabotage, including acts of terrorism, assassination or any interference with or threat to the survival and effective operation of the national, state and local governments and of the defense effort.

(D) Although investigation has failed to establish the facts required by (A), (B) or (C) above, either as to the substance of those criteria or because there have been no overt acts or statements within the time limits prescribed, facts have been developed which clearly and unmistakably depict the subject as a dangerous individual who could be expected to commit acts of the kind described in (C) above.

With the increasingly greater number of individuals active in the New Left and other protest groups, our investigations must be thorough, penetrating and complete. We must develop and report not only membership, leadership and activity in New Left or dissident organizations, but also whether the individual has engaged in or professed violence or other unlawful methods to gain his objectives. An individual's propensity for violence must be determined.

Your investigation must clearly show that individuals recommended for inclusion on the Security Index come within the required criteria, are fully justified, and retention of such individuals on the Security Index could withstand judicial inquiry.

ReBulet to Paris 9/10/68 copy furnished your office and reurlet 10/2/68.

Bureau understands Legat, London's, current problem in obtaining security information from Swedish sources. Wherever possible, however, you should endeavor to obtain information which indicates U.S. citizens are involved in activities abroad detrimental to U.S. interests as referred to in reBulet. When such information is received, it should be furnished to the Bureau under appropriate caption in line with instructions previously furnished to you by Bulet to all Legats 4/2/68 in captioned matter, Bureau airtel to all offices and all Legats 3/28/68 and Bulet 5/6/68 to Legat, London, both captioned "Security Investigations of Individuals." As indicated in Bureau airtel 3/28/68 and Bulet 4/2/68 where there is U.S. involvement in such activities, the Bureau feels your sources should be alerted to our interest in these activities. Where your sources report U.S. involvement, the Bureau will endeavor to obtain background data concerning a particular organization, where Legat, London's, sources are unavailable, from local U.S. sources as suggested in Legat, London's, relet.

RE: DEMONSTRATIONS PROTESTING U.S.
INTERVENTION IN VIETNAM
105-138315

NOTE:

ReBulet 9/10/68 requested Legats, Paris, and London, to obtain information regarding organizations, in which U.S. citizens are participating, engaged in rendering assistance to U.S. military deserters in Europe. Several of these organizations were located in Sweden. It is believed that background of such organizations with any communist connections are important to our determining significance of U.S. citizens' involvement in activities of the organizations. Legat, London, has advised he cannot levy any requirments on his Swedish sources, in view of the attitude of Swedish Government, for information desired and recommended that such information was probably available to other U.S. Government agencies which could be obtained in the U.S. In view of Legat, London's, observations, where he is unable to obtain such data, we should endeavor to obtain the information through State, CIA or the military.

ReBulet to Paris 9/10/68, cc's London, enclosing copy of Department of the Army undated memorandum and its attachment, a 35-page message from U.S. Army, Europe, which pertains to "Assistance Provided AWOL U.S. Servicemen by Anti-Vietnam War Elements in Europe." U

Relet requests me to ascertain considerable information re three organizations in Sweden; also, on any other similar type organization determined to handle in a like fashion. U

Regarding organizations of this type in the Scandinavian Countries, particularly Sweden, observations and recommendations are as follows: U

Observations:

Since deserters first started to seek asylum in Sweden, considerable information has been obtained in the form of communications from American Embassy, Stockholm; public source material and translation of Swedish newspapers obtained from the Embassy. Cases recalled are: U

re individuals and groups in Sweden and Denmark. Also see Lonairtel 11/13/67 re [redacted] setting forth my views concerning the handling of matters of this type with Swedish sources. The views set forth are still valid. U

[redacted] DESERTER. See Lonlet 5/27/68 and OSI "Case History" 5/16/68 which is a debrief of [redacted] after his return from Sweden. The Bureau has this booklet which contains a tremendous amount of information re [redacted] the ADC, [redacted] of the Front for National Liberation (FNL), other deserters in Sweden considered ipso facto members of ADC, The Swedish Vietnam Committee and examples of propaganda material [redacted] brought out of Sweden. U

Dept. of the Army Report re [redacted] forwarded to me by Bureau routing slip 9/9/68 with character "SM - MINUTEMEN" is a debrief of [redacted] This debrief contains information re [redacted] THE ADC, the Student Demonstration Society (SDS) in Germany, other persons in ADC and the Swedish Group to Protest the Vietnam War. U

Friends of Resisters Inside the Army, IS-VIETNAM (No Bureau file) is replete with information furnished by European Legats concerning organizations, addresses, individuals, etc. U

The foregoing are but a few examples and I feel there are other Bureau files, particularly in the 42 classification, of deserters who have returned to Military control and been debriefed. U

Additionally, I know that the Military Services have put out Special Counterintelligence Requirements to their respective Commands instructing that reports be submitted on anti-Vietnam and Deserter Assistance-type organizations. Additionally, Military Attaches, Political Officers and [redacted] report on them. U

The best possible source for the type information desired is, of course, from deserters who have utilized or been members of the organizations, who have returned to military control and given a cooperative debrief. I send copies of telegrapms to the Deserter Desk from American Embassy, Stockholm to Department of State on deserters returning and it appears there is one every week or so. U

On matters of this nature I cannot levy any requirements on Swedish sources for the reasons stated in my letter of 2/16/68 "Liaison - Sweden, London Office", a copy of which is enclosed. The reasons set forth are more valid today as the Social Democrats won the election in September and remain in power. Consequently, I would have to levy the requirement on Americans at the Embassy who are reporting this information to Washington on practically a daily basis. U

Attention is also invited to Lonlet 4/17/68, in instant matter, beginning page 3 under "Observations", through paragraph 1 on page 4 and last para., page 4 through para. 1, page 5. These observations are applicable to instant matter. U

Based on information set forth herein, the enclosure and previous communications referred to and for the reasons stated therein, it would appear the Bureau's desires encompass a research and collection project which due to availability of information there and lack of capacity here can only be accomplished by the Bureau or domestic offices. On these surmises I respectfully make recommendations as follows: U

Recommendations:

1. Bureau instruct WFO, through liaison, to arrange to obtain from the Military Services, Dept. of State and CIA all information re organizations and individuals of interest in the form of telegrams from the Embassies, debriefs of returned deserters, translations of Foreign Press, etc. WFO to review and correlate and prepare LHMs in accordance with Bureau instructions. U

2. Send copies of LHMs to interested Legat for sources information, in the event additional specific information is desired, sources concerned can be alerted. U

I will seek information desired re the Anti-Vietnam War Peace News Organization from [redacted] [redacted] b7D

Bulet 4/4/68 referred to Buairtel 3/28/68 and widened the scope of instruction in the latter airtel to include foreign organizations and groups engaged in demonstrations, etc., and again submit in LHM form. U

SURVEY AND ANALYSIS

International War Crimes Tribunal
Organized by Bertrand Russell Foundation,
London, England (Bufile 105-156243) U

Initial Tribunal was held in Stockholm, April and May 1967, and subsequently in Denmark late 1967. Considerable effort and time was expended by this office to determine membership, strategy, intent and, in particular, in identifying American participants. U

Unless there is peace in Vietnam it can reasonably be anticipated that additional Tribunals will be held in 1968. U

The Stop-It Committee
(Bufile 105-168041)

This organization comprised primarily of American students in the United Kingdom has primary aims to force the U.S. to withdraw from Vietnam, to assist draft dodgers, deserters, and to actively participate in demonstrations. Its membership is estimated at 250 to 300. U

b7D

The Bureau is very much aware of the amount of effort in first getting [redacted] interested in determining activities, identifying members and follow-up coordination. Voluminous material has been submitted to the Bureau re this organization and over 100 estimated individual cases were opened to identify members and submit information to the Bureau.

Americans in Cambridge
Against The War in Vietnam
IS - Vietnam

London let to Bureau 3/7/68 under this caption enclosed copies of an advertisement which listed names of U

216 Americans at the University of Cambridge of whom 131 are students, 33 faculty, 10 research students indirectly attached to the University, and 42 outsiders who oppose U.S. policy in Vietnam. London let set forth results of indices review. U

Subsequently, OSI has reported 40 American students from Cambridge held a demonstration and OSI source observed American students at Cambridge are becoming organized against U.S. policies and are becoming affiliated with local agitational groups. U

Vietnam Solidarity Campaign (VSC)
IS - Great Britain

London let 3/22/68 to Bureau enclosed 2 LHMs, 20 pages, concerning the VSC, in coordination with other groups, having organized a week of protests which culminated in the violent demonstration against the Embassy on 3/17/68. U

b7D

Since submission of London let it has been ascertained from [redacted] that 48 identified radical, militant left-wing and University Groups participated in the planning and/or demonstration.

OBSERVATION

I am in complete agreement with the essential need of discharging our responsibilities as expressed in referenced Bureau letter. This agreement is adequately depicted by the accomplishments achieved by this office in this field prior to receipt of reBulets. However, I ask the Bureau's indulgence and consideration of factors, as follows: U

As set forth in London let 3/28/68, "PRESIDENTIAL ORDER CALLING FOR 10% REDUCTION IN OVERSEAS ASSIGNMENT OF PERSONNEL; STREAMLINING - ECONOMY MEASURES, LONDON OFFICE," I referred to the transfers of one Agent and one clerk-stenographer from London for a 33-1/3 reduction. I set out the continuing upward trend of the workload, analyzed our capacity to handle it and suggested various streamlining measures so as to sustain the amount and quality of the work. U

b6
b7C

Item (8) "Requirements and Requests for LHMs" set forth my views and recommended that unless there was urgency for dissemination and the information stood on its own, LHMs not be prepared here but by the field office concerned.

Prior to the loss of the Agent and clerk-stenographer it was possible, since two-thirds of the workday of each was devoted to matters covered in reBulets, to meet that which the Bureau considers essential and desirable. With the loss of 2 employees, it is not possible, commensurate with work in other categories, to handle instant category of work as was done in the past. For example, prior to loss of one Agent he reviewed all daily newspapers plus left-wing, underground publications, and contacted Embassy sources for names of Americans active in organizations of interest and demonstrations. The names were then furnished to [redacted] which fully idented them after which the information was furnished to [redacted] and the Bureau. It will not be possible in our priority of work to dig out these American names. Instead, we will have to depend on [redacted] to furnish us the names and other pertinent information regarding Americans involved, and they also have their priorities.

I have communicated the Bureau's desires to [redacted] and, on 4/10/68, I conferred with [redacted] concerning this matter. [redacted] This will be followed and the Bureau advised as to the procedure which will be established to ensure fulfillment of our responsibilities.

Compliance with the Bureau's investigative desires in this situation will be accomplished in Great Britain. However, regarding the Scandinavian countries - observations are set forth as follows:

b1

(S)

The Security Services in the Scandinavian countries are very small and, particularly in Norway and Denmark [redacted] It's a question of priorities with these Services, as they lack manpower and money. Additionally, due to lack of linguistic ability and physical presence, we do not obtain the benefits of press coverage, petitions and pamphlets as we do in England. These factors plus infrequency of road trips, due to economy, and lack of secure rapid communication with these Services, tremendously handicap London in carrying out this program in a desirable manner. We do and will continue to obtain information desired when on a road trip or sometimes in telegrams from the Embassy concerned to Dept. of State when London is cut in for information copies. I am, of course, reiterating to Consuls of the Embassies an[redacted] our desires. However, in order to insure fullest possible coverage and receipt of all pertinent info, I respectfully suggest the Bureau make these desires known to Stat[redacted] If the Bureau agrees, further suggest State an[redacted] be requested to advise the Embassy concerned, pointing out that all info be sent Washington with info copies to Legal Attaches.

(S)

(S)

(S)

Overall, it is suggested that individual Americans identified in these matters be handled as follows:

1. London will submit names and identifying data under individual caption with request for check of Bufiles and Passport Record.

2. Bureau direct copy of LONlet, results of Bufile and Passport check to Field Office covering last U.S. residence, designating that office, as office of origin (OO). OO will accomplish desired investigation and submit LHM, including London info, for dissemination.

3. London will disseminate LHM to Security Service concerned and will request to be advised whenever subject of LHM comes to security attention.

Bureau's views respectfully requested re observations and suggestions set forth.

Re Chicago airtels and LHM to Bureau, cc to Cleveland, 12/13/68; Buairtel to Cleveland, New York and Philadelphia, 12/27/68.

Referenced Chicago airtel & LHM pointed out that the AUSA, Chicago, on 12/12/68, had declined to consider prosecution in this matter as it did not appear to be a prosecutable violation; the AUSA requested however, that attempts be made to have each of the three individuals in this case including [redacted] interviewed inasmuch as they might possibly be used as witnesses concerning anti-riot law investigations at some future time. Cleveland was requested by the Chicago Office to attempt to again interview [redacted]

As pointed out on pages A & B of the report of SA [redacted] 10/4/68, Cleveland, during the course of this investigation made a number of attempts to locate subject [redacted] at her residence, [redacted] Cleveland, Ohio, in order to interview her but all attempts were unsuccessful; several other girls who are also active with [redacted] in the Movement for a Democratic Society (MDS), live at [redacted] Cleveland with [redacted] and Agents in contacts with these girls left their names and the FBI telephone number asking them to have [redacted] call the FBI, but she never did so. Inquiry was also made at other MDS subject's homes and the MDS Headquarters in

Cleveland but [redacted] could not be located for interview.

Based on the above, it was obvious [redacted] did not want to be interviewed by the FBI and Cleveland Agents feel that even if subject could be contacted in person, she would be uncooperative and hostile towards the FBI.

It is further pointed out that neither Cleveland Agents nor sources of the Cleveland Office have even seen [redacted] at her residence, at any recent demonstrations or at any MDS meetings at Cleveland, nor has any information been received about her indicating she is presently in Cleveland.

Therefore since it is felt subject would be hostile and uncooperative if approached for interview by Agents, plus the fact that she has not been seen in the Cleveland area for several months, Cleveland does not feel any further attempts are warranted to try to interview her at this time.

For the information of the Bureau, Cleveland is currently conducting a security investigation on [redacted] in order to recommend her for the Security Index and efforts are being made to try to ascertain [redacted] current residence and whereabouts as she has not been seen in the Cleveland area in several months.

SECURITY INVESTIGATIONS OF INDIVIDUALS

Bureau has noted that your office has been submitting letterhead memoranda in most instances involving investigations of individuals connected with Students for a Democratic Society (SDS).

Letterhead memoranda will be sufficient for those individuals where little subversive activity was developed and you desire to close the case as a result of your investigation. However, in those cases where substantial subversive, derogatory information is developed, it is desired that you submit reports rather than letterhead memoranda and disseminate same locally to U.S. Secret Service, particularly, in those cases where individuals are mentally unstable or show a propensity for violence.

As an illustration of the above, reference is made to Kansas City letter dated 12/30/68, enclosing a letterhead memorandum (LHM) of the same date regarding [redacted], Security Matter - SDS." This individual has been very active in the affairs of the SDS and according to your latest LHM, your investigation has developed that this subject is a schizophrenic and according to a physician he should be hospitalized for intensive psychiatric treatment. The results of all investigation to date in this case should be submitted in report form and a copy disseminated to U.S. Secret Service locally.

Bring the above observations to the attention of all Agents handling security work in your office.

SUGGESTION

That the printed form FD-154 (sample attached) utilized for field verification of residence and employment of Security Index subjects be revised to include Priority apprehension designation in lieu of Detcom tabbing. Streamlining procedures were effected in the administration of the Security Index which deleted the tabbing "Detcom." The FD-154 should be revised to comply with current procedures.

Current practice or rule (Include manual citation as well as facts)

The FD-154 currently utilized contains space for Detcom tabbing.

Advantages of suggestion and annual savings (include basis for estimate)

Revising the FD-154 will bring this form in line with current Bureau procedures.

Disadvantages of suggestion

None.

(The use by the United States of my suggestion shall not form the basis of a further claim of any nature by me, my heirs, or assigns upon the United States. I understand that I will be considered for any justified award only if my suggestion is adopted within two years after submission.)

CUBAN EMERGENCY PLANS
INTERNAL SECURITY - CUBA

Reference is made to the report of Special Agent Francis J. Walsh dated July 23, 1963, at Baltimore, Maryland, and other previous communications which have been furnished to the Records Administration Office of the Department, all captioned [redacted] Internal Security - Cuba."

The name of [redacted] FBI file number 100-437378, was approved for inclusion in the Security Index by the Department on July 23, 1963, based upon his pro-Castro sympathies and the likelihood he would attempt violence.

[redacted] was afforded a hearing in the United States District Court, Baltimore, on November 8, 1963, to determine his mental competence. He was found to be [redacted] and incompetent to stand trial. The prognosis for his substantial recovery was declared to be almost hopeless. On December 24, 1963, he was committed to the Clifton T. Perkins Hospital, Jessup, Maryland, a maximum security hospital for the criminally insane. The indictment against him was dismissed on December 20, 1963.

As [redacted] has been confined to a maximum security hospital for the criminally insane and his chance for recovery is almost hopeless, you are requested to advise whether his name should be continued in the Security Index.

LIAISON WITH PASSPORT OFFICE
DEPARTMENT OF STATE

We have in the past on a quarterly basis made available to Mr. Robert Johnson, General Counsel of the Passport Office, Department of State, a list of top functionaries and key figures included in the Security Index for his utilization in the issuance of passports. Since all top functionaries and key figures are now included in Priority I of the Security Index, we will make available to Mr. Johnson a copy of the Priority I list. Priority I consists of all hard core national and state basic revolutionary organization leaders and leaders of other subversive organizations and unorganized groups who have indicated a propensity for violence or have received special training in sabotage, espionage or guerrilla warfare.

The practice of furnishing this list was approved by memorandum A. H. Belmont to Mr. Ladd dated December 8, 1950. This list is to serve as a check list against the issuance of U. S. passports. It is prepared by the Automatic Data Processing Unit and such a list has been very useful as the Department of State alerts the Bureau to contemplated travel abroad by subversives.

ACTION

1) That the enclosed Priority I list prepared as of November 15, 1968, be furnished to Mr. Johnson by liaison with the understanding that it is to be held in the strictest confidence by him at all times in his office safe and is to serve only as an alert list upon which State can take no action but must contact us for reports.

2) That the prior list furnished Mr. Johnson be retrieved and returned to Mr. Rosack for destruction.

SUBVERSIVE CONTROL SECTION
PROGRAM EVALUATION

PERIODIC REPORTS PROGRAM

1. Origin

Annual reports in Security Index (SI) cases have been required since completion of the Summary Report Program 7/14/54 (New York Office 5/1/56). In certain type cases periodic reports were required at specified intervals for many years prior to 1954; i.e. key figures, top functionaries.

2. Purpose

To insure that current information is available to the Bureau in report form in order to keep the Bureau, as well as the Department, advised of the status of SI cases and in order to discharge our responsibilities of dissemination to other interested agencies in the executive branch of the Government.

3. Scope

All offices participate in this program.

4. Tie in With Other Programs

Closely related to the Emergency Detention Program, which deals with plans for the apprehension and detention of potentially dangerous individuals in time of an emergency.

5. Case Load

As of 10/15/65 there were 10,156 SI subjects, each normally requiring at least one report a year.

Some SI cases require more frequent reports; namely, (a) top functionaries, quarterly reports. There are 27 individuals considered as "top functionaries." They represent the highest degree of leadership in subversive organizations and their activities are constantly being followed. (b) Key figures, semiannual reports are required in key figure cases presently numbering 480. These individuals represent leadership in subversive organizations on regional, district and state levels and we follow their activities closely.

6. Magnitude

This is a major program as evidenced by the fact that, with the exceptions noted above, in all SI cases investigations must be brought up to date and reports submitted at specified intervals. This does not include investigations and reports on individuals currently being nominated for the SI.

7. Administrative Controls

Each Supervisor handling security matter cases utilizes a tickler system to insure that reports are submitted when due by the field.

8. Adequacy and Currentness of Instructions

Instructions dealing with this program are found in Section 87D of the Manual of Instructions. This section of the Manual is up to date.

9. Over-all Value

Data dealing with this program is included in the budget material. In addition, this program enables us to thoroughly review the SI status of each individual subject on at least an annual basis. When information is developed clearly indicating that a subject no longer should be scheduled for apprehension, prompt action is taken to remove his name from the SI. Conversely, if the investigation developes evidence indicating that the subject presents a potential threat to the internal security in time of emergency, his name is included in the SI.

Reports in these cases are widely disseminated to various executive departments. Essentially, every security program of other branches of the Government depends to a large extent on information made available to them by us.

ACTION:

This program will be followed closely and we will continue to require reports in SI cases in accordance with the schedule referred to herein.

SUBJECT: SECURITY INVESTIGATIONS OF [redacted]
RELATIONS WITH [redacted]
PROPOSED POLICY CHANGE RE SUBJECTS TRAVELING ABROAD

Re Manual of Instructions, Section 87D-page 33 (4).

Referenced Section sets forth criteria for submission of LHMs re foreign travel of subjects of past or current security investigations, setting forth of a lead for WFO to check Passport Records and submission of LHM upon subject's return.

Under the policy set forth a considerable volume of mail is received this office re subjects on whom the Bureau has not received any indication of subversive activity for 5, 10 or 15 years.

Usually the mail received consists of (1) a letter and LHM from Office of Origin re proposed travel and setting forth lead for WFO, (2) letter and LHM from WFO re passport information; (3) letter and LHM from office of origin re actual travel or cancellation of the travel.

Sometimes only the WFO letter and LHM showing passport information and proposed travel are received and nothing from Office of Origin re travel or cancellation of travel plans.

On occasions the mail is received after subject has performed the travel.

Mail of the foregoing type on other than SI subjects has always constituted at least 25% of the mail flow between the Bureau, London, [redacted] Over the past years [redacted] but in particular [redacted] have questioned the receipt of mail where there has been no known subversive activity by the subject in recent years. The basis for the questioning has been the limited investigative effort or coverage which can be afforded by relatively small security services with other more pressing priorities.

Under #4 it will be possible to furnish information to [redacted] on SI subjects who do not meet the criteria of Nos. 1 and 2. Additionally, [redacted] do not desire to be informed of the return of subject to the U.S.

Although I have not specifically or directly discussed establishing a policy criteria along the lines of 1 thru 4 above with [redacted] I feel certain from past discussions and experiences with them that such a policy would be acceptable and preferred.

For the Bureau's information, [redacted] (2/25/66), copy attached, is used for dissemination of information in these matters to [redacted] If the Bureau accepts points 1 thru 4, in order to further alleviate and streamline the paper flow, I believe this form could be revised so that it could be filled out in triplicate by the Office of Origin, and with headings added by London, used for dissemination to all sources. This would be of tremendous assistance and relief to the administrative burden by reducing pieces of mail in these matters from 6 to 8 pieces, counting cover letters and LHMs, to one piece. It is also considered possible that one form could be devised to meet the requirements of all European Legats.

RECOMMENDATIONS:

1. That the Bureau accept and adopt as policy points 1 thru 4 as criteria in these matters.

2. Letters and LHMs denoting that the travel has already been performed and those denoting subject has returned to the U.S. should not be sent London as nothing can be done with them.

3. If recommendation 1 is approved, solicit the opinions of other European Legats as to the desirability of devising one form to be filled out by Office of Origin which can be used for dissemination to all sources. In this regard, even if the form per se cannot be disseminated, it would be much easier for clerk-stenos to have all information available on one piece of paper than having to review 6 or 8 pieces in order to pick out the information to put into a letter to sources.

4. If recommendation #3 is approved, all European Legats should be instructed to submit their recommended forms to the Bureau and other Legats. Other Legats will submit comments and observations re the form until an acceptable one is devised. U

I strongly feel that acceptance of the foregoing recommendations will not have a deleterious affect upon fulfillment of our responsibilities, but to the contrary, will improve our ability to meet them. U

The Attorney General's Portfolio contains details of plans and programs to be placed in effect in the event of a national emergency including the Program for Apprehension and Detention of Persons Considered Potentially Dangerous to the National Defense and Public Safety of the United States.

By letters dated April 27, 1953, and April 12, 1955, captioned as above, former Attorney General Herbert Brownell, Jr. granted me authority to implement the Apprehension and Search and Seizure Provisions of captioned Program under certain conditions. This authority was reiterated by former Attorneys General William P. Rogers, Robert F. Kennedy, Nicholas deB. Katzenbach and Ramsey Clark on June 10, 1960; April 21, 1961; February 19, 1965, and April 5, 1967, respectively.

SUBJECT: EMERGENCY DETENTION PROGRAM
ATTORNEY GENERAL'S PORTFOLIO
SECURITY INDEX - GEN

Former Attorney General Herbert Brownell, Jr., on 4/27/53, (reiterated 4/12/55) granted the Director authority to implement the Apprehension and Search and Seizure Provisions of the Emergency Detention Program should a major surprise attack on Washington, D. C., occur and should the Director be unable to obtain a communication of authority from the President, the Attorney General, or one of the first five persons in the Department's chain of authority. This authority reiterated by succeeding Attorneys General William P. Rogers, Robert F. Kennedy, Nicholas deB. Katzenbach and Ramsey Clark.

It is believed that Attorney General Mitchell should be asked if it is his intention to continue the authority granted the Director by the former Attorneys General mentioned above.

It is noted that the Department's chain of authority lists Assistant Attorney General in Charge of the Internal Security Division in eighth position in the chain of authority. Since the Internal Security Division of the Department actually handles and is in fact the only Division within the Department which is thoroughly familiar with this Program, the request for authority necessary for implementation of this Program is being extended to the first eight persons in the Departmental chain of authority.

ACTION:

If you agree, there is attached a proposed letter to Attorney General Mitchell. A copy of this letter is being directed to the Internal Security Division inasmuch as matters dealing with the Emergency Detention Program are handled by that Division. A copy of attached letter also being furnished to the Deputy Attorney General.

SUGGESTION

When current supply of Form FD-154 (Verification of Information on Security Index Cards) is exhausted, suggested FD-154 be revised to include information re Priority tabbing. Also, to revise placement of information re photograph. Ten copies of revised proposed form attached hereto.

Current practice or rule (Include manual citation as well as facts)

Priority tabbing information (Manual of Instructions, Vol., III Sec. 87, Page 62 (11), not currently included on FD-154. Info re photo not presently included on portion to be completed by agent. (M of I, Vol. III, Sec. 87, 50(b) C.

Advantages of suggestion and annual savings (include basis for estimate)

Placement of priority tabbing information would insure that subject is being carried in appropriate Priority classification and would verify subject should continue to be carried in present Priority classification or for some reason should be moved into another Priority classification in view of change in employment, etc. Information re photograph on bottom portion of FD-154 would insure current status of photo is available for proper notation on Security Index card, should date of photo be old but photo still current good likeness.

Disadvantages of suggestion

None.

(The use by the United States of my suggestion shall not form the basis of a further claim of any nature by me, my heirs, or assigns upon the United States. I understand that I will be considered for any justified award only if my suggestion is adopted within two years after submission.)

SUBJECT: SECURITY INDEX LISTS

Enclosed herewith is one copy each of the following lists for transmittal to the SAC, Quantico, for storage with other vital records maintained by him:

1) Alphabetical list of Security Index (SI) subjects.
2) Geographical list of SI subjects.
3) Special Section of the SI.
4) List of top functionaries.
5) List of SI subjects out of country.
6) List of subjects whose citizenship status is unknown.
7) List of aliens.
8) List of SI subjects of Chinese descent.
9) List of SI subjects sympathetic to Communist China.
10) List of SI subjects sympathetic to Cuba.
11) List of SI subjects sympathetic to Cuba and China.
12) List of SI subjects who are defectors.
13) List of Progressive Labor Party members.
14) List of SI subjects who are Chinese defectors.
15) List of SI subjects who are Cuban defectors.
16) List of Missing SI subjects.

The SAC, Quantico, should destroy by burning the lists furnished December 20, 1968. When this action has been taken, he should so note on this memorandum and return it to the Internal Security Section.

ACTION

If you approve, this memorandum and the attached lists will be forwarded to SAC, Quantico, for the above action.

SUBJECT: DELINQUENCY IN SECURITY AND RACIAL MATTERS INVESTIGATIONS

An analysis of the field delinquency in internal security, foreign intelligence and racial matters (RM) was conducted for the month of December, 1968.

Pending active matters in combined classifications 65, 100 and 105 decreased by 557, as the total decreased from 24,103 to 23,526. Delinquent matters decreased by 30, as the total decreased from 1,606 to 1,576. The percentage of delinquent matters remained 6.7 per cent.

Pending active matters in the 157 classification decreased by 180, as the total decreased from 7,894 to 7,714. Delinquent matters decreased by 131, as the total decreased from 516 to 485. The field-wide delinquency percentage decreased from 6.5 per cent to 6.3 per cent.

A letter is being sent to each of the following offices commenting on delinquency as indicated by asterisk:

Office	65	100	105	Over-all Security	157 (RM)
Atlanta	0.0%	13.3%*	7.7%	10.9%	12.4%*

TO : Director, FBI (100-358086)

FROM : Legat, Mexico City (100-00)

SUBJECT: SECURITY INVESTIGATIONS OF INDIVIDUALS

~~SECRET~~

ReBulet 1/21/69 to London with two copies designated for this office.

The Bureau's attention is respectfully invited to the fact that the form proposed by the Legat, London, for the use of the European Offices would not be applicable to the Mexico City Office. Due to the semi-operational nature of the Bureau's program in Mexico coverage of leads in cases of individuals of security interest to the Bureau are not handled on an agency-to-agency basis as in the European offices and in only very rare instances coverage of American subversives is requested of any Mexican agency. Development of the information concerning arrivals, departures and activities of such individuals in Mexico, is normally handled through established informants which precludes the use of the form proposed for the European offices. Leads furnished to those informants cannot be set out in the English language and the lead slips of course cannot carry any indication that the leads originated with this office.

In light of the above, it is strongly recommended that leads for Mexico and Central America in individual security cases continue to be furnished to this office as in the past. In this connection, however, it is noted that frequently leads for Mexico and Central America are contained in LHMs prepared by the domestic offices and forwarded to Mexico by the Bureau by routing slip without a copy of the cover letter prepared by the domestic office. It is requested that in the future, when the LHM is forwarded, this office be furnished a copy of the transmittal letter from the domestic field which contains the identification of sources and other pertinent information.

FROM: Legat, Rome (100-00)

SUBJECT: SECURITY INVESTIGATIONS OF INDIVIDUALS

ReBulet to London 1/21/69.

Legat, Rome, has reviewed the form proposed by Legat, London, and does not feel it or a similar form would be suitable for use in the Rome office. Legat wishes to point out, however, that Legat's problems in London are appreciated and that the proposed form no doubt would be of benefit to his office.

The Rome office transmits its requests to sources on blind memorandum, therefore, not identifying itself. Our sources conduct investigation for us in security matters by means of the phrase, "Subject has been investigated in the United States in connection with subversive activities." To this is added the name of the subject, date and place of birth, passport number, travel itinerary, and request to cover his activities while in Italy or Greece. In special cases, such as espionage matters, our sources are given more details and the request is more elaborate. Our present procedure is not a burden nor does it present any problems.

As set forth above, Legat, Rome, does not feel the form would be suitable for Rome office use, but does agree that it would facilitate handling of a request if all of the information for a subject could be on one sheet of paper.

NOTE: Suggests adding item #11 to Form FD-305 (Last Cover Page for Security Index Report) as follows:

11 // Subject is // is not // designated as top functionary.

If designated top functionary, he warrants retention as same because . . . .

(Sample of form attached.)

Domestic Intelligence Division opposed adoption pointing out, while the advantages as set forth by suggester are true, the Manual of Instructions, Section 87D, clearly outlines criteria for designating subjects as top functionaries and the fact they are placed in Priority I of Security Index and that character of communications submitted should be "Internal Security - (followed by letters designating organizational affiliation or nationalistic tendency)." Field recommendations for top functionaries are carefully appraised by Bureau in order to keep this designation on a very selective basis. Therefore, these cases are limited in number. Training Division agrees and recommends idea not be approved.

SUGGESTION

Recommend adding item #11 to form FD-305 as follows: (Form FD-305 attached) BE AMENDED TO SHOW WHETHER THE SUBJECT IS A TOP FUNCTIONARY AND WHY HE SHOULD CONTINUE TO BE SO CLASSIFIED

11 ☐ Subject is ☐ is not ☐ designated as top functionary.

If designated top functionary, he warrants retention as same because.....

SECURITY INDEX - GENL

Current practice or rule (Include manual citation as well as facts) There are no current instructions to flag in top functionary quarterly reports that they are top functionaries or that they warrant retention as same.

Advantages of suggestion and annual savings (Include basis for estimate)

By making the above addition to the FD-305 it would serve the following useful purposes.

1. It would serve as a flag at the Bureau that the individual is a top functionary and warrants retention as same.
2. It would insure that the status of top functionaries would be scrutinized by the report writing Agent on a quarterly basis and include a justification for his retention as same.
3. It would act as a continuing reminder to Agents writing security reports that all security subjects should be reappraised for possible inclusion as top functionaries. This is especially important since the Key Figure designation has been deleted per SAC Letter 68-36.

Disadvantages of suggestion

ADDENDUM: DOMESTIC INTELLIGENCE DIVISION JRW:er 1/31/69

Suggester recommends that Form FD-305 which is used to summarize a security subject's status on the Security Index be amended to show whether the subject is a top functionary and why he should continue to be so classified.

Suggester states this would serve to flag these cases at Bureau and act as reminder to field Agents that all security subjects should be reappraised for retention or deletion as top functionaries or should be recommended as top functionaries.

While the advantages set forth by the suggester are true, the Manual of Instructions, Section 87D, clearly outlines the criteria for designating subjects as top functionaries and the fact they are placed in Priority I of the Security Index and that the character of the communications submitted should be "Internal Security - (followed by letters designating organizational affiliation or nationalistic tendency)." Field recommendations for top functionaries are carefully appraised by Bureau in order to keep this designation on a very selective basis. Therefore, these cases are limited in number.

In view of the above, it does not appear this change in the FD-305 is warranted. Domestic Intelligence Division recommends against adoption.

SUBJECT: SECURITY INVESTIGATIONS OF INDIVIDUALS - Bern

ReBulet 1/21/69 and LONlet 11/6/68.

Information regarding foreign travel of subjects of past or current security investigations is disseminated by this office to Swiss and Austrian sources by a brief summary of the original received from the Bureau which consists of three sections: travel information, reason for security interest and identifying data. This method has been adopted because of a request on the part of [redacted] b7D who noted that they are understaffed and wish to keep the burden on their translators to a minimum.

It is therefore considered that form "LON-1" or a similar one would not suit the needs of this office, since the original material from the Bureau contains much superfluous wordage.

To further reduce work in these cases, the following final sentence concludes the alert to the source: "A negative reply to this inquiry is not necessary."

I agree that recommendations 1 and 2 should be adopted since they appear to reduce work but not efficiency.

FROM : LEGAT, PARIS (100-00)

SUBJECT: SECURITY INVESTIGATIONS OF INDIVIDUALS

ReBulet 1/21/69.

It is agreed by the Paris office that a large volume of memoranda regarding Security subjects are received which serve no purpose. Many are for information only of Legat and are filed in 100-0. We request coverage by foreign security services only when Bureau specifically requests that we do so.

Information could be furnished by Bureau field offices in much briefer form. The form proposed by London would not serve for dissemination to Paris sources because of language problems. We already use forms in French and Spanish previously approved by the Bureau (samples attached for Bureau and London). The form proposed by London would serve for a concise form to be used by Field offices in furnishing information for Legats but in some cases it would be too brief. A brief memo would serve the same purpose for this office containing birth data, previous activities briefly and itinerary. Furnishing travel information re security subjects for information only in cases not requiring dissemination or coverage by Legats could be eliminated.

Since the May 1968 revolution in France, the interest of various French security services in subversive activities and the travel of subversives between France and the United States has increased. They have not expressed any desire to restrict the flow of mail as in points 1 and 2 of London let 11/6/68.

It is recommended that the form proposed by Legat, London or a similar form be adopted with space for additional pertinent information or that the Field be instructed to furnish pertinent information in one concise memo containing birth data, a brief resume of activities and travel information.

In view of the high interest of French in subversive activities and travel of subversives between France and the United States and our efforts to increase the exchange of information with the French services, it is recommended that the Bureau continue to furnish to the Paris office all such information which comes to its attention and which can be disseminated to our French contacts.

ReBulet to London dated 1/21/69.

Following are my thoughts with regard to the points raised in relet.

The immediate and basic difference between the situation in this area and that in the London area appears to be that neither West Germany nor Holland has any central registration of individuals entering or leaving the countries. Therefore, nothing resembling the [redacted] exists. There is local registration of permanent residents and, in West Germany, a central registration of permanently registered aliens. Neither of these applies to the matter under consideration. b7D

In addition to the criteria mentioned in London letter with regard to the degree of security significance, it seems that cases regarding travelers fall generally into the following categories with variations in between:

1. Travelers who reportedly generally travel in various countries of Europe, including Germany or Holland, without specific itinerary information or known contacts in the area;

2. Travelers reportedly coming to either Germany or Holland specifically with a relatively established itinerary but no known points of contact;

3. Travelers with quite specific itinerary and known points of contact in either Germany or Holland.

There seem to be two elements involved in our "alert" type case. First is the Bureau's interest in obtaining information on the subject's activities; and second is a parallel interest of the local source itself in being informed that a person of security interest is entering their territory. I think we can assume that the only case where an "alert" would be solely responsible for producing the information within the Bureau's interest would be where the subject came to attention merely because of his movement. In the absence of entry and departure registrations, this is most unlikely. Where the subject engages in some activity bringing him to the attention of our security source (in a security context), we should receive that information from the source even though an "alert" has not been added to their files. If our "alert" includes a fairly definite itinerary or some point of contact, it may generate information because the source may take an interest in the subject and investigate him for its own purpose. So, in general, I feel that "alerts" are of little value except in the last category above and to some extent in the second category. Of course, our sources do file-check a number of names in various circumstances where they may not have enough on the name to bring it to attention. In those cases "alerts", even under the first category, would produce some information.

REGARDING LONDON'S RECOMMENDATIONS

1. I do not believe that it would be practicable to attempt to establish any specific criteria such as the four outlined by [redacted] but I feel that those criteria are good in judging whether the source should be advised of the subject on the basis of the security significance of his background.

b7D

2. I agree with the London recommendation that we not be furnished communications dealing with completed travel or return of the subject to the United States. In Bonn, we have avoided alerting where travel is known to have been completed and I have never informed the source of the subject's return to the United States. In this regard, unlike the situation with the [redacted] but is merely a document which a file check will reveal and which alerts the file checker to advise us. b7D

3. Basic to the question of a uniform form to be used by the field is the language question. Although we furnish our information to both Dutch and German sources in English, they must translate it before it becomes permanent in their files. A form such as recommended by London could be readily used by us in preparing our communication and it probably would be easier to extract information from it than from normal LHM's. We have noted that there is very frequently considerable information in LHM's which is of no value to our source for "alert" purposes and also that frequently such data as identifying information and travel plans is included with other data and not readily discernible.

Useful as such a form probably would be to London and to some extent to other offices, I believe that we should try to avoid as much as possible a system which requires individual agents throughout the field to prepare a special document to be used by foreign offices. At the same time, I feel that we should also attempt to cut down on the amount of information furnished by the field in documents intended merely to be used to substantiate an "alert".

RECOMMENDATION

Since the Bureau is considering London's first and second recommendations further, I am making no recommendations regarding them beyond the above comments.

With regard to the third, I would recommend that we not attempt to devise a form for all offices.

I would recommend that Bureau instructions to the field be amended to have "alerts" asked for only in those cases where the security significance of the subject fits the criteria listed by London and where the travel information is sufficiently precise to make the "alert" useful under the above-described circumstances. I would suggest that the field request an "alert" by the means of a very brief LHM and that this document be limited to short statements of the following:

1. Name and normally-used aka's, including maiden name of married women;

2. Date and place of birth and nationality;

3. Concise statement of reported travel plans;

4. Very concise statement of essential information upon which security interest is based without description of source, except to indicate reliability; and

5. Close with the statement that the FBI to be advised if subject comes to attention.

As is the case here, most offices probably often furnish "alert" information to more than one source. I believe that such a brief LHM would be a useful basic document. It could be used in a variety of ways, depending on the circumstances in the office: transmitted personally without cover; transmitted with a brief cover form; with a more detailed cover letter or, if need be, translated.

~~SECRET~~

This procedure would place a minimum burden on the field to judge what it should write for the various foreign offices and should give us a document brief enough to be conveniently handled by sources and adaptable to transmission with a minimum of effort by Legat.

ReBulet, 1/21/69.

The Manila Office does not receive a great number of communications regarding foreign travel of security subjects and no problems whatsoever have been encountered in the present manner of handling, i.e., furnishing sources copies of LHMs. In some instances the detailed information contained in the LHMs has been of considerable benefit to the sources in the course of complying with the Bureau's request for information.

It can be seen that in the case of the London Office, where the volume of such matters is great and its security sources may be burdened with numerous requests, that the utilization of a form could save all parties concerned a good deal of time. The volume of such cases received by the Manila Office is not great, however, and the present practice of referring those matters to its sources is not burdensome.

If, in the interest of uniformity, the Bureau decides that all Legats should utilize a standard form similar to form "LON-1", such a form could be adapted to the needs of the Manila Office. In the preparation of a standard form, it is suggested that a space be designated for information indicating the dates or period of time the subject is expected to be travelling abroad. Such information would help sources to direct attention to the pertinent periods of time in the search of records and the placing of stop notices.

SUBJECT: SECURITY INVESTIGATIONS OF INDIVIDUALS

ReBulet 1/21/69.

In connection with the particular situation outlined by Legat, London, referred to in relet and its attachments, it appears that his points are well taken and an all encompassing form could very well be of great benefit to increasing the efficiency and effectiveness of Legat operation where applicable. U

Tokyo does not feel that such a form or procedure would appreciably assist its operation in that (1) this office does not receive nearly the volume of such communications as that received by London and thus does not have the handling problem detailed, and (2) Tokyo utilizes a Japanese-language form, TOK-3 (copy of English version enclosed), for transmittal of LHMs to Japanese police agencies which has proved most effective and acceptable to the Japanese. Their replies are in the Japanese language and must be translated at the Bureau.

As for the other countries covered by Tokyo - Taiwan and Korea -, travel by security subjects to these countries is negligible. Individuals, such as these, either do not desire to travel to Korea or they simply are not allowed to enter by the Korean Government, which takes an extremely dim view of activists, past or current. Taiwan is equally a country which discourages individuals with subversive backgrounds and thus there is very little such travel to that island. U

So, in essence, Japan is the only area to be considered in this context and, as stated above, the form currently in use is considered completely adequate for the needs of this office. U

Effective immediately action specified in the above reference concerning foreign travel by subjects of security investigations should be limited to the following instances:

(1) Subjects of current security investigations or where there is information showing subversive activity by a subject during the past five years.

(2) Subjects whose names are included on the Security Index, Section A of the Reserve Index, or the Agitator Index.

(3) Subjects of past security investigations who are likely to remain in a foreign country over six months.

(4) Where information available indicates that subject of past security investigations, although inactive for over five years, may be a "sleeper" or in an underground capacity, or where current information would indicate a need to effect foreign coverage.

SECURITY INDEX LISTS

There is attached hereto a current list of names of the individuals maintained in the Security Index. Names included in the main portion of the list are arranged alphabetically. Those individuals coming within three designated groups are listed on separate pages. Following each name is information indicating the race, sex, birth date, Bureau file number and the Bureau field office covering the residence of the individual.

Also attached is a current geographical list of individuals included in the Security Index arranged alphabetically by Priority designation.

It is requested that these lists be given utmost security.

SECURITY INVESTIGATIONS OF INDIVIDUALS

ReBulet 1/21/69.

A survey of Legal Attaches has revealed that adaptation of a form similar to Form "LON-1" would not appear feasible at this time for use by all Legal Attaches. Therefore, no further action is being taken in this matter.

With regard to changes in situations where memoranda are prepared for submission to Legal Attaches concerning individuals traveling abroad, the attention of each recipient of this communication is invited to recent changes set out on page 4, SAC Letter 69-13, dated 2/18/69. In most instances, these changes will eliminate submission of memoranda on individuals concerning whom there has been no subversive data within the past five years. It is felt that the new procedures will substantially reduce the quantity of memoranda previously furnished Legal Attaches where past security subjects were involved in travel abroad.

RE: SECURITY INVESTIGATIONS OF INDIVIDUALS

NOTE:

With regard to adaptation of the above form which was suggested by London as one which might be adaptable for use by all Legal Attaches to transmit letterhead memoranda to Legat sources, only, two of the Legal Attaches felt such a form might be feasible. All other Legal Attaches felt the form would not be adaptable to their office.

SUBJECT: SECURITY INDEX LISTS - General

Enclosed herewith is one copy each of the following lists for transmittal to the SAC, Quantico, for storage with other vital records maintained by him:

1) Alphabetical list of Security Index (SI) subjects.
2) Geographical list of SI subjects.
3) Special Section of the SI.
4) List of top functionaries.
5) List of SI subjects out of country.
6) List of subjects whose citizenship status is unknown.
7) List of aliens.
8) List of SI subjects of Chinese descent.
9) List of SI subjects sympathetic to Communist China.
10) List of SI subjects sympathetic to Cuba.
11) List of SI subjects sympathetic to Cuba and China.
12) List of SI subjects who are defectors.
13) List of Progressive Labor Party members.
14) List of SI subjects who are Chinese defectors.
15) List of SI subjects who are Cuban defectors.
16) List of missing SI subjects.

The SAC, Quantico, should destroy by burning the lists furnished January 23, 1969. When this action has been taken, he should so note on this memorandum and return it to the Internal Security Section.

ACTION:

If you approve, this memorandum and the attached lists will be forwarded to SAC, Quantico, for the above action.

**PROPOSED CHANGES IN
SECTION 87D
MANUAL OF INSTRUCTIONS**

The first paragraph of Item 6b (4), page 33, under the heading "Individuals Traveling Abroad," should be deleted and the following substituted therefor:

"When information is received indicating that: (1) a subject of a current security investigation or where there is information showing subversive activity by a security subject during the past five years, (2) a subject whose name is included in the Security Index, Agitator Index, or Section A of the Reserve Index, (3) a subject of a past security investigation who is likely to remain in a foreign country over six months, or (4) where information available indicates a subject of a past security investigation, although inactive for over five years, may be a "sleeper" or in an underground capacity, or where current information would indicate a need to effect foreign coverage; intends to travel abroad or has already departed this country for foreign travel, take the following action:"

SUBJECT: SECURITY INVESTIGATIONS - INDIVIDUALS TRAVELING ABROAD
#604-69

SYNOPSIS:

The purpose of this memorandum is to recommend changes in guidelines requiring the Field to submit letterhead memoranda concerning travel abroad by individuals with subversive backgrounds. (U)

Existing instructions require that the Field, when information is received indicating that an individual who has been the subject of a past security investigation, a past member of a basic revolutionary organization, or has been a member of certain specified front groups, to immediately advise the Bureau by memorandum setting forth pertinent facts regarding the travel and subversive background for referral to appropriate U. S. Government agencies and Legal Attaches. Under current requirements many instances have occurred where memoranda were submitted when the subversive data was neither substantial nor current. (U)

The increase in subversives traveling abroad following a Supreme Court decision in 1958 holding that the State Department could no longer deny passports on grounds of subversive affiliations, plus the enormous task of investigating thousands of New Left adherents and racial agitators, many of whom travel and participate in demonstrations abroad, has placed an ever-increasing burden upon the Field.

Regarding subversives traveling abroad, it is felt our guidelines should be changed, restricting submission of memoranda by the Field to: (1) Subjects of current security investigations or subjects having subversive activity in past five years; (2) Subjects in Security Index, Section A of Reserve Index, or the Agitator Index; (3) Past security subjects who plan to remain abroad over six months; (4) Past security subjects who, although inactive over five years, may be "sleepers," or where current information otherwise indicates a need for foreign coverage of an individual. (U)

If you agree, there is attached a proposed SAC Letter. Manual changes are being prepared.

Memorandum C. D. Brennan to Mr. W. C. Sullivan

RE: SECURITY INVESTIGATIONS - INDIVIDUALS TRAVELING ABROAD
#604-69

DETAILS:

Upon receipt of information indicating foreign travel by a security subject, existing instructions provide for submission of memoranda by the Field when the individual has been: (1) The subject of a current or past security investigation, (2) A past member of a basic revolutionary organization, (3) A member since July, 1950, of an organization designated pursuant to E.O. 10450, (4) A member since July, 1950, of an organization declared subversive by the HCUA or other legislative committees, or (5) A member since July, 1950, of an organization described by reliable informants or sources as being dominated or controlled by one of the basic revolutionary organizations. (U)

Since the Supreme Court decision in the Kent and Briehl vs. Dulles passport case in June, 1958, which held that the State Department could no longer deny passports to individuals with past histories of subversive affiliations, thousands of such individuals with varying degrees of subversive activities, have applied for and received passports. As a result, the above broad criteria has placed a heavy burden on the Field in handling investigations of this type. (U)

A review of information received from the Field concerning individuals traveling abroad has indicated that in many instances the subversive data is neither substantial nor current. Many of the memoranda concern individuals on whom we have had no subversive data for many years. In support of this position, the Legal Attache, London, has advised that while in discussion with [redacted] these sources have wondered whether in view of more pressing priorities, a need now exists for memoranda where they relate to individuals on whom we have no recent indication of subversive activity. (S)

b7D

The emergence of the New Left movement as a subversive force and the resultant thousands of investigations initiated on individuals connected with the New Left, including U.S. citizens who have traveled and participated in anti-U.S. demonstrations abroad, has placed ever increasing demands on our investigative personnel. In view of this increase and the questionable value of disseminating nonpertinent and noncurrent information on many individuals who travel abroad, it is believed that our guidelines

listed on Legal Desk for detailed purposes

Memorandum C. D. Brennan to Mr. W. C. Sullivan

RE: SECURITY INVESTIGATIONS - INDIVIDUALS TRAVELING ABROAD

should be changed at this time regarding these matters. It is, therefore, suggested that our requirements in this field be restricted to submission of memoranda concerning individuals falling within the following categories: (1) Subjects of current security investigations or where there is information showing subversive activity by a subject during the past five years; (2) Subjects whose names are included on the Security Index, Section A of the Reserve Index, or the Agitator Index; (3) Subjects of past security investigations where information available indicates these individuals are likely to remain in a foreign country over six months; (4) Where information available indicates that subjects of past security investigations, although inactive for over five years, may be a "sleeper" or in an underground capacity, or where current information otherwise indicates a need to effect foreign coverage. (U)

The above guidelines will eliminate those cases in which the subversive information is not of a substantial nature such as those described above. (U)

It is believed that limiting dissemination of information to State and Central Intelligence Agency in accordance with the above will adequately discharge our responsibilities with respect thereto and, at the same time, materially reduce the work placed upon the Field because of the large number of individuals with subversive background traveling abroad. MEMORANDUM FOR MR. TOLSON:

In the search for additional agents to be assigned to investigate organized crime, I would like to suggest that consideration be given to declaring a moratorium on investigations, and particularly report writing, of routine Security Matter - Communist cases throughout the field for a period of six months. I believe this would make a substantial number of agents immediately available, and the situation could be re-evaluated after the six month period.

LIAISON WITH PASSPORT OFFICE
DEPARTMENT OF STATE

We have in the past on a quarterly basis made available to Mr. Robert Johnson, General Counsel, Passport Office, Department of State, a list of individuals included in Priority I of the Security Index. Priority I includes hard core national and state basic revolutionary organization leaders and leaders of other subversive organizations and unorganized groups who have indicated a propensity for violence or have received special training in sabotage, espionage or guerrilla warfare. This serves as a check list against issuing U. S. passports.

The practice of furnishing similar lists was originally approved by memorandum A. H. Belmont to Mr. Ladd dated 12/5/50. This practice was again approved by memorandum C. D. Brennan to Mr. W. C. Sullivan dated 11/26/68, wherein it was recommended and approved that the Priority I list be made available to Mr. Johnson in place of the lists of top functionaries and key figures, which lists are no longer available since the re-evaluation of the Security Index in May, 1968. This list, which is prepared by the Automatic Data Processing Unit, will be very useful as the Department of State alerts the Bureau to contemplated travel abroad by subversives.

ACTION:

1) That the enclosed Priority I list prepared as of February 14, 1969, be furnished to Mr. Johnson by liaison with the understanding that it is to be held in the strictest confidence by him at all times in his office safe and is to serve only as an alert list upon which State can take no action but must contact us for reports.

2) That the prior list furnished Mr. Johnson be retrieved and returned to Mr. Rosack for destruction.

SECURITY INVESTIGATIONS OF INDIVIDUALS

Effective immediately, reports pertaining to individuals designated as Priority I of the Security Index (SI) will be submitted on an annual basis. Verification of residence and employment of Priority I subjects will continue to be conducted every three months. u

The verification of residence and employment of SI subjects designated as Priority II and Priority III will henceforth be conducted on an annual basis. Reports pertaining to individuals designated as Priority II of the SI will continue to be submitted on an annual basis and reports pertaining to Priority III subjects will continue to be submitted every two years. u

In addition to the above, investigations, and particularly report writing, in routine Security Matter - Communist cases throughout the field are being suspended for a period of six months at which time this suspension will be re-evaluated. u

Verification of residence and employment of Agitator Index subjects will henceforth be on a yearly basis unless subject is also included in the SI, Priority I, which requires quarterly verification. u

Appropriate manual changes will be forthcoming. u

PROPOSED CHANGES IN THE MANUAL OF INSTRUCTIONS

The Manual of Instructions, Volume IV, Section 122D, page 17, paragraph 3c and page 18, paragraph 7a should be amended to read as follows:

c. An up-to-date letterhead memorandum containing pertinent background information, including arrest record and a good physical description, and a succinct summary of the subject's agitational activities must accompany form FD-397 when no such letterhead memorandum or an investigative report has been submitted within the past year. The submission of the above information by letterhead memorandum does not apply to agitators who are also on the security index, are members of Klan or white hate-type organizations being investigated under section 122A, volume IV, of this manual, or are the subjects of other investigations which require investigative reports.

7. Annual review of files by field offices

a. Each year the office of origin is to verify the residence and employment of each of the individuals included in its agitator index and review its files for pertinent, unreported information. If, however, the individual is also included in the security index under Priority I, this verification must be made quarterly. Form FD-403 may be used in verifying residences and employments of agitator index subjects. Each time that an agitator index subject's residence and employment are verified, the case must be reevaluated to assure that the subject remains qualified for inclusion in the agitator index under the criteria for such inclusion. A notation to the effect that the case has been reviewed for this purpose shall be made on the form FD-403.

PROPOSED CHANGES IN THE
MANUAL OF INSTRUCTIONS

Page 18, paragraphs 9a and c should also be amended to read as follows:

a. Annually a lettterhead memorandum or, where required, a report suitable for dissemination is to be submitted on each individual whose name is included in the agitator index. In those instances in which a subject is also on the security index, the rules governing the submission of periodic reports for security index subjects will be followed. The letterhead memorandum or report should include all pertinent information not previously included in an annual letterhead memorandum or the required periodic report.

c. When letterhead memoranda or reports relating to agitator index subjects contain data affecting material included on subject's existing agitator index card, cover pages accompanying letterhead memorandum or report shall include as last page form FD-305 or FD-305a appropriately checked. Handle in accordance with applicable instructions in section 87D, item 7f, (9), (a), II, and III, of this manual.

PROPOSED CHANGE IN MANUAL OF INSTRUCTIONS

Section 87D, 7b, (7), (b), page 57, should be amended to read as follows:

(b) The whereabouts of all security index subjects should be known at all times. The residence and business addresses of security index subjects in priority I must be checked at least once each three months. The residence and business addresses of all other security index subjects must be checked at least once each year, except those imprisoned and those who were included in the security index because of disaffection for the U. S. (defection to a Sino-Soviet-bloc country, including Cuba since 10-1-60) (see section 105G, item 3, volume IV, of this manual). The residence and employment of those who were included in the security index because of disaffection for the U. S. must be verified every thirty days. The case of any security index subject who is out of the country must be followed at least once each year to determine if he has returned to this country.

Perfect arrangements to be advised on a current basis of any indication that the subject is engaged in subversive activities, is exhibiting violent tendencies, or plans to change his residence or employment. Periodic checks to verify residence or business addresses may be made under appropriate pretext by telephone once each six months for those individuals in priority I and once every two years for all other subjects. Pretext means may be utilized during other periodic checks conducted either personally or through appropriate sources.

SECURITY INDEX

The Security Index is designed for the purpose of maintaining a list of individuals who should be apprehended and incarcerated in the event of a national emergency, such as an attack from abroad or internal revolt. Such individuals must be proven to be a definite threat to the national security. All additions to and deletions from the Security Index are approved in each field division by the Special Agent in Charge or his designated representative; are completely reviewed by Bureau supervisors who approve or reject the field recommendation; and final approval is given by the Department. The Security Index is based upon Title 2 of the Internal Security Act of 1950 and is a part of the over-all Emergency Detention Program.

In June, 1968, we thoroughly revised investigative procedures of individuals on the Security Index by setting up priorities.

Individuals designated Priority I are hard core national and state leaders of basic revolutionary groups or other subversive organizations who have indicated propensity for violence. Verification of their residence and employment is conducted every three months and a report submitted every six months. Reports concerning such individuals were previously submitted on a quarterly basis. There were 647 individuals in Priority I as of February 14, 1969.

I suggest a report once a year

Yes, N

Individuals designated Priority II fall in the second level leadership of such basic revolutionary organizations or groups who have indicated a propensity for violence. Verification of their residence and employment is conducted every six months with a report submitted on an annual basis. There were 1,738 individuals in Priority II as of February 14, 1969.

I suggest verification every year only

Yes. N

Priority III is made up of all other individuals on the Security Index. Their residence and employment is verified every six months with a report being submitted every two years. Reports were previously submitted on an annual basis. As of February 14, 1969, there were 7,816 individuals in Priority III.

I suggest once each year

Yes OK V.

The Security Index is constantly changing through penetrative review by the field, Bureau supervisors and the Department. We have been making anywhere up to 38 changes a week in this list since July, 1968.

TO : Mr. Tolson

DATE: February 27, 1969

FROM : The Executives Conference

SUBJECT: SECURITY INVESTIGATIONS OF INDIVIDUALS

On February 27, 1969, the Executives Conference, consisting of Messrs. Tolson, J. P. Mohr, Beaver, Bishop, Casper, DeLoach, Callahan, Conrad, Felt, Gale, Rosen, Sullivan, Tavel and Trotter, considered the suggestion that investigations, and particularly report writing, in routine Security Matter - Communist cases throughout the field be suspended for a period of six months. This would make available a substantial number of Agents immediately and the situation could be re-evaluated after the six month period.

Following consideration, the Executives Conference unanimously approved this proposal.

The report and verification requirements regarding Security Index subjects were previously changed upon the recommendation of Mr. Tolson and approved by the Director. Reports regarding individuals in Priority I of the Security Index will henceforth be submitted on an annual basis instead of semiannually. The verification of residence and employment of individuals in Priority I will continue to be conducted every three months. The verification of residence and employment of individuals designated as Priority II and Priority III of the Security Index will henceforth be conducted on an annual basis instead of semiannually. In addition, verification of residence and employment regarding subjects on the Agitator Index will be conducted on an annual basis instead of semiannually.

These changes in verification and report writing in routine Security Matter - Communist cases have been incorporated into a suggested letter to all offices, which is attached.

SUBJECT: SECURITY INDEX (SI)
AGITATOR INDEX
#606-69

The report and verification requirements regarding SI subjects have been changed with the approval of the Director and an SAC Letter has been prepared in order to advise each field division.

The SI consists of three priorities. Reports pertaining to individuals designated as Priority I of the SI will henceforth be submitted on an annual basis. Such reports were previously submitted on a semiannual basis. Verification of their residence and employment will continue to be conducted every three months. The verification of residence and employment of individuals designated as Priority II and Priority III of the SI will henceforth be verified on an annual basis. Such verification was previously handled on a semiannual basis. No other changes are being made regarding SI. Verification of residence and employment regarding subjects on Agitator Index is also being changed to a yearly basis. This was previously done on a semiannual basis.

The field is being instructed that the reduction in the frequency of reports for Priority I subjects and verification of residence and employment of Priority II and Priority III subjects should not be interpreted as meaning that security investigations should be curtailed in any fashion. In addition, the field is being reminded of its responsibility, as well as the Bureau's responsibility, to be aware of the location of SI subjects so that in the event a national emergency arises requiring the implementation of the Emergency Detention Program (EDP), SI subjects can be located for apprehension and detention. Each division is being instructed that appropriate sources should be established to alert the Bureau in the event an SI subject changes his residence and/or employment. The establishment of such sources is vital in order that the Bureau's responsibilities under the EDP can be fulfilled in the manner expected.

ACTION:

That the attached letter to all Special Agents in Charge be approved. Appropriate manual changes are being prepared.

SUBJECT: SECURITY INVESTIGATIONS OF INDIVIDUALS
GENERAL

By memorandum J. H. Gale to Mr. DeLoach dated March 3, 1969, captioned "Criminal Intelligence Program, Manpower Needs," it was noted in part that the Chicago Division recommended a six month moratorium on report writing on all Security Index (SI) subjects with pertinent information to be submitted by letterhead memorandum where necessary.

It appears that the suggestion of the Chicago Division would merely substitute letterhead memoranda for reports. It is proposed instead that all report writing be suspended for a six month period to include all SI subjects in Priority III (7,816 as of 2/14/69) and all SI subjects in Priority II (1,738 as of 2/14/69). It is believed, however, that SI subjects in Priority I (647 as of 2/14/69) should not be included since to do so could seriously affect the internal security of the nation. It is noted that individuals in Priority I consist of hard core national and state basic revolutionary organization leaders and those leaders of other subversive organizations and unorganized groups who have indicated a propensity for violence and/or who have received special training in sabotage, espionage and/or guerrilla warfare.

It is noted that we have already reduced the frequency of submission of reports pertaining to Priority I SI subjects. Such reports, as of February 27, 1969, are submitted on an annual basis rather than on a semiannual basis. In view of the nature of the individuals included in Priority I, it is believed that this should continue and the moratorium not pertain to Priority I.

RECOMMENDATION

REC-110 100-358086-3917

There is attached for approval a letter to all offices containing instructions as recommended above suspending report writing pertaining to SI subjects in Priority II and Priority III.

An analysis is made on a monthly basis of the field delinquency in internal security, foreign intelligence and racial matters. Based on this analysis a letter is sent to each office wherein delinquency in these cases is considered to be excessive.

By letters to all offices dated 2/27/69, and 3/6/69, investigations and report writing in Security Matter - Communist cases and Priority II and Priority III Security Index subject cases were suspended for a period of six months or curtailed to reduce the frequency of certain types of investigation. This was done in order to make available additional manpower for concentrated investigation in the area of organized crime.

During the month of February, 1969, there were 22,988 pending active matters in the combined classifications 65,100 and 105. This represents an increase of 480 cases since January, 1969. During February, 1969, there was a total of 8,409 pending active matters in the 157 classification which represents an increase of 894 cases since January, 1969.

With the suspension and decrease in security and related cases, it does not appear necessary that individual letters be written to offices having excessive delinquency for a period of six months. The monthly administrative reports will continue to be followed closely in order that any unusual trends may be noted and corrective action taken. The preparation of individual letters will again be considered in six months. You will continue to be kept advised of developments in delinquency in these matters through the preparation of a monthly memorandum.

SUBJECT: SECURITY INDEX LISTS

Enclosed herewith is one copy each of the following lists for transmittal to the SAC, Quantico, for storage with other vital records maintained by him:

1) Alphabetical list of Security Index (SI) subjects.
2) Geographical list of SI subjects.
3) Special Section of the SI.
4) List of SI subjects out of country.
5) List of subjects whose citizenship status is unknown.
6) List of aliens.
7) List of SI subjects of Chinese descent.
8) List of SI subjects sympathetic to Communist China.
9) List of SI subjects sympathetic to Cuba.
10) List of SI subjects sympathetic to Cuba and China.
11) List of SI subjects who are defectors.
12) List of Progressive Labor Party members.
13) List of SI subjects who are Chinese defectors.
14) List of SI subjects who are Cuban defectors.
15) List of missing SI subjects.

The SAC, Quantico, should destroy by burning the lists furnished February 24, 1969. When this action has been taken, he should so note on this memorandum and return it to the Internal Security Section.

ACTION:

If you approve, this memorandum and the attached lists will be forwarded to SAC, Quantico, for the above action.

SUGGESTION

That form FD-122 be revised to rearrange the nationalistic designations by listing them in alphabetical order.

Current practice or rule (Include manual citation as well as facts)

Not now listed in any special order.

Advantages of suggestion and annual savings (include basis for estimate)

Rearranging of the designations on form would enable one to more easily locate and check proper designation. This would be a saving in time.

Disadvantages of suggestion

None. Change should be made at time of next printing.

(The use by the United States of my suggestion shall not form the basis of a further claim of any nature by me, my heirs, or assigns upon the United States. I understand that I will be considered for any justified award only if my suggestion is adopted within two years after submission.)

ADDENDUM: DOMESTIC INTELLIGENCE DIVISION 2/3/69 JRW:wmk

This suggestor recommends the form FD-122 (the form used in Security Index cases from which Security Index cards are made up or changed) be revised to set forth the organizational affiliation designations in alphabetical order. Such a listing would result in a saving of time since the proper block could be more easily located and checked.

A similar form FD-122a is used for the same purpose in cases involving security subjects who qualify for the Reserve Index A. The advantages mentioned by the suggestor would also apply to changing the FD-122a in the same manner. The alphabetical listing should include the organization designations, however, the word "Miscellaneous" should continue to be last. The revision of these forms should be made at the time of the next printing.

The Domestic Intelligence Division recommends adoption of this suggestion. Per Mr Roach, also should AWC be inserted for American Workers Communist Party as well as ~~DIN~~ for Minutemen JR 4/10/69

Enc. 1

NOTE: Suggests Form FD-122 (Recommendation for Preparation of, or Change in, Security Index Card) be revised to list the designations for organizational affiliations in alphabetical order thereby enabling personnel working with these forms to more easily locate and check proper designation (sample of form attached).

Domestic Intelligence Division noted a similar form the FD-122a is used for same purposes in cases involving security subjects who qualify for Reserve Index A. Advantages mentioned by suggester would also apply to changing this form in same manner. The alphabetical listing should include the organization designations; however, the word "Miscellaneous" should continue to be last. Administrative Division advised rearranging these items would have no affect on the handling of these forms in Voucher-Statistical Section. Training Division has no objection to these revisions if it will aid in handling this work. On approval, this letter will serve as authority for the Forms Management Desk and Manuals Desk, Training Division, to take appropriate action.

RESIDING IN MEXICO

Re Mexico City letter 12/5/60, and Bulet 12/28/60, transmitting to Mexico City a copy of a list of Security Index subjects residing in Mexico as of 12/15/60.

REQUEST OF THE BUREAU

The Bureau is requested to furnish Mexico City with an up-to-date list of Security Index subjects residing in Mexico, including categories and sections of the Security Index in which these subjects are listed.

The Bureau is further respectfully requested to consider the advisability of furnishing this office with current lists of Security Index subjects residing in Mexico, every six months.

Memorandum

TO : Mr. W. C. Sullivan

DATE: April 14, 1969

FROM : C. D. Brennan

SUBJECT: DELINQUENCY IN SECURITY AND RACIAL MATTERS INVESTIGATIONS

An analysis of the field delinquency in internal security, foreign intelligence and racial matters (RM) was conducted for the month of March, 1969.

Pending active matters in combined classifications 65, 100 and 105 decreased by 2,147, as the total decreased from 22,988 to 20,841. Delinquent matters increased by 362, as the total increased from 1,170 to 1,532. The percentage of delinquent matters increased from 5.1 per cent to 7.4 per cent.

Pending active matters in the 157 classification decreased by 91, as the total decreased from 8,409 to 8,318. Delinquent matters increased by 198, as the total increased from 434 to 632. The field-wide delinquency percentage increased from 5.2 per cent to 7.6 per cent.

By memorandum dated March 24, 1969, C. D. Brennan to Mr. W. C. Sullivan, it was recommended and approved that in view of the suspension and decrease in security and related cases, it did not appear necessary that individual letters be written to offices having excessive delinquency for a period of six months. Accordingly, no communications are being directed to the offices having excessive delinquency at this time. There is attached a listing of the offices having a high delinquency indicated by asterisk. We will continue to follow developments in delinquency in these matters.

SUBJECT: NAME CHECK REQUEST
SECURITY INDEX SUBJECTS (General)

Currently a six-month investigative moratorium is in effect regarding certain Security Index (SI) Subjects and reports for some SI Subjects are now submitted at two-year intervals.

Name check requests on these subjects present a situation where Bureau files indicate Field Office files contain pertinent information in addition to material in Seat of Government files.

In order to cover this situation and fulfill our responsibilities to the name check requester, the following procedure will be utilized. The Name Check Section (NCS), upon receipt of this type of request, will contact the substantive supervisor in the Domestic Intelligence Division (DID) for authority to disseminate pertinent material from the file. Upon approval, NCS will make two Xerox copies of the incoming name check request. The original request form and pertinent investigative reports available in files will be sent by NCS to the requester with a notation on the form that additional information may be available at the Field level and a request for the Field to furnish this information to Bureau Headquarters has been made. Further, the agency will be requested to resubmit their name check request in 45 days for any additional information. Information appearing on the original form setting forth the NCS's action will also be annotated on one of the Xerox copies. The two Xerox copies and the file will be forwarded to the substantive supervisor in the DID, whereupon he will issue appropriate instructions to the Field. It is noted that the name check request forms may also contain lead information.

The DID, upon receipt of the requested information from the Field, can disseminate to the appropriate agency. However, when the name check request was received from the Defense National Agency Check Center, Fort Holabird, Maryland, no dissemination should be made to that Center. It is noted that this agency merely covers leads for the Department of Defense and has no files and is in no position to receive the information. Regarding Defense National Agency Check Center, dissemination should be made only upon receipt of an additional name check request. The DID, however, may desire to disseminate to the appropriate Defense intelligence agency having intelligence interest.

No estimate of the number of requests of this type is available; however, it will not be a large number.

The DID has agreed to the above procedure.

Mr. Nick F. Stames
Federal Bureau of Investigation
San Juan, Puerto Rico

Dear Stames:

Your suggestion has been received that Form FD-122 be revised to provide space for entries with respect to dangerous and suicidal propensities of a subject. The matter has been considered and it has been decided there is no need to amend the form since such tendencies on the part of a subject will be already contained in his file and this would necessarily be reviewed prior to taking any action to apprehend him.

Although your idea was not adopted in this instance, I appreciated having the benefit of your observations.

Sincerely,

J. Edgar Hoover

NOTE: (continued

Training Division discussed suggestion with Domestic Intelligence Division and Washington Field Office and all agree that idea should not be adopted. This form is for purpose of having a Security Index (SI) card prepared on subject or making changes on already existing card. These cards are administrative devices to compile information on SI subjects mainly with respect to residence, employment and physical description. In event of emergency requiring pick-up and detention of these subjects, however, reliance would not be placed on the cards but the file would be resorted to for review and it would contain all necessary information including the fact that the subject was armed and dangerous, had suicidal tendencies, etc. It is not believed necessary to clutter the SI card with these data. The same reasoning applies to Form 122a which performs the same functions as FD-122 with respect to the Reserve Index and FD-397, its counterpart with respect to the Agitator Index.

SUGGESTION

It is suggested that Form FD-122 (Security Index Recommendation/Change) be revised at the next printing to include a space to be checked if the subject is known to be armed; has suicidal tendencies or is otherwise dangerous to the point where it can be expected he would attempt to inflict bodily harm to arresting Agents in time of national emergency. This notation would also appear on the Security Index (SI) cards maintained at the Bureau and the field office concerned, as a "flag."

It is noted this suggestion could be expanded, for reference purposes, to include Forms FD-122a (Reserve Index) and FD-397 (Agitator Index).

(Continued on Page 2)

Current practice or rule (Include manual citation as well as facts)

No notation, as explained above, is included on either the forms noted or on the SI cards.

Advantages of suggestion and annual savings (include basis for estimate)

SI cards serve as an operational guide for the apprehension of persons deemed dangerous to the national security of the United States in the event of a national emergency. Although it is realized that most SI subjects, especially those on Priority I and II, have a general propensity for violence, it would be most beneficial to include in the SI card a "flag" cautioning the arresting Agent that subject's degree of dangerousness is compounded by the fact that he is known to carry a firearm, is mentally unstable, etc.

Disadvantages of suggestion

None known.

SECURITY INVESTIGATIONS OF INDIVIDUALS

Reference is made to New Orleans airtel dated 4/9/69, captioned "Students for a Democratic Society (SDS) National Council (NC) Meeting, 3-27 thru 30-69, Austin, Texas, IS - SDS," with copies designated for various files in your office. With the exception of [redacted] it is not possible to identify the remaining individuals in Bureau files based on available information. You should, therefore, advise by return mail whether the remaining individuals are subjects of case files in your office and if so, include the status of such investigations. In the event they are not being actively investigated, your recommendations in this regard should be submitted promptly.

b6
b7C

It has been recently noted that with the increased activity of the New Left within your territory, many communications are being submitted to the Bureau which contain, in many instances, the names of individuals participating in rallies, demonstrations, etc. The surnames of the individuals are set forth with the first initial and no other identifying data is furnished. It is not possible to definitely identify such individuals in Bureau files.

MAILED 6
MAY 12 1969
COMM-FBI

Although it is realized that many of the communications are prepared to be submitted at the earliest possible time following the activity, it would be extremely helpful if information could be included in the cover communication identifying those persons mentioned on whom case files exist. If an individual is included on the Security Index, it should be so indicated. Where no case file exists and no investigation has been or is being conducted, you should so indicate setting forth specific reasons.

NOTE: Inclusion of above-requested information in communications concerning demonstrations, etc., would greatly facilitate handling investigative inquiries relating to individuals participating in these activities.

#791-69

SECURITY INDEX-GENERAL

Date: April 21, 1969

To: Director, FBI

From: (Suggester's name) [redacted]

Division of Assignment: SPRINGFIELD

SUGGESTION

When current supply of FD-154 (Verification of Information on Security Index Cards) is exhausted, suggested form be revised to include information re Armed and Dangerous status of security index subject. Ten copies of proposed form attached.

EXP. PROC.
20-APR-23-1969 20

Current practice or rule (Include manual citation as well as facts) Armed and Dangerous information not presently indicated for verification during annual execution of FD-154. Manual of Instructions, Vol. III, Sec 87(b) I, provides this information should appear on back of Security Index card.

Advantages of suggestion and annual savings (include basis for estimate)

Inclusion of Armed and Dangerous data on FD-154 would insure this important information is placed on back of Security Index, as required per above Manual instructions (page 50), which provides that printed captions for data to appear on cards should be augmented by other data required "Dangerous characteristics of subject, including notation if subject possesses firearms". Would also insure info placed on SI card in event subject has recently come into possession of dangerous weapons.

Disadvantages of suggestion

None, except for cost of revision, which cost would be assimilated by including revision in next over-all revision of FD-154.

(The use by the United States of my suggestion shall not form the basis of a further claim of any nature by me, my heirs, or assigns upon the United States. I understand that I will be considered for any justified award only if my suggestion is adopted within two years after submission.)

The Department has requested comments on captioned bill introduced in the U. S. Senate on April 18, 1969, by Mr. Daniel K. Inouye (D-Hawaii) and others. This bill is similar to two others introduced in the House of Representatives. A letter has been prepared setting forth our comments recommending against passage.

The general Emergency Detention Program (EDP) and the Security Index (SI) are based on Title II of the Internal Security Act (ISA) of 1950. This law has come under attack from various groups primarily due to the fact that little is publicly known concerning the manner in which the EDP will operate. Leftist groups are spreading propaganda charging that the Government can use this law to place anyone who opposes actions by the Government in a concentration camp. Although this is utterly absurd, it is, nevertheless, believed to be true by those who are victims of the propaganda. The ISA contains detailed provisions aimed at safeguarding the individual rights of those who may be detained only in the event of a national emergency.

This law provides a legal basis for the EDP and the SI. It is necessary to have such a law since the absence of such could possibly result in the same type of action taken against Japanese-Americans at the start of World War II. Our detention program is vital to the internal security of the nation since it provides for the legal detention of individuals who have, by their actions or statements, indicated that they are opposed to our form of Government and could engage in acts of sabotage and espionage during the time of a national emergency. The repeal of this law could be politically expedient but is certainly not in the best interests of safeguarding the internal security of this country.

RECOMMENDATION

That the attached letter be approved and sent.

Assistant Attorney General
Internal Security Section

Individuals have been scheduled for detention who have, by their acts and statements, indicated they desire the overthrow of this Government through force and violence, and their activities are certainly not in the best interests of the nation. The number of persons actually detained would be far less than is generally believed. Opponents of this law envision mass arrests totaling anywhere from 10,000 to 500,000 individuals. If invoked, the Emergency Detention Program, under current practice, could result in the detention of only up to 671 individuals and probably less. This has resulted from the establishment of three priorities under the detention program.

In view of the above, it is felt that the Emergency Detention Act of 1950 is a vital and necessary part of the law of the land and should not be repealed unless some provision is insured under which the internal security of this nation can be protected from the enemies who may attempt to destroy it from within.

In accordance with your request, the copy of S. 1872 furnished with your request is being returned.

...1972
...CONGRESS, 1st SESSION -
...L TO REPEAL THE EMERGENCY
...TION ACT OF 1950 (TITLE II OF
...INTERNAL SECURITY ACT OF 1950)
...TIVE MATTERS

This is in response to your request dated May 13, 1969, for the views of this Bureau on S. 1872, a bill to repeal the Emergency Detention Act of 1950. It is felt that this bill should not be adopted.

The Emergency Detention Act of 1950 serves as a basis for the Program for Apprehension and Detention of Persons Considered Potentially Dangerous to the National Defense and Public Safety of the United States and the Security Index, both of which are operated by this Bureau under the direction of the Department. The repeal of this Act would remove the basis for these programs which could seriously hamper the internal security of this nation in the event of an extreme national emergency. The law, as it stands, contains necessary safeguards for the rights of the individual and limits action of the U. S. Government since the detention of each person under the law must be fully justified, and no mass arrests could be made merely due to an individual's nationality or race. The protection of this nation from potential saboteurs and espionage agents is provided by this law, and it should certainly be continued. Under the provisions of the Emergency Detention Act, individuals who have been trained by foreign powers to carry out acts of sabotage, espionage and guerrilla warfare would be detained prior to the commission of any act detrimental to the internal security of the nation, thus preventing additional strife.

An analysis of the field delinquency in internal security, foreign intelligence and racial matters (RM) was conducted for the month of April, 1969.

Pending active matters in combined classifications 65, 100 and 105 decreased by 424, as the total decreased from 20,841 to 20,417. Delinquent matters decreased by 399, as the total decreased from 1,532 to 1,133. The percentage of delinquent matters decreased from 7.4 per cent to 5.5 per cent.

Pending active matters in the 157 classification increased by 154, as the total increased from 8,318 to 8,472. Delinquent matters decreased by 140, as the total decreased from 632 to 492. The field-wide delinquency percentage decreased from 7.6 per cent to 5.8 per cent.

By memorandum dated March 24, 1969, C. D. Brennan to Mr. W. C. Sullivan, it was recommended and approved that in view of the suspension and decrease in security and related cases, it did not appear necessary that individual letters be written to offices having excessive delinquency for a period of six months. This continues to be true; however, it is noted that the Cincinnati office has a delinquency of 34.2 per cent in the 105 classification and a delinquency of 21.2 per cent in the over-all security classifications. During the previous month, Cincinnati's delinquency in the 105 classification was 25.6 per cent and 26.9 per cent in the over-all security classifications. It is believed a personal attention letter should be directed to Cincinnati in view of the continuing increase in its delinquency in the 105 classification. No other communications are deemed necessary at this time.

ST. 116 REC-124 100-358086-3940

There is attached a listing of the offices having a high delinquency indicated by asterisk. We will continue to follow developments in delinquency in these matters.

SUBJECT: SECURITY INDEX LISTS

Enclosed herewith is one copy each of the following lists for transmittal to the SAC, Quantico, for storage with other vital records maintained by him:

1) Alphabetical list of Security Index (SI) subjects.
2) Geographical list of SI subjects.
3) Special Section of the SI.
4) List of SI subjects out of country.
5) List of subjects whose citizenship status is unknown.
6) List of aliens.
7) List of SI subjects of Chinese descent.
8) List of SI subjects sympathetic to Communist China.
9) List of SI subjects sympathetic to Cuba.
10) List of SI subjects sympathetic to Cuba and China.
11) List of SI subjects who are defectors.
12) List of Progressive Labor Party members.
13) List of SI subjects who are Chinese defectors.
14) List of SI subjects who are Cuban defectors.
15) List of missing SI subjects.

The SAC, Quantico, should destroy by burning the lists furnished April 22, 1969. When this action has been taken, he should so note on this memorandum and return it to the Internal Security Section.

ACTION:

If you approve, this memorandum and the attached lists will be forwarded to SAC, Quantico, for the above action.

1 - Mr. Rosack

LIAISON WITH PASSPORT OFFICE
DEPARTMENT OF STATE

We have in the past on a quarterly basis made available to Mr. Robert Johnson, General Counsel, Passport Office, Department of State, a list of individuals included in Priority I of the Security Index. Priority I includes hard core national and state basic revolutionary organization leaders and leaders of other subversive organizations and unorganized groups who have indicated a propensity for violence or have received special training in sabotage, espionage or guerrilla warfare. This serves as a check list against issuing U. S. passports.

The practice of furnishing similar lists was originally approved by memorandum A. H. Belmont to Mr. Ladd dated 12/8/50. This practice was again approved by memorandum C. D. Brennan to Mr. W. C. Sullivan dated 11/25/68, wherein it was recommended and approved that the Priority I list be made available to Mr. Johnson in place of the lists of top functionaries and key figures, which lists are no longer available since the re-evaluation of the Security Index in May, 1968. This list, which is prepared by the Automatic Data Processing Unit, will be very useful as the Department of State alerts the Bureau to contemplated travel abroad by subversives.

ACTION:

1) That the enclosed Priority I list prepared as of May 15, 1969, be furnished to Mr. Johnson by liaison with the understanding that it is to be held in the strictest confidence by him at all times in his office safe and is to serve only as an alert list upon which State can take no action but must contact us for reports.

2) That the prior list furnished Mr. Johnson be retrieved and returned to Mr. Rosack for destruction.

PERSONAL

Mr. Philip H. Sheridan
Federal Bureau of Investigation
Mobile, Alabama

Dear Mr. Sheridan:

Thank you for the suggestions that three particular forms be combined and that Form FD-203 be amended to permit its being used for other cases of a similar nature. With regard to your first proposal, similar ones have been considered previously and not adopted since these items were designed for specific purposes and any attempt to place all the necessary information on one format would cause confusion. Your second idea is being evaluated and you will be advised of the final decision.

I appreciate the interest you displayed in giving me the benefit of your observations on these matters.

NOTE: Suggestion 881-69 proposes Form FD-154 used to verify residence and employment of Security Index subjects and Forms FD-398 and FD-403 used similarly for Klan and hatetype organization subjects and Agitator Index subjects be combined on a larger, outsize, heavier, colored paper which stands out in file and can be easily located.

NOTE: (continued)

Similar ideas have been considered previously and not approved. It is more practical to have separate forms for these three programs. By having them combined into one format, additional work would be involved on part of any Agent handling these matters on part-time basis in determining which items are needed for particular program he is working with at the time. Each form was designed for a specific purpose and is of a different color for easy recognition and combining them would result in confusion on part of field. Forms must be of a standard size. Training Division recommends current idea not be adopted.

Suggestion 883-69 proposes Form FD-203 which is used to request investigation in Resident Agencies in Security Matter - Communist cases be amended to delete the caption, "Security Matter - C," so it would be possible to use it in Klan-type cases as well as Black Nationalist and other related cases. Designation at bottom of form for a 100- file would be deleted but words "file number" could be substituted. Form could be filled out in duplicate in pen or pencil with a copy for the file and original to Resident Agency.

Referred to the Domestic Intelligence Division for views and recommendations.

Date: June 11, 1969

To:	From: (Suggester's name)	Division of Assignment
Director, FBI	PHILIP H. SHERIDAN	MOBILE

SUGGESTION: FD 154 is utilized to verify residence and employment of Security Index subjects; FD 398 and FD 403 are used similarly for Klan and hate-type organization subjects and for Agitator Index subjects. Since the purpose of the form is to provide a means suitable for verification without entailing extra typing and to have current information concerning a subject available, it is suggested that these three forms be combined on a larger, outsize, heavier colored paper which stands out in the file and can be easily located. This form should have, as at present, a place at the top for current residence and employment and add a place for position and organization. The bottom half of the form should have a space for residence and employment and date and source of verification; if photograph available; if armed and dangerous; if change should be submitted; date file reviewed and Agent's initials. u

Current practice or rule (Include manual citation as well as facts)

Three separate forms are utilized: FD 154, FD 398, FD 403.
Security Index - Original

Advantages of suggestion and annual savings (include basis for estimate)

A combined form which could be utilized in all types of security cases as known at present and which could be used in future cases in this category. By using one form, of a heavier paper which is larger than normal paper size, the current residence and employment can be easily spotted in a multi-volume or active file and also the need for current verification can be spotted. u

Disadvantages of suggestion

Scrapping the three forms used at present which are of different color and which act as flags to particular type of case. u

SECURITY INVESTIGATIONS OF INDIVIDUALS

Re Albany airtel and LHM 6-17-69 captioned "Students for a Democratic Society; Internal Security - SDS."

Referenced LHM listed individuals from Cornell University who planned to attend the National SDS Convention in Chicago. The following individuals who were listed are not on the Security Index. Inasmuch as these persons are members of SDS and are considered sufficiently active to be invited to the National SDS Convention, individual cases should be opened and investigations conducted concerning them under Section 87D, Manual of Instructions:

[redacted]

SUBJECT: DELINQUENCY IN SECURITY AND RACIAL MATTERS INVESTIGATIONS

An analysis of the field delinquency in internal security, foreign intelligence and racial matters (RM) was conducted for the month of June, 1969.

Pending active matters in combined classifications 65, 100 and 105 decreased by 8, as the total decreased from 20,936 to 20,928. Delinquent matters decreased by 90, as the total decreased from 1,214 to 1,124. The percentage of delinquent matters decreased from 5.8 per cent to 5.4 per cent.

Pending active matters in the 157 classification increased by 475, as the total increased from 8,759 to 9,234. Delinquent matters decreased by 62, as the total decreased from 601 to 539. The field-wide delinquency percentage decreased from 6.9 per cent to 6.2 per cent.

By memorandum dated March 24, 1969, it was recommended and approved that individual letters not be written to offices having excessive delinquency in security and related cases for a period of six months in view of the moratorium established relating to security investigations. Accordingly, no communications are being directed to offices having excessive delinquency as indicated in the administrative report for the month of June.

There is attached a listing of the offices having a high delinquency indicated by asterisk. We will continue to follow developments in delinquency in these matters.

Employee Suggestion
FD-25[illegible] (11-59)

#54-40

Date: 8/4/69

To:	From: (Suggester's name)	Division of Assignment
Director, FBI	ASAC NICK F. STAMES	SAN JUAN OFFICE

SUGGESTION

It is suggested that the requirement to have a current photograph of each Security Index (SI) subject be revised to include only Priority I subjects. Genl

By letter to SAC, Albany (cc: All Offices) dated 7/11/69, captioned, "Emergency Detention Program (EDP)" the Bureau advised in part that the decision of the Department to terminate the agreement with the Department of Defense regarding detention facilities is based on the Department's current plan to apprehend only Priority I SI subjects when and if the EDP goes into effect. This suggestion is being submitted in light of the above Departmental decision.

(Continued on Page 2)

Current practice or rule (Include manual citation as well as facts) Manual of Instructions, Section 87D, Page 50, states, in part, that a current photograph of each SI subject must appear on the individual SI card. In addition, current photos of all SI subjects are furnished to Secret Service.

Advantages of suggestion and annual savings (include basis for estimate)

The implementation of this suggestion should save a considerable amount of Agent investigative time inasmuch as numerous cases of Priority II and III subjects are currently maintained in a Pending status for the sole purpose of obtaining a current photograph.

Disadvantages of suggestion

None known.

(The use by the United States of my suggestion shall not form the basis of a further claim of any nature by me, my heirs, or assigns upon the United States. I understand that I will be considered for any justified award only if my suggestion is adopted within two years after submission.)

PHOTOGRAPHS
SUGGESTION 54-70 SUBMITTED BY
ASAC NICK F. STAMES, SAN JUAN OFFICE

SUGGESTION: That the requirement to have a current photograph of each Security Index (SI) subject be revised to include only Priority I subjects. By letter to Albany (copies to all offices) dated 7/11/69, captioned, "Emergency Detention Program (EDP)," Bureau advised in part that the decision of the Department to terminate the agreement with the Department of Defense regarding detention facilities is based on the Department's current plan to apprehend only Priority I SI subjects when and if the EDP goes into effect. This suggestion is being made in light of the above Departmental decision. In line with this idea, a current photograph of a Priority II or III subject would still be obtained, attached to the SI card, and disseminated to Secret Service, provided it is available during the course of the normal investigation.

CURRENT PRACTICE: The suggester states the Manual of Instructions, Section 87D, page 50, states in part, that a current photograph of each SI subject must appear on the individual SI card. In addition, current photographs of all SI subjects are furnished to Secret Service.

ADVANTAGES: ASAC Stames feels implementation of this idea should save a considerable amount of Agent investigative time inasmuch as numerous cases of Priority II and III subjects are currently maintained in a pending status for the sole purpose of obtaining a current photograph.

OBSERVATIONS: SAC Anderson, San Juan, advised this proposal appeared to have considerable merit and he recommended that it be considered for adoption.

Domestic Intelligence Division advised the Manual of Instructions sets forth the instruction that "reasonable efforts should be made during the investigation of a security subject to obtain a photograph through usual sources. Cases on Security Index subjects are to be maintained in a pending status until such time as

a suitable photograph is obtained unless circumstances dictate otherwise, in which case the Bureau should be advised." The field places a copy of the photograph on one copy of the SI card maintained in the field and forwards one copy to the Bureau to be forwarded to the U. S. Secret Service (USSS) headquarters. The USSS also receives from the Bureau copy of all reports and letterhead memoranda regarding SI subjects and uses this material along with the photograph in connection with its protective responsibilities of the President. A survey of this Division was made and it was felt the practice of submitting photographs of subjects in Priority I, II and III of the SI should be continued. Such photographs are of great value in conducting investigation of these individuals and greatly assist USSS in carrying out its responsibilities. Additionally while the Department plans only for the apprehension of Priority I subjects in the event that the EDP is put into effect, in the event of a great National emergency, it can be foreseen that individuals listed in Priority II and III will be apprehended also. At that time, photographs will be of inestimable value. It was further believed that the present instructions in the Manual are broad enough so as not to impose an undue burden on the field to obtain photographs for all subjects listed on the SI and, in fact, experience has shown that this has been the case. This division opposed adoption.

Training Division agrees since the mere fact that the program at this point only calls for the immediate arrest of Priority I subjects does not remove from the Bureau the tremendous responsibility in this field of being prepared as it has historically been prepared to take care of whatever situation may arise be it the arrest of Priority I SI subjects or the arrest of the entire SI list.

RECOMMENDATION: That the suggestion not be adopted. On approval, that the attached letter be forwarded to the suggester. He has been thanked by prior letter.

SECURITY INVESTIGATIONS OF INDIVIDUALS

FD21 to NY, SF, WFO, 9/12/69

Enclosed for the information of both the Washington Field and San Francisco Offices is one copy of New York teletype to the Bureau dated 8/22/69 captioned "World Conference of Youth and Students for Vietnam Solidarity to be held in Helsinki, August 23-27, 1969, IS-C."

Enclosed teletype indicates that a number of DuBois Club members boarded a flight out of New York enroute to Moscow on 8/21/69. The Bureau indices indicate that the following individuals, so identified, have not been the subject of a security type investigation by this Bureau:

The New York Office is requested to contact its sources at John F. Kennedy International Airport and attempt to further identify these individuals either by passport number or birth date. Results of your investigation in this matter should be furnished both the Bureau and WFO.

WFO, upon receipt of the above information from New York, should check passport records, Department of State, concerning each individual so identified. Results of this check should be furnished both the Bureau and the office covering the area in which each individual resides under that individual's case caption. Each office receiving a copy of the Washington Field communication should be requested to conduct a security type investigation of that individual in accordance with instructions set forth in the Manual of Instructions, Section 87D. These offices should also be instructed to submit results of their inquiry in appropriate form, accompanied by recommendations as to further action deemed necessary in each instance.

LIAISON WITH PASSPORT OFFICE
DEPARTMENT OF STATE

We have in the past on a quarterly basis made available to Mr. Robert Johnson, General Counsel, Passport Office, Department of State, a list of individuals included in Priority I of the Security Index. Priority I includes hard-core national and state basic revolutionary organization leaders and leaders of other subversive organizations and unorganized groups who have indicated a propensity for violence or have received special training in sabotage, espionage or guerrilla warfare. This serves as a check list against issuing U. S. passports.

The practice of furnishing similar lists was originally approved by memorandum A. H. Belmont to Mr. Ladd dated 12-8-50. This practice was again approved by memorandum C. D. Brennan to Mr. W. C. Sullivan dated 11-25-68, wherein it was recommended and approved that the Priority I list be made available to Mr. Johnson in place of the lists of top functionaries and key figures, which lists are no longer available since the re-evaluation of the Security Index in May, 1968. This list, which is prepared by the Automatic Data Processing Unit, will be very useful as the Department of State alerts the Bureau to contemplated travel abroad by subversives.

ACTION:

1) That the enclosed Priority I list prepared as of August 15, 1969, be furnished to Mr. Johnson by liaison with the understanding that it is to be held in the strictest confidence by him at all times in his office safe and is to serve only as an alert list upon which State can take no action but must contact us for reports.

2) That the prior list furnished Mr. Johnson be retrieved and returned to Mr. Rosack for destruction.

SUBJECT: SECURITY INVESTIGATIONS OF INDIVIDUALS

Den,

SYNOPSIS:

By letters to all offices dated 2/27 and 3/6/69, attached, a moratorium was placed on routine Security Matter - Communist (SM-C) cases, certain changes were made in the frequency with which reports were to be submitted regarding Security Index (SI) subjects, the frequency of verification of residence and employment of SI and Agitator Index (AI) subjects was changed from a semiannual basis to an annual basis, and all report writing relating to SI subjects in Priority II and Priority III was suspended for a six-month period. The main purpose of these changes was to make available Agent personnel for immediate reassignment from security investigations to investigations pertaining to organized crime. In an earlier draft of this memorandum J. P. Mohr recommended that this moratorium be extended for six months. We have considered this and oppose it for the reasons set forth below.

Responsibilities in the security field have not lessened. The Bureau continues to have the responsibility in the event of a national emergency to be in a position to know where SI subjects are located. This will not be possible if we continue verification only on an annual basis. The Bureau has been historically prepared and we must be in a position to act when called upon to do so. The backlog of security investigations cannot be further postponed.

Since 3/1/69, we have had an over-all increase of 397 Agent personnel including Agents presently in New Agent's Training Classes. There has been a net gain of 64 Agents in the field and there are presently 466 Agents in training school, all of whom will be assigned to the field during the next three months. It is, therefore, imperative that we terminate the moratorium now and begin to open cases immediately so that an accurate determination can be made as to where the manpower will be needed when it becomes available.

REC-96 100-358086-3959

SEP 17 1969

RECOMMENDATION:

That the moratorium and curtailment of security matter investigations be rescinded. If approved, each office will be advised.

Memorandum W. C. Sullivan to Mr. C. D. DeLoach
RE: SECURITY INVESTIGATIONS OF INDIVIDUALS
100-358086

DETAILS:

By letter to all offices dated 2/27/69, attached, the frequency of submitting reports pertaining to individuals on the SI was changed. Submission of reports in Priority I SI cases was changed from six months to one year. Reports concerning Priority II and Priority III SI subjects were continued on an annual basis and two-year basis, respectively. The frequency of verification of residence and employment of SI subjects was also changed to require that such verification regarding Priority II and Priority III SI subjects be handled on an annual basis rather than semiannually. Routine SM-C investigations were suspended for a six-month period. The verification of residence and employment of AI subjects was changed to an annual basis rather than semiannually as previously required.

By letter to all offices dated 3/6/69, attached, reports concerning all SI subjects in Priority II and Priority III were suspended for a period of six months. Several other programs relating to security matters were also changed or revised to provide for immediate assignment of additional personnel for concentration on organized crime work.

In an earlier draft of this memorandum J. P. Mohr recommended that this moratorium be extended for six months. We have considered this and oppose it for the reasons set forth below.

Our over-all responsibilities in the security field have not lessened during the period of this moratorium. This is evidenced by the fact that as of 2/14/69, there was a total of 10,301 individuals on the SI. As of 8/15/69, this total had risen to 10,669. This increase is directly attributable to investigations pertaining to New Left-type individuals who are extremely militant in nature, have a definite propensity for violence, and would seize upon events presented by a national emergency to bring about the downfall of our form of government.

DETAILS CONTINUED-OVER

This increase is also attributable to the fact that we have not continued to review individuals currently carried on the SI for the purpose of determining whether they should be removed from this list. The deletion of individuals from the SI had been a continuing project in connection with established reporting and verification procedures. Investigations of the subversive elements in this country can no longer be considered routine since, by the very nature of the individuals and the organizations involved, a very complex situation and challenge confronts the Bureau. The security investigation today does not merely have to establish membership in a basic revolutionary group, but it has to penetrate even the mind of the individual member since some of the purposes of these organizations follow the legal definition of legitimate protest which is supported by many leading figures.

Continuing investigations regarding individuals already on the SI may be considered routine but are, nevertheless, vital investigations. The Bureau is charged with the responsibility in this extremely delicate field and in the event of a national emergency, such as the Cuban crisis, which could arise on very short notice, we would be expected to be in a position to discharge our responsibilities without hesitation. Such a situation and the resulting responsibility require that we know where our SI subjects are located. There will not be time to look for them, which will be the case if we continue to verify their residence and employment only on an annual basis. The subversive element is extremely mobile and unless we keep continuing tabs on their whereabouts, we will fall short of carrying out our responsibilities should we be called upon to do so.

The Bureau has never had to say, "Give us more time and we will do the job," and we certainly do not wish to be put in this position should an emergency arise requiring the Emergency Detention Program to be placed in effect. The Bureau has been historically prepared and must continue to be in a position to act when called upon to do so.

DETAILS CONTINUED-OVER

The moratorium was imposed as a matter of temporary expediency and as the end of this six-month period approaches it appears that the backlog of security investigations created as a result of the moratorium cannot be further postponed. There has been virtually no investigation of Priority II and Priority III SI subjects. It must be presumed that many of them have changed their residence and/or employment. Some may have obtained employment in defense facilities or engaged in other activity which should be brought to the attention of other Government agencies. Neither the Department nor other Government investigative agencies which receive copies of our investigative reports through regular dissemination are aware of this moratorium; and if the moratorium is continued, the Department and these agencies should be advised of the fact that our investigations in the security field have been curtailed. This is particularly true regarding U. S. Secret Service which receives copies of all security reports in connection with its responsibility for protecting the President.

In view of the above it would appear that the moratorium regarding security matter investigations should be rescinded and the periodic verification of residence and employment of SI subjects should be re-established on a semi-annual basis. This, of course, will require the reassignment of Agent personnel to security-type work.

The number of Agent personnel on duty as of 3/1/69, was 6,959. Agent personnel on duty as of 8/27/69, was 7,356. This represents an over-all increase of 397 Agents. There has been a net gain of 64 Agents in the field and there are currently 466 Agents enrolled in New Agents' Training Classes, all of whom will be assigned to the field during the next three months. The number of Agents assigned during March, 1969, for this concentrated drive on organized crime will very soon have been replaced through the New Agents' Training Program.

It is, therefore, imperative that we terminate the moratorium now and begin to open cases immediately so that an accurate determination can be made as to where the Agents will be needed when they become available.

UNITED STATES GOVERNMENT

Memorandum

TO : SAC, Albany

DATE: 2/27/69

FROM : Director, FBI

SUBJECT: SECURITY INVESTIGATIONS OF INDIVIDUALS

Effective immediately, reports pertaining to individuals designated as Priority I of the Security Index (SI) will be submitted on an annual basis. Verification of residence and employment of Priority I subjects will continue to be conducted every three months.

The verification of residence and employment of SI subjects designated as Priority II and Priority III will henceforth be conducted on an annual basis. Reports pertaining to individuals designated as Priority II of the SI will continue to be submitted on an annual basis and reports pertaining to Priority III subjects will continue to be submitted every two years.

In addition to the above, investigations, and particularly report writing, in routine Security Matter - Communist cases throughout the field are being suspended for a period of six months at which time this suspension will be re-evaluated.

Verification of residence and employment of Agitator Index subjects will henceforth be on a yearly basis unless subject is also included in the SI, Priority I, which requires quarterly verification.

Appropriate manual changes will be forthcoming.

SUBJECT: DELINQUENCY IN SECURITY AND RACIAL MATTERS INVESTIGATIONS

SECURITY MATTER - GENERAL

An analysis of the field delinquency in internal security, foreign intelligence and racial matters (RM) was conducted for the month of August, 1969.

Pending active matters in combined classifications 65, 100 and 105 increased by 780, as the total increased from 21,470 to 22,250. Delinquent matters increased by 176, as the total increased from 1,117 to 1,293. The percentage of delinquent matters increased from 5.2 per cent to 5.8 per cent.

Pending active matters in the 157 classification increased by 298, as the total increased from 9,260 to 9,558. Delinquent matters increased by 25, as the total increased from 547 to 572. The field-wide delinquency percentage increased from 5.9 per cent to 6.0 per cent.

By memorandum dated March 24, 1969, it was recommended and approved that individual letters not be written to offices having excessive delinquency in security and related cases for a period of six months in view of the moratorium established relating to security investigations. This moratorium has now been extended for another six months. We will continue the practice of not sending communications to offices having excessive delinquency unless some unusual reason exists for doing so.

There is attached a listing of the offices having a high delinquency indicated by asterisk. We will continue to follow developments in delinquency in these matters.

SECURITY INDEX LISTS
GENERAL

There is attached hereto a current list of names of the individuals maintained in the Security Index. Names included in the main portion of the list are arranged alphabetically. Those individuals coming within three designated groups are listed on separate pages. Following each name is information indicating the race, sex, birth date, Bureau file number and the Bureau field office covering the residence of the individual.

Also attached is a current geographical list of individuals included in the Security Index arranged alphabetically by Priority designation.

It is requested that these lists be given utmost security.

TO : Mr. W. C. Sullivan

DATE: 9/16/69

FROM : C. D. Brennan

SUBJECT: SECURITY INVESTIGATIONS OF INDIVIDUALS General Inf. Bachman

By letters to all offices dated 2/27/69 and 3/6/69, a moratorium was placed on routine Security Matter - Communist (SM - C) cases, certain changes were made in the frequency with which reports were to be submitted regarding Security Index (SI) subjects, the frequency of verification of residence and employment of SI and Agitator Index (AI) subjects was changed and all report writing relating to SI subjects in Priority II and Priority III was suspended for a six-month period.

The above-mentioned six-month period recently terminated and all aspects of the above moratorium were thoroughly re-evaluated. As a result, it was the recommendation of Mr. Mohr that the moratorium be extended for another six months at which time all aspects will again be reconsidered. The Director concurred with Mr. Mohr's recommendation.

Attached is a letter to all field offices advising them that instructions contained in Bulets of 2/27/69 and 3/6/69 will continue to remain in effect for another six months, at which time this suspension will again be re-evaluated.

RECOMMENDATION: SI-117 REC- 60 100-358086-3964

That the attached letter to all field offices be approved and sent to the Mechanical Section in order that appropriate copies be made.

BUDED: 10/8/69

ReBuairtel of 9/29/69.

In addition to preparation of blind memoranda on individuals listed in reairtel, a blind memorandum should be prepared regarding [redacted] The memorandum should contain his true name and be prepared in accordance with instructions contained in reairtel.

Since [redacted] name may be brought up during House Committee on Internal Security (HCIS) hearings in October, 1969, identifying him publicly as a member of the Students for a Democratic Society (SDS), who was involved in the SDS Summer "Work-In" Project at Columbus, Ohio, he should be contacted as soon as possible to determine whether he would be able to withstand being so publicly identified. If he cannot withstand such identification, every feasible effort will be made to omit his name from public testimony of a friendly witness. Therefore, furnish at least two names of those listed in reairtel whose names should be omitted from testimony in order not to cast suspicion on him. In this connection, in the event HCIS plans to subpoena any of those listed, the name of [redacted] and the names of those to be excluded from public testimony will be furnished to HCIS with a request that they not be subpoenaed. In any event [redacted] will not be pinpointed to HCIS as informant.

Pertinent information concerning this matter should be included in the letter accompanying the blind memorandum.

An analysis of the field delinquency in internal security, foreign intelligence and racial matters (RM) was conducted for the month of September, 1969.

Pending active matters in combined classifications 65, 100 and 105 increased by 1,352, as the total increased from 22,250 to 23,602. Delinquent matters increased by 238, as the total increased from 1,293 to 1,531. The percentage of delinquent matters increased from 5.8 per cent to 6.5 per cent.

Pending active matters in the 157 classification increased by 161, as the total increased from 9,558 to 9,719. Delinquent matters decreased by 16, as the total decreased from 572 to 556. The field-wide delinquency percentage decreased from 6.0 per cent to 5.9 per cent.

By memorandum dated March 24, 1969, it was recommended and approved that individual letters not be written to offices having excessive delinquency in security and related cases for a period of six months in view of the moratorium established relating to security investigations. This moratorium has now been extended for another six months. We will continue the practice of not sending communications to offices having excessive delinquency unless some unusual reason exists for doing so.

SECURITY INVESTIGATIONS OF INDIVIDUALS

PGrep dated 10/14/69 captioned [redacted] ARL," contains names of various individuals, many from other field offices, who were arrested in Pittsburgh in connection with a Students for a Democratic Society demonstration at South Hills High School, Pittsburgh. One of those named was [redacted] of Trenton, New Jersey. There is no indication in rerep that Pittsburgh has been furnished information concerning [redacted]

b6
b7C

Unless already done and where the individual does not reside in your territory, furnish appropriate office covering residence of each individual so arrested all pertinent information concerning the particular individual's activities in Pittsburgh. Include data concerning specific charges brought against the individual involved. Your communication transmitting the information to field offices should include the statement that the information concerning the subject's participation in the demonstrations, and the arrest is being furnished in view of existing instructions that a determination be made whether a security investigation is warranted, and whether overall activities would justify inclusion of their names on the Security Index.

San Francisco is instructed to prepare blind memoranda concerning each of captioned individuals setting forth a summary of subversive and background activities. The memoranda should contain only public source data, and the terminology used must be such that the memoranda cannot be identified as Bureau copies. A brief resume of each subject's background is to be set out in the first paragraph. Succeeding paragraphs should contain available public source data. Pertinent public source data should be set forth in succinct form and, unless deemed essential, no research should be conducted other than a review of your files. Submit original and five copies of blind memoranda for each subject by cover airtel under caption of each subject so as to reach the Bureau no later than 11/17/69.

INTERNAL SECURITY - CUBA

Reference is made to your letter to this Bureau dated December 9, 1965, wherein you advised that the Immigration and Naturalization Service (INS) had been requested to pre-position the necessary documents calling for the apprehension of the subject, who was a Cuban alien on the Security Index, when so instructed by the Attorney General.

By letter dated October 23, 1969, you advised that the subject's name should be removed from the Security Index. This action has been taken at the Bureau.

In view of the above, you may desire to arrange with INS to cancel the pre-positioned warrant of arrest and order to show cause.

SECURITY INVESTIGATIONS OF INDIVIDUALS

ReBulet to Albany and all offices captioned as above dated 9/17/69, advising that report writing concerning all Security Index subjects designated Priority II and Priority III had been suspended for an additional six month period.

The Bureau has noted in recent weeks that your office has submitted a number of reports and letters in lieu of reports concerning individuals falling within the categories mentioned in relet. It is recognized that some of these cases may have been opened in the immediate period preceding the date of relet and are just now being brought to a logical conclusion.

MAILED 11
NOV 7 1969
COMM-FBI

The purpose of instant letter, however, is to advise that instructions contained in reletcontinue to remain in effect. In the absence of extenuating circumstances, no cases should be opened for the submission of such reports until such time as you have been advised by the Bureau that the above suspension has been lifted.

TJM:rsz
(5)

NOTE:

By letter dated 3/6/69, field offices were first advised of a six month moratorium in report writing. This period would have normally ended 9/6/69. Relet dated 9/17/69 advised that the moratorium would continue in effect. A large number of reports have been coming through from the Los Angeles Office but not from any other office. Either Los Angeles is not following instructions in relet or they opened a large number of report writing cases during the period 9/6 through 9/17/69 when ostensibly they thought the moratorium had ceased. As the normal 45 day period for submission of such reports has passed, and reports continue to come in, it is felt that instant letter is necessary to insure that Bureau instructions are being followed.

SUBJECT: DELINQUENCY IN SECURITY AND RACIAL MATTERS INVESTIGATIONS

An analysis of the field delinquency in internal security, foreign intelligence and racial matters (RM) was conducted for the month of October, 1969.

Pending active matters in combined classifications 65, 100 and 105 increased by 474, as the total increased from 23,602 to 24,076. Delinquent matters decreased by 240, as the total decreased from 1,531 to 1,291. The percentage of delinquent matters decreased from 6.5 per cent to 5.3 per cent.

Pending active matters in the 157 classification increased by 176, as the total increased from 9,719 to 9,895. Delinquent matters decreased by 15, as the total decreased from 556 to 541. The field-wide delinquency percentage decreased from 5.7 per cent to 5.5 per cent.

By memorandum dated March 24, 1969, it was recommended and approved that individual letters not be written to offices having excessive delinquency in security and related cases for a period of six months in view of the moratorium established relating to security investigations. This moratorium has now been extended for another six months. We will continue the practice of not sending communications to offices having excessive delinquency unless some unusual reason exists for doing so.

There is attached a listing of the offices having a high delinquency indicated by asterisk. We will continue to follow developments in delinquency in these matters.

LIAISON WITH PASSPORT OFFICE
DEPARTMENT OF STATE

We have in the past on a quarterly basis made available to Mr. Robert Johnson, General Counsel, Passport Office, Department of State, a list of individuals included in Priority I of the Security Index. Priority I includes hard-core national and state basic revolutionary organization leaders and leaders of other subversive organizations and unorganized groups who have indicated a propensity for violence or have received special training in sabotage, espionage or guerrilla warfare. This serves as a check list against issuing U. S. passports.

The practice of furnishing similar lists was originally approved by memorandum A. H. Belmont to Mr. Ladd dated 12/8/50. This practice was again approved by memorandum C. D. Brennan to Mr. W. C. Sullivan dated 11/25/68, wherein it was recommended and approved that the Priority I list be made available to Mr. Johnson in place of the lists of top functionaries and key figures, which lists are no longer available since the re-evaluation of the Security Index in May, 1968. This list, which is prepared by the Automatic Data Processing Unit, will be very useful as the Department of State alerts the Bureau to contemplated travel abroad by subversives.

ACTION:

1) That the enclosed Priority I list prepared as of November 14, 1969, be furnished to Mr. Johnson by liaison with the understanding that it is to be held in the strictest confidence by him at all times in his office safe and is to serve only as an alert list upon which State can take no action but must contact us for reports.

2) That the prior list furnished Mr. Johnson be retrieved and returned to Mr. Rosack for destruction.

TO : Director, FBI (100-358086) DATE: 11/23/69

FROM : SAC, Pittsburgh (100-13236)

SUBJECT: SECURITY INVESTIGATIONS OF INDIVIDUALS

ReBulet to Pittsburgh dated 10/31/69, captioned as above, and Pittsburgh airtels to Bureau dated 9/10/69 and 9/25/69, both captioned "SDS; IS-SDS".

For the information of offices receiving copies of this letter, the Bureau has instructed that offices covering the residences of each of the twenty-six females arrested in Pittsburgh on 9/4/69 in connection with the demonstration at South Hills High School by the Weatherman faction of SDS, be furnished pertinent information concerning each of these individuals' activities in Pittsburgh. The Bureau also instructed that receiving offices should be advised that this information is being furnished in view of existing instructions that a determination be made whether a security investigation is warranted and whether overall activities would justify inclusion on the Security Index.

Information concerning the activities of the twenty-six females arrested in Pittsburgh was previously furnished to the Bureau and receiving offices in referenced Pittsburgh airtels.

If not already done, all offices receiving this letter should determine whether security investigations are warranted on the below-listed individuals.

INTERNAL SECURITY - CUBA

Reference is made to your letter to this Bureau dated March 12, 1963, wherein you advised that the Immigration and Naturalization Service (INS) had been requested to pre-position the necessary documents calling for the apprehension of the subject, who was a Cuban alien on the Security Index, when so instructed by the Attorney General.

By letter dated November 14, 1969, you advised that the subject's name should be removed from the Security Index. This action has been taken at the Bureau.

In view of the above, you may desire to arrange with INS to cancel the pre-positioned warrant of arrest and order to show cause.

Letter to All Special Agents in Charge:

RE: EMERGENCY DETENTION PROGRAM

Dear Sir:

The Department has approved a suggestion that Security Index (SI) subjects currently designated as Priority III be maintained separately. For administrative purposes Priority III subjects will continue to be maintained as a portion of the SI but all decisions relating to such individuals will be made strictly within the Bureau. Priority I and Priority II subjects will continue to be reviewed and approved by the Department. This decision was based on the Department's intention to consider only those individuals in Priority I and Priority II for apprehension in the event the Emergency Detention Program is placed in effect.

All SI cards pertaining to Priority III subjects should be immediately separated from those cards pertaining to Priority I and Priority II subjects and maintained in a separate section of the SI. These subjects will continue to be designated as Priority III and the criteria for including subjects in this category will remain the same. The Department will be completely divorced from any action pertaining to Priority III subjects.

This administrative handling of Priority III subjects should not generate any reevaluation of your SI subjects since any redesignations of Priorities at this time will be carefully scrutinized at the Bureau.

Residence and employment of Priority III subjects should be verified on an annual basis as is the current practice. In connection with this verification, the case file should be thoroughly reviewed for any necessary action to be taken

including a reevaluation of the subject's status. This includes removal from Priority III or possible redesignation as a Priority I or Priority II SI subject.

As investigations are completed regarding additional security subjects, the investigative results should be submitted to the Bureau by summary-type report along with your recommendations regarding inclusion on Priorities I, II or III. Once an individual is approved for inclusion in Priority III any pertinent subsequent information may be furnished by letterhead memorandum. No investigative reports will be required in Priority III cases subsequent to the initial summary-type report. Reports will continue to be required in Priority I and Priority II SI cases in accordance with Section 87D of the Manual of Instructions.

With the establishment of this procedure, the maintenance of the Reserve Index A (RI-A) will be discontinued at the Bureau. The RI-A will be maintained solely by each field division in the same manner as Reserve Index B is currently handled.

Manual changes will be forthcoming. All surveys and programs in connection with Emergency Detention Program should be adjusted accordingly. Revision of necessary forms will be forthcoming.

Very truly yours,

John Edgar Hoover
Director

PROGRAM FOR APPREHENSION AND DETENTION OF PERSONS CONSIDERED POTENTIALLY DANGEROUS TO THE NATIONAL DEFENSE AND PUBLIC SAFETY OF THE UNITED STATES

FILE PROCESSED FOR RELEASE
IN CIVIL DISCOVERY
DATE 6-8-78
SEE BUFILE 62-117455

The Department by letter dated November 19, 1969, approved our proposal that Priority III Security Index (SI) subjects be removed from the SI. The Department also agreed that a listing of these Priority III subjects should be maintained by the Bureau for possible action in the event of a national emergency. The Department issued no instructions as to how this listing would be maintained. It will, therefore, be maintained for administrative purposes as a part of the regular SI but these Priority III subjects will be handled strictly within the Bureau. The Department will continue to make all decisions regarding Priorities I and II of the SI.

This method of handling Priority III subjects was brought about by the Department's feeling that Priority III subjects would not be apprehended in the event of a national emergency. The Department feels that only those individuals in Priority I and possibly Priority II of the SI would be apprehended for detention in the event of a national emergency. Individuals in Priority I and Priority II total 2,679. There are 8,170 individuals in Priority III. The total SI numbers 10,849.

A letter to all Special Agents in Charge has been prepared advising that henceforth Priority III subjects will be handled completely within the Bureau. The criteria for including individuals in Priority III remains the same, basically, that such individuals must be rank and file members of an organization considered subversive. All Special Agents in Charge are being advised that this should not mean a lessening of our investigative attention regarding individuals in this category but is actually a concentration of our efforts in areas most essential to the internal security of the country.

Cases on Priority III subjects will be reviewed on an annual basis and verification of residence and employment will be made at that time as is the current practice. The Bureau need be advised only in the event changes are necessary. Such information may be submitted by letterhead memoranda with regular submission of reports being discontinued.

With the establishment of this means of handling Priority III subjects, the maintenance of Reserve Index A (RI-A) will be discontinued at the Bureau. The RI-A will be maintained strictly by each field division. RI-A is made up of individuals who do not meet the criteria for the SI but have had previous connections with subversive groups and are in a position to influence others.

Since the Department has not specifically instructed the Bureau on the method of maintaining this listing of Priority III subjects, it is not necessary to advise the Department. The administrative handling of Priority III subjects is up to the Bureau and can most logically be maintained administratively as a portion of the SI with an inactive status.

RECOMMENDATION:

That the attached letter to all Special Agents in Charge be approved.

SECURITY INVESTIGATIONS OF INDIVIDUALS

ReDNrep of SA Boyd D. Adsit, dated 11/19/69, captioned "New Left Movement; IS-MISC," your file 100-9568.

Page 43 of rerep contains the names of those SDS members from the Colorado area who traveled to Chicago in October, 1969, for the purpose of participating in demonstrations which ultimately led to violence, arrests and considerable property damage. It is noted that the Bureau is not in possession of background and subversive information concerning some of the individuals listed. If you have not already done so, insure that files are reviewed and sources contacted for pertinent information concerning each individual. Results should be furnished the Bureau in appropriate form under the individual case caption, accompanied by your recommendations as to additional action, if any, deemed necessary.

It is further noted that page 22 of rerep identifies a [redacted] as speaking at an SDS meeting in Boulder, Colorado, in September, 1969, at which meeting she spoke regarding possession of bombs and indicated that they would be used against the ROTC at the University of Colorado.

Further, page 26 of rerep contains information concerning [redacted] who reportedly lent his truck for the purpose of transporting SDS members to Chicago in October, 1969. In addition, this individual donated a sum of money to be used as bail money for SDS members arrested in Chicago as a result of their anticipated violent activities in that city.

SECURITY INDEX LISTS

There is attached hereto a current list of names of the individuals maintained in the Security Index. Names included in the main portion of the list are arranged alphabetically. Those individuals coming within three designated groups are listed on separate pages. Following each name is information indicating the race, sex, birth date, Bureau file number and the Bureau field office covering the residence of the individual.

Also attached is a current geographical list of individuals included in the Security Index arranged alphabetically by Priority designation.

It is requested that these lists be given utmost security.

SUBJECT: SECURITY INDEX LISTS

Enclosed herewith is one copy each of the following lists for transmittal to the SAC, Quantico, for storage with other vital records maintained by him.

1) Alphabetical list of Security Index (SI) subjects.
2) Geographical list of SI subjects.
3) Special Section of the SI.
4) List of SI subjects out of country.
5) List of subjects whose citizenship status is unknown.
6) List of aliens.
7) List of SI subjects of Chinese descent.
8) List of SI subjects sympathetic to Communist China.
9) List of SI subjects sympathetic to Cuba
10) List of SI subjects sympathetic to Cuba and China.
11) List of SI subjects who are defectors.
12) List of Progressive Labor Party members.
13) List of SI subjects who are Chinese defectors.
14) List of SI subjects who are Cuban defectors.
15) List of missing SI subjects.

The SAC, Quantico, should destroy by burning the lists furnished November 21, 1969. When this action has been taken, he should so note on this memorandum and return it to the Internal Security Section.

ACTION:

If you approve, this memorandum and the attached lists will be forwarded to SAC, Quantico, for the above action.

SAC LETTER 69-76

(G) EMERGENCY DETENTION PROGRAM -- The Department has approved a suggestion that Security Index (SI) subjects currently designated as Priority III be maintained separately. For administrative purposes Priority III subjects will continue to be maintained as a portion of the SI but all decisions relating to such individuals will be made strictly within the Bureau. Priority I and Priority II subjects will continue to be reviewed and approved by the Department. This decision was based on the Department's intention to consider only those individuals in Priority I and Priority II for apprehension in the event the Emergency Detention Program is placed in effect.

All SI cards pertaining to Priority III subjects should be immediately separated from those cards pertaining to Priority I and Priority II subjects and maintained in a separate section of the SI. These subjects will continue to be designated as Priority III and the criteria for including subjects in this category will remain the same. The Department will be completely divorced from any action pertaining to Priority III subjects.

This administrative handling of Priority III subjects should not generate any reevaluation of your SI subjects since any redesignations of Priorities at this time will be carefully scrutinized at the Bureau.

Residence and employment of Priority III subjects should be verified on an annual basis as is the current practice. In connection with this verification, the case file should be thoroughly reviewed for any necessary action to be taken including a reevaluation of the subject's status. This includes removal from Priority III or possible redesignation as a Priority I or Priority II SI subject.

As investigations are completed regarding additional security subjects, the investigative results should be submitted to the Bureau by summary-type report along with your recommendations regarding inclusion on Priorities I, II or III. Once an individual is approved for inclusion in Priority III any pertinent subsequent information may be furnished by letterhead memorandum. No investigative reports will be required in Priority III cases subsequent to the initial summary-type report. Reports will continue to be required in Priority I and Priority II SI cases in accordance with Section 87D of the Manual of Instructions.

With the establishment of this procedure, the maintenance of the Reserve Index A (RI-A) will be discontinued at the Bureau. The RI-A will be maintained solely by each field division in the same manner as Reserve Index B is currently handled.

Manual changes will be forthcoming. All surveys and programs in connection with Emergency Detention Program should be adjusted accordingly. Revision of necessary forms will be forthcoming.

Very truly yours,

John Edgar Hoover

Director

SUBJECT: RESERVE INDEX A
(SUGGESTION TO ELIMINATE
FORMS FD-122a, FD-128a
AND FD-305a)

417-70 Security Index-Gen

It is suggested that forms FD-122a, FD-128a and FD-305a, all utilized in connection with Reserve Index A (RI-A) subjects, be eliminated.

By memorandum C. D. Brennan to Mr. W. C. Sullivan dated 12/12/69, it was recommended and approved that with the establishment of new administrative procedures in handling Priority III Security Index (SI) subjects, maintenance of RI-A would be discontinued at the Bureau. This action eliminates the necessity of forms FD-122a (to include subject on RI-A or change status), FD-128a (change office of origin on RI-A subject) and FD-305a (utilized to indicate status of RI-A subject in connection with submission of reports). RI-A is made up of individuals who have had some subversive affiliation and who are in a position to influence others based on their occupation as teachers, union representatives, lawyers and so forth.

Periodic reports are no longer required in RI-A cases and the above-mentioned forms will have little or no use with the elimination of handling RI-A index cards at the Bureau. The main purpose of utilizing such forms was to maintain RI-A cards in a current status. In the event any changes in the status of an RI-A subject comes to the attention of the field office which requires notifying the Bureau, the Bureau can be advised by letter or other suitable communication.

REC 100-358086-3991

Sample copies of these forms are attached.

RECOMMENDATION:

10 JAN 5 1970

That forms FD-122a, FD-128a and FD-305a be eliminated.

SUBJECT: PROGRAM FOR APPREHENSION AND DETENTION OF PERSONS CONSIDERED POTENTIALLY DANGEROUS TO THE NATIONAL DEFENSE AND PUBLIC SAFETY OF THE UNITED STATES

Security Indep - Gen

The Department by letter dated November 19, 1969, approved our proposal that Priority III Security Index (SI) subjects be removed from the SI and maintained as a separate listing for possible use in the event of a national emergency. A letter has been prepared to all Special Agents in Charge advising them of this change in the handling of SI cases.

By memorandum dated October 28, 1969, it was suggested and approved that a letter be sent the Department recommending that Priority III SI subjects be removed from the SI since the Department felt only those individuals in Priority I and possibly Priority II of the SI would be apprehended for detention in the event of a national emergency. Apprehension of Priority III SI subjects was extremely remote. The removal of these Priority III subjects reduces the SI from a total of 10,849 to 2,679.

The letter to all Special Agents in Charge advises that Priority III subjects will henceforth be carried on a Rank and File Index (RFI) which will be handled completely within the Bureau. The criteria for including an individual on the RFI remains the same, basically, that such an individual must be a rank and file member of an organization considered subversive. This in no way means a lessening of our investigative attention regarding individuals in this category but is actually a concentration of our efforts in areas most essential to the internal security of the country.

The case on each RFI subject will be reviewed on an annual basis and verification of residence and employment will be made at that time as is the current practice. The Bureau need be advised only in the event changes are necessary. Any pertinent information may be submitted by letterhead memoranda. The regular submission of reports will not be required.

With the establishment of the RFI the maintenance of Reserve Index A (RI-A) will be discontinued at the Bureau and this RI-A will be maintained strictly by each field division. RI-A is made up of individuals who do not meet the criteria for the SI. They have, however, had previous connections with subversive groups and are in a position to influence others due to their employment as teachers, union leaders, and so forth.

It is recommended that we discontinue the practice of analyzing field delinquency in internal security, foreign intelligence and racial matters at the division level. Delinquency in such matters has not increased noticeably as demonstrated by the over-all delinquency in such matters of 5.9% for January, 1969, as compared to delinquency of 5.8% for November, 1969.

Prior to March, 1969, delinquency in such matters was thoroughly reviewed and offices having excessive delinquency were advised by letter of the necessity to reduce such delinquency. Since March, 1969, we have only in rare instances communicated with field divisions regarding excessive delinquency. This was brought about by the moratorium established relating to security investigations.

It is believed that the delinquency in matters handled by the Domestic Intelligence Division can be followed on a section level through review of the monthly administrative reports and any undesirable trends can be called to the attention of the field division by appropriate communication if necessary.

RECOMMENDATION:

That the field delinquency in internal security, foreign intelligence and racial matters henceforth be reviewed by the individual sections within the Domestic Intelligence Division and if necessary appropriate action taken.

SUGGESTION At time of next revision of FD-128 (Transfer of Office of Origin in Security/Racial Matters), suggested following statement be added under block captioned "Check the following applicable statements": "Dissemination made Secret Service locally re above information. Two copies appropriate LHM attached herewith for Bureau". Ten copies of proposed revised form attached.u

Also, if above revision adopted, suggested Manual of Instructions, Vol. III, Section 87D, item 7b, (9), (a), be revised under VI to include paragraph "Old Office of Origin is responsible for furnishing Secret Service locally with subject's new residence and business address."u

O Security Indx - General

Current practice or rule (Include manual citation as well as facts) Current FD-128 contains no statement re submission of forms to Secret Service. Manual of Instructions, Vol. III Sec 87D, item 8a (9), Page 81a sets forth old office of origin is to advise Secret Service Locally of new residence and address*(continued below)

Advantages of suggestion and annual savings (include basis for estimate)
Placement of suggested statement on FD-128 would insure appropriate forms are furnished Bureau by old office of origin and new office of origin is cognizant Secret Service has been advised.
Revision of manual instructions would insure appropriate submission of forms by old office of origin.u

*(Current practice or r[illegible], etc.)(Cont'd)
Manual of Instructions, Vol. III, Sec 87D, item 7b,(9),(a) concerns movement of subjects between offices and transfers of security index cards; however, instructions re advising of Secret Service by old office of origin are not presently included in this section.u

Disadvantages of suggestion
None. Cost would be assimilated by including above revision in next over-all revision of FD-128.u

Recommendations and comments of Division Head
Suggestion appears to have merit. It would provide extra assurance that appropriate information concerning change of residence and employment has been furnished to Secret Service as an interested party. I recommend that this suggestion be adopted and form FD-128 be revised.u

Add Black Panther Party (BPP) to FD-122 and FD-122a (Security Index and Reserve Index forms) under organizational affiliation or nationalistic tendency. Delete Revolutionary Action Movement (RAM) from above-mentioned forms since this organization is practically nonexistent. Suggested revisions are attached.

General

Current practice or rule (Include manual citation as well as facts)

Field Offices are required under Section 87D of Manual of Instructions to check appropriate box under organizational affiliation or nationalistic tendency when recommending individuals for Security Index or Reserve Index.

Advantages of suggestion and annual savings (Include basis for estimate)

Forms FD-122 and FD-122a have no listing for the Black Panther Party. When recommending a BPP member for Security Index or Reserve Index, the Field Office does so by checking a box marked BNT referring to Black Nationalist. Suggestion set forth above will allow SI and RI cards to accurately show a BPP member as such on these cards. When these forms were revised to add certain black extremist categories, the BPP was not as active as it is today. Now it is the most active of the black extremist groups and approximately 75 to 80 per cent of the black extremists included on the Security Index are BPP members.

Disadvantages of suggestion

ADDENDUM - DOMESTIC INTELLIGENCE DIVISION - 11/10/69 - LEB:bbr:

Suggester recommends forms FD-122 and FD-122a, used in connection with the Security Index and Reserve Index, be modified by adding block entitled BPP (Black Panther Party) and deleting block entitled RAM (Revolutionary Action Movement) in the space on the form showing organizational affiliation or nationalistic tendency. Suggester notes BPP affiliation presently shown in the block entitled BNT (Black Nationalist) and adoption of block for BPP will more precisely categorize those on Security Index or Reserve Index for BPP activities. He adds that since RAM is practically nonexistent, block for RAM should be deleted.

In completing the FD-122 and FD-122a for the Security Index or Reserve Index, present instructions in Section 87D of the Manual of Instructions require that appropriate blocks under the organizational affiliation or nationalistic tendency must be checked off as appropriate. In the case of members of the BPP at present it is necessary to check off the block for BNT. Since most of the individuals being recommended for the Security Index or Reserve Index who are active in the black militant field are members of the BPP, these members would be easily distinquishable on the Security Index or Reserve Index if the BPP block was utilized. The RAM is very inactive at the present time and it would appear that RAM block is of little use. It may be noted also that the suggestion should not be put into effect immediately but should be made effective upon the next printing of forms FD-122 and FD-122a.

In view of the above, it is recommended that the suggestion, as modified, be adopted. It is recommended further that comments of Division 3 be solicited in this matter.

Dissemination of relet is not being made to field offices or to Legat, Tokyo. There is insufficient identifying data concerning subject to enable these offices to conduct an indices search. Except for the fact that subject visited the home of two persons who are only associates of the American Communist Group in Mexico (ACGM), there does not appear to be any substantial subversive data concerning [redacted] Therefore, the additional copies of relet are being destroyed at the Bureau.

Other memoranda of similar content have been received from your office recently. Enclosed for your attention and consideration are single copies of 13 of these memoranda which have been handled.

Data similar to that contained in the enclosed material may best be incorporated in an LHM under the caption of the security subject with whom the individual is in contact, or perhaps included in a general memorandum suitable for dissemination under the caption "American Communist Group in Mexico (ACGM), SM - C," Bufile 100-422116. This would enable the Bureau to index names and effect dissemination where necessary. Cases should be opened concerning individuals only when the subversive allegation appears sufficiently material or substantial to justify further investigation. This should in no way deter you in your handling of security matters in Mexico.

Letter to Legat, Mexico City
RE: SECURITY INVESTIGATIONS
OF INDIVIDUALS
100-358086

~~SECRET~~

NOTE:

The referenced letter and the 14 memoranda being forwarded were submitted by Legat, Mexico, under individual case captions and contain nebulous security information. In most instances the captioned individual has had contact with American associates (not members) of the ACGM and this appears to be insufficient basis to open individual cases. It is felt that furnishing Legat, Mexico, with a quantity of this type of letter being submitted by his office will enable him to better supervise security reporting procedures from Mexico City.

SUBJECT: SECURITY INDEX LISTS

Enclosed herewith is one copy each of the following lists for transmittal to the SAC, Quantico, for storage with other vital records maintained by him.

1) Alphabetical list of Security Index (SI) subjects.
2) Geographical list of SI subjects.
3) Special Section of the SI.
4) List of SI subjects out of country.
5) List of subjects whose citizenship status is unknown.
6) List of aliens.
7) List of SI subjects of Chinese descent.
8) List of SI subjects sympathetic to Communist China.
9) List of SI subjects sympathetic to Cuba.
10) List of SI subjects sympathetic to Cuba and China.
11) List of SI subjects who are defectors.
12) List of Progressive Labor Party members.
13) List of SI subjects who are Chinese defectors.
14) List of SI subjects who are Cuban defectors.
15) List of missing SI subjects.

The SAC, Quantico, should destroy by burning the lists furnished December 12, 1969. When this action has been taken, he should so note on this memorandum and return it to the Internal Security Section.

ACTION:

If you approve, this memorandum and the attached lists will be forwarded to SAC, Quantico, for the above action.

PROPOSED CHANGE IN MANUAL OF INSTRUCTIONS

Section 87D, 7f, (7), (c), I, (A) and (B), page 74, should be amended to read as follows:

(A) Cases of all other security index subjects must be followed by administrative ticklers set up so as to insure submission of a periodic investigative report according to priority designation for Priority I and Priority II. If, following investigation, no subversive data is developed and the only available information consists of verification of residence and employment and negative contacts with security informants and sources, submit in lieu of a report a letter (form FD-400) to the Bureau setting forth identities of informants and sources contacted, any additional administrative data deemed necessary, and form FD-305 properly executed. The cases shall be opened and assigned 45 days prior to the date the periodic report is due.

(B) Each Priority III security index case must be opened for verification of residence and employment on an annual basis. In connection with this verification case file must be thoroughly reviewed for any necessary action including a re-evaluation of the subject's status. This will include removal from Priority III or possible redesignation as a Priority I or Priority II security index subject.

Where necessary pertinent information may be submitted to the Bureau or other field divisions through the preparation of a letterhead memorandum. When pertinent information is submitted to the Bureau for dissemination to interested agencies of the Executive Branch of the United States Government, forms FD-305 and FD-376 should accompany the cover communication transmitting the letterhead memorandum. PROPOSED CHANGE IN MANUAL OF INSTRUCTIONS

Section 87D, 7b, (9), (a), VI, page 59, should be amended to read as follows:

VI. The old office of origin will submit current report in Priority I and Priority II security index cases and a succinct letterhead memorandum in Priority III security index cases.

- GEN'L

Submission of FD-128 should not be delayed solely for preparation of report or letterhead memorandum when office of origin is to be changed, but notation should be made on FD-128 that old office of origin is preparing appropriate communication.

Case will remain pending in both old and new offices of origin until report or letterhead memorandum is submitted by old office of origin. The new office of origin is responsible to follow the matter until completed.

In Priority III security index cases a succinct letterhead memorandum should be prepared setting forth all pertinent information for the Bureau and new office of origin. If applicable, the information contained therein may be summarized. The yellow file copy retained by the old office of origin must contain notations indicating the exact location of all original information which has been set forth or summarized in the letterhead memorandum. The cover communication transmitting such letterhead memoranda must contain a statement indicating that such notations have been made.

PROPOSED CHANGE IN MANUAL
OF INSTRUCTIONS
SECURITY INDEX - GEN'L

Section 87D, 7a, (3), IV, (A), (B), (C); and (D), page 42c, should be amended to read as follows:

IV. Changes, additions, and deletions of data appearing in section A of reserve index cards

(A) Changes in data appearing on section A reserve index cards should be forwarded to the clerk in each field division handling these cards.

(B) Deleted

(C) Changes in office of origin are to be handled by submission of form FD-128. Forward section A cards to new office of origin. Where necessary pertinent information should be forwarded to the new office of origin through preparation of a succinct letterhead memorandum which will be forwarded by appropriate cover communication.

(D) In preparing a succinct letterhead memorandum for the purpose of transmitting pertinent information to the new office of origin, the yellow file copy for the office preparing this memorandum must contain notations as to the exact location of all original information contained therein. Statements should be included in the cover communication transmitting the succinct letterhead memorandum indicating that the original source information has been noted on the office file copy.

SUBJECT: SECURITY INVESTIGATIONS OF INDIVIDUALS - General

SYNOPSIS:

Manual of Instructions (MOI) provides that cover pages of organizational reports in security matters must contain a statement that all individuals mentioned therein are on the Security Index or are informants. Exceptions to this statement and status of investigations regarding such individuals must also be set forth. A tendency has been noted on the part of the field not to set forth these exceptions and subsequent spot checks of Bureau indices indicates Bureau is not in possession of pertinent communications concerning individuals who should be subjects of security investigations. Failure of field to strictly comply with these instructions gives Bureau no assurance that security investigations of individuals are being opened where warranted and tends to create an administrative bottleneck at the Bureau in checking same.

RECOMMENDATION:

That the attached letter to all field offices, instructing field to adhere to above-cited manual provision and advising that field is solely responsible for initiating security investigations of individuals where warranted, be approved and sent to the Mechanical Section in order that appropriate copies be made.

FEB 19 1970

Memorandum to Mr. W. C. Sullivan
RE: SECURITY INVESTIGATIONS OF INDIVIDUALS
100-358086

DETAILS:

Section 87E, 2b (4), page 83 of the MOI states in part that reports concerning organizations and movements which are under investigation from a security standpoint should include in the cover pages a statement that all persons named in the report as officers, leaders or leading activists are included on the Security Index or are informants or sources. Exceptions are to be noted and a statement made as to the status of investigations regarding each.

Purpose of the above manual provision is to insure that initiation of security investigations of individuals is receiving proper attention in the field and to facilitate administrative handling of the report at the Bureau.

Recently there has been noted a tendency on the part of some field offices to include the general statement as set forth above with no listing of exceptions. Subsequent spot checks of Bureau indices regarding names of individuals mentioned in the report deemed worthy of investigation fail to indicate these individuals have been subjects of security investigations. The Bureau has then had to follow with a communication to the field inquiring as to the status of investigations concerning such individuals.

Reports concerning active organizations and movements do, of necessity, contain the names of numerous individuals associated with related activity. For the Supervisor at the Bureau to check all such names appearing in these reports to insure that proper action is being taken by the field is not only burdensome and time-consuming, but also works an unnecessary hardship on the indices and file review sections of the Files and Communications Division.

In line with our current administrative streamlining procedures being adopted by this division, it is believed that now would be an appropriate time to place the field on notice that they are, in the future, being held strictly responsible regarding the initiation of investigations of names appearing in organizational reports where warranted. At the same time, the field will be instructed to adhere to the above-cited manual provision as this practice will, to a large extent, negate the necessity of requesting search slips and file reviews regarding individuals mentioned in these reports to insure that the Bureau is in possession of pertinent information.

It takes very little time to check another index in a field office as compared to time and effort needed to make a new card at SOG each time a change occurs regarding an individual in that he is canceled from one index or the other. In addition, you could not always rely on information on card regarding this matter since a change could occur in a given situation before a new card could be produced and furnished appropriate offices. SUGGESTION

In many instances a Security Index Subject is also on the Agitator Index. Since the Security Index and the Agitator Index are separately maintained, it is my suggestion that in cases where a Subject is on both the SI and the AI - the SI and AI cards should reflect same...at top of said cards. In this way, simply by looking at either the SI card or the AI card you would immediately know that Subject is on both Indexes.

Since file fronts are stamped "SI" for Security Index Subjects, but are not stamped to indicate Agitator Index Subjects, having appropriate notation on SI and AI cards would be most helpful as it would not necessitate a review of the files.

Current practice or rule (Include manual citation as well as facts)

At present, no cross reference is made to either Index.

Advantages of suggestion and annual savings (Include basis for estimate)

It would facilitate handling of matters pertinent to either respective Index, and result in time saving where reviews of files must be conducted in either or both instances.

LIAISON WITH PASSPORT OFFICE
DEPARTMENT OF STATE

We have in the past on a quarterly basis made available to Mr. Robert Johnson, General Counsel, Passport Office, Department of State, a list of individuals included in Priority I of the Security Index. Priority I includes hard-core national and state basic revolutionary organization leaders and leaders of other subversive organizations and unorganized groups who have indicated a propensity for violence or have received special training in sabotage, espionage or guerrilla warfare. This serves as a check list against issuing U. S. passports.

The practice of furnishing similar lists was originally approved by memorandum A. H. Belmont to Mr. Ladd dated 12/8/50. This practice was again approved by memorandum C. D. Brennan to Mr. W. C. Sullivan dated 11/25/68, wherein it was recommended and approved that the Priority I list be made available to Mr. Johnson in place of the lists of top functionaries and key figures, which lists are no longer available since the re-evaluation of the Security Index on May, 1968. This list, which is prepared by the Automatic Data Processing Unit, will be very useful as the Department of State alerts the Bureau to contemplated travel abroad by subversives.

ACTION:

1) That the enclosed Priority I list prepared as of February 13, 1970, be furnished to Mr. Johnson by liaison with the understanding that it is to be held in the strictest confidence by him at all times in his office safe and is to serve only as an alert list upon which State can take no action but must contact us for reports.

2) That the prior list furnished Mr. Johnson be retrieved and returned to Mr. Rosack for destruction.

SUBJECT: SECURITY INVESTIGATIONS OF INDIVIDUALS (U)

ReBulet 1/29/70 captioned as above, which in part advises that material relating to various individuals similar to that enclosed with ReBulet, should best be incorporated in an LHM under the captioned security subject with whom the individual in question was in contact, or in a general memorandum suitable for dissemination under the caption, "AMERICAN COMMUNIST GROUP IN MEXICO (ACGM), SM - C", Bufile 100-422116. (U)

This matter has been given very careful consideration by this office. In the past this office has endeavored to conform with the Bureau's instructions as set forth in Bulet 2/23/65 captioned [redacted] SM - C (Bufile 100-12632); [redacted] SM - C (Bufile 100-421747)", in handling communications relating to American residents who are in contact with ACGM associates either directly or by mail, as shown by our informant coverage [redacted]

(S)

In Bulet of 2/23/65, the attention of this office was called to the fact that communications had been submitted under the caption of the [redacted] relating to their contacts and communications with other individuals wherein the contents primarily concerned the other individuals who were located within the jurisdiction of the various field offices. The Bureau pointed out that the practice of grouping information which primarily concerns individuals other than the subject of the case file creates administrative problems in handling that information, both at the Bureau and in the field offices having investigative interests in the matter. The Bureau desired, therefore, that when information concerning persons in the United States was received incidental to investigations effecting Mexico City subjects, that information should be submitted under the caption of the individual or individuals involved and it was desired, therefore, that future communications should bear individual captions. Buy U.S. Savings Bonds Regularly on the Payroll Savings Plan

Past experience has shown that contact with ACGM associates on the part of visitors from the United States is frequently of more than usual significance. As the Bureau is aware, the ACGM is not a formal organization and therefore, has no "members". The name American Communist Group in Mexico (ACGM) is a term developed by informants of this office several years ago to designate the American communists who had for one reason or another left the United States and taken up residence in Mexico. Those individuals were not merely ordinary cell members of the CP USA prior to their arrival in Mexico but occupied leadership positions in various functions of the CP USA. While in Mexico they have continued to maintain their communist-oriented ideology and firm desire to see the government of the United States overthrown. The bifurcation of the communist movement in the United States resulting from the development of the Chinese communist theories and programs, as well as the development of the "New Left" and the appearance of militant black nationalism, is reflected among the associates of the ACGM. Although these individuals vary in their support of the Soviets, the Chinese, the New Left and the militant black nationalists, they still retain the common denominator of dedication to the overthrow of the U. S. government. Although not openly engaged in subversive activities in Mexico, in order to avoid being expelled by the Mexican government, they have continued to support subversive movements in the United States by giving both moral and financial support to those subversive groups (S)(U)

The ACGM is a very tightly-knit group and coverage as well as attempts to infiltrate informants into the group, has shown that they accept on an equal basis only visitors previously known to them as "fellow revolutionaries" or who come to Mexico well documented and recommended by "trusted" comrades in the U. S. Any person to whom suspicion is attached through failure to obtain proper recommendations is ostracized (S)(U)

In view of the makeup of this group, coverage has been concentrated largely on the principal figures who are contact points for Americans coming to Mexico, such as [redacted] (Bufile 100-395934) [redacted] as well (S) b1 b6 b7C

as through live informants operated by this office who likewise are able to furnish some coverage of [redacted] in Cuernavaca. While the ACGM has had no recognized leader since the death of SAMUEL BROOKS (Bufile 100-290429) in 1963, [redacted] for many American communists visiting Mexico. He has also become involved in communist-oriented "civil rights" groups in the United States and is sympathetic with the militant black nationalist groups. This office discounts his claim made during the investigation of LEE HARVEY OSWALD for the murder of President KENNEDY that [redacted] This is considered to be braggadocio on his part, but it is recognized that [redacted] (X) (U) [redacted] is considered by this office to be a key figure, although she may be one of the few exceptions since it is not known whether she occupied a key position in the CP USA prior to coming to Mexico. In Mexico, however, she has joined the Mexican Communist Party [redacted] and she is active in the underground Mexican communist movement. She also [redacted] Communist Party of Mexico and the ACGM. Even more important in the opinion of this office is the fact that in recent years she has adopted the philosophy of the militant black nationalists in the United States and is contacted by such individuals when they visit Mexico. In fact, she was reported to have been [redacted] (X) (U) [redacted] was selected as a prime target for coverage whenever possible in view of his position in the international communist movement. [redacted] as the Bureau is aware, [redacted] from the United States by U. S. INS for communist activities. While in the United States he at one time served [redacted] He is an [redacted] only those people who come to them very highly recommended politically, or persons with whom they were in the past engaged in pro-communist activities. (X) (U)

(S)

MEX 66-364

While coverage is concentrated insofar as possible on [redacted] information is available through informant coverage [redacted] (S) concerning other associates of the ACGM who although not as prominent as contact points are nevertheless as selective in the political orientation of the people they accept in their homes and with whom they freely associate. Admittedly, coverage is not complete enough to reveal all of the subversive statements and activities of the American visitors who are in contact with these ACGM associates, but it is believed that their acceptance by the established ACGM associates is a very good indication of the political orientation of those visitors. Since the visiting Americans come from widely scattered parts of the United States, this office is in no position to evaluate their subversive potential in the absence of prior correspondence from the Bureau or the domestic field. Whenever any information is received which might assist in identifying the visitor or the locale from which he or she originates in the U. S., this office has furnished that information to the Bureau and the interested field office for information and any action deemed desirable. Even though the limited coverage available to this office in some cases does not reveal actual subversive activities on the part of the visitors, the fact that they are accepted as contacts by associates of the ACGM is sufficient grounds to alert the Bureau and the interested field offices concerning the foreign travel of probable security subjects.

b1
b6
b7C

This office remains vigilant to fulfill the Bureau's responsibilities in detecting and identifying potential couriers, Espionage agents and individuals who might be operating in a covert intelligence capacity. To satisfy this responsibility, logical sources are constantly reminded to remain alert to the identification of individuals visiting Mexico and who contact subjects of interest residing in Mexico. Because of the subversive potential of ACGM associates and these visitors, it is believed that initial inquiries by the domestic office involved would be desirable whenever possible to determine the residence and employment of the visitor and review records for previous subversive activity. A determination as to whether, in the light of information developed, the visitor represents a danger

b6
b7C

MEX 66-634

[redacted]

to the security of the United States which would necessitate additional investigation is, of course, not for this office to make. When information developed locally is inadequate to determine whether the visitor involved is oriented primarily toward the CP USA, the New Left, or the militant black nationalists, we have in the past reported their presence in Mexico under the SM - C character in view of the communist-orientation of the ACGM. (U)

The system utilized by this office of advising the Bureau of foreign travel of persons suspected of being communists or who contact ACGM associates where no other substantial subversive information is developed in Mexico, has resulted in various instances of this office subsequently being advised those individuals were included in various sections of the Security Index. This result goes back to 1952 when [redacted] (Bufile 105-12761) was first reported as planning to come to Mexico, through December 1969 when [redacted] (Bufile 100-176689) was reported as visiting this country. In the intervening period many other persons later identified as Security Index subjects have surfaced as a result of contact with the ACGM as well as many subjects of investigative interest to the Domestic Field. (U)

It is believed that the system of advising the Bureau and the pertinent field office of whatever information this office can develop concerning American visitors in contact with the ACGM has been fruitful even though limited identification information is available and no information is developed during the reported contacts in Mexico showing other substantial subversive activities in Mexico on the subject's part. It is for this reason that this office submitted a letter dated 6/25/69 captioned [redacted], SM - C" relative to contacts between that individual and [redacted] Although the contact as reported was devoid of subversive comments, it was felt the Bureau should be advised because of the nature of [redacted] activities. The New York Office subsequently responded by letter dated 8/4/69 advising that [redacted] was identical with [redacted] on the RI - B in that office. (U)

Sources of this office in San Miguel de Allende, Guanajuato, Mexico, have been alerted to our interest in the [redacted] (U)

[redacted]

identification of any American citizens who might come under suspicion as possible black nationalists since that community is attracting an unusually large number of dissident Americans, some of whom are Negroes. As a result, they reported the presence of one [redacted]. No actual subversive information could at that time be attributed to that individual by the sources, but due to suspicion based on his general attitude and activities, the information was reported to the Bureau under [redacted] caption. It was subsequently determined that this individual was identical to [redacted] of interest to the Minneapolis Office, whose presence in Mexico was previously unknown.

With regard to the enclosures submitted with referenced Bulet of 1/29/70, it is regretted that the reasons why those communications were submitted to the Bureau were not originally clarified by this office, but the following observations are submitted for the Bureau's consideration:

Regarding [redacted] SM - C", Mexico City file 100-3403, this office has in the past proceeded under the assumption that only in instances involving very common names would an indices search by a domestic office or another Legal Attache's Office be impractical. As noted above, this office believes that direct contact by an American visitor with an ACGM associate should be brought to the attention of the Bureau and the interested domestic offices where, based on information available in the files, a determination could be made whether any additional action is necessary or whether the data should be retained for possible future reference.

In the case of [redacted] the information developed in Mexico pointed out he was in support of communist causes in the United States and in favor of the Students for a Democratic Society and the Black Panther Party. It was, therefore, felt that his presence in Mexico should be brought to the attention of the Bureau and the appropriate field office.

In the case of [redacted] (Bufile 100-43381), information concerning his plans to visit Mexico in March 1970 to obtain material from members of the Spanish Communist Party

b6
b7C

MEX 66-634

in Mexico for [redacted] should be brought to the attention of the Bureau and the New York Office since [redacted] and both he and [redacted] have been under investigation by the New York Office (U)

In the case of [redacted] it is felt their presence in Mexico should be called to the attention of the Chicago Office since they were traveling with [redacted] a communist known to be of interest to Chicago. (U)

In the case of [redacted] it is felt that in view of his degree of association with [redacted] as well as with [redacted] both of whom are known to the Bureau, might indicate that a preliminary inquiry would be desired by San Francisco. It is regretted that the informant apparently inadvertently misspelled the subject's name as [redacted]. It has been subsequently determined from personnel of this office who formerly worked in Chicago that he is [redacted] who as the Bureau is aware was a prominent functionary of [redacted] for many years and would therefore be readily recognizable to Security Agents in Chicago and San Francisco. (U)

In the case of [redacted] it is felt that the degree of her association with [redacted] who is known to the Bureau, coupled with her activity in the "peace movement" should be brought to the attention of the Bureau and the domestic field so that consideration could be given to possible need for preliminary inquiry in the event she was not already known to the domestic field. (U)

In the case of [redacted] it was felt her regular visits with the [redacted] identified above, would be substantial enough cause for consideration to be given for a possible preliminary inquiry in the event she was not already under investigation. (U)

In the case of [redacted] it was believed his close association with [redacted] coupled with his rather dramatic opposition to the draft, would indicate pro-communist motivation which would be of interest to the Bureau and the appropriate field office. (U)

In the case of [redacted] it is noted he indicated a desire to contact individuals in Mexico City connected with the Students for a Democratic Society and "young Negroes", a (U)

combination which would indicate New Left orientation. It was therefore felt that his presence in Mexico should be reported in order to determine whether further investigation might be necessary.

In the case of [redacted] the only allegation was her association with [redacted] reportedly a member of the Black Panther Party who is in Mexico. It was felt this information should be furnished to the Bureau and the domestic field in case [redacted] was of investigative interest.

The remaining individuals whose presence in Mexico was reported among the enclosures with reBulet of 1/29/70, were reported to the Bureau due to their contact with ACGM associates.

In the future when information concerning an individual in contact with ACGM associates comes to the attention of this office where no data is available to aid in the identification of that individual or establish some indication of his residence, UACB the information received will be incorporated in an appropriate communication under the caption of the security subject with whom the individual is in contact. If, however, the information received includes data which would assist in identifying the individual or the community from which he comes, UACB this information will be incorporated in an appropriate communication under the caption of the individual involved for the information of the Bureau and the pertinent domestic office for any action deemed advisable.

INTERNAL SECURITY - CHINA

The subject, a Chinese alien, was approved for retention on the Security Index (SI) by Department letter January 21, 1966. By letter dated March 15, 1966, the Department advised that the Immigration and Naturalization Service had been requested to preposition the necessary documents calling for the apprehension of the subject when so instructed by the Attorney General.

According to available sources, the subject has not been active in any organization whose activities are inimical to the internal security of the United States since 1966. He also reportedly has become disenchanted with the government of Communist China as a result of the Cultural Revolution. He indicated a cooperative attitude when interviewed by Agents of the FBI on December 10, 1969, stating he was opposed to the government of Communist China because it had not fostered individual freedom and does not permit freedom of expression.

In view of the above, the subject has now been removed from the SI. You may desire to have the documents previously issued concerning the subject in connection with the Chinese Emergency Detention Program canceled.

SUGGESTION: When Form FD-128 (Letter Changing Office of Origin in Security Cases) is next revised, suggests following statement be added under block captioned "Check the following applicable statements": "Dissemination made Secret Service locally re above information. (Two copies appropriate LHM attached herewith for Bureau.)" Sample of revised format is attached to background material. If approved, suggests Manual of Instructions, Vol. III, Section 87D, item 7b, (9), (a), be revised under VI to include paragraph "Old Office of Origin is responsible for furnishing Secret Service locally with subject's new residence and business address."

LHM should not be attached to FD-128. Statement was not included on forms.

CURRENT PRACTICE: The suggester notes that present instructions require the old office of origin to advise Secret Service locally of new residence and address and also contains rules regarding movement of subjects between offices and transfers of Security Index (SI) cards; however, instructions re advising of Secret Service by old office of origin are not presently included. (IN THE SECURITY INDEX SECTION OF MANUAL)

ADVANTAGES: [redacted] feels the statement on Form FD-128 would insure appropriate forms are furnished SOG by old office of origin and new office of origin would be cognizant Secret Service has been advised. Revision of manual instructions would insure appropriate submission of forms by old office of origin.

EX. - 106 REC-29 100-358086-4011

OBSERVATIONS: SAC Farrow, Springfield, felt the idea had merit as it would provide extra assurance that appropriate information concerning change of residence and employment has been furnished to Secret Service as an interested party.

Re: Security Index - General

Domestic Intelligence Division pointed out Form FD-128 is used by the office of origin to designate another office as office of origin when a SI or Reserve Index (RI) subject is moving from one jurisdiction to another. This Division was of the opinion that the responsibility for local dissemination to Secret Service when a subject moves to the jurisdiction of another office, although now set out in the Manual of Instructions, would be further clarified if it would also appear in Section 87D, item 7b, (9), (a), inasmuch as this section deals specifically with the movement of subjects from the jurisdiction of one office to that of another, and for this reason recommended adoption. The portion of the idea to include a statement on the FD-128 that the old office of origin has disseminated locally to Secret Service would be further assurance to the new office of origin that the required dissemination has been made; therefore, it was recommended this portion also be adopted.

Due to these views, Training Division has no objection to taking the proposed action.

RECOMMENDATIONS: (1) That the suggestion be adopted and the attached letter of appreciation be forwarded to the suggester. She has been thanked by prior letter.

(2) On approval, this memorandum will serve as the authority for the Forms Management Desk and the Manuals Desk, Training Division, to take appropriate action.

NOTE: Suggests revising FD-128 (sample attached) to place residence and employment spaces side by side to facilitate handling at SOG. Key Facility data being added since such data is vital in amending Security Index cards. Two additional ballot boxes are being added, one to indicate that extra copy of FD-128 is attached for Identification Division in connection with security flash notice and other box being added to indicate that subject of the FD-128 was carried on the Reserve Index.

Domestic Intelligence Division advised the idea as presented would facilitate handling of cases involving Security Index subjects and recommended it be adopted at next printing of the form.

Employee Suggestion
FD-252 (Rev. 9-11-59)

#581-10

Date: February 24, 1970

To: Director, EBI

From: (Suggester's name)

Division of Assignment: Domestic Intelligence

SUGGESTION To revise FD-128 to place residence and employment blocks side by side to facilitate handling at Seat of Government. This manner of placing residence and employment makes the form more clear and readily understandable and in conformity with physical setup of FD-122.

Key Facility data also being added since such data is vital in amending Security Index cards.

Two additional blocks are being included, one to indicate that extra copy of FD-128 is attached for Identification Division in connection with security flash notice, and the other block being added is to indicate that subject of this FD-128 was carried on the Reserve Index.

A copy of the suggested revised FD-128 is attached.

"SECURITY INDEX - GENERAL"

Current practice or rule (Include manual citation as well as facts) Under current practice, FD-128 carries residence address first under which appears space for business address. Security Index card carries business address followed by residence address. Other two suggested changes not currently carried on FD-128.

Advantages of suggestion and annual savings (include basis for estimate)

It is believed that these suggestions will facilitate and ease the handling in changes of office of origin relating to Security Index subjects. Although this suggestion will not result in any savings to the Bureau, it will certainly assist in a smooth handling of changes in office of origin both at the Bureau and in the field.

Disadvantages of suggestion

None known.

(The use by the United States of my suggestion shall not form the basis of a further claim of any nature by me, my heirs, or assigns upon the United States. I understand that I will be considered for any justified award only if my suggestion is adopted within two years after submission.)

ADDENDUM: DOMESTIC INTELLIGENCE DIVISION 2-27-70 AES:plm

Suggester recommends revision of FD-128 as follows:

Place residence and employment blocks side by side in order to facilitate handling at Seat of Government; add key facility data as this information is vital in amending Security Index cards; add two additional blocks, one to indicate that a copy of FD-128 is attached for the Identification Division in connection with Security Flash notice and the other block to indicate that subject is carried on the Reserve Index.

At the present time, FD-128 carries the residence address first, under which appears space for the business address. Key facility data and blocks to indicate copy of FD-128 furnished to Identification Division or to indicate subject is carried on the Reserve Index does not appear on the present FD-128.

Domestic Intelligence Division is of the opinion that the suggestion as presented would facilitate the handling of cases involving Security Index subjects and recommends that the suggestion be adopted at the next printing of the FD-128. A sample of the revised FD-128 is attached.

NOTE: Suggests Form FD-305 be revised to include in Item 1 a ballot box to check regarding "Reserve Index" and to include Item 2a to provide for checking ballot boxes to indicate data on "Reserve Index A" or "B" is current or has been changed. These changes are necessary since the FD-305a relating strictly to the "Reserve Index" has been discontinued. This information will assist field in keeping this data current since the "Reserve Index" is no longer maintained at SOG (sample of revised form attached).

Domestic Intelligence Division advised adoption of the idea will insure Bureau that proper attention is being afforded cases in field where a "Reserve Index" subject is involved. The FD-305 is also used when changing an office of origin and in this instance it will provide

SUGGESTION

To revise FD-305 to include in Item 1 a block to check regarding Reserve Index and to include Item 2a providing check-off blocks to indicate data on Reserve Index A or B is current or has been changed. These changes are necessary since the FD-305a relating strictly to the Reserve Index has been discontinued. This information will assist the field in keeping Reserve Index data current since the Reserve Index is no longer maintained at the Bureau. Attached is a copy of proposed revised FD-305.

*Security Index - ges

Current practice or rule (Include manual citation as well as facts)

There is currently no space provided for data relating to Reserve Index.

Advantages of suggestion and annual savings (include basis for estimate) The maintenance of Reserve Index A has been discontinued at the Bureau. All Reserve Index cases are now maintained solely in the field. Reserve Index forms have also been discontinued. Placing this information on the FD-305 will insure the Bureau that proper care and attention is being afforded such cases by the field whenever a Reserve Index case is reviewed by the field for any reason. This form is also utilized in changing office of origin in such matters and will provide the new office of origin with the assurance that current information is continued on the Reserve Index cards which will be transferred from the old office of origin directly to the new office of origin.

Disadvantages of suggestion

None known.

Suggester recommends revision of FD-305 to include in item 1 a block to check regarding Reserve Index status; to include in item 2 (a) providing check-off blocks to indicate that data on Reserve Index A or B is current or has been changed.

At the present time, there is no space provided for on the FD-305 regarding Reserve Index status.

At the present time, the maintenance of Reserve Index A has been discontinued at the Bureau, and Reserve Index A, as well as B, are maintained solely in the field. Adoption of the suggestion will insure the Bureau that proper attention is being afforded cases in the field where a Reserve Index subject is involved. The FD-305 is also used when changing an office of origin. In such case adoption of the suggestion will provide the new office of origin with assurance that the current information is contained on the Reserve Index cards which are transferred from the old office of origin to the new.

The Domestic Intelligence Division is of the opinion that this suggestion has merit and should be adopted at the next printing of the FD-305. A sample of the suggested revision of the FD-305 is attached.

In connection with the above, it has been necessary to make changes regarding the submission of reports in routine security matter investigations. In addition, routine investigations will not be instituted for the purpose of verifying current residence and employment of security subjects. These changes will remain in effect until January 1, 1971, when the situation will be reevaluated.

As you are aware, copies of reports relating to security subjects have been furnished to you. You have also been advised when a change occurred in the residence and/or employment of these subjects. This information has been forwarded to you in order to assist your agency in fulfilling its responsibilities.

In view of the changes in our investigative procedures, such information will no longer be furnished on a periodic basis. In the event pertinent information does come to the attention of this Bureau regarding these security subjects, you will, of course, be advised.

PROGRAM FOR APPREHENSION AND DETENTION OF PERSONS CONSIDERED POTENTIALLY DANGEROUS TO THE NATIONAL DEFENSE AND PUBLIC SAFETY OF THE UNITED STATES

The intensification of investigative responsibilities in connection with organized crime matters and the activities of New Left terrorists has resulted in an increased manpower burden being placed on this Bureau.

Accordingly, it has been necessary to make several changes in the reporting of information concerning Security Index (SI) subjects who are included under the captioned program. These changes, set forth as follows, will remain in effect until January 1, 1971, when the situation will be reevaluated.

No reports concerning those SI subjects designated as Priority II will be prepared during this period. Further, no investigation will be instituted for the purpose of verifying the current residence and employment of subjects designated as Priority II or Priority III.

The foregoing changes do not affect the handling of those cases concerning subjects designated as Priority I.

SUBJECT: SECURITY INVESTIGATIONS OF INDIVIDUALS

Memorandum C. D. Brennan to Mr. Sullivan, dated March 31, 1970 (attached), recommended rescinding of the moratorium imposed in February, 1969, relative to certain security investigations of individuals. Questions posed by the March 31, 1970, memorandum and related letter to all offices, dated April 2, 1970 (copy attached) have been looked into in connection with the current inspection of the Domestic Intelligence Division. Inspection Division recommends that moratorium be continued until 1/1/71.

BACKGROUND:

On February 27, 1969, the Executives Conference approved a 6-month suspension of investigations in certain specified Security Matter - Communist cases and in the preparation of reports in cases involving Priority II and Priority III, Security Index subjects. This moratorium, which was imposed as a temporary expedient to make additional investigative personnel available for organized crime investigations, was extended on September 17, 1969, for an additional 6 months.

The moratorium has not affected Priority I, Security Index subjects, i.e., hardcore national and state leaders of subversive groups, and individuals with no organizational affiliations who are believed to pose an imminent threat to the internal security. Matters involving Priority II subjects (currently 2065 in that category), individuals considered to be less influential in subversive organizations and/or who hold positions of lesser influence, were affected by the moratorium in that verification of residence and employment was not required and the submission of reports was suspended. Cases relative to individuals in Priority III (representing about 8,286 cases), the category of Security Index subjects considered to be least dangerous, were affected by the moratorium in that these cases were not reopened and verification of residence and employment of the subjects was not conducted.

REC-6 100-358086-4021

It is the view of the Domestic Intelligence Division that the revoking of the moratorium is desirable at this time in order to help regulate the size of the Security Index, in order that the whereabouts of the subjects of Priorities II and III may be brought up to date, and in order that the Department and other Government agencies with an interest may receive dissemination of information developed relative to current subversive activities of the subjects of Priority II cases.

Memo for Mr. Tolson
Re: Security Investigations of Individuals

OBSERVATIONS:

The setting of the moratorium on February 27, 1969, and its subsequent 6-month extension in September, 1969, have resulted in a cessation in the dissemination of reports relative to the over 2000 individuals who make up the secondary level of leadership in various subversive organizations. Further, imposition of the moratorium has caused the field to cease verifying the whereabouts of Priorities II and III subjects. However, in spite of the moratorium, the field has in many instances remained cognizant of the current whereabouts of those subjects through established sources, and, of course, it might be expected that the whereabouts of many of the subjects has remained unchanged through the moratorium period.

The rescinding of the moratorium would result in requiring the preparation and submission of reports in all Priority II cases (there are 2065 such cases) in which additional pertinent information had been developed since submission of the prior report, and would require the preparation and submission of an approved form or other correspondence in other instances. Further, lifting of the moratorium would cause the field to initiate investigation to verify the current whereabouts of the subjects in Priorities II and III (10,351 cases).

Subsequent to the initiation of the moratorium, approval was given, with the written concurrence of the Department, that the writing of reports on Priority III subjects would be suspended. The appreciable savings of Agent, stenographic and clerical man hours which resulted from this change would not be affected by a continuation of the moratorium, since reports on individuals in the Priority III category would still not be required.

The foregoing would indicate that the lifting of the moratorium would require the assignment of additional personnel to the Security Index program throughout the field, and that the additional communications generated in the field would impose an additional work load on Seat of Government clerical and supervisory personnel.

Rescinding the moratorium would increase the work load, both in the field and at Seat of Government. In view of additional manpower requirements relative to the Bureau's intensification of investigations of New Left terrorists, it would not appear that the rescinding of the moratorium is justified or advisable at this time. This intensification ordered by the Director will require a considerable manpower commitment and make necessary the reassignment of personnel, both in the field and at the Seat of Government, to this area of emphasis. Accordingly, the streamlining effect which has resulted from the imposition of the moratorium should be continued.

Memo for Mr. Tolson
Re: Security Investigations of Individuals

RECOMMENDATION:

That the moratorium be continued until 1/1/71 at which time it can again be re-evaluated.

ADDENDUM: DOMESTIC INTELLIGENCE DIVISION 4/20/70 GHM:djb

As we pointed out to the Inspector, the Department, which has the over-all responsibility for the administration of the Security Index Program, has not been advised as to this moratorium; nor has Secret Service, which receives the reports and current information as to the residence and employment of Security Index subjects.

If the above recommendation is approved, it is further recommended that the Department and Secret Service be advised by letter of the moratorium until 1/1/71 in view of the high priority need for manpower on investigations concerning organized crime and the intensification of investigations of New Left terrorists.

SUBJECT: SECURITY INVESTIGATIONS OF INDIVIDUALS

On 2/27/69, the Executives Conference approved a six-month suspension of investigations in selected Security Matter - Communist cases as well as report writing in cases involving Priority II and Priority III Security Index subjects. This moratorium was imposed as a matter of temporary expediency in order to make additional investigative personnel available for organized crime investigations in the field. At the conclusion of the above six-month period, the moratorium was evaluated and on 9/17/69, a letter was sent to the field advising that this moratorium would remain in effect for an additional six months.

Priority I of the Security Index includes those individuals considered to be hard core national and state leaders of subversive groups and individuals with no organizational affiliation who are believed to pose an imminent threat to the internal security. Verification of residence and employment of individuals in this category are conducted every three months and reports submitted annually. Cases in this category have not been affected by the moratorium.

Priority II of the Security Index includes those individuals considered to be the second level of leadership in subversive organizations and individuals believed to be dangerous but in less influential positions than those included in Priority I. Verification of residence and employment in this category and submission of reports are performed on an annual basis. Cases in this category have been affected by the moratorium.

All other individuals in the Security Index are tabbed Priority III. Cases in this category have likewise been affected by the moratorium. Prior to 12/69, verification of residence and employment of these individuals was conducted on a yearly basis and reports were submitted every two years. In 12/69, for the purpose of streamlining our procedures, the Bureau, with the concurrence of the Department, instructed the field that in the absence of unusual circumstances, annual reports no longer need be submitted regarding Priority III subjects.

RE: SECURITY INVESTIGATIONS OF INDIVIDUALS
100-358086

As of 3/13/70, the Security Index contained 696 Priority I subjects, 2065 Priority II subjects and 8286 Priority III subjects. In view of the above-stated changes in procedures, should the moratorium be lifted at this time, no reports need be submitted in the 8286 Priority III cases, and reports need only be submitted on a periodic basis in the 2065 Priority II cases. This represents an approximate 73 percent reduction in report writing in these categories.

As the Bureau has gone on record in placing the above moratorium into effect, it would be in the best interests of the Bureau to similarly go on record, notifying the field that the moratorium has been suspended. Additionally, it is imperative that the moratorium be suspended to help regulate the size of the Security Index. Manual of Instructions requires that subjects, after five years of inactivity in a basic revolutionary group or three years of inactivity in a front group, be considered for Security Index deletion. As a result of the moratorium, no action has been taken by the field in this respect in the past year, and the Security Index has continued to grow. From March, 1969, to March, 1970, the Security Index has increased by over 800 names, principally because the necessary process of attrition has been suspended.

It is recognized the moratorium was necessary when instituted. It is felt, however, that now is the appropriate time for the moratorium to be rescinded not only to enable the Bureau to fulfill its responsibilities in the vital internal security field, but because lifting of the moratorium at this time will not create the burdensome increase in the workload of the field that would have existed had not the previously-stated changes in procedures been placed into effect.

Attached is letter to all field offices advising that the above moratorium has been rescinded.

RECOMMENDATION:

That the attached letter to all field offices, advising of the lifting of the moratorium, be approved and sent to the Mechanical Section in order that appropriate copies be made.

SUBJECT: SECURITY INVESTIGATIONS - SPECIAL AGENTS ASSIGNED
SECURITY INVESTIGATIONS OF INDIVIDUALS

On memorandum from Mr. W. M. Felt to Mr. Tolson dated April 24, 1970, captioned as above, Mr. Tolson noted that the figure of 715 Agents handling espionage investigations and 158 handling Communist Party, USA, and "Old Left" groups "seems awfully high," and the Director noted "I certainly agree." The figure 715 includes nationalistic tendency cases (105 classification) as well as espionage (65 classification).

The United States is the number one target for the intelligence agencies of the Soviet bloc. New York, where the United Nations is located, has 185 Agents working Soviet matters and 64 working Satellite matters. Washington Field (the foreign embassies are located in the District of Columbia) has 99 Agents working Soviet matters and 52 working Satellite matters. During the past five years the Soviets have increased their personnel in the United States by 70.6%. We have reduced our Special Agent coverage of the Soviets during the same period by 10%. During the past five years the Satellites have increased their personnel 20.9% but the Bureau has decreased its Agent coverage of the Satellites by 24.4%. The other investigations represented in Mr. Felt's memorandum under the "espionage" category include investigations of Red Chinese espionage and sympathizers, which take on added importance with Red China's new earth satellite capability; the volatile Cubans, both pro-Castro and anti-Castro; the Arab and Israeli espionage and intelligence matters closely related to the smoldering Mid-East crisis.

REC 8 100-358086-4023

Mr. Felt's figures show that there are 202 Agents handling these matters in the other 57 offices outside of the concentrated areas in Washington and New York. This is an average of less than four Agents per field office.

MAY 8 1970

The 158 Agents conducting investigations of the Old Left work on the Communist Party, USA, its youth group, The Young Workers Liberation League; Socialist Workers Party, its youth group, Young Socialist Alliance; Workers World Party, its youth group, Youth Against War and Facism; Progressive Labor Party, Revolutionary Union and a multitude of other splinter groups, communist fronts, communist

publications, communist infiltrated groups and miscellaneous complaints dealing with communists. They handle over 300 informants who report on these organizations and their members. There are over 7,600 individuals on the Security Index because of their affiliations with these groups. Over half of the 158 Agents (82) are located in four offices; New York, Chicago, Los Angeles, and San Francisco where the national headquarters and bulk of members are located. (U)

During the past week several proposals have been submitted to curtail various activities in the espionage and counterintelligence field. These have included the elimination of our Cuban Refugee Program, the investigation of individuals who travel to Cuba, and the curtailment of our Border Coverage Program. In addition, we are proposing the vast curtailment of coverage of Soviet East-West exchange visitors and other visitors from the Soviet Union. We likewise will be curtailing the investigation of Americans who travel in the Soviet Union. (S)

Instructions to effect these reductions have been sent or are being expedited to our field offices. Approximately 30 days after the instructions have been received, we will survey the offices to determine the reduction in manpower in the espionage-counterintelligence area. At the same time, the field offices will be requested to separately justify the assignment of manpower to the investigation of the Communist Party and other Old Left groups. * U

With reference to the Old Left, it should be noted that the New York Office is currently under inspection and will be called upon to justify the personnel it now has assigned to Old Left matters. ADDENDUM OF THE INSPECTION DIVISION W.M. FELT:wmj ~~SECRET~~ 4/28/70

During the inspection of the Domestic Intelligence Division (DID) curtailment in the following espionage-related investigations and programs was analyzed, recommended and subsequently approved effecting a savings of an estimated (by DID) 25 Agents: Cuban Refugee Matters - Investigation to Detect Intelligence Agents Among Cuban Refugees, Cuban Travel investigations, Non-official Soviet Visitors to the United States investigations, East-West Exchange Program investigations, Counterintelligence Program involving Soviet-Bloc Intelligence, Communist Coverage along the Mexican Border, and the Visitors to Russia investigations. Instructions are being issued to the field by DID implementing these cutbacks. (U)

During the inspection of the New York Office specific emphasis is being placed on espionage and related investigations and Communist Party, USA, and "Old Left" groups for the purpose of determining the extent of cutbacks recommended in this work which will be analyzed on the basis of its absolute necessity and not its desirability. The focal point of these analyses and surveys will be to "save manpower." (U)

The Washington Field Office, which also accounts for a major proportion of the overall manpower assigned to espionage and related investigative matters, will be scheduled for an early inspection. During our continuing field inspections this area of our responsibilities will be carefully evaluated using the same criteria as in the current New York inspection. (U)

It is agreed that DID should send (as proposed) a teletype to those field offices having a substantial amount of manpower assigned to "Old Left" matters requesting justification for their allocation of manpower to those matters. (U)

SUBJECT: SECURITY INVESTIGATIONS OF INDIVIDUALS - GENERAL

Occasioned by letters to all offices dated 2/27/69, 3/6/69 and 9/17/69, a moratorium was instituted and extended on routine Security Matter - Communist (SM-C) cases, certain changes were made in the frequency with which reports were to be submitted regarding Security Index (SI) subjects, the frequency of verification of residence and employment of SI and Agitator Index subjects was changed and all report writing relating to SI subjects in Priority II and Priority III was suspended pending further re-evaluation. By SAC Letter dated 12/23/69, the field was advised that reports no longer need be submitted on a periodic basis in the Priority III cases.

As a result of the recent inspection of the Domestic Intelligence Division, a memorandum from W. M. Felt to Mr. Tolson dated 4/17/70, captioned "Security Investigations of Individuals" sets forth the results of the re-evaluation of the above moratorium. This memorandum, which has been approved, recommends that the above moratorium be continued until 1/1/71, at which time it will again be re-evaluated.

Pursuant to the Director's instructions, I conducted a survey as of April 23, 1970, to ascertain the total Agent manpower handling security-type investigations in our 59 field offices. This was broken down as to the various types of work.

For your information set forth below is a tabulation showing the results of this survey.

Type of Investigation	Number of Agents (Estimated Full Time Equivalent)
Espionage *	715
Communist Party, USA, and Other Old Left Groups	158
New Left Matters, Including White Violence-Oriented Groups	349
Black Racial Matters such as Black Panther Party	344
White Racial Matters such as Ku Klux Klan	108
Other Security Investigations	80
Total All Security-Type Investigations	1754

ALL INFORMATION CONTAINED HEREIN IS UNCLASSIFIED DATE 10/26/10 BY 62 943419 SP1 LCM

*Includes 335 Agents New York City and 178 in Washington Field

SUBJECT: MAINTENANCE OF PRIORITY III SECURITY INDEX PERIODIC TICKLERS

Periodic ticklers, which were previously described as "Annual Ticklers," have been maintained in order to post dates of current reports received on a periodic basis in Security Index cases. These were maintained in order that we may remind the field by Form 0-1 where periodic reports were not received when due.

Inasmuch as periodic reports are no longer required in Priority III Security Index cases, no purpose remains for following these cases by tickler and, therefore, maintenance of Priority III periodic ticklers is being discontinued.

SUBJECT: SECURITY INVESTIGATIONS - SPECIAL AGENTS ASSIGNED

Genl

On memorandum from Mr. W. M. Felt to Mr. Tolson dated 4/24/70, captioned as above, Mr. Tolson noted the figure of 715 Agents handling espionage investigations and 158 Agents handling old left investigations "seems awfully high," and the Director noted, "I certainly agree."

Memorandum Mr. W. C. Sullivan to Mr. C. D. DeLoach 4/27/70 noted that investigations of the old left include work on the Communist Party, USA, its youth groups, the Young Workers Liberation League; Socialist Workers Party, its youth group, Young Socialist Alliance; Workers World Party, its youth group, Youth Against War and Fascism; Progressive Labor Party, Revolutionary Union and a multitude of other splinter groups, communist fronts, communist publications, communist infiltrated groups and miscellaneous complaints dealing with communists and over 300 informants who report on these organizations and their members. There are over 7,600 individuals on the Security Index because of their affiliations with these groups.

Addendum by Mr. J. A. Sizoo stated that a teletype would be sent selected offices instructing them to justify personnel assigned old left matters except New York which is currently under inspection and thus will justify manpower so used to the Inspector. Attached is such a teletype.

That attached teletype be approved and sent as a Nitel. (NIGHT TELETYPE)

SUBJECT: SECURITY INVESTIGATIONS - SPECIAL AGENTS ASSIGNED

My memorandum 4/28/70 enclosed teletype to 17 offices (both attached) calling for reassessment of manpower on Old Left matters on basis of absolute necessity rather than desirability. If justified, some manpower assigned Old Left matters was to be reassigned to New Left. New York which has 40 Agents assigned Old Left work was not included in survey since it is under inspection and will have to justify manpower use to Inspector.

Offices involved had 85.2 Agents on Old Left work. As result of survey, now have 70.5, a reduction of 14.7.

Attached is a tabulation, by office, showing Agents originally assigned Old Left, reduction and Agents currently assigned Old Left work.

We will continue to closely follow this matter to insure most effective use is made of manpower in the security field.

The purpose of this memorandum is to recommend changes in guidelines requiring the field to submit letterhead memoranda concerning travel abroad by individuals with subversive backgrounds.

Existing instructions require that the field submit letterhead memoranda in the following instances where information is obtained indicating travel abroad by security subjects:

(1) Subjects of current security investigations or subjects having subversive activity in the past five years

(2) Subjects in Security Index, Section A of Reserve Index, or the Agitator Index

(3) Past security subjects who plan to remain abroad over six months

(4) Past security subjects who, although inactive over five years, may be "sleepers," or where current information otherwise indicates a need for foreign coverage of an individual

To properly carry out the above, investigation which includes a review of passport records and inquiries concerning specific travel plans has been necessary in each instance to obtain sufficient data concerning travel plans for inclusion in the letterhead memorandum. The memorandum, which also includes a succinct summary of subversive data, is then transmitted to appropriate Legal Attaches to alert sources abroad.

MAY 28 1970

The tremendous increase in subversives travelling abroad following a 1958 Supreme Court decision denying withholding of passports on grounds of subversive affiliations, plus the enormous task of investigating thousands of New Left, Marxist and racial revolutionaries, many of whom travel throughout the world, has placed an ever-increasing burden upon the field. While those individuals whose names are included in Priority III of the

Security Index, as well as those names maintained by the field in Section A of the Reserve Index, are of interest from a national security standpoint, it is felt they pose a lesser threat and do not require the intensive coverage of their travel abroad presently being afforded.

In view of the above and the existing moratorium on routine security matter - communist investigations within the United States, it is felt our guidelines should be changed, restricting submission of memoranda by the field to the following security investigations:

(1) Subjects of current security investigations

(2) Subjects in the Agitator Index and Priorities I and II of the Security Index

(3) Other past security subjects who may be "sleepers" or in an underground capacity, or where current information otherwise indicates a need for foreign coverage of an individual.

SUBJECT: SECURITY INVESTIGATIONS OF INDIVIDUALS -
MORATORIUM ON SECURITY MATTER - COMMUNIST
INVESTIGATIONS

PURPOSE:

To obtain approval of the attached SAC Letter clarifying the existing moratorium on report writing on Priority I and Priority II Security Index cases and investigations of routine Security Matter - Communist (SM-C) individual case matters.

BACKGROUND:

The Executives Conference memorandum to Mr. Tolson, dated 2/27/69, and letter to all offices of the same date spells out the intent and extent of the so-called moratorium concerning captioned matter.

Essentially, the following instructions were sent to the field:

1. Priority I - Annual reports instead of semi-annual. Quarterly verification of residence and employment continue.

2. Priority II - Annual reports continue. Verification of residence and employment annually instead of semiannually.

3. Priority III - Biannual reports continue. Verification of residence and employment annually instead of semiannually.

REC 116 100-358086-41035

10 JUN 8 1970

Those instructions continued, "In addition to the above, investigations, and particularly report writing, in routine SM-C cases throughout the field are being suspended for a period of six months at which time this suspension will be re-evaluated."

CONTINUED - OVER

Memorandum to Mr. W. C. Sullivan
RE: SECURITY INVESTIGATIONS OF INDIVIDUALS - MORATORIUM ON SECURITY MATTER - COMMUNIST INVESTIGATIONS

Subsequently, on 3/6/69, in a letter to all offices, the above instructions were broadened. This letter stated, "Effective immediately, report writing concerning all Security Index subjects in Priority II and Priority III is being suspended for six months." The field was advised to keep the Bureau promptly advised of pertinent developments.

These instructions were extended in time on 9/17/69 and on 5/4/70, effective to 1/1/71.

Over a period of time there have been questions raised by the field concerning various applications of the moratorium. For example, what is a routine SM-C case? (CPUSA member in Priority II or III) Does the suspension apply to all Priority II and Priority III cases? (No) Does the suspension preclude annual verification of employment and residence in routine SM-C cases? (Yes) Further, during the recent New York inspection a number of cases were closed which exceeded the ambit of the moratorium and required review and reopening to remain in compliance with existing instructions.

It is noted many active cases involving individual members of Students for a Democratic Society (SDS), Socialist Workers Party (SWP) and its youth affiliate Young Socialist Alliance (YSA) and Progressive Labor Party (PLP) are contained in Priority II and Priority III. The moratorium does not apply to these cases as to suspending investigation of them. Reporting restrictions, however, do apply.

While efforts have been made through In-Service lectures and correspondence with the field to clearly deliniate the scope of the moratorium, clear, concise, definitive instructions are needed at this time to insure uniform application of instructions by the field, at the Seat of Government and during inspections.

Issuance of clarifying instructions is particularly essential at this time to insure manpower is expended consistent with approved policy established at the Bureau concerning priority of areas of investigative need. We are hard-pressed to assign adequate personnel to New Left terrorism and must insure maximum productivity of Agent personnel in desired areas of work.

PROPOSED CHANGES IN
SECTION 87D
MANUAL OF INSTRUCTIONS

The first paragraph of Item 6b (4), page 33, under the heading "Individuals Traveling Abroad," should be deleted and the following substituted therefor:

"When information is received indicating that: (1) a subject of a current security investigation, (2) a subject whose name is included in the Agitator Index or Priorities I or II of the Security Index, or (3) where information available indicates a subject of a past security investigation may be a 'sleeper' or in an underground capacity, or where current information otherwise would indicate a need to effect foreign coverage, intends to travel abroad or has already departed this country for foreign travel, take the following action."

SUBJECT: FORM FD-128
LETTER CHANGING OFFICE OF ORIGIN IN
SECURITY AND RACIAL INVESTIGATIONS

SECURITY INDEX GENERAL

Form FD-128 is used to change office of origin in security and racial investigations. Manual of Instructions, volume III, section 87D, page 27a, provides that, if a security flash notice has been placed against the subject's identification record, a copy of FD-128 should be prepared for the Identification Division in order that its records will show the new office of origin. Captioned form presently contains the following two items pertaining to this action which must be checked:

A security flash notice has been placed with the Identification Division and a copy has been designated therefor.

Extra copy attached for the Identification Division.

Since the last item listed above is a duplication of the first item, it is proposed that these two items be consolidated and appear as follows on this form:

A security flash notice has been placed on subject and a copy of this form is being designated for the Identification Division for appropriate action.

EX 106 100-358086-2438

It is also proposed that the words "Subject on Reserve Index" under the items to be forwarded to the new office of origin be changed to read "Reserve Index Cards," since the cards are sent to the new office of origin and this wording is more appropriate.

LIAISON WITH PASSPORT OFFICE
DEPARTMENT OF STATE

We have in the past on a quarterly basis made available to Mr. Robert Johnson, General Counsel, Passport Office, Department of State, a list of individuals included in Priority I of the Security Index. Priority I includes hard-core national and state basic revolutionary organization leaders and leaders of other subversive organizations and unorganized groups who have indicated a propensity for violence or have received special training in sabotage, espionage or guerrilla warfare. This serves as a check list against issuing U. S. passports.

The practice of furnishing similar lists was originally approved by memorandum A. H. Belmont to Mr. Ladd dated 12/8/50. This practice was again approved by memorandum C. D. Brennan to Mr. W. C. Sullivan dated 11/25/68, wherein it was recommended and approved that the Priority I list be made available to Mr. Johnson in place of the lists of top functionaries and key figures, which lists are no longer available since the re-evaluation of the Security Index in May, 1968. This list, which is prepared by the Automatic Data Processing Unit, will be very useful as the Department of State alerts the Bureau to contemplated travel abroad by subversives.

ACTION:

1) That the enclosed Priority I list prepared as of May 15, 1970, be furnished to Mr. Johnson by liaison with the understanding that it is to be held in the strictest confidence by him at all times in his office safe and is to serve only as an alert list upon which State can take no action but must contact us for reports.

2) That the prior list furnished Mr. Johnson be retrieved and returned to Mr. Floyd for destruction.

(E) SECURITY INVESTIGATIONS - INDIVIDUALS TRAVELING ABROAD -- Reference is made to Section 87D, 6b (4), Manual of Instructions, "Individuals Traveling Abroad," which specifies action to be taken when we have subversive derogatory information on any individual who intends to travel abroad or has already left this country for foreign travel.

Effective immediately, limit action concerning foreign travel by subjects of security investigations to the following instances:

(1) Subjects of current security investigations

(2) Subjects whose names are included in Agitator Index or Priorities I and II of Security Index

(3) Other past security subjects who may be "sleepers" or in an underground capacity, or where current information otherwise indicates a need for foreign coverage of individual

Above instructions likewise apply in the case of individuals traveling in foreign countries as members of organized tours.

Appropriate Manual changes are being prepared.

(D) SECURITY INVESTIGATIONS OF INDIVIDUALS - MORATORIUM ON SECURITY MATTER - COMMUNIST (SM - C) INVESTIGATIONS -- Recent field inspection shows need to reiterate prior instructions regarding current moratorium on SM - C investigations. Moratorium was initiated by Bureau letter to all offices dated February 27, 1969, and extended by letters dated September 17, 1969, and May 4, 1970, captioned "Security Investigations of Individuals." Moratorium will be reevaluated January 1, 1971.

Routine SM - C investigations are not to be conducted during moratorium. Do not open cases for verification of residence and employment of subjects in SM - C cases which have been placed in Priority II or III of Security Index where cases were closed in line with existing instructions. Note these instructions apply only to routine communist investigations. Due to extreme radical, anti-United States and violent nature of Marxists, anarchists and pro-Chinese revolutionaries who largely make up such organizations as Progressive Labor Party, Weatherman faction of Students for a Democratic Society, and Socialist Workers Party and its extremist youth group, Young Socialist Alliance, moratorium does not apply to investigations of these individuals. Further, you must remain aware of whereabouts of those extremists under Emergency Detention Program.

Discuss above with appropriate personnel to be certain routine SM - C cases are not investigated during moratorium. Equally insure your responsibilities are met in the more violent and revolutionary cases in security investigations of individuals.

TO : DIRECTOR, FBI (100-358086) DATE: 7/2/70

FROM : LEGAT, MEXICO CITY (66-364)

SUBJECT: SECURITY INDEX SUBJECTS RESIDING IN MEXICO

Reference list of Security Index subjects residing in Mexico furnished by Bureau routing slip 4/22/69.

Since this office is not origin for any Security Index subject residing in Mexico, requirements do not include the 5 x 8 card normally maintained by an office of origin on which pertinent data regarding the subject is recorded. It is felt that a similar system would be of assistance to this office as it would be regarded as a ready reference for identifying the subjects which would include their category as designated by the office of origin, appropriate file numbers, residence and employment and any additional pertinent data which might be necessary to increase its value as a reference.

UACB, this office will begin maintaining such a list on 3 x 5 cards and these cards will be maintained by this office in a safe location under secure conditions as this matter warrants.

SUBJECT: SECURITY INDEX

We forward to the field quarterly an alphabetical list of each office's Security Index in order that the Security Index cards maintained in the field may be checked and reconciled with Bureau records.

There is attached a proposed letter to all field offices containing appropriate instructions regarding the handling of the list.

RECOMMENDATION:

That the attached letter to SAC, Albany, with copies to all offices, be approved and returned to Supervisor W. H. Floyd, Room 914, 9 & D Building, for preparation and distribution to the field.

SUBJECT: SECURITY INDEX (O) GENL LISTS

Enclosed herewith is one copy each of the following lists for transmittal to the SAC, Quantico, for storage with other vital records maintained by him.

1) Alphabetical list of Security Index (SI) subjects.
2) Geographical list of SI subjects.
3) Special Section of the SI.
4) List of SI subjects out of country.
5) List of subjects whose citizenship status is unknown.
6) List of aliens.
7) List of SI subjects of Chinese descent.
8) List of SI subjects sympathetic to Communist China
9) List of SI subjects sympathetic to Cuba.
10) List of SI subjects sympathetic to Cuba and China.
11) List of SI subjects who are defectors.
12) List of Progressive Labor Party members.
13) List of SI subjects who are Chinese defectors.
14) List of SI subjects who are Cuban defectors.
15) List of missing SI subjects.

The SAC, Quantico, should destroy by burning the lists furnished June 19, 1970. When this action has been taken, he should so note on this memorandum and return it to the Internal Security Section.

ACTION:

If you approve, this memorandum and the attached lists will be forwarded to SAC, Quantico, for the above action.

Dear [redacted]

I have received your suggestion that the priority numbers assigned to certain subjects be included on the front of the files pertaining to them. After consideration, it has been decided the work involved in keeping this information current is not warranted because of the changes which frequently take place regarding these designations.

The interest and thoughtfulness you displayed in submitting your idea to me are indeed appreciated.

Sincerely yours,

J. Edgar Hoover

NOTE Continued:

Domestic Intelligence Division advised it felt the work involved in keeping this data up to date at all times was not warranted since these priorities change so frequently due to changes in positions on part of subjects or lack of substantial activity by subjects. If change should inadvertently not be made and reliance were placed on stamped notation, there is much more chance of error. Reliance on notation rather than a file review would not be a good practice. The card index maintained on these subjects uses different colors for different priorities as an aid to persons working with these cases. Tickler cards for periodic reports as needed in these cases are used by supervisors as key as to when reports are due. No good reason exists for taking proposed action. Training Division recommends idea not be approved.

SUGGESTION

It is suggested that the file front of Security Index subject files be stamped with the subject's Security Index Priority number, such as "P-1;" "P-2;" or "P-3."

EXP. PROC.

Security Index - General

Current practice or rule (Include manual citation as well as facts)

When Bureau approval is received to place a subject on the Security Index, subject's file front is stamped with "SI" and "SS."

Advantages of suggestion and annual savings (include basis for estimate)

This would be an immediate flag to the Security Supervisor, SA's and Clerks, and would be a key to report writing regarding SI subjects. This would also be time-saving in locating subject's SI/photo-description card which is filed under priority and territory, as each priority is maintained separately.

Dear Mr. Jones:

Your suggestion has been received concerning the revision of Forms FD-122 and FD-366 with regard to headings and spacing so that they may be executed at the same time. After evaluation, it has been decided the present formats should be retained since these forms serve different purposes and are prepared on different types of stationery.

Although favorable action was not taken in this instance, I appreciate the interest which led you to submit your idea to me.

Sincerely yours,
J. Edgar Hoover

NOTE Continued:

SAC Bachman advised he did not concur and stated the two forms do not lend themselves to revision as proposed. Training Division agrees. As can be seen from the two formats, there are only two items, "Residence" and "Employment," which are the same on these forms. The FD-366 is a letterhead memorandum and as such must be on letterhead stationery since it is disseminated to the Secret Service while the FD-122 is a letter from an SAC to the Director on Optional Form No. 10. There must be an original of each form also and this would preclude executing them at the same time. Training Division recommends idea not be approved.

SUGGESTION

Headings and spacing on FD 366 be aligned with those pertinent blocks on FD 122 so that both forms can be executed at same time.

Current practice or rule (Include manual citation as well as facts)

FD 366 and FD 122 are typed separately. Section 87D, page 57 and 81A re FD 366 and Section 87D, page 28 through 78 re FD 122.

Advantages of suggestion and annual savings (include basis for estimate)

Annual savings estimate cannot be made because total time consumed throughout the field for current procedure not available at Newark. However, suggested procedure would reduce by 50% time spent utilizing current procedure.

(C) SECURITY INVESTIGATIONS OF INDIVIDUALS - YOUNG WORKERS LIBERATION LEAGUE -- By SAC Letter 70-21, dated April 21, 1970, you were advised of the formation of the Young Workers Liberation League (YWLL) by the Communist Party. You were instructed to institute investigation of the organization and to identify its local chapters.

Primary purposes of the YWLL are to educate youth in the revolutionary ideology of the Communist Party and to foment dissent among youth. Therefore, promptly identify all members of the YWLL and institute security investigations of its officers and leading activists. Determine subversive sympathies, revolutionary aims and activities and propensity for violence in each investigation and furnish your evaluation concerning inclusion of the individual on the Security Index. In submitting reports, utilize the character "Security Matter - YWLL."

Very truly yours,

Current MOI chapter on security investigations is extremely lengthy (110 pages) and cumbersome. This section, which governs a substantial part of our security work, including investigations of Marxist-Leninist organizations and front groups, New Left organizations, and Security Index subjects, has not been overhauled for more than 15 years, and it is seriously in need of streamlining, updating, and reorganizing.

For the past several months, as time has permitted, this entire section has been reviewed, streamlined, and reorganized by Supervisor John E. Keating of the Research Section who has worked closely with knowledgeable supervisors throughout the Division in connection with this project. This project has now been completed and there is attached a revised Section 87 which it is believed is far better organized and will prove more useful and more readable both to Agents in the field and to our supervisory staff. Not only is the revised section much shorter than the current version (less than half in length), but it has also been organized with a view to providing maximum convenience in locating subject matter and in combining related topics which are not scattered throughout this section.

The following specific changes have been made in connection with this project:

1. All of the pertinent material relating to applicable statutes has been combined in the initial section of the chapter. Heretofore, pertinent statutes had been scattered throughout the section. At the same time, we have considerably streamlined the statutory information especially to eliminate portions of the Smith Act of 1940 and the Internal Security Act of 1950 which have recently been declared unconstitutional. Based on recent court decisions declaring these statutes invalid, we have also deleted references to the National Defense Education Act of 1958, the National Science Foundation Act of 1950, and the statute concerning the right to strike against the Government.

Memorandum to Mr. W. C. Sullivan
RE: SECTION 87
MANUAL OF INSTRUCTIONS (MOI)
SECURITY INVESTIGATIONS

2. We have substantially streamlined the current provisions (87C) relating to investigations and reports on the Communist Party, USA, and other Marxist-Leninist groups to eliminate redundancies of verbiage and repetition.

3. We have broken down current Section 87D (relating to security investigations of individuals) into a number of more meaningful and clearly defined subsections. Currently, 87D runs to some 80 pages and is most unwieldy and complicated. In our rewritten chapter we have broken this lengthy section down into such categories as policies and objectives, procedures, techniques, administrative procedures, and dissemination.

4. Throughout the entire chapter we have used streamlined wording, eliminated repetition and verbiage, and sought to organize the material under well-defined and meaningful subheadings.

5. A table of contents has been prepared for the entire chapter. Currently the chapter contains only a table of contents with regard to 87D.

This rewritten version of Section 87 has been reviewed and approved by the Internal Security Section which handles the bulk of investigations involved. Pertinent portions have also been reviewed and cleared by the Nationalities Intelligence Section (Cuban matters) and the Racial Intelligence Section (communist infiltration of racial matters and black nationalist investigations). No policy changes have been made in revised version with exception of those enumerated above.

ACTION:

That attached rewritten version of Section 87 be approved. Arrangements will be made so that when this Manual change is issued, an SAC Letter will be prepared advising the field of the major changes. At the same time, necessary changes in the FBI Handbook will be separately submitted.

COOPERATION WITH PASSPORT OFFICE
DEPARTMENT OF STATE

With the Director's approval we have in the past on a quarterly basis made available to Mr. Robert D. Johnson, Deputy Director and General Counsel, Passport Office, Department of State a list of individuals included in Priority I of the Security Index. Priority I includes hard-core national and state basic revolutionary organization leaders and leaders of other subversive organizations and unorganized groups who have indicated a propensity for violence or have received special training in sabotage, espionage, or guerrilla warfare. This list, which is prepared by the Automatic Data Processing Unit, is very useful as the Department of State alerts the Bureau to contemplated travel abroad of subversives.

Mr. Johnson has previously been made to understand that the list is to be handled in the strictest confidence by him at all times in his office safe and is to serve only as an alert list upon which State can take no action but must contact us for reports.

ACTION:

1) If approved, the enclosed Priority I list, prepared as of 8/15/70, should be forwarded to Mr. Johnson by courier.

2) If approved, subsequent quarterly reports for Mr. Johnson will be handled accordingly.

SUBJECT: SECURITY INVESTIGATIONS OF INDIVIDUALS - YOUNG WORKERS LIBERATION LEAGUE (Genl)

PURPOSE

To obtain approval of the attached SAC Letter instructing the field to identify members of the Young Workers Liberation League (YWLL) and to institute security investigations of YWLL officers and leading activists.

BACKGROUND

The YWLL was formed as a successor organization to the W.E.B. DuBois Clubs of America in Chicago, Illinois, on 2/7-9/70. Headquartered at 29 West 15th Street, New York City, and with chapters being organized throughout the country, the YWLL's aims and purposes are to educate youth in the revolutionary ideology of Marx and Lenin and recruit the more promising disciples into the Communist Party (CP). The major task of this developing organization will be to fight the draft, end militarization on campus and instruct all young people who oppose the war, including GIs, on the socialist alternatives. The expressed views of this new CP youth organization will, therefore, be to foment dissent among youth to oppose military service which is the country's foremost weapon in its defense. SAC Letter 70-21 dated 4/21/70 instructed the field initiate an investigation of captioned organization and to report formation of YWLL chapters.

OBSERVATIONS

10 AUG 24 1970

In view of the YWLL's expressed aims and purposes and the close connection of its members with militant New Left activities, efforts should be made to identify all members of the YWLL and investigations should be instituted on all of its officers and leading activists. Those individuals falling within the necessary criteria will be included on the Security Index. The YWLL is the newly formed youth group of the CP,USA. However, since these will be investigations of youthful revolutionaries, closely following

SECURITY INVESTIGATIONS
OF INDIVIDUALS

Reurairtel and LHM, dated 8/5/70, captioned "Young Socialist Alliance (YSA) Forum, Atlanta, Georgia, 7/24-26/70."

Information on pages five and six of referenced communication shows names of individuals who attended the general Young Socialist Alliance (YSA) meeting. Several of those named are not on the Security Index. Accordingly, recipient offices are to check office files with regard to those individuals in your respective divisions. Where an investigation has not been conducted or where a case exists and subject is not on the Security Index, appropriate investigation is to be conducted and results furnished the Bureau together with an evaluation as to inclusion of the individual's name on the Security Index. Advise the Bureau under individual case captions concerning action being taken by your office in each instance.

SUBJECT: SECURITY INVESTIGATIONS OF INDIVIDUALS — General

PURPOSE

To obtain approval of the attached SAC Letter reminding the field of the need to obtain photographs of subjects in security investigations.

BACKGROUND

Section 87D, Manual of Instructions, requires that reasonable efforts be made during a security investigation to obtain a photograph of the subject. With increasing frequency, the field is closing cases without giving sufficient attention to the need for photograph.

OBSERVATIONS

A photograph of a security subject is an integral part of each investigation and should be obtained except in those rare instances where usual sources are exhausted and further efforts would not be feasible. Instances where photographs have prevented "mis-idents" are numerous. It is rarely safe to assume that an informant has identified information furnished by him with the subject of the investigation unless all identifying data, including a photograph, has been considered. Additionally, photographs (which are required of Security Index subjects) should be available at the time subjects are recommended for the Security Index, thus obviating the need to retain cases in pending status for further investigation. No manual changes will be necessary.

SUBJECT: SECURITY INDEX CARD STATISTICS

General

As of September 15, 1970, there are in the Security Index 3,160 persons of leadership capacity (Priority I and II) and 8,424 rank and file subjects (Priority III) for a total of 11,584; of these 822 and 4,701 respectively, are communists -- a total of 5,523 or 47.7 percent.

A detailed table for each of the two categories, copies enclosed, shows as of September 15, 1970, the distribution of the subjects by field office, nationalistic tendencies, dangerousness, sex, race, citizenship, and "special lists." A key to abbreviations is enclosed.

SECURITY INDEX LISTS

GENERAL

There is attached hereto a current list of names of the individuals maintained in the Security Index. Names included in the main portion of the list are arranged alphabetically. Those individuals coming within three designated groups are listed on separate pages. Following each name is information indicating the race, sex, birth date, Bureau file number and the Bureau field office covering the residence of the individual.

It is requested that this list be given utmost security.

TO : Mr. C. D. Brennan

DATE: October 26, 1970

FROM : R. D. Cotter

SUBJECT: SECURITY INDEX General

We forward to the field quarterly an alphabetical list of each office's Security Index in order that the Security Index cards maintained in the field may be checked and reconciled with Bureau records.

There is attached a proposed letter to all field offices containing appropriate instructions regarding the handling of the list.

RECOMMENDATION:

That the attached letter to SAC, Albany, with copies to all field offices, be approved and returned to Supervisor W. P. Dix, Room 712-C, 9 & D Building, for preparation and distribution to the field.

SUBJECT: SECURITY INVESTIGATIONS OF INDIVIDUALS

PURPOSE:

To obtain approval of attached airtel to all offices, advising moratorium on certain aspects of security investigations is rescinded.

BACKGROUND:

In 2/69, as a matter of temporary expediency, the Executives Conference approved a moratorium on certain Security Matter - Communist investigations and periodic report writing in Priority II and Priority III Security Index cases. This moratorium was later extended to 1/1/71.

Memorandum 10/29/70 from the Executives Conference to Mr. Tolson recommended that the moratorium on report writing and investigations in Priority II and Priority III Security Index cases be lifted. The recommendation was approved by the Director.

There are approximately 10,690 individuals currently included in Priority II and Priority III of the Security Index. Virtually no investigation has been conducted regarding approximately 6,924 of these individuals since the imposition of the moratorium in February, 1969. Many of these individuals have changed residence and/or employment and their whereabouts are unknown. To fulfill our current responsibilities, we should know where they are.

If the moratorium is rescinded, the field will be required to reopen approximately 2215 Priority II cases for reports and approximately 4709 Priority III cases to verify residence and employment and submission of letterhead memoranda where information in field office files warrants.

Memorandum to Mr. C. D. Brennan
RE: SECURITY INVESTIGATIONS OF INDIVIDUALS
100-358086

To avoid an immediate impact on the field, opening of these cases should be staggered with a proportionate number opened each month to insure all are reopened by 6/30/71.

Attached is airtel to all offices, advising of rescinding of moratorium in line with the above.

RECOMMENDATION:

That attached airtel be approved and sent.

PROPOSED CHANGE IN FBI HANDBOOK

In Chapter 66, Part III, 1. E. (page 162), the reference to Section 87 of the Manual of Instructions should read "~~sec. 87A 5.a., vol. III, M. of I.~~" leave 87D and. On page 163-164, last line of paragraph 3, reference to Section 87 of Manual should read "vol. III, sec. 87G."

NOTE: Security Indexes - Gen.

Section 87 of Manual of Instructions was recently updated and streamlined. The FBI Handbook chapter corresponding to Section 87 has been reviewed and only the two minor changes noted above are necessary to bring the Handbook in line with changes made in Section 87. Both changes relate to references in the Manual of Instructions.

FROM : The Executives Conference

SUBJECT: EXECUTIVES CONFERENCE - 10/29/70

PROPOSED INTENSIFICATION OF CERTAIN INVESTIGATIONS IN THE SECURITY FIELD

Those in attendance at the Conference today included Messrs. Mohr, Sullivan, Bishop, Brennan, Callahan, Casper, Conrad, Felt, Gale, Rosen, Tavel, Walters and Beaver.

The Conference examined the question of whether the current situation demands intensification of certain security-type investigations. In particular, reference was made to (1) lifting of the existing moratorium on report writing and investigation in Priority II and Priority III, Security Index cases, (2) the intensification and expansion of investigations of black, white and ethnic group extremists and (3) development of selected contacts of individuals who could be targeted against Soviet intelligence personnel (DESECO Program). These items are being individually considered below.

Lifting of existing moratorium on report writing and investigation in Priority II and Priority III, Security Index cases

There are approximately 10,690 individuals currently included in Priority II and Priority III of the Security Index. Virtually no investigation has been conducted regarding approximately 6,924 of these individuals since the imposition of the moratorium in February, 1969. Many of these individuals have changed residence and/or employment and their whereabouts are unknown. To fulfill our current responsibilities, we should know where they are.

If the moratorium is rescinded, the field will be required to reopen approximately 2,215 Priority II cases for reports and approximately 4,709 Priority III cases to verify residence and employment. Opening of these cases would be staggered with a proportionate number opened each month to insure all are reopened by June 30, 1971. (U)

Black Student Unions and similar groups on college campuses. (U)

In 1967, black students began forming their own groups to project their demands, many of which indicate a commitment to black nationalism. These groups are autonomous and have a strong sense of common purpose. The Black Panther Party has made open efforts to organize the Black Student Unions nationally and other black extremist groups have used these organizations to project their extremism and separatism.

Campus disorders involving black students increased 23 per cent in the 1969-70 school year over the previous year indicating that these groups represent a real potential for violence and disruption. In the past, we have opened cases on these organizations following evidence of black extremist activities; however, in view of the vast increase in violence on college campuses, it is felt that every Black Student Union and similar group, regardless of their past or present involvement in disorders, should be the subject of a discreet preliminary inquiry through established sources and informants to determine background, aims and purposes, leaders and key activists. It is estimated that this would cause the field to open approximately 4,000 cases involving organizations and the key activists and leaders connected therewith. (U)

Students for a Democratic Society (SDS) and militant New Left campus organizations. (U)

At the end of the 1969-70 academic year, the various factions of the SDS, excluding the Weatherman faction, which has become an organization in its own right, consisted of a membership of approximately 2,500 individuals. In addition to the SDS groups, there are about 252 totally independent groups on college campuses which are pro-communist New Left-type and are followers of the SDS ideology. It is estimated

that the membership of these organizations consists of about 4,000 members. At the present time, we are conducting investigations of all of these organizations but have not, in the past, initiated investigations of the individual members of such organizations, with the exception of the key activists and individuals who are known to be violence prone. (U) CONFIDENTIAL

Major campuses across the nation have been completely disrupted by violent demonstrations, bombings, arsons and other terroristic acts perpetrated by these organizations. It is, therefore, proposed that cases be opened on all individuals belonging to such organizations to determine whether they have a propensity for violence. If this proposal were implemented, it is estimated that the field would be required to open approximately 6,500 new cases. (U)

Puerto Rican Students Union and the En La Brecha (in the breach) (U)

The Puerto Rican Students Union is based in New York and is active on campuses in New York City and near by New Jersey. It embraces the extremist ideology of the New Left and calls for the independence of Puerto Rico. (U)

En La Brecha is a Cleveland-based Puerto Rican youth organization with weapons in its headquarters and members have been associated with New Left individuals. In view of the extremist nature of these two organizations, all members should be identified and investigated. This would result in the opening of approximately 200 cases. (U)

Jewish Defense League (JDL)

The JDL is an anti-New Left and black nationalism organization, the violent nature of which has been illustrated by its direction of attacks against diplomatic establishments in the New York area and alleged implication in bombings of offices of foreign countries. Members have participated in an (U)

attempted highjacking of an international flight. This militant group of Jewish youth claims a national membership of 8,000 with chapters in approximately 20 of the major metropolitan areas of the country. We presently have under investigation those JDL members identified as being in leadership positions, participants in acts of violence or active in organizational affairs. In view of the violence-prone nature of the organization, it is felt that investigations of individuals should also include the lower level membership exclusive of those who appear as members only because of financial assistance they afford. This would result in the opening of approximately 800 additional cases. (U)

Development of selected contacts of individuals who could be targeted against Soviet intelligence personnel (DESECO Program) (C) (S)

As of 10/1/70, there were 795 Soviet officials and employees assigned to Soviet establishments in the United States. Of this number, 307 are known or suspected Soviet intelligence personnel based oniinvestigative coverage and other sources. Basic to our coverage of these individuals is the development of as many sources and informants as possible from among those persons in regular contact with the Soviets. Of these sources and informants the most important are those who are developed into Double Agents. These are individuals who receive specific intelligence assignments from the Soviets. We are currently operating 71 active Double Agents against the above Soviets. One of the most productive programs for the development of Double Agents is the DESECO Program. Since its inception, this Program has provided continuous flow of sources, informants and Double Agents. We have interviewed 1,120 individuals of which 379 have been placed in contact with Soviets resulting in the development of 84 valuable informants and Double Agents. This points out the fact that this Program is productive. Therefore, in view of these positive results and our need to increase informant coverage of Soviet activities, it is believed necessary to intensify this Program. We intend to do this by (S) (S) (S)

CONTINUED - OVER

requiring every Special Agent in the Washington Field Office and New York Office handling investigations of Soviet personnel to immediately open and develop two completely new DESECO subjects. This will amount to a total of 526 new cases under this valuable Program (U) (S) (U)

With respect to implementation of these programs, Assistant Director C. D. Brennan stressed that there absolutely would be no lessening of existing controls in regard to the investigations of these matters. (U)

Members of the Committee recognize that implementation of these investigations would certainly impose a burden on existing manpower but after carefully analyzing the seriousness of the current situation, it was the considered opinion of all present that we should take necessary steps to institute the above programs at this time. (U)

RECOMMENDATION:

If the Director approves, appropriate instructions will be issued to the field to implement the above programs designed to expand our security investigative coverage of extremist elements. (U)

Dear [redacted]

I have received your suggestion that Forms FD-122 and FD-397 be combined into one format. As a matter of possible interest to you, similar ideas have been considered in the past and not adopted since these forms were prepared for specific purposes and it was decided confusion would result from the proposed action.

The interest you displayed in giving me the benefit of your thoughts on this subject is appreciated.

Sincerely yours,

these matters on part-time basis in determining which items are needed for particular program he is working with at the time. Each form was designed for specific purpose and combining them would result in confusion on part of field. These forms are prepared separately and maintained separately and it would not be feasible to handle as one format. In addition, Domestic Intelligence Division has advised at this time that Voucher-Statistical Section makes a printout from the Security Index information and to add items on form which pertain to another program would cause this section more work. With regard to the addition of a ballot box for indicating Form FD-366 has been submitted, it is felt since the forms are not being combined that the cost for placing this item on both of the present formats is not warranted. Manual of Instructions contains rules regarding use of the FD-366 in three different locations so this should be sufficient for personnel working such cases. Training Division recommends current idea not be approved. u

Advantages of suggestion and annual savings (Include basis for estimate)

There are two categories of individuals requiring that more-or-less the same type information be submitted, namely Agitator Index and Security Index subjects. FD-397 is submitted every time a subject is placed on the AI and each time a change in residence and/or employment occurs. FD-122 is submitted on SI subjects each time the above changes take place on that individual. Both of these forms show residence and employment, and both contain similar information.

Each time a change is made in residence and/or employment, if Secret Service has been notified at any previous time, they should be advised on FD-366. Execution of this form is often overlooked, hence their (Contd)

Advantages of suggestion and annual savings (Cont'd):

file is not kept current unless FD-366 is submitted to them. The purpose of adding a block showing that Secret Service has been notified is to remind the Agent and/or the Steno to submit this form.

This suggestion will make it possible for one form to be used instead of the two forms now in use (FD-397, FD-122) and will insure that Secret Service is kept abreast of current changes of address and/or employment.

Time saved in preparing proposed new form and filling in only information applicable to each type subject, will make it unnecessary to maintain stocks of two different forms in all offices and other points, thereby cutting storage by 50%, filing by 50%, eliminate 50% of the cost of printing. The new form would also assure that Secret Service was notified if necessary.

SUGGESTION

Re Form FD 154 (VERIFICATION OF INFORMATION ON SECURITY INDEX CARDS)

Gen'l

Suggest deletion of "Defense Facility" from places indicated on attached form. Defense Facilities are no longer in existence according to latest changes in Manual of Instructions, Volume III, Section 87, dated 8/13/70.

Revised FD 154 dated 4/25/69 still contains the term "Defense Facility".

Current practice or rule (Include manual citation as well as facts)

"Defense Facility" is listed for marking in two separate places on FD 154.

Advantages of suggestion and annual savings (include basis for estimate)

Deletion of Defense Facility from FD 154 brings form completely up to date and makes form easier to complete by omitting unnecessary items.

KEY BLACK EXTREMIST PROGRAM
RACIAL MATTERS

Security Index Cards

During your investigations of black extremist organizations and individuals, you have furnished information indicating that certain individuals are extremely active and most vocal in their anti-Government statements and their calls for terrorism and violence. Although the violence potential in all black extremists necessitates continued priority attention by all offices, there are certain individual leaders and activists who can be considered as Key Black Extremists (KBE).

At this time, the Bureau is designating those on the attached list as KBEs. The term KBE does not require that an individual actually hold an official position in an organization but is to include others of equal importance because of their influence as black extremists.

An intensified investigation of each person on the attached list must be immediately instituted with the objective of developing complete and detailed information on their day-to-day activities and future plans. Each office must continually remain alert for additions to the KBE list. Submit all recommendations to make specific subjects KBEs to the Bureau for approval. These cases must be given intensive investigative attention and close supervision by all offices. Maintain a high level of

informant coverage on the subjects. All avenues of investigative attention must be explored and necessary recommendations to the Bureau must be made promptly.

The desirable coverage must include, but not be limited to, the following investigation. These investigations must be conducted with initiative and imagination in order that the desired results are achieved. Each of these cases will receive close scrutiny at the Bureau.

(1) All KBEs must be included in Priority I of the Security Index. If not already so included, promptly submit FD-122.

(2) All KBEs must be included in the Black Nationalist Photograph Album (BNPA). Promptly submit photograph and required background on each KBE not presently in the BNPA and when a subject is designated a KBE.

(3) All aspects of the finances of a KBE must be determined. Bank accounts must be monitored. Safe deposit boxes, investments, and hidden assets must be located and available information regarding them must be reported. (X)(U)

(4) Continued consideration must be given by each office to develop means to neutralize the effectiveness of each KBE. Any counterintelligence proposal must be approved by the Bureau prior to implementation. (X)(U)

(5) Obtain suitable handwriting specimens of each KBE to be placed in the National Security File in the Laboratory. When possible, obtain specimens from public records, law enforcement agencies, and similar sources. Send specimens to the Bureau under separate cover letter by registered mail for the attention of the FBI Laboratory. When they are of value as evidence, so state in the transmittal letter and request their return after copies have been made. Specimens should be sufficient to permit future comparisons by the Laboratory. (X)(U)

CONFIDENTIAL

(6) Particular efforts should be made to obtain records of and/or reliable witnesses to, inflammatory statements made which may subsequently become subject to criminal proceedings. Promptly record all such information in interview report form.

(7) Where there appears to be a possible violation of a statute within the investigative jurisdiction of the Bureau, the substantive violation character should be included in subsequent communications and the possible violation vigorously investigated in accordance with existing instructions.

(8) Particular attention must be paid to travel by a KBE and every effort made to determine financial arrangements for such travel. If a credit card is used, determine its validity and the amount being charged to that card on a continuing basis. Travel information must be submitted to the Bureau and interested offices by appropriate communication to permit coverage of the KBE. It will be the responsibility of the office of origin to insure that the activities of the KBE are covered by auxiliary offices.

(9) The Federal income tax returns of all KBEs must be checked annually in accordance with existing instructions.

If no investigative summary report has been submitted in each case, such a report must be submitted to the Bureau by 2/15/71. Thereafter, an investigative report should be submitted at least every 90 days. Furthermore, appropriate communications suitable for dissemination should be promptly submitted in the interim to keep the Bureau fully advised of the activities of each KBE. The words (Key Black Extremists) should be included in the character of each communication submitted except those communications (including reports) which are prepared for dissemination.

SUBJECT: SUGGESTED REVISION IN THE UTILIZATION OF CHARACTERIZATIONS USED IN REPORTS AND LETTERHEAD MEMORANDA

436-71

SECURITY INVESTIGATIONS OF INDIVIDUALS

This memorandum suggests that the current procedure for characterizations of organizations in letterhead memoranda and reports in all security classifications, except security of Government employees and applicant investigations, be amended.

Current Procedure

Current procedures for characterization in security-type investigations call for the affixing of appendix pages to letterhead memoranda and reports for each organization mentioned in the communication. In each instance, this increases the size of the document by adding at least one page to each one that mentions an organization. In some instances, as many as five or six appendix pages must be added to a one-page document (an example attached). It can readily be seen that this increases the size of the document but adds little information to the subject of the communication.

Recommended Procedure

In order to save space, effect a monetary saving and add to the readability of these Bureau documents, the following method of characterizing organizations is suggested: (1) that characterizations in applicant and security of Government employee (SGE) investigations be continued as presently required with appendix pages being added to the end of the communication; (2) that letterhead memoranda and reports in all other security classifications contain a short succinct characterization in the details immediately following the first mention of an organization and the appending of a characterization at the end be eliminated; (3) that on an annual basis field offices furnish current characterizations of organizations of which they are office of origin. (This, in effect, is the long form developmental history of the organization which is currently submitted by the field as a

CONTINUED - OVER

characterization and will continue to be used in applicant and SGE cases.) In addition, it is recommended these annual submissions contain a short succinct statement which can be used in other security classifications as noted above. This would be a statement giving the character of the organization only. As is currently required, both the long and succinct summaries would be first approved at the Bureau and, thereafter, used throughout the field.

Advantages

One advantage of this procedure is that the space used for storage at the Bureau and other agencies would be considerably reduced due to the fact that long characterizations would be eliminated in security classifications.

The needs of other Government agencies for detailed information relating to the various subversive organizations required under the provisions of Executive Order 10450 would be met.

Reports in other types of security investigations would be more readable in that it would not be necessary to refer to the end of a communication for the description of an organization nor would it be necessary to read a long developmental history of it in order to get an idea of the nature of an organization.

Should an agency need additional characterization beyond the succinct form furnished in the communication, the agency could receive this information upon request by being furnished a copy of the long form, approved on an annual basis and in the possession of the Bureau.

RECOMMENDATIONS:

1. That this suggestion be referred to the Training Division, Attention: Suggestion Desk, for appropriate action.

2. That the comments and recommendations of the Inspection Division, General Investigative and Special Investigative Divisions be obtained.

We forward to the field quarterly an alphabetical list of each office's Security Index in order that the Security Index cards maintained in the field may be checked and reconciled with Bureau records.

To accomplish this a letter is directed to Albany with two copies to each office by name. This is necessary as that portion of the Security Index relating to each office must be enclosed. The letter runs a page and a quarter which requires considerable typing by a stenographer and the reproduction of 124 copies by the Mechanical Section.

It is proposed that in the future this function be accomplished by sending a preprinted routing slip to each field office attaching its Security Index list. The routing slip will contain the instructions that have previously been carried in the letter to all offices which read as follows: "The attached list should be used to reconcile the Security Index in your office with the Security Index at the Seat of Government by checking the names on the list against the Security Index cards. Detailed instructions regarding the handling of this list are contained in Bureau letter to Albany, copies to all offices, captioned as above, dated April 24, 1961."

This latter streamlined operation will save the time it takes the stenographer to type a page and a quarter, the expense of reproducing 124 copies (two to each field office and appropriate ticklers) of the letter, and will expedite the handling of the lists.

EX-111 REC-6 100-358086-4876

12 FEB 3 1971

ACTION:

If approved, the streamlined method described will be used to have the field check their Security Index against the list maintained at the Bureau.

This matter was reviewed during the current inspection and elimination of the letter and reproduction of 124 copies to be replaced by a preprinted routing slip appears to be a worthwhile streamlining of operations. It is felt this recommended practice should receive favorable consideration.

SUBJECT: SECURITY INDEX CARD STATISTICS

As of February 15, 1971, there are in the Security Index 3,646 persons of leadership capacity (Priority I and II) and 8,721 rank and file subjects (Priority III) for a total of 12,367. Of these 837 and 4,695 respectively, are communists -- a total of 5,532 or 44.7 percent.

A detailed table for each of the two categories, copies enclosed, shows as of February 15, 1971, the distribution of the subjects by field office, nationalistic tendencies, dangerousness, sex, race, citizenship, and "special lists." A key to abbreviations is enclosed.

PROPOSED CHANGES IN
MANUAL OF RULES AND REGULATIONS

Part II, Section 4D, (13)(a)I., page 21, should be amended to read as follows:

(13) Characterizations
(a) Organizations
I. When a field office initiates a continuing investigation of a subversive, racial, Klan, white hate, or militant black organization within its territory, a thumbnail sketch of the organization must be prepared by the office and submitted to the Bureau for approval. When approved, this sketch is to be used thereafter in reports and letterhead memoranda in Security of Government Employees and Applicant cases only, for the purpose of characterizing the organization. (See Item VII below providing for characterization of organizations in other security-type cases.) This is accomplished by:

Part II, Section 4D, (13)(a), insert Item VII on page 22, as follows:

VII. In each instance where a thumbnail sketch is submitted on a subversive organization, it should be accompanied by a brief descriptive statement of two or three lines which will be used in characterizing the organization in all security-type cases other than Security of Government Employees and Applicant cases. The brief descriptive statement will be set forth in the details of reports and letterhead memoranda following the first mention of an organization therein.

COOPERATION WITH PASSPORT OFFICE
DEPARTMENT OF STATE

The Director has recently commented on the need for selectivity in disseminating to Passport Office, Department of State, in view of recent publicity concerning the data bank maintained by the Passport Office.

With the Director's approval, from 12/8/50 to 11/25/68, we furnished Passport Office, Department of State, on a quarterly basis a list of top functionaries and key figures on the Security Index. Starting 11/25/68 the Director has approved that we furnish Mr. Robert D. Johnson, Deputy Director and General Counsel, a list on a quarterly basis of individuals included in Priority I of the Security Index. Priority I includes hard-core national and state basic revolutionary organization leaders and leaders of other subversive organizations and unorganized groups who have indicated a propensity for violence or have received special training in sabotage, espionage, or guerrilla warfare. This list, which is prepared by the Automatic Data Processing Unit, is very useful as the Department of State alerts the Bureau to contemplated travel abroad of subversives.

Mr. Johnson has previously been made to understand that the list is to be handled in the strictest confidence by him at all times in his office safe and is to serve only as an alert list upon which State can take no action but must contact us for reports. It is further stressed that we have been furnishing this data to Passport Office for more than 20 years without incident.

ACTION:

If approved, the Priority I list prepared as of 2/15/71 will be furnished to Mr. Johnson.

(I) THUMBNAIL SKETCHES -- Under existing reporting procedures, thumbnail sketches prepared as appendix pages are affixed to reports and letterhead memoranda (LHMs) to characterize each subversive organization mentioned in the pertinent communication. In many instances, this has considerably increased the size of the report or LHM. In order to save space, effect a monetary saving, and add to the readability of these documents, this procedure is being modified. Appendix page thumbnail sketches will continue to be required in Security of Government Employees and Applicant investigations, with such pages being added to the end of the communication. However, reports and LHMs in all other security classifications will contain an abbreviated characterization in the details immediately following the first mention of an organization, and appending a thumbnail sketch will be eliminated. Field offices will continue to furnish current thumbnail sketches to the Bureau on an annual basis on organizations where they are office of origin. An abbreviated characterization of two or three lines will be included with these annual submissions, and the abbreviated version will be used in all security classifications, except as noted.

For your guidance, the following abbreviated thumbnail sketch of the Progressive Labor Party (PLP) has been approved by the Bureau:

> The PLP was founded in 1962 by individuals expelled from the Communist Party, USA, for following the Chinese communist line. Its objective is the establishment of a militant working-class movement based on Marxism-Leninism and MAO Tse-tung thought.

As is currently required, thumbnail sketches will first be approved at the Seat of Government and thereafter used throughout the field. Similarly, Bureau approval of the abbreviated characterizations will also be required before field use.

In order to implement this new procedure as soon as practical, all field offices are instructed to submit by April 1, 1971, abbreviated characterizations on organizations where they are origin and on which they have already submitted full-length thumbnail sketches. Each brief descriptive characterization should be on a separate page with a single cover communication referencing this SAC Letter. This procedure will also be followed when thumbnail sketches are submitted on organizations not presently characterized or whenever changes in existing thumbnail sketches become necessary. Manual changes to follow.

Very truly yours,

SUBJECT: CHARACTERIZATIONS (THUMBNAIL SKETCHES)
SUGGESTION 436-71 SUBMITTED BY
THE DOMESTIC INTELLIGENCE DIVISION
SECURITY INVESTIGATIONS OF INDIVIDUALS

Executives Conference memorandum 1/13/71 recommended and the Director approved suggestion that in all but Security of Government Employees (SGE) and Applicant cases we use brief descriptive statements in body of communications first time organization is mentioned. Previously we have attached separate characterizations (thumbnail sketches) of all mentioned organizations in appendix to report or letterhead memoranda. This last mentioned procedure will still be used in Applicant and SGE cases.

It was also suggested and approved Inspection Division survey feasibility of removing characterization appendix pages on SGE and Applicant reports before being filed in order to save filing space.

Discussed with interested Divisions. Domestic Intelligence and Special Investigative Divisions would prefer characterizations left on to facilitate subsequent dissemination when necessary. Both Divisions, however, deferred to General Investigative Division where largest volume of such reports disseminated by Name Check Section. Survey in this Section reflects over 1000 reports and letterhead memoranda disseminated each week. Approximately 13 per day had appendix pages. If these appendix pages had been previously removed time of at least one additional employee would be needed to make copies of correct appendix pages from control file and attach to reports prior to dissemination.

MAR 2 1971

Files and Communications Division advises additional filing cabinet space saved not sufficient to justify additional costs to implement proposal. Also need for filing space relieved due to steps underway to move Records to larger space.

On 1/25/71 joint meeting of representatives of Records Branch, Name Check Section and Inspection Division unanimously agreed any anticipated space savings of proposal far outweighed by need for additional employees and time needed to handle if appendix pages of SGE and Applicant reports not filed.

RECOMMENDATIONS

1. That in security-type reports and letterhead memoranda we use approved short descriptive statements (two or three lines) in body of such communications first time organization mentioned. If approved, to be implemented by the Domestic Intelligence Division.

O.K.

2. That in SGE and Applicant reports we continue to use approved characterizations (thumbnail sketch).

O.K.

3. That when filing SGE and Applicant reports we continue to file the characterization appendix pages to facilitate subsequent dissemination.

The Director has requested a memorandum concerning guidelines for FBI investigations and, as noted on attached article from "The Washington Post," has stated we must get together all our guidelines.

DECLASSIFIED BY 1-9063 EWW/SMK
ON 5-24-00 #377577

Guidelines in conducting investigations are furnished to the field in a "Manual of Instructions," the "F.B.I. Handbook," and in Letters to all Special Agents in Charge. In addition, guidance is also given to the field in Bureau communications on specific cases. The Bureau's jurisdiction to conduct investigations arises from statutes and presidential directives.

There are attached memoranda from the Domestic Intelligence Division, the Special Investigative Division and the General Investigative Division setting out specific guidelines under which investigations are conducted by those Divisions. It should be noted that our guidelines on the conducting of investigations in addition to setting out the investigation desired in each matter also contains restrictions to insure that we do not violate the constitutional rights of any individual and to prevent investigations from becoming "fishing expeditions."

For example, in security investigations, no investigation is conducted merely because an individual or group supports an unpopular cause. Bureau authority is required prior to conducting a photographic surveillance, prior to investigating the communist infiltration of a political organization, and prior to developing sources connected with an institution of learning. Sources connected with an institution of learning cannot be contacted on the campus and individuals under the age of 18 cannot be developed as sources. We do not investigate ambassadors or heads of permanent

missions to the United Nations. Department of State clearance and Bureau authority are necessary prior to the investigation of officials and diplomatic representatives of foreign countries. (b)(4) surveillances are conducted at the White House, the Capitol, the Supreme Court, or the House and Senate Office Buildings.. Our investigation of black nationalist groups and individuals is limited to those who take an extremist anti-U.S. Government position and whose activities have or may involve them in disturbances or subversive activities. We do not investigate individuals on the basis of their membership in organizations which do not advocate the use of force.

Concerning criminal intelligence and organized crime matters, investigations are conducted to develop and maintain current intelligence on the activities of organized crime and the development of substantive cases against individual racket figures. These investigations are highly selective and are concentrated on the leaders of organized crime and their associates. Close supervision is afforded. The use of court-approved electronic surveillances requires the approval of the Director and the Attorney General (AG) and the ultimate authorization by court order.

In the matter of applicant investigations, specific guidelines have been developed to protect the rights of individuals. Favorable information concerning an individual must be obtained, as well as unfavorable; investigation is limited to checks of pertinent records and interviews of individuals in a position to furnish relevant information; persons furnishing derogatory information are requested to furnish a signed statement; we make no evaluation or recommendation concerning the applicant.

Our investigative jurisdiction in criminal cases is based on specific violations of Federal laws. Investigations are conducted when information is received indicating a violation of a Federal law within our investigative jurisdiction has occurred. The results of our investigations are submitted to the United States Attorneys or the Department of Justice to determine whether prosecutive action is justified. The course of prosecutive action is determined by the United States Attorney or the Department of Justice. A decision may be made to present the case to a Federal grand jury or whether the facts justify the arrest of the subject. When the subject is arrested it is on the basis of authorized prosecution and the issuance of a warrant. When the subject is arrested he is brought before the nearest Commissioner or Magistrate or Federal Judge in accordance with established rules of Federal criminal procedure and the law.

Memo to Mr. Brennan
RE: GUIDELINES FOR FBI INVESTIGATIONS

SECRET

Requests for FBI investigation in selected civil matters also are received from the Department and/or the United States Attorneys in cases in which the United States is a party in interest and are handled in accordance with guidelines furnished by the Department. Civil rights, election laws, and antiriot law investigations are handled in strict conformity with detailed guidelines furnished by the Department.

In addition to these, our guidelines contain numerous other restrictions which apply to all phases of our work. For example, no technical surveillance is instituted without Bureau and Departmental authority; Agents cannot engage in improper or unethical tactics; Agents must testify in court clearly and without bias and critical complaints concerning Bureau personnel must be thoroughly investigated.

Authority to arrest fugitives is statutory. U. S. Code empowers Agents to make arrests and carry firearms and the Bureau's policy is to only use that force which is absolutely necessary to affect the arrest of the person to be arrested and show due regard for the safety of the arresting officers and bystanders. Our guidelines are that Agents are not to shoot any person except for the purpose of self defense.

Dear [redacted]

Reference is made to your suggestion that Form FD-122 be amended to include a particular item and that a succinct summary be placed on this form to obviate the need for a separate letter under certain circumstances. It is a pleasure for me to advise you this proposal is being adopted and steps will be taken to place it into effect. The wording of the three items involved will be revised to eliminate verbiage.

I want to take this opportunity to express my appreciation to you for bringing this matter to my attention.

Sincerely yours,

J. Edgar Hoover

NOTE: Suggests Form FD-122, Recommendation for Preparation of, or Change in, Security Index Card (sample attached), be amended to include recommending removal of a Security Index subject. This could be accomplished by the addition of another ballot box with appropriate notation. A succinct summary could be added to form thus obviating need for a separate letter to be written.

Referred to the Administrative and Domestic Intelligence Divisions for views and recommendations.

SUGGESTION

The FD-122 is used to recommend an individual for inclusion on the Security Index and to change personal data of a Security Index subject. It is suggested that the form be amended to include the possibility of recommending removal of a Security Index subject. This could be done through the addition of one extra block, whereby the form could be utilized to recommend removal of the subject from the Security Index. A succinct summary could be added to the form, thus obviating the need for a separate letter to be written.

GENERAL

Current practice or rule (Include manual citation as well as facts)

The current practice is cited above.

Advantages of suggestion and annual savings (include basis for estimate)

It is felt that there is no way of determining the actual manpower savings, however, it is felt that this would be of great assistance in the standardization of recommendations for the Security Index. It is noted that the FD-397 includes a block relating to the deletion of Agitator Index subjects. This has been a time-saving influence in this regard and it is felt the addition of a similar block on the FD-122 would be useful.

Director, FBI	Eugene W. Whitwam	Identification

SUGGESTION That Form FD-128 which is used by the field to report the change of Office of Origin in a security or racial investigation to the substantive desk at the Bureau and the Identification Division be revised. The purpose of designating one copy of the FD-128 to the attention of the Identification Division is to post the change in the Office of Origin in the fingerprint jacket of the individual on whom a prior security flash notice has been placed. All individuals on whom a security flash is placed in Ident have been assigned an FBI number. Therefore, when an FD-128 is being submitted for the purpose of changing an Office of Origin sufficient information should be set forth thereon so that Ident can easily locate the fingerprint record for the purpose of making this change. Sufficient identifying data should be in the form of an FBI number, other identifying numbers, date and place of birth or fingerprint classification. If a security flash has never previously been placed against the individual in question, no FD-128 should, of course, be submitted to Ident for the purpose of changing the Office of Origin. The changes in Form FD-128 being suggested will materially assist Ident in processing these forms resulting in the prompt posting of the new Office of Origin. (Sample of current and proposed FD-128 attached.)

Current practice or rule (Include manual citation as well as facts)
Current Form FD-128 does not require any identifying data of individual to assist Ident in location of fingerprint record.

Advantages of suggestion and annual savings (Include basis for estimate)
This suggestion will materially assist Ident in locating fingerprint records which are subject of security flash notices resulting in prompt location and posting of the changed Office of Origin. In addition, the suggested changes requiring specific identifying data to be set forth on the form will allow Ident to make a positive identification against a record rather than pulling numerous tries in an attempt to determine whether the individual set forth on the form relates to a specific identification record. The annual savings involved in the suggestion is iunknown.

SUBJECT: SECURITY INDEX - GENERAL
SUGGESTION 794-71 SUBMITTED BY
SA [redacted] CHICAGO OFFICE

b6
b7C

SYNOPSIS

Suggests Form FD-122 which is used to recommend an individual for inclusion on the Security Index and to change personal data of a Security Index subject be amended to include recommending removal of a subject from the index. At present, this is done by writing a letter to the Bureau. A succinct summary could be added to the form or attached to the form thus obviating the need for a separate letter with the time and work involved in its preparation.

Voucher-Statistical Section, Administrative Division, advised that from an operational standpoint, it had no objection to the proposed action. Domestic Intelligence Division agreed with the idea and stated this would provide uniformity in that the same form would be used for all changes involved. Training Division has amended the wording to remove excess verbiage. (Samples are attached with the amended revised FD-122 for approval.)

RECOMMENDATIONS: (1) That the suggestion be adopted and the attached letter be forwarded to the suggester advising him of this fact. His idea has been acknowledged by prior letter.

(2) On approval, this memorandum will serve as the authority for the Domestic Intelligence Division to take appropriate action to place the procedure into effect.

DETAILS

SUGGESTION: The FD-122 is used to recommend an individual for inclusion on the Security Index (SI) and to change personal data of any SI subject. Suggests this form be amended to include the possibility of recommending removal of any SI subject. This could be done through the addition of one extra ballot box, whereby the form could be utilized to recommend removal of the subject from the SI. A succinct summary could be added to the form thus obviating the need for a separate letter to be written.

ADVANTAGES: The suggester feels this would be of great assistance in standardizing recommendations for the SI. He notes that Form FD-397, Recommendation for Addition to, Change in, or Deletion From Agitator Index, included a block relating to the deletion of Agitator Index subjects (it should be noted this form has now been deleted since this index has been abolished). This was a time-saving device in this regard and the suggester feels a similar block on Form FD-122 would be useful (sample of proposed form attached).

OBSERVATIONS: Voucher-Statistical Section, Administrative Division, advised that from an operational standpoint, it had no objection to the proposed amendment to the FD-122.

Domestic Intelligence Division agreed with the idea also. This Division pointed out that at present individuals are recommended for removal from the SI by a letter from the field to the Bureau. Under the proposed procedure, Form FD-122 could be used for deletion with the reasons for such deletion included in a succinct summary attached to the FD-122. Even though the idea may not save a great deal of time on an overall basis, it will add uniformity in that the same form would be used for recommending and individual for the SI, submitting changes in his status, and recommending his deletion from the SI. The use of the form additionally will immediately alert the reader to the recommended action whereas the recommendation may be buried in a letter and not easily discernible.

Since both of the interested divisions recommend approval, Training Division has no objection to this action. After consulting with the Domestic Intelligence Division, it has been decided the format should be revised on the line where this information will be listed to eliminate unnecessary verbiage. An amended format of the FD-122 is attached for approval.

COOPERATION WITH PASSPORT OFFICE
DEPARTMENT OF STATE

The Director has recently commented on the need for selectivity in disseminating to Passport Office, Department of State, in view of recent publicity concerning the data bank maintained by the Passport Office.

With the Director's approval, from 12/8/50 to 11/25/68, we furnished Passport Office, Department of State, on a quarterly basis a list of top functionaries and key figures on the Security Index. Starting 11/25/68 the Director has approved that we furnish Mr. Robert D. Johnson, Deputy Director and General Counsel, a list on a quarterly basis of individuals included in Priority I of the Security Index. Priority I includes hard-core national and state basic revolutionary organization leaders and leaders of other subversive organizations and unorganized groups who have indicated a propensity for violence or have received special training in sabotage, espionage, or guerrilla warfare. This list, which is prepared by the Automatic Data Processing Unit, is very useful as the Department of State alerts the Bureau to contemplated travel abroad of subversives. THE LIST IS NOT IDENTIFIED TO STATE AS A SECURITY INDEX.

Mr. Johnson has previously been made to understand that the list is to be handled in the strictest confidence by him at all times in his office safe and is to serve only as an alert list upon which State can take no action but must contact us for reports. It is further stressed that we have been furnishing this data to Passport Office for more than 20 years without incident.

ACTION:

If approved, the Priority I list prepared as of 5/15/71 will be furnished to Mr. Johnson.

SUBJECT: SECURITY INDEX LISTS - GENERAL

Monthly we furnish the Assistant Attorney General, Internal Security Division, a current list of subjects on Priorities I and II of the Security Index (SI). Listed separately are those U. S. Government employees on Priorities I and II.

Justice Department D.C.

[redacted] Director, Office of Security, Internal Security Division, telephonically requested this date that we include in the list those U. S. Government employees who are on Priority III of the SI. [redacted] says it will be used as a check list against which the Internal Security Division will continuously review its files for any Federal violations relative to these subjects. He says such a review is done on a piecemeal basis and he wants to be sure no case is overlooked.

We prepare such a list for our own use and it will require no extra effort on our part.

ACTION:

If approved, Priority III listing of U. S. Government employees on the SI will be included with the lists of subjects on the SI furnished to the Department monthly.

"The Washington Post," 6/13/71, contained a lengthy article by William Greider concerning the Security Index (SI) Program. It is fairly accurate and a complete disclosure of the Program. Greider requested information about the SI from Mr. Bishop on 6/10/71 and was given a "no comment" reply. He indicated he had some information about the SI at that time.

As you know, the SI consists of subjects who are considered for apprehension if the Emergency Detention Program (EDP) is invoked. Our responsibilities in the Program originated with Presidential Directives dating back to 1939. Security investigations of individuals are related to the EDP, which is based on Title II of the Internal Security Act of 1950 (ISA-1950). The EDP involves plans for apprehension and detention of individuals potentially dangerous to the internal security in event of national emergency. Recommendations that individuals be included in the SI are approved by the Special Agents in Charge in each field division and approved by the Bureau. Activities of individuals added to the SI are thoroughly reviewed by the Department which makes the final decision as to whether the individual should be retained on the SI. This article was no doubt triggered by mention of the SI in the Medburg case. Greider quotes unnamed ex-FBI Agents and ex-Departmental attorneys. There is no doubt that many of these are sufficiently knowledgeable to talk about the SI. Annually the Director informs the House Appropriations Committee off the record of the number of people we have in the SI and the number of those tabbed for priority apprehension. Previously the news media has referred to a detention program in connection with legislative attempts to repeal the ISA-1950. However, there has never been such a detailed public disclosure of the SI as a whole.

ENCLOSURE

This article does contain several inaccuracies:

1. According to the article, Ramsey Clark denied knowing about the SI. This can't be true; by letter, 4/5/67, he gave the Director permission

to put the EDP into effect if the President, he, or certain Departmental attorneys were not available to put it into effect.

2. The article relates that the Program is unknown to Congress. The Director informs the House Appropriations Committee relative to it annually, in "off the record" testimony.

3. The article states that the Bureau maintains an Agitator Index. The Agitator Index was established 8/67 to include those who had demonstrated a propensity for fomenting disorder of a racial and/or security nature. After it served our purpose we abolished it in 4/71.

4. The article implies that the SI is never purged. Actually, it is under constant review by the Bureau as well as the Department to eliminate those who do not warrant retention.

5. Greider guesses there are more than 10,000 on the SI. While we do have 12,604 on the SI, no more than 1,300 are considered for priority detention.

The article mentions a Bureau "memorandum," 2/26/71, concerning our investigation of a college student, "Mary Jane L." (last name not spelled out). This memorandum, according to the article, was one of the items stolen from our former Resident Agency in Media, Pennsylvania, and made specific reference to the SI. The article quoted part of the memorandum referring to the SI. The memorandum in question is a letter from the San Francisco Office to the Bureau, 2/26/71, entitled "Changed: [redacted] SM-ANA." The quote in the article is accurate and taken from page 2 of the San Francisco letter.

b6
b7C

The [redacted] letter was previously identified as document stolen from Media. A separate damage assessment write-up was prepared (pages 153-154 of running brief). In attachment to a letter to the Attorney General, 3/25/71, captioned "Burglary of the FBI Resident Agency, Media, Pennsylvania, March 8, 1971," we referred to the theft of the [redacted] letter and specific reference therein to the SI. We alerted the Attorney General that reference to the SI is "deemed a threat to the internal security, could open the door

to inquiries regarding the propriety and purpose of maintaining lists of subversives."

Actually, Greider's article is not the first time the [redacted] letter and its reference to the SI has been publicized. For example, the 3/25/71 edition of "The New York Times," dealing with the theft of FBI documents from Media, refers to the [redacted] letter and stated "The girl (the subject) was not placed on the 'Security Index.'" Similar references to the same letter appeared in the 3/30/71 edition of "The Harvard Crimson," a weekly newspaper of Harvard University, and the 4/10/71 edition of "The New Republic" magazine. b6 b7C

U.S. Keeps Index for Emergency Arrests

10,000 'Potential Subversives'

By William Greider
Washington Post Staff Writer

Unknown to the general public or even to Congress, the federal government maintains a super-secret listing of so-called potential subversives — a file which would be the basis for federal arrests in the event of war or an "internal security emergency."

It is called the "Security Index," compiled and kept up-to-date by the Federal Bureau of Investigation, supervised by the Justice Department's Internal Security Division.

Though it has been in existence since at least the 1930s, the government does not admit it, even when Congress makes an inquiry. Both the FBI and the Justice Department refuse to concede even that there is something called the "Security Index," much less explain what it is.

The index is a closely held list of the names, addresses, jobs and phone numbers of thousands of Americans considered potentially dangerous spies or saboteurs, if war or national insurrection developed. How many thousands is not known, but the list has been expanded in recent years as New Left radicals and militant black leaders were added to the rolls, joining the Old Left types from the Communist Party and Trotskyite organizations. A conservative guess based on public figures on subversives is that more than 10,000 people are kept under scrutiny as index subjects.

The little that is known about it comes from two sources — the FBI documents stolen three months ago from the Bureau's Media, Pa., office in interviews with a number of ex-FBI agents and former Justice Department lawyers.

One memorandum in particular, dated Feb. 26, 1971, mentions the index by name — but without revealing its significance. It recounts the investigation of a University of California student named Mary Jane L. whom an FBI informant in Washington, D.C., codenamed WF 1577-S, described as "an inveterate Marxist revolutionist . . . far out."

After canvassing informants in Berkeley radical circles, a West Coast agent couldn't find anything to substantiate that, so he concluded his report:

"Due to lack of information and activities of subject, San Francisco is not submitting a summary report at this time. Subject is not being recommended for inclusion on the Security Index as it is felt additional investigation is acquired (sic) before this evaluation can be reached."

While it is not mentioned in any of the Media documents, several ex-agents said the bureau also maintains something called an "agitator," still another internal listing or perhaps a category within the Security Index.

Several other papers stolen at Media, copied and sent to newspapers conclude with recommendations to "index" several individuals associated with black militant organizations, but the references do not clearly identify the Security Index.

When asked about it, ex-FBI agents expressed some hesitation. The index, they said, is "a taboo subject" or "super-secret" or "super-skittish."

Four of them, however, said the "SI" designates the people who could be picked up and detained as potential saboteurs or spies if war conditions or a national insurrection posed an "internal-security" threat. One agent called them the "potential fifth-column."

People to Grab

A lawyer who served in the Justice Department's Internal Security Division under a previous administration offered a similar definition. "When I was there, there weren't any bones about it; these were the people they would grab."

Several of the sources said it was their understanding as special agents that the index was authorized by Title II of the 1950 Internal Security Act which has provisions for a presidential declaration of an "internal security emergency" which would permit the Attorney General to detain people without trial "who probably will engage in or conspire with others to engage in acts of espionage or sabotage."

That section of law, called the Emergency Detention Act, has spawned so many rumors of government "concentration camps" among urban black residents that the Justice Department has endorsed proposals to repeal it.

On Broader Authority

The Security Index, however, apparently is justified on broader legal authority and would not necessarily be affected if the 1950 law is erased. According to several sources, the index has been around at least since the 1930s and, indeed, was used as the basis for arresting some enemy aliens on executive warrants at the start of World War II. According to one former agent, the index was broadened in the postwar period based on a series of internal-security laws aimed at home-grown members of the Communist Party and associated leftwing groups.

Several sources emphasized their understanding that the index is not an automatic "arrest list," but would be evaluated depending on the nature of the national emergency before any action would be ordered.

A few years back, government officials publicly scoffed

when black leaders began warning about "a pickup list" aimed at Negroes in urban riots. They denied the charge and dismissed it as political paranoia when people like Rap Brown and Stokely Carmichael accused the government of planning mass detentions.

The government denials were presumably accurate as far as they went—no detention camps exist; no plans for mass racial arrests. The government did not, however, reveal that the index would permit "selective" arrests of what one ex-agent described as "the key activists."

More recently, the Justice Department passed up another opportunity to disclose the existence of the index. Last year, the Senate Judiciary Subcommittee on Constitutional Rights asked all federal departments, including Justice, to report on all of the "law enforcement-oriented or intelligence-type files" which the agencies maintain on citizens. Justice responded with a long report on its various files—but failed to mention the Security Index.

Each Briefed

Former Attorney General Ramsey Clark, asked about it, said he did not remember anything called the Security Index. Other sources said, however, that each attorney general would be briefed on it when he took office.

Many questions are still unanswered about its scope and limitations, the rules of application. But some details have been learned.

The ex-FBI sources disagree among themselves about one of the most crucial questions—the degree of care applied in putting people on the index and in taking them off.

"I felt the number was great enough," said one former agent, "that it bothered me because the bureau has a tendency never to purge its records."

Another expressed a similar concern: "It's a lot easier to get someone on than it is to get them off."

Dropped If Harmless

Several others disputed that, however. They felt from their own experience that the bureau is careful in applying the designation and, if an individual proves to be harmless by the FBI standards, he is promptly dropped.

One former FBI man, who is no admirer of the bureau's leaders, still spoke highly of procedures surrounding the index: "I think they're doing a good job. A lot are eliminated by the first look. A lot of them don't make the Security Index."

There is very little known, of course, about what standards the FBI uses to decide who is a potential subversive and who isn't. The bureau declines to make any of its policy guidelines available for public inspection.

To put someone on the index, a special agent at a field office must fill out a special form, accompanied by an investigative memorandum, detailing his justification. According to the ex-agents, the index has three classifications, I, II, and III, based in descending order on how dangerous the individual is considered.

"Number One is for the real baddies," said one ex-agent who doesn't think much of the whole system.

Screened at Bureau

The agent's recommendations are first screened at Bureau headquarters in Washington. But the FBI, according to several sources, does not have the final determination as to who gets on the list. The bureau's recommendation is forwarded to the Internal Security Division of the Justice Department where lawyers—some of whom are ex-FBI agents—make the final judgment.

According to one lawyer who used to work there, but who never was privileged to look at the index, the names used to be recorded in a big green book, which was closely guarded, even within the Internal Security Division. Whether they still use a big green book is not known.

Once a person is part of the index, his case is rechecked on a regular basis, perhaps several times a year if he is considered especially dangerous. The agents said this is done both to make certain his address is correct, in the event that a national emergency occurs, and also to revalidate the original justification for including him.

One former agent, who regards the index as a prudent operation of government, described how he "worked" a Black Muslim on the Security Index for six months, then recommended that he be dropped from the listing.

"He had a job, he was a pretty straight guy," the ex-agent said. "He was a Muslim, but that's no crime, so he was dropped."

Several other sources didn't feel that it works that way. They recounted names kept on the index for past political activities or associations which they regarded as pointless. "If the Soviet Union attacked tomorrow," said one ex-agent, "I think there would be an awful lot of Americans embarrassed."

Number Not Disclosed

Like all of the other questions, the FBI declined to reveal how many people are on the index. The estimates made by former agents varied considerably and, as they said, were only guesses.

One possible benchmark can be drawn from the 1950 debate over the Internal Security Act and its never-invoked detention provisions.

FBI Director J. Edgar Hoover reported to the bill's sponsor that there were 12,000 "inner hard core" Communist Party members who would be most dangerous in terms of potential sabotage or spying. That number presumably has dwindled somewhat over the years as Old Left leadership died off. On the other hand, the index has received new members in recent years from the New Left activists and black militants.

Civil libertarians would argue that the mere existence of such a list damages constitutional rights since it implies that an individual can be jailed merely on an investigator's suspicion and the circumstances of war, rather than for any personal criminal actions. The 1950 law, for instance, provides only for a hearing before an examiner appointed by the Attorney General—who may withhold evidence if he regards it as sensitive to national security.

Self-Preservation Right

The classic argument in defense of a secret file of dangerous people is that a government has a right to self-preservation. According to this viewpoint, the government has to keep track of such people, either aliens or citizens, and may have to detain them without trial, if the circumstances of war or national emergency are severe enough.

For instance, in the congressional debate over repeal of the 1950 detention act, the law's defenders contend that it provides the machinery for selectivity in detaining dangerous people—thus avoiding the kind of sweeping racial arrests which victimized loyal Japanese-Americans at the start of World War II. The measure, they add, was originally sponsored by Senate liberals such as Paul Douglas, Herbert Lehman, Estes Kefauver and Hubert Humphrey.

While this rationale may be small comfort to someone whose name is on the list, the President could declare an "internal security emergency" only if Congress declared war, the nation were invaded or an insurrection developed "in aid of a foreign enemy," a never-invoked power.

Washington, D. C.

Dear Mr. Whitwam:

Reference is made to your suggestion that Form FD-128 be amended to include certain additional information to facilitate its handling in the Identification Division. It is a pleasure for me to advise you this proposal is being adopted and steps will be taken to place it into effect.

You are to be commended for the interest and resourcefulness you displayed in this instance since, due to your idea, greater efficiency and economy will be realized in this phase of our work.

DATE: 5-10-71

FROM : Streamlining Committee

SUBJECT: SUGGESTION #812-71
SA EUGENE W. WHITWAM
IDENTIFICATION DIVISION

SUGGESTION:

That Form FD-128 be revised giving sufficient information so that Identification Division can easily locate the fingerprint record. Sufficient identifying data should be in the form of an FBI number, other identifying numbers, date and place of birth, or fingerprint classification.

CURRENT PRACTICE:

Current Form FD-128 does not require any identifying data of an individual to assist Ident in location of fingerprint record.

ADVANTAGES:

This suggestion would assist the Identification Division in prompt location and posting of change of Office of Origin for fingerprint records for subjects of Security or Racial flash notices. When the FBI number is used, the form would by-pass Card Index Section and go to Assembly for the jacket to be pulled and then routed to Posting Section to be handled.

OBSERVATION:

REC-53 100-358086-4096

This suggestion has been thoroughly discussed with all personnel concerned. All are in agreement with the committee that this is a good suggestion and should be adopted. Monetary savings will be nominal.

17 JUN 23 1971

RECOMMENDATIONS:

1. That suggestion be adopted and SA Eugene W. Whitwam be considered for an appropriate letter of commendation.

Re: Suggestion #812-71

ADDENDUM OF THE TRAINING DIVISION, ML: das, 5/17/71

The views of the Domestic Intelligence Division were also solicited regarding this idea. This Division agreed that the idea should be approved pointing out that at the present time, the FD-128 is submitted by field to the substantive desk at the SOG and the Identification Division so that the appropriate office of origin can be designated on Bureau records. The form as used to date has no space for designating FBI number, or other identifying data which would enable the Identification Division to easily locate the fingerprint record for purposes of recording the office of origin change. Due to the views of the interested divisions, Training Division has no objection to this action.

RECOMMENDATIONS: (1) That the suggestion be adopted and the attached letter of commendation be forwarded to the suggester. His idea has been acknowledged by prior letter.

(2) On approval, this memorandum with addendum will serve as the authority for the Forms Management Desk, Training Division, to take appropriate action.

PROPOSED CHANGES IN MANUAL OF INSTRUCTIONS

Section 87, page 35, item 4. b., should read:

Where potential dangerousness of subject has been established, office of origin is to prepare recommendation to Bureau on form FD-122, in triplicate. Forward original and copy to Bureau, and place copy in subject's file. Nothing should appear on FD-122 which is not in subject's file. FD-122 has three uses: (1) to recommend subject for security index, (2) to submit changes for existing cards, and (3) to recommend subject be deleted from security index. Submit abstract when recommending subject for security index but no abstract for changes on the security index card.

Following should be added as third paragraph under Section 87, page 44, item 10. f.:

In all cases the recommendation for removal from the security index should be made by FD-122 with attached succinct summary of facts on which the recommendation is based. Submit abstract with FD-122 used to recommend removal from security index.

Dear [redacted]

Thank you very much for the suggestion that Form FD-305 be amended to include certain additional information. It is a pleasure for me to advise you this proposal is being adopted and steps will be taken to place it into effect when this form is next printed.

I want to take this opportunity to express my appreciation to you for bringing this matter to my attention.

Sincerely yours,

Domestic Intelligence Division advised the addition of the proposed items would greatly aid Bureau supervisors in insuring all necessary action has been taken in Security Index cases and recommended adoption. Due to these views, Training Division has no objection to this action when form is next printed. On approval, this letter will serve as authority for the Forms Management Desk, Training Division, to take appropriate action.

SUGGESTION

To add item on FD-305 (FD-305 is utilized as the last cover page of reports and last page of cover communication to letterhead memoranda in all Security Index cases) showing "Date Security Flash Notice (FD-165) submitted to Identification Division" and "Security Flash Notice (FD-165) placed with Identification Division. Yes ☐ No ☐ "

Copy of suggested revised form FD-305 attached.

Security Index - General

Current practice or rule (Include manual citation as well as facts)

Current instructions as set out in Manual of Instructions, Section 87 E, page 22 E 2 (8) (b,c,d) reveal that Security Flash Notice (FD-165)

(See Page Two)

Advantages of suggestion and annual savings (include basis for estimate)

(1) Substantive Bureau supervisor could ascertain that Security Flash Notice (FD-165) has been submitted in each case after subject approved for Security Index.

(2) Substantive Bureau supervisor would have continuing knowledge that Security Flash Notice has been placed with the Identification Division if such is the case.

(3) When the Office of Origin is changed in Security Index cases the substantive Bureau supervisor would have information readily available to insure that copy of form FD-128 (Utilized to change origin in individual security investigation cases) should be designated

(See Page Two)

Disadvantages of suggestion

(The use by the United States of my suggestion shall not form the basis of a further claim of any nature by me, my heirs, or assigns upon the United States. I understand that I will be considered for any justified award only if my suggestion is adopted within two years after submission.)

Continued Current practice or rule:

must be submitted when subject is approved for the Security Index and is sent directly to the Identification Division. If the Identification Division has fingerprints on file, the Security Flash Notice is placed and the FD-165 is retained in the subject's fingerprint jacket. If the Identification Division has no fingerprints on file, the FD-165 is returned to the submitting office with appropriate notation. In either case, no copy of the FD-165 is placed in the subject's substantive case file at the Bureau.

Continued Advantaged of revised form FD-305:

for the Identification Division so that Division's records could be changed to show the new Office of Origin.

At the present time Bureau supervisors handling substantive cases involving Security Index subjects, have no way to determine if Security Flash Notices (FD-165) have been submitted or that they have been placed with the Identification Division without direct contact with that Division.

There is no way to estimate if there would be any monetary savings connected with this suggestion, however, it would insure much closer control by substantive Bureau supervisors that Manual of Instructions' requirements in this area are being closely followed.

ADDENDUM: DOMESTIC INTELLIGENCE DIVISION

Attached suggests that an item be added to FD-305 showing date Security Flash Notice (FD-165) was submitted to Identification Division and that Security Flash Notice was placed. FD-305 is utilized as last cover page of reports and last page of cover communications to letterhead memorandum in all Security Index cases.

COMMENTS OF DOMESTIC INTELLIGENCE DIVISION

Addition of suggested item will greatly aid Bureau Supervisor in insuring all necessary action has been taken in Security Index cases. Division recommends adoption of this suggestion.

FBI Lists 1,300 Americans To Watch in Emergency

The FBI maintains a list of some 1,300 Americans who would be put under "priority investigative coverage" in a national emergency, according to FBI Director Clarence M. Kelley.

Kelley said the list does not include nonviolent protesters and dissenters, but only those individuals who pose a "realistic, direct and current danger to the national security."

Kelley's memorandum disclosing existence of the "security index" was made public Wednesday by Chairman Robert W. Kastenmeier (D-Wis.) of the House civil liberties subcommittee.

The FBI director gave no names, citing security and individual privacy rights, but said 1,537 names were on the list as of Jan. 1 and 1,294 were on it as of Aug. 15.

"Individuals who are included," Kelley said, "are those who have exhibited a willingness or capability of engaging in treason, rebellion, sedition, sabotage, espionage, assassination of government officials, terrorism, guerrilla warfare or other acts which would result in interference with or a threat to the survival and effective operation of national, state or local government.

"Individuals are not included on this index merely because of opposition to government policies or because they exercise their constitutional rights of protest or dissent," Kelley said.

He also said membership in subversive organizations does not, by itself, put people's names on the list. The list is a record of people who would be put under "close investigative attention pending legal steps by the President to take further action," Kelley said.

"It also serves as an extremely valuable list of individuals who pose a threat to the safety of the President of the United States," he said, adding that the FBI provides data on the individuals to the Secret Service.

Kastenmeier praised Kelley for providing the information, but said "it is an unfortunate comment on the mentality of our national security establishment that it has taken nearly 30 years for the existence of the national security index to be publicly disclosed.

"Although the executive branch does not now assert the authority to suspend the Bill of Rights and incarcerate Americans at its discretion, the fact that it continues to actively maintain a list which had its genesis in a plan to systematically imprison thousands of political dissenters in the early days of the Cold War is fact which demands thorough congressional scrutiny and public discussion," Kastenmeier said.

Targets for 'Priority Coverage'

1,294 on FBI Danger List

Associated Press

The FBI maintains a list of some 1,294 Americans who would be put under "priority investigative coverage" in a national emergency, according to FBI Director Clarence M. Kelley.

He said the list does not include nonviolent protesters and dissenters but "only those individuals who pose a realistic, direct and current danger to the national security."

Kelley's memorandum disclosing existence of the "Security Index" was made public yesterday by Chairman Robert W. Kastenmeier, D-Wis., of the House civil liberties subcommittee.

THE FBI director revealed no names on the list, citing security and individual privacy rights, but said 1,537 names were in the index Jan. 1 and 1,294 as of last Aug. 15.

"Individuals who are included," Kelley said, "are those who have exhibited a willingness or capability of engaging in treason, rebellion, sedition, sabotage, espionage, assassination of government officials, terrorism, guerrilla warfare or other acts which would result in interference with or a threat to the survival and effective operation of national, state or local government.

"Individuals are not included on this index merely because of opposition to government policies or because they exercise their constitutional rights of protest or dissent," Kelley said.

He also said membership in so-called subversive organizations does not by itself put people on the list. The list is a record of people who would be put under "close investigative attention pending legal steps by the president to take further action," Kelley said.

"IT ALSO serves as an extremely valuable list of individuals who pose a threat to the safety of the president of the United States," he said, adding that the FBI provides data on the individuals to the Secret Service.

Kastenmeier praised Kelley for providing the information but said, "It is an unfortunate comment on the mentality of our national security establishment that it has taken nearly 30 years for the existence of the national security index to be publicly disclosed."

"Although the executive branch does not now assert the authority to suspend the Bill of Rights and incarcerate Americans at its discretion, the fact that it continues to actively maintain a list which had its genesis in a plan to systematically imprison thousands of political dissenters in the early days of the 'Cold War' is fact which demands thorough congressional scrutiny and public discussion," Kastenmeier said.

Kelley said the FBI began compiling lists of people to be put under "custodial detention" in 1939 and 1940 just before World War II.

On March 8, 1946, the late FBI Director J. Edgar Hoover advised the attorney general "a list was being prepared of all members of the Communist party and any others who would be dangerous or potentially dangerous in the event of a break in diplomatic relations with the Soviet Union," according to Kelley.

IN 1950 Congress passed the Emergency Detention Act authorizing detention camps in a national emergency.

Congress repealed that act in 1971, but Kelley said former Atty. Gen. John N. Mitchell ruled this did not affect the FBI's investigative authority or responsibility for maintaining security lists.

Following the 1971 repeal, the detention list, which at that time included 15,000 names, was done away with, an FBI spokesman said last August.

The Kelley memorandum said that the FBI then "instituted an index for use as an administrative aid to maintain a readily available and up to date list of individuals deemed dangerous to the internal security and who would be afforded priority investigative coverage in the event of a national emergency." The new list is the one with 1,294 names now.

But Kastenmeier said the decision to keep such a list "with its attendant blueprint for the suspension of the Bill of Rights" should be made only after public debate, not by government officials secretly.

Increased acts of violence by Nation of Islam (NOI) indicate need for inquiries concerning all male members of the organization to identify those with violence propensity. Inquiries will be handled with minimum investigative effort and active investigations will be initiated only where warranted.

Recent marked increase in propensity for violence of members of black extremist separatist NOI clearly indicates need for expanding our investigations of male members of that group. Violence increase has included murders, shootings, assaults, attacks on police officers and armed robberies, highlighted by involvement of dissident NOI group in serious civil disorders in Baton Rouge, Louisiana, with most recent incident occurring on 4/14/72 at NOI Mosque in New York City during which physical attacks by NOI members resulted in injuries to eight patrolmen. Additionally, the NOI "white hate" doctrine has been successful in the ghetto areas and in our prisons where considerable NOI teachings are undertaken.

We currently investigate only those NOI members reported to be functionaries or leaders and those known or suspected of participating in acts of violence. The increased violence shows need for investigations of the male membership to identify those actively participating in NOI affairs from a violence standpoint.

Limited preliminary inquiries on male members to consist of ascertaining true name, residence and employment and checks of office files, criminal records and informants are considered warranted. A minimum of investigative effort will be necessary as required information will be available through our informant penetration of the individual NOI Mosques and through other established sources. Cases will be closed administratively in the field offices

unless there are indications the individual has a propensity for violence or there are other indications of need for further action in which event the Bureau is to be notified and active investigation initiated. With the national NOI membership at over 6,000 it can be expected that over 3,000 cases on male members will be opened.

In addition to instructing field offices to conduct preliminary inquiries on all current male members of the NOI we are, in order to insure appropriate action is being taken, requesting field offices furnish us by 5/20/72 with number of cases opened in complying with above instructions. For indexing purposes, we are instructing that names of members on whom inquiries have been initiated be included in cover pages of semiannual NOI organizational reports.

SECURITY INVESTIGATIONS OF INDIVIDUALS
EXTREMIST MATTERS - NATION OF ISLAM
(BUDED: 5/20/72)

Increased acts of violence by members of the Nation of Islam (NOI) indicate the need for expanding our investigations of current male members of that black extremist separatist group. Investigations of functionaries, leaders and those known or suspected of participating in acts of violence, which has been our policy, is considered to be inadequate to fulfill our responsibilities in view of these increasing acts of terrorism.

Therefore, limited preliminary inquiries are to be conducte on all current male members of the NOI. These inquiries are to consist of ascertaining true name, residence and employment and check office files, criminal records and informants. Following completi of the preliminary inquiry, the case may be closed administrative unless there are indications the individual has a propensity for violence or there are other indications of need for further actio such as sensitive employment. In the latter instance, the Bureau to be notified and active investigation initiated. A review of yo files should be undertaken at once and all cases coming within th purview of these instructions should be promptly opened.

Cotter to Miller memorandum 9/23/71 entitled "Handwriting Specimens Security Index Subjects" recommended that handwriting specimens of certain security subjects be purged from the National Security File (NSF) of the Laboratory. The Director approved an addendum by Mr. Soyars that we hold this until the Department ruled on how we were to handle the Security Index. The Department advised that our responsibility to investigate subversive activities remains unaffected by the repeal of the Emergency Detention Act and does not limit our authority to maintain an index therewith. Therefore, we initiated the ADEX to be used in connection with our security investigations of individuals.

Bureau regulations provide that handwriting specimens on Top Functionaries and Key Activists be forwarded to the Bureau for filing in the NSF. All such subjects are included in Category I of the ADEX. As of 6/30/71 the NSF contained 7,545 photographic specimens of handwriting. Of these, approximately 500 specimens represent former Communist Key Figures which were added to the NSF in the early 1950s. It is felt that the NSF should be purged of photographs of handwriting specimens of former Communist Key Figures in whom there is no further Bureau interest.

In order to accomplish this, it is proposed that the Document Section:

(1) Check each subject on which there is a specimen against Categories I, II, III and IV of the ADEX. A printout for this purpose will be furnished by the Domestic Intelligence Division (DID).

(2) Retain the specimens of those subjects on Category I.

(3) Destroy the specimens of those subjects in Categories II, III and IV of the ADEX. It is noted that the original of, or a photographic copy of, each specimen is maintained in the individual case file of each subject.

(4) Destroy the specimens of those subjects no longer in any of the Categories of the ADEX. Here again it is to be noted that the original of, or a photographic copy of, each specimen is maintained in the individual case file of each subject.

PURPOSE:

To recommend that letters be sent to certain field offices directing their attention to high delinquency in security and extremist matters investigations.

BACKGROUND:

An analysis of the administrative report submitted by field offices for the month of April, 1972, shows a delinquency in excess of 8 per cent for the Cincinnati, Newark, Philadelphia, Los Angeles, San Antonio, Chicago, and Seattle field offices in one or more of the classifications covering security and extremist matters investigations. These classifications are 100, 105, and 157.

In order to insure delinquency in these classifications is maintained at an irreducible minimum, we are directing Personal Attention letters to the Special Agentsin Charge of the concerned field offices.

RECOMMENDATION:

That the attached letters prepared in line with the above be approved and forwarded.

SUBJECT: ADMINISTRATIVE INDEX (ADEX) CARD STATISTICS

As of May 15, 1972, there are 14,456 in the ADEX. Of this total, 1,313 are Category I; 3,138 are Category II; 8,620 are Category III; and 1,385 are Category IV. Of the total for Categories I and II; 767 are Communists and for the Categories III and IV; 4,429 are Communists. Of the 14,456 in the ADEX, a total of 5,196 or 35.9 percent are Communists.

A detailed table for each of the four categories, copies enclosed, shows as of May 15, 1972, the distribution of the subjects by field office, nationalistic tendencies, dangerousness, sex, race, citizenship, and "special lists." A key to abbreviation is enclosed.

Dear [redacted]

Your suggestion has been received with respect to the addition of another item to Form FD-305. After due consideration, it has been decided the revision of the form in question is not necessary since the fact the subject is in a particular status should be a sufficient reminder that certain dissemination must be made.

Although your idea was not adopted in this instance, your interest in submitting it is indeed appreciated.

Sincerely yours,

Current practice or rule (Include manual citation as well as facts)

FD-305 does not make any reference to U. S. Secret Service dissemination.

Advantages of suggestion and annual savings (include basis for estimate)

Just as FD-305 now serves to remind case agent to consider/evaluate specified items, the suggestion would insure agent's consideration of U. S. Secret Service dissemination. Suggestion would also insure uniformity of dissemination amongst field offices. In addition, suggestion would allow Bureau supervisor to assure U. S. Secret Service dissemination is included, along with other items to be noted and checked when reviewing a security case from the field.

Disadvantages of suggestion

Necessity of reprinting FD-305

(The use by the United States of my suggestion shall not form the basis of a further claim of any nature by me, my heirs, or assigns upon the United States. I understand that I will be considered for [redacted] if it is adopted within two years after submission.)

(C) ADMINISTRATIVE INDEX (ADEX) -- Section H of SAC Letter 72-22 dated April 25, 1972, advised that the term "New Left" is to be replaced by the term "Revolutionary Activities" in the character of Bureau communications. Until you are furnished a supply of revised Form FD-122, the designation block for New Left (NL) on FD-122 should be changed to Revolutionary Activities (RA). Do not use miscellaneous block on FD-122 for RA designation.

Designation for NL on existing ADEX cards will be changed to RA on ADEX cards furnished you in the future. Do not submit FD-122 merely to change NL designation to RA, but indicate RA designation on next FD-122 submitted in each case. In addition, NL or the former Anarchist (ANA) designations on ADEX cards in your office should be changed in ink to RA no later than the next scheduled verification of residence and employment in each case.

SUBJECT: FORM FD-305
SUGGESTION 856-72 SUBMITTED BY
SA [redacted] NEW ORLEANS

b6
b7C

[redacted] has suggested that Form FD-305 (Last cover page for ADEX cases transmitting reports to Bureau) be revised to include the following additional item: "13. - Dissemination of this communication to U. S. Secret Service is indicated since case falls under the purview of the FBI - Secret Service agreement dated 2/3/65. Thus, the original of an FD-376 is attached to a copy of this communication. Dissemination is being made to Secret Service locally."

Suggester notes that the present FD-305 makes no references to any Secret Service dissemination and feels the addition of the above item would insure the case agent considered such dissemination. Further it would assure Bureau supervisor, when reviewing a security case from the field, that Secret Service dissemination was included along with other items checked on the form.

Copies of FD-305 and FD-376 (Dissemination Letter to Secret Service) are attached for information.

Domestic Intelligence Division has considered the suggestion and has advised that the proposed revision of Form FD-305 is unnecessary. The fact that the subject is on ADEX should be sufficient to alert the Agent to the need for dissemination to Secret Service locally or to submit an FD-376 for this purpose to FBI Headquarters. The division recommended the suggestion not be adopted. Training Division concurs.

RECOMMENDATION: That the suggestion not be adopted and the suggester be so advised in the attached letter of appreciation.

GENERAL

The following is to prompt uniformity in handling advice to Secret Service (SS) concerning changes in residences and employments of ADEX subjects. Also, to record SS's desires concerning such changes.

Changes in residences and employments of ADEX subjects are brought to Bureau's attention by field's submission of an FD-122 which is used to effect changes in the ADEX cards. The field is also required to submit with the FD-122 an FD-366 which is designed for the sole and specific purpose of advising SS of the residence or employment change. This form (copy attached), is keyed to flag the change for SS and is disseminated by the field to SS locally and by the Bureau to SS Headquarters. The field occasionally fails to submit the FD-366 with the FD-122 on the basis that it has previously submitted or is contemporaneously submitting a report or LHM which contains the new residence or employment. The failure to submit an FD-366 is, of course, contrary to the Manual of Instructions which states in Section 87, page 38, paragraph 9d, that an FD-366 should be submitted along with the FD-122 when there is a change in residence or employment.

In order to determine whether an FD-366 is actually an unnecessary duplication when a report or LHM containing the change is submitted, Supervisor S. F. Phillips, Internal Security Section, DID, contacted [redacted], Liaison Office, SS Headquarters, 5/31/72. After making necessary inquiries at his Headquarters, [redacted] advised that SS prefers the receipt of an FD-366 which flags employment or residence change even when such change (not flagged) is accounted for in a report or LHM it receives from the FBI.

OBSERVATIONS:

It is apparent from the above that there is sound reason behind our requirement for the submission of an FD-366 as enunciated in the Manual and that we in all instances insist that the field submit an FD-366 when there has been a residence or employment change regardless of whether or not the change is also covered in a report or LHM.

RECOMMENDATION:

This memorandum be brought to the attention of all supervisors handling cases relating to ADEX subjects.

SUBJECT: INVESTIGATIONS OF U. S. SECURITY SUBJECTS RESIDING IN CANADA

PURPOSE:

To advise of procedure regarding the verification and discontinuance of the reverification of the residence and employment of security subjects residing and/or working in Canada. U

BACKGROUND:

As of 6/15/72 Bureau had an investigative interest in 289 Administrative Index subjects residing abroad. A representative number of those individuals currently reside and work in Canada. U

In the past the Bureau has requested [redacted] to verify the residence and employment of these individuals periodically and [redacted] has fulfilled those requests.

However, Legat, Ottawa, has now advised that [redacted] in order to deploy its manpower resources directly on subversive organizations and activities of security subjects, will confirm the residence of United States citizens on request from the Bureau but will not reverify such information on a periodic basis. Since many of our subjects are directly involved in subversive activities in Canada, numerous reverifications will occur without our specific request under the revised [redacted] procedure. Additionally, many reverifications will be obtained through our own local sources covering the subjects usual U. S. residences. Overall, the change in procedure by [redacted] will not substantially affect our coverage of these Administrative Index subjects residing and/or employed in Canada. Since these verification requests emanate from our field offices, to avoid unnecessary future correspondence, field is being advised of this change in [redacted] handling.

PURPOSE:

To recommend approval of attached Memorandum to all Special Agents in Charge regarding the change in designation of New Left (NL) to Revolutionary Activities (RA) in conjunction with the ADEX which was established to make readily retrievable and available the results of our investigations on individuals placed in four categories of dangerousness to the internal security.

PROPOSED INSTRUCTIONS:

Reference is made to SAC Letter 72-22, Section H, dated 4/25/72 which advised that the term "New Left" would be replaced by the term "Revolutionary Activities" in the character of Bureau communications. The attached Memorandum to all Special Agents in Charge instructs the field to change the designation NL to RA on the current supply of Form FD-122 which is used by the field to recommend inclusion of an individual in or his removal from the ADEX, as well as to amend information on ADEX cards such as residence or employment. FD-122 is being revised to replace NL with RA and the field will be supplied with the new form when printed.

In addition, the field is being instructed that ADEX cards in the field offices with NL or former Anarchist (ANA) designations should be changed in ink to RA no later than the next scheduled verification of residence and employment.

This matter has been coordinated with the Voucher-Statistical Section of the Computer Systems Division which is also requested to place former ANA and NL designations under the RA designation in the periodic statistical printouts and to establish necessary procedures to change NL and ANA designations to RA on ADEX cards in the future.

~~CONFIDENTIAL~~ Security Investigations of Individuals - Jun.

~~SECRET~~

~~(S)~~ INVESTIGATIONS OF U. S. SECURITY SUBJECTS RESIDING IN CANADA -- In connection with the Bureau's responsibilities in the internal security area, it is noted that a number of individuals presently reside and work in Canada who are of security interest. Some of these individuals are on the Administrative Index which requires the verification and periodic reverification of their residence and employment while they maintain Canadian residence. In the past [redacted] has verified and reverified the presence of these individuals on request. ~~(S)~~

However, due to manpower limitations, [redacted] is no longer in a position to reverify the location in Canada of our security subjects, although no change in initial verification procedure will occur. ~~(S)~~

Under the revised procedure, [redacted] plans to treat United States citizens, some of whom enjoy "landed status" thus making them legal residents of Canada and some of whom are applicants for Canadian citizenship, in the same manner as it handles Canadians of a security interest. While the residence and employment of these individuals, including Bureau subjects, will not be reverified on a periodic basis, any information coming to the attention of [redacted] concerning the involvement of these individuals in the subversive movement will be furnished the Bureau. ~~(S)~~

This procedure will allow [redacted] to deploy its manpower resources directly on subversive organizations and activities in which Bureau subjects could become involved.

This procedure will not affect [redacted] confirming Canadian residence and employment of any United States citizen on request of the Bureau. ~~(S)~~

This procedure of [redacted] should not act as a deterrent to you in attempting to verify the presence of a subject in Canada. However, in the absence of [redacted] reverification efforts, you may now have to rely upon local sources, pretext interviews of logical individuals and any other investigative techniques available to you locally to reverify a particular subject's presence in Canada. ~~(S)~~

General

To recommend Special Agents in Charge (SACs) be authorized to approve interviews of rank-and-file members, or their equivalents, affiliated with subversive and revolutionary-type organizations except where such subjects are nationally prominent, employed in or connected with labor unions, educational or mass media fields, or when they have publicly disclosed prior contact by Bureau Agents to news media for self-serving purposes.

SAC Letter 68-74 dated 12/24/68 authorized SACs to approve interviews of rank-and-file black and white extremists as well as officers of white extremist groups up to state level unless involved in sensitive areas. These interviews have been primary source for development of significant data on possible violations of Federal statutes and have resulted in the development of quality extremist informants.

EX-112 REC 17 100-358086 - 4166

Current policy allows SACs to authorize interviews in other security-type investigations of subversive and revolutionary-type involving: (1) subjects who have previously been interviewed with Bureau authority if no change has occurred in their status and provided interviews are conducted under same conditions as previously authorized; (2) subjects of closed cases and (3) individuals not subjects of investigations where available data does not warrant opening a case.

JUL 11 1972

Specific Bureau authority is needed before interviewing; (1) subjects of current, active investigations where no prior authority has been obtained; (2) closed cases on current (ADEX)

subjects where no prior interview conducted; (3) subjects of investigations requested by Bureau such as in applicant and loyalty cases; (4) individuals involved in sensitive areas as set out above and (5) subjects who have publicly disclosed prior Bureau contacts.

In view of significant successes achieved through SAC authorized interviews in black and white extremist cases and since vast majority of interview requests received in other security-type cases involving subversive and revolutionary activities are approved as requested, it is apparent that expansion of SAC authority regarding additional interviews will not only provide greater latitude of action in the field but also will streamline operations by reducing the amount of paper work in the field and at Bureau Headquarters. Effective immediately with regard to subversive and revolutionary organizations, SACs should be authorized to approve interviews of rank-and-file members and their counterparts in similar nonmembership groups.

Bureau authority, however, will continue to be necessary prior to interview of subjects when circumstances indicate a delicate situation and a greater than usual risk involved, such as nationally prominent individuals, labor leaders and persons in educational, mass media, religious or publishing fields. Bureau authority should also be obtained to interview those who have publicly disclosed or are likely to disclose to the mass media contacts by Bureau Agents for the purpose of placing the Bureau in a bad light by falsely charging harassment or who have misstated or are likely to misstate the facts concerning the interview for self-serving purposes.

ACTION: If approved, the attached memorandum be sent to all SACs and that necessary changes be made in the Manual of Instructions and FBI Handbook.

Memorandum

TO : Acting Director, Federal Bureau of Investigation

DATE: June 21, 1972

FROM : A. William Olson
Acting Assistant Attorney General
Internal Security Division

SUBJECT: Presidential Emergency Action Document No.5 (PEAD 5)

ADMINISTRATIVE INDEX - GENERAL

Reference is made to FBI memoranda to the Attorney General dated September 30, 1971 and February 10, 1972, and Attorney General's memorandum of October 26, 1971 captioned "Emergency Detention Program." In the Attorney General's memorandum it was indicated, inter alia, that the Department did not desire a copy of any lists that the Bureau may compile on the basis of its records or indices, except a monthly memorandum concerning the identification of certain government employees.

Subsequent to the repeal of the Emergency Detention Act we reviewed our plans and procedures for implementing PEAD 5. We find that implementation of PEAD 5 would require identification and background information concerning those aliens deemed dangerous to the public peace and safety of the United States by the Attorney General who should be subject to apprehension and detention.

It is therefore requested that the Bureau furnish to the Security Office of the Internal Security Division on a regular basis a listing of all aliens by nationality who are included in the four categories in your memorandum of February 10, 1972.

SUBJECT: PRESIDENTIAL EMERGENCY ACTION DOCUMENT NO. 5 (PEAD 5)

The incoming memorandum from the Assistant Attorney General, Internal Security Division, dated 6/21/72, classified "Secret," relates to the Presidential Emergency Action Document No. 5 (PEAD 5), which involves the apprehension, detention, and disposition (including deportation) of enemy aliens during periods of national emergency. PEAD 5 is based on Title 50 U. S. Code, Section 21, which provides for a Presidential proclamation that war has been declared or a hostile invasion or predatory incursion is to be attempted, or is threatened against U. S. territory. The Attorney General following such a proclamation would be authorized by the same statute to set into motion measures necessary to effect control of enemy aliens.

At the request of the Department of Justice and with Mr. Hoover's approval in the past, we have had discussions with representatives of the Department and the Immigration and Naturalization Service (INS) concerning jurisdiction and procedures involved in implementing PEAD 5. The FBI acting at the Attorney General's direction under Title 50 U. S. Code, Section 21, will make the apprehensions required by the Attorney General to control enemy aliens following the issuance of a Presidential proclamation. Those apprehended will be turned over as soon as possible to INS, which is charged with detention. Hearings would then be held before specially created boards to determine disposition of the enemy aliens.

The incoming Department memorandum requests the FBI to furnish the listings of all aliens included in our Administrative Index (ADEX) to aid the Department in its

responsibility of designating individual aliens who would be apprehended by the FBI when and if PEAD 5 is implemented. Listings of [redacted] aliens in our ADEX are prepared monthly and the most recent listings dated 6/15/72, are being forwarded with the attached letter to the Assistant Attorney General, Internal Security Division.

It is anticipated that after review of the listings the Department will furnish us in writing with the identities of aliens designated for apprehension under PEAD 5. The Department is also preparing and will provide in writing instructions on pertinent procedures for the FBI and INS to follow under PEAD 5. When such instructions are received, we will advise our field offices of their responsibilities under PEAD 5 and furnish details of requiredsprocedures.

You will be kept advised of developments in this matter and will be furnished plans and proposed instructions for this program.

RECOMMENDATION:

That the attached memorandum with the requested listings of aliens be sent to the Assistant Attorney General, Internal Security Division.

SUBJECT: EXTREMIST SUBJECTS
SUGGESTION 26-73 SUBMITTED BY
[redacted]
MILWAUKEE OFFICE

SUGGESTION: That the Manual of Instructions, Section 87, F, 8, Item C, be changed to include a new class of special interest subjects entitled "Extremist Subjects." This would necessitate the formulation of specific criteria for the designation of extremist subjects and, under existing instructions, would provide for the Administrative Index (ADEX) cards of such subjects to be labeled with appropriate code letters. According to recent letters which have been sent to the field regarding the New Left Movement and Weatherman subjects show Bureau has an avid interest in those individuals who warrant the extremist designation. The purpose of this proposal is to select for special attention individuals who adhere to the ideology of advocating a Marxist-Leninist revolution now, use terrorist tactics in furtherance of such revolution and are involved in the purchase or acquisition by other means of firearms, explosives and/or incendiary devices. The Manual would be revised to give explicit instructions for the handling of such individuals.

CURRENT PRACTICE: The suggester states Manual of Instructions makes no provision for giving special attention to subjects who are designated extremists and there are no specific criteria for designating a subject as an extremist. He states it appears the designation of a subject as an extremist is left to the judgment of the Agent or supervisor in the field based on various criteria outlined in several communications.

ADVANTAGES: [redacted] notes this procedure would establish specific criteria for the designation and handling of extremists. It would single out extremist subjects for special interest during limited or a national emergency. The ADEX can be an important investigative tool and provide a logical list of potential subjects. By designating those individuals who are under investigation as extremists this logical list would be narrowed and what would seem to be the most productive starting point would become clearer. As the ADEX is frequently referred to by Agents, an extremist designation on the face of the ADEX card would provide another useful fact for quick reference.

PROPOSED CHANGE IN MANUAL OF INSTRUCTIONS

Security Investigations of Individuals - General

Section 87E, page 27, beginning with Item 13, should be amended to read as follows:

13. Interviews with subjects of security investigations

a. Policy

(1) No security investigation of an individual is to be closed unless subject is included in ADEX or consideration given to interview. Bureau will not authorize cancellation of ADEX card for inactivity until subject has been interviewed or Bureau advised why interview is inadvisable.

(2) With regard to subversive and revolutionary organizations, rank-and-file members and their counterparts in similar nonmembership groups may be interviewed on SAC authority; however, prior Bureau authority must be obtained for interviews of subjects when circumstances indicate a delicate situation and a greater than usual risk involved, such as nationally prominent individuals, labor leaders and persons in educational, mass media, religious or publishing fields. Prior Bureau authority is also required to interview those who have publicly disclosed or are likely to disclose to the mass media contacts by Bureau Agents for the purpose of placing the Bureau in a bad light by falsely charging harassment or who have misstated or are likely to misstate the facts concerning the interview for self-serving purposes.

(3) Prior to interview, conduct informant, credit, (identifying information only), arrest, and indices

In response to your inquiry, be advised that your FD-122 2/8/73 recommending subject's deletion from ADEX was processed at HQ and subject has been deleted.

As to your inquiry concerning submission of separate simultaneous FD-122s, be guided in future by the following. When submitting an FD-122 recommending subject remain in ADEX under revised criteria and a change in the ADEX card, handle both matters by a single FD-122 with option boxes marked concerning recommendation and change. If the FD-122 is recommending subject not be included in revised ADEX, it will obviously not be necessary to submit a separate FD-122 or include in the recommending FD-122 information to account for any changes inasmuch as the card will be cancelled.

Foregoing instructions do not alter the necessity of submitting an FD-366 to advise Secret Service of residence and employment changes as appropriate.

PURPOSE:

To recommend that letters be sent to certain field offices directing their attention to high delinquency in security and extremist matters investigations.

BACKGROUND:

An analysis of the administrative report submitted by field offices for the month of June, 1972, shows a delinquency in excess of 8% for the Baltimore, Philadelphia, Indianapolis, and Miami field offices in one or more of the classifications covering security and extremist matters investigations. These classifications are 65, 100, 105, and 157.

In order to insure that delinquency in these classifications is maintained at an irreducible minimum, we are directing Personal Attention letters to the Special Agents in Charge of the concerned field offices.

RECOMMENDATION:

That the attached letters prepared in line with the above be approved and forwarded.

PERSONAL

Revision of FD-154 listed in FBI Form Book. 8/31/72 JA

[redacted]
Federal Bureau of Investigation
San Juan, Puerto Rico

Dear [redacted]

I have received your suggestion that Form FD-154 be revised to include two additional items. It is a pleasure for me to advise you this proposal is being adopted and steps will be taken to place it into effect.

The interest and initiative which prompted you to bring this matter to my attention are indeed appreciated.

MAILED 8

NOTE: Suggests Form FD-154 (Verification of Information on ADEX Cards) be revised to include space for entering the date a Security Flash was placed and the date the photo was taken (sample of proposed form attached).

Domestic Intelligence Division advised this idea has merit and should be adopted since it will provide a central location for the information necessary for the completion of Form FD-305, Administrative

NOTE (Continued)

Page, for annual reports. It was noted, however, the revised FD-154 should be prepared in such a manner as to specifically indicate the information pertains to the photograph or Security Flash by use of terms "Date Photo Taken" and "Date Security Flash Placed." Due to these views, Training Division has no objection to revision of Form FD-154 (sample of the revised proposed form is attached for approval). On approval, this letter will serve as authority for Forms Management Desk, Training Division, to take appropriate action.

To: Director, FBI	From: (Suggester's name) SA [redacted]	Division of Assignment SAN JUAN	Date August 7, 1972

SUGGESTION

Suggested that FD-154 Verification of Information on ADEX Cards be revised to include space for entering the date Security Flash was placed and the date the photo was taken.

Security Index - Gen.

~~EXP. PROC.~~
51 AUG 11 1972

Current practice or rule (Include manual citation as well as facts)

No space on the current form for above information

Advantages of suggestion and annual savings (include basis for estimate)

Would provide a central location for information necessary for the completion of the FD-305, which is attached to annual reports. Placement of the photo date would provide a quick cross reference to insure that most current photograph is being used on the ADEX cards, as determined during annual reporting period during file review.

Disadvantages of suggestion

Possible increase in clerical time.

(The use by the United States of my suggestion shall not form the basis [redacted] my heirs, or assigns upon the United States. I understand that I will be considered [redacted] estion is adopted within two years after submission.)

(E) ADMINISTRATIVE INDEX (ADEX) - STREAMLINING MEASURES -- ADEX has now been in operation for more than 8 months, during which time a thorough evaluation of its effectiveness and procedures has been made. Based on discussions with field personnel as well as our own observations at Bureau Headquarters, it is believed that several major revisions should be made at this time.

ADEX has represented a listing of individuals engaged in subversive activity who are considered a potential or actual threat to the national security. As now constituted, it is divided into four categories corresponding to varying degrees of dangerousness. The current ADEX criteria are broadly worded and allow the inclusion of individuals who, although they subscribe to subversive or revolutionary doctrines, do not necessarily represent a danger to the national security at this time.

After a careful assessment of this matter, it is believed that ADEX criteria should be amended to provide for the inclusion only of individuals who pose a realistic, direct, and current danger to the national security. In other words, it is believed ADEX should list only persons who are regarded as dangerous now.

In reviewing existing criteria, it is believed that essentially those individuals who are presently in Categories I and II would meet the test of being dangerous now, but that most, if not all, of those in Categories III and IV would not. It is further believed that ADEX should not be broken into separate categories, but should be a single, selective listing. It is also felt that ADEX should be strictly a by-product of our investigative activity and not in and of itself generate any investigation or govern reporting procedures.

Accordingly, the following revisions with respect to ADEX are being placed in effect immediately:

1. REVISED CRITERIA

ALL INFORMATION CONTAINED HEREIN IS UNCLASSIFIED DATE 4-23-91 SP2 TAP/JAR

Only the following individuals should be included in ADEX:

Individuals, whether affiliated with organized groups or not, who have shown a willingness and capability of engaging in treason, rebellion or insurrection, seditious conspiracy, sabotage, espionage, terrorism, guerrilla warfare, assassination of Government officials or

leaders, or other such acts which would result in interference with or a threat to the survival and effective operation of national, state or local government.

This would include leaders of organizations whose aims include the overthrow or destruction of the United States or the government of any State, Territory, district, or possession thereof, or the government of any political subdivision therein, by unlawful means. Mere membership in such organizations is not sufficient in itself to warrant inclusion in ADEX.

The term "leaders" denotes those individuals, irrespective of title, who are in a position to significantly influence the policies or direct the activities of the group.

Individuals should be considered "dangerous now" to the national security when reliable information has been received that they have engaged in activity falling within the above-described criteria during the past two years and there is no indication they have given up or ceased to engage in such activity.

There may be some instances where retention of an individual in ADEX is justified even though no specific information is available during the prior two years. For example, such retention would be warranted in the case of individuals who have gone into hiding, left the country, have been imprisoned, or similar circumstances and there is no reliable information available indicating that they have renounced activities covered in the above criteria.

2. IMPLEMENTATION OF REVISIONS

In order to bring about the desired revision of ADEX without creating an additional work load both for the field and Bureau Headquarters, the following procedures will be followed:

a. Arrangement of ADEX into categories is hereby abolished. Until such time as cases on each individual now included in ADEX can be reviewed, ADEX will include only the names of those individuals now listed under Categories I and II.

b. It is recognized that many individuals currently listed in Categories I and II do not fall within the criteria as described herein. Likewise, it is possible that some individuals currently listed in Category III or even Category IV could fall within the new criteria. However, to avoid having to make an immediate determination of eligibility for ADEX by reviewing each case, the arbitrary listing of Category I and II and arbitrary deletion of Categories III and IV is being made at the outset.

c. Existing Category I cases are all in pending status at this time. Each of these cases should be reviewed at time it next comes up for reporting or verification purposes in line with ticklers set up under the old ADEX rules. A determination should then be made as to whether or not the subject meets the new criteria. If so, submit FD-122 to this effect including succinct statement citing specific basis for inclusion. If not, recommend deletion from ADEX by FD-122.

d. In connection with Category II subjects, no immediate action is required. Case should be reopened when it is next scheduled for verification under the old rules. Determination should then be made as to whether or not subject meets new criteria. Thereafter, handle as set out above regarding Category I subjects.

e. Concerning Category III and IV subjects, no immediate action is necessary. (As indicated above, these individuals will have been arbitrarily removed from the new ADEX.) These cases should be reopened in accordance with the former ADEX verification schedule and reviewed to determine whether or not the subject meets the new criteria. If the individual does not meet the revised criteria, as can be expected in most instances, advise Bureau by routing slip that review has been made and subject does not meet new ADEX criteria. No further explanation or comments are necessary. Also make appropriate notation in field office file to the effect case has been reviewed and Bureau advised that subject does not meet ADEX criteria. No additional action is needed.

If, on review, it is believed a Category III or IV subject does meet the new criteria, submit FD-122 recommending subject for ADEX and including a succinct statement justifying such action.

f. Form FD-122 will require revision for complete suitability under the revised ADEX. However, you should continue to use the current form until such revisions can be made.

g. Do not destroy any existing ADEX cards until instructed to do so by Bureau. Category I and II cards should now be consolidated to form revised ADEX. Category III and IV cards should be set aside in separate inactive file (for possible future incorporation in ADEX when cases are individually reviewed). Should it later be determined that cards in Categories III and IV should be included in revised ADEX, such cards can then be moved into new ADEX. Eventually, all cards in revised ADEX will be the same color. However, until new card is actually required due to change of information, card being used now under current ADEX categories should continue to be used. Category designation should be deleted on all cards included in revised ADEX.

3. DETERMINATION OF ELIGIBILITY FOR ADEX INCLUSION

The Bureau recognizes that anyone who has embraced a philosophy that includes advocacy of the overthrow of our form of government is a potential enemy. However, in many instances an individual may believe in some other form of government or even in the overthrow of our form of government, but have no willingness or capability of engaging in activity other than a philosophical discussion or debate. Such persons subscribe to an alien philosophy, but their activities have not gone beyond an ideological stage. This would include attendance at meetings, taking part in theoretical discussions or other activity which stops short of advocating or engaging in action to overthrow the United States.

Examples might be members of the Communist Party, USA, or the Socialist Workers Party, or other old-line revolutionary groups which basically advocate an overthrow of our present form of government, but where the subject's activity has been ideological in nature and not oriented toward action. In this connection, however, each case must be reviewed on its individual merits, since the willingness and capability of individuals to engage in action dangerous to the national security is the primary factor in making a determination for inclusion in ADEX.

Under normal circumstances members of such hate groups as the Ku Klux Klan would not meet the criteria for inclusion in ADEX. There could be exceptions, however, and each case must be examined individually to determine if it meets the new criteria. These criteria can apply to persons involved with extreme right as well as extreme left organizations, or to individuals who have no affiliation with organized groups but who are anarchists and are engaged in attempts to destroy the United States.

The test is whether an individual has shown a willingness and intent coupled with a capability to engage in activity covered in the ADEX criteria and represents a current danger to the national security.

4. MISCELLANEOUS REQUIREMENTS

a. At the time an individual is recommended for ADEX under the revised criteria, an administrative tickler should be prepared and set to come up two years later. This tickler is independent of any assignment card maintained on the case and is solely for the purpose of insuring that all ADEX cases are reviewed at 2-year intervals to insure that they continue to meet the criteria. When an ADEX case comes up for review on such tickler, it should be carefully reviewed and a determination made as to whether or not the subject's activities continue to fall within ADEX criteria. If so, the tickler should be reset for an additional two years. If not, institute appropriate action to delete subject from ADEX by FD-122 and destroy tickler.

b. If at any time information is received indicating that ADEX subject has changed his residence or employment addresses, appropriate inquiry should be conducted and the Bureau advised by FD-122 if change of address is verified.

c. If at any time information is received that an individual carried in the ADEX no longer meets the criteria, appropriate inquiry should be immediately instituted to resolve the matter. If it is determined the subject no longer meets ADEX criteria, submit FD-122 recommending deletion.

d. When subject is being recommended for ADEX, an investigative report should be submitted summarizing the subject's activities and setting forth his background, unless a report was previously furnished to the Bureau in the case. In the latter instance, submit a report or LHM bringing subject's activities up to date. No additional reports or LHMs are required merely for ADEX purposes. Changes or deletions in pertinent background information or other data contained on the ADEX card should be made by FD-122. Of course, any reporting requirements set forth elsewhere in the Manual of Instructions or otherwise requested by Bureau Headquarters should be adhered to.

e. Prior requirements concerning the periodic verification of the employment and residence addresses of ADEX subjects are abolished.

f. An individual's employment at a Key Facility is not a determining factor as to whether or not he should be included in ADEX. Persons employed in key facilities should be included in ADEX only if they otherwise meet the new criteria.

Appropriate manual changes will follow. Any questions which may arise in connection with the new ADEX criteria or any matter which the field believes requires additional clarification, should promptly be brought to the attention of Bureau Headquarters, attention Research Section, Domestic Intelligence Division, using caption "ADEX."

(D) REPORT WRITING - SECURITY INVESTIGATIONS OF INDIVIDUALS Gen.

Airtel to all SACs dated November 15, 1971, captioned "Security Investigations of Individuals" (Section 87G, Manual of Instructions), sets forth the reporting schedule for the submission of periodic reports or letterhead memoranda for the various categories of the Administrative Index (ADEX).

In order to effect economy, reduce the required paper work in the field, and release Agent personnel for more effective and productive utilization of time in the security field, the following changes are being made in the reporting requirements in security investigations of individuals:

1. Semiannual, annual, and biennial reports or letterhead memoranda no longer need be submitted solely for the sake of reporting.

2. An initial summary report must be submitted at the time the subject is recommended for inclusion on the ADEX and should be as complete as possible.

3. Current significant pertinent information and/or activities of the subject should be reported on a current basis as it occurs utilizing teletypes, nitels, or airtels with letterhead memoranda suitable for dissemination.

4. In the event the complexity or prosecutive potential of case or other reasons so dictate, the SAC or Headquarters may instruct that reports be submitted.

5. These instructions in no way alter present investigative and reporting requirements as they pertain to organizations.

6. Our responsibility to disseminate fresh, timely intelligence information to other government agencies is in no way diminished by this streamlining of reporting requirements. It is expected that with the reduction of repetitive paper work, we should be in a better position in the security field to develop a higher caliber of intelligence information through the additional time that we can now devote to the development of quality sources and informants.

Security Index - General

T. J. Smith to Mr. E. S. Miller memorandum dated 8/11/72, captioned "Fiscal Year 1974 Budget Policy Guidance," referred to the fact that we have been conducting a seven-month's analysis of the Bureau's Administrative Index (ADEX) and that it appears that by implementing certain streamlining measures and altering requirements for reporting and periodic verification of information, some manpower might be available for reassignment to one of the other critical areas of our work. In this connection the same memorandum pointed out that the Domestic Intelligence Division has an urgent need for in excess of 500 Special Agents to handle several areas of national security work which are not receiving attention deserved.

BACKGROUND

By way of background, the ADEX is an outgrowth of the old Security Index program which in itself was an integral part of the Emergency Detention Program. The Emergency Detention Program in latter years derived its authority from Title II of the Internal Security Act of 1950 (better known as the Emergency Detention Act). In the Fall of 1971 the Emergency Detention Act was repealed by Congress and we, of course, immediately discontinued the Emergency Detention Program. Since the Security Index was in actuality an extension of an integral part of the Emergency Detention Program, it was believed that the Security Index as it was structured should also be discontinued.

SI-111 REC-19 100-358086-4176

From an administrative standpoint, however, it was believed that the Bureau should be able to immediately identify individuals who constitute a threat to the national security, particularly during time of national emergency. The Security Index enabled us to retrieve information pinpointing such individuals. Representatives of the Department, during a meeting following repeal of the Emergency Detention Act, pointed out that even though Congress has now prohibited a program for emergency apprehension and detention, circumstances might someday be such

that the Government might have to defend itself from attack and that it would be necessary at such time to quickly identify persons who were a threat to the national security so that investigation could be intensified and if necessary the President could go to a joint session of Congress and ask for emergency legislation permitting apprehension and detention of persons who threaten existence of the Government.

The Department advised after consultation that the FBI's authority to investigate individuals engaged in subversive activity had not been eroded by repeal of the Emergency Detention Act, and that further repeal of this Act did not in any way prohibit the FBI from maintaining an administrative index of individuals who were under investigation for subversive activity. Accordingly, we devised the Administrative Index for the purpose of being able to quickly identify persons representing a threat to the national security. Since we already had the identities of such persons contained in the Security Index, we used the Security Index as a basis for setting up the Administrative Index. The major difference, of course, was that whereas persons listed in Security Index had been listed with a view of possible apprehension and detention, the persons being listed in ADEX would not be subject to detention, but would be listed for ready identification purposes.

Since persons listed in ADEX would not be subject to apprehension and detention, the requirement for Departmental concurrence in listing no longer existed. Also, since the detention factor was no longer a major issue, persons could be listed irrespective of degree of threat they may represent to the national security.

Criteria for listing in ADEX were broken down into four categories. Each category, beginning with Category I, contained a listing of persons and Category I listed those considered most dangerous to the national security, while Category IV listed those least dangerous. As of July 15, 1972, there were 15,259 individuals listed in ADEX. Of this total 1,334 were Category I; 3,452 were Category II; 8,560 were Category III; and 1,913 were Category IV.

Memorandum to Mr. E. S. Miller
Re: Administrative Index
Streamlining Measures

ASSESSMENT OF ADEX

ADEX has now been in operation about 8 months and we have had a chance to evaluate its operation and effectiveness. Based on discussions with field personnel as well as our own observations, we believe that several major changes should be made at this time.

(1) While ADEX has not been intended as an investigative program, it is somewhat of an extension of Security Index which was an integral part of an investigative program, and there are vestiges of the investigative program apparent in our operation of ADEX. ADEX must be clearly separated from investigative criteria and policy so that it represents a mere by-product or administrative supplement to our investigations and not as a guideline or controlling factor in the investigation itself. The very nature of the criteria for inclusion of individuals in ADEX are such to generate investigative activity which may not be necessary were it not for ADEX. Reporting procedures for a great bulk of our security cases are based on the category of ADEX or the fact that the subject is listed in ADEX. A great deal of investigative activity is created because of the requirement of periodic verification of residence and employment addresses. In other words, existence of ADEX creates investigative and reporting activity which might not be necessary otherwise.

(2) It is believed that ADEX is needlessly complex, particularly from the standpoint of criteria for inclusion of an individual in the ADEX, and is administratively cumbersome.

(3) Most important, it is believed that in light of the conditions existing today, particularly with respect to emphasis on invasion of privacy and other First and Fourth Amendment rights, the current criteria for designating individuals for ADEX are too broad and all-encompassing. As a result, there are some individuals now included in ADEX even though they do not realistically pose a threat to the national security. For example, present ADEX guidelines cover individuals who are not members of subversive or revolutionary groups but who have "exhibited a revolutionary ideology" and are likely to seize upon the opportunity presented by a national emergency to commit acts of espionage," etc. No time factor is included and, as can be seen, the language is subject to considerable interpretation. It is

believed that such broad terminology would leave us in a vulnerable position if our guidelines were to be scrutinized by interested Congressional committees, which has been threatened.

PROPOSED NEW ADEX CRITERIA

If for no other reason but practicality, it is believed that ADEX should be a list of individuals who realistically represent an immediate threat to the national security as opposed to individuals who might theoretically pose a threat in the future under a given set of circumstances. We recognize that anyone who has embraced a philosophy that includes an overthrow of the American form of government is a potential enemy of the Government. However, in many such instances, an individual may believe in some other form of government but would be unwilling to engage in activity more violent than philosophical discussions.

On the other side of the coin is an individual who not only embraces the philosophy of overthrow of the Government, but is actually engaged in some form of activity designed to bring about that overthrow by force or violence or other unconstitutional means. It is this latter individual who would seize upon any type of national emergency to exploit a weakness in Governmental functions in an effort to wrest control, or who would commit violent acts such as bombings of public buildings which are symbolic of our national institutions; ambush killings of police officers who are the visible symbol of our democratic system; attack water supplies, power systems, or transportation facilities in an effort to create a chaotic void into which a revolutionary force might be able to supplant the Government. This is the type of individual who should be listed in the ADEX.

It is therefore proposed that the existing ADEX with four categories representing an unrealistic concept of individuals constituting a threat to the national security be revised so that it will include only one category. This would be a list of individuals who represent an actual danger now to the national security. It is believed that such a list would embrace most of the individuals currently listed in Categories I and II of ADEX, or a total as of 7/15/72 of 4,786 individuals.

417662

To do this the criteria would be changed to read as follows:

"ADEX should be limited to those individuals whose actions or statements have clearly established that they represent a current threat to the national security.

"Included are individuals, whether affiliated with organized groups or not, who have shown a willingness and capability for engaging in treason, rebellion or insurrection, seditious conspiracy, sabotage, espionage, terrorism, guerrilla warfare, assassination of Government officials or leaders, or other such acts which would result in interference with or a threat to the survival and effective operation of national, state, or local government.

"The foregoing would include leaders of organizations whose aims include the overthrow or destruction of the United States or the government of any State, Territory, district, or possession thereof, or the government of any political subdivision therein, by unlawful means. Individuals affiliated with such organizations who have demonstrated a willingness and capability of activity set forth under criteria set forth above would be included, but mere membership in such organization is not sufficient to justify inclusion in ADEX.

"Individuals should be considered a 'current threat' to the national security when reliable information has been developed that they have engaged in activity falling within the above-described criteria during the past two years and there is no indication that they have given up or ceased to engage in such activity."

417663

Adoption of these new criteria will probably result in deletion from ADEX of numerous individuals who are connected with subversive organizations. For example, there were 4501 Communists in Categories III and IV of ADEX as of 7/15/72. Additionally there are members of Socialist Workers Party, Progressive Labor Party, etc. who will not meet the revised criteria of being dangerous now. It is believed that the Bureau should maintain a list of such individuals aside from ADEX in the event we had to quickly identify known subversives throughout the country. We will therefore submit a separate proposal to establish a "Communist Index" which will require a modicum of effort on the part of the field and Bureau Headquarters.

 CONTINUED - OVER

Such a list would also be advantageous in quickly identifying extremists, who though not posing a threat to the national security, do seek to deny constitutional rights of others, or are white or black chauvinists or nationalists who thrive on race hatreds and ethnic discord. We will also propose that a counterpart to the "Communist Index" be established to be known as the "Extremist Index." Neither of these indexes will constitute a program but will merely be a listing which will be computerized for ready retrieval at any time we need to quickly identify persons of this type who were involved in activity inimical to the national interest. Details concerning these indexes will be included in the separate proposal.

MANPOWER SAVINGS

It is difficult if not impossible to estimate a manpower savings as result of redefining ADEX and streamlining its operation. However, based on the premise that the revised ADEX would contain primarily what is now Categories I & II, this would mean that about 10,473 individuals would be dropped. If these remained on ADEX, this many cases would be opened during a twelve-month period due to necessity to verify employment and residence addresses and to report any pertinent data developed to date. These cases would be in a closed status in the field and would be reopened on a regular staggered basis.

A canvass of ten field offices including New York, Newark, Cincinnati, Cleveland, Milwaukee, Minneapolis, San Francisco, Los Angeles, Chicago and Philadelphia resulted in an estimate that roughly 89% of the above-described total of 10,473 cases would be affected. These offices could not give any realistic estimate of manpower involved. However, using purely a caseload average of 40 cases per Agents as a guide; using the 89% estimate of the offices canvassed, there would be 9,311 cases opened over a 12-month period or about 776 cases per month. When revision of ADEX has been approved and the new criteria have been furnished to the field, Domestic Intelligence Division will canvass each Special Agent in Charge to determine specifically, on the basis of the revised criteria, the manpower savings which can be directed to higher priority security work. The Inspection Division, of course, will be in the best position to evaluate the impact of the revisions in their field audits of ADEX.

CONTINUED- OVER

It is important to note that there will be no immediate manpower savings realized since it is anticipated that necessary review of ADEX cases will not be completed for at least 12 months. To avoid creating a sudden increase in workload in the field, instructions are being issued to review existing ADEX cases as they would normally come up on tickler during the next 12 months under the old ADEX rules. In this manner all cases now listed in ADEX can be reviewed without creating an undue burden on the field. We will know on a month-to-month basis at Headquarters from computer print-outs as to progress being made.

RECOMMENDATIONS:

(1) Attached for approval are detailed instructions in memorandum for all Special Agents in Charge. Revisions will be made in Manual of Instructions and submitted separately.

(2) If proposed revision is approved, investigative and reporting requirements now interconnected with ADEX or dependent on the existence of ADEX criteria will be revised.

(3) If proposed revision of ADEX is approved, we will furnish details to the Attorney General who has been kept informed regarding our ADEX.

SECURITY INVESTIGATIONS OF INDIVIDUALS

ALL INFORMATION CONTAINED
HEREIN IS UNCLASSIFIED

Reference is made to letter from this Bureau dated February 10, 1972, with same caption. The referenced letter set forth for your information the instructions issued to our field offices regarding an administrative index known as ADEX, which was initiated for control purposes in connection with the security investigations of individuals. Your letter of October 22, 1971, entitled "Emergency Detention Program," had indicated that the repeal of the Emergency Detention Act did not prohibit this Bureau's use of an administrative index compiled and maintained to assist in making readily retrievable and available the results of Bureau investigations into subversive activities and related matters.

An evaluation has been made of ADEX after more than eight months of operation. Revisions have been made in the ADEX and the following instructions have been furnished to our field offices concerning the criteria to be utilized in connection with the ADEX.

"ADEX has represented a listing of individuals engaged in subversive activity who are considered a potential or actual threat to the national security. As now constituted, it is divided into four categories corresponding to varying degrees of dangerousness. The current ADEX criteria are broadly worded and allow the inclusion of individuals who, although they subscribe to subversive or revolutionary doctrines, do not necessarily represent a danger to the national security at this time.

"After a careful assessment of this matter, it is believed that ADEX criteria should be amended to provide for the inclusion only of individuals who pose a realistic, direct, and current danger to the national security. In other words, it is believed ADEX should list only persons who are regarded as dangerous now.

However, in many instances an individual may believe in some other form of government or even in the overthrow of our form of government, but without a willingness or capability of engaging in activity other than a philosophical discussion or debate. Such persons subscribe to an alien philosophy, but their activities have not gone beyond an ideological stage. This would include attendance at meetings, taking part in theoretical discussions or other activity which stops short of advocating or engaging in action to overthrow the United States.

"Examples might be members of the Communist Party, USA, or the Socialist Workers Party, or other old-line revolutionary groups which basically advocate an overthrow of our present form of government, but where the subject's activity has been ideological in nature and not oriented towards action. In this connection, however, each case must be reviewed on its individual merits, since the willingness and capability of individuals to engage in action dangerous to the national security is the primary factor in making a determination for the inclusion in ADEX.

"Under normal circumstances members of such hate groups as the Ku Klux Klan would not meet the criteria for inclusion in ADEX. There could be exceptions, however, and each case must be examined individually to determine if it meets the new criteria. These criteria can apply to persons involved with extreme right as well as extreme left organizations, or to individuals who have no affiliation with organized groups but who are anarchists and are engaged in attempts to destroy the United States.

The Attorney General

"The test is whether an individual has shown a willingness and intent coupled with a capability to engage in activity covered in the ADEX criteria and represents a current danger to the national security."

As you requested in your October 22, 1971, letter, this Bureau will not furnish the Department a list of individuals in the ADEX but will, on a monthly basis, continue to furnish the Internal Security Division a list of Government employees who pose a realistic, direct, and current danger to the national security.

1 - The Deputy Attorney General

1 - Assistant Attorney General
Internal Security Division

NOTE:

The ADEX program has been revised and instructions regarding the revisions forwarded to the field by Memorandum to All SACs, 21-72(E), dated 9/12/72. We are advising the Department in this letter of the changes in the ADEX program by quoting from segments of above Memorandum to All SACs.

SUBJECT: REPORT WRITING
SECURITY INVESTIGATIONS OF INDIVIDUALS - General
#239-43

1 - Mr. H. A. Newman

This memorandum is prepared for the purpose of recommending that new streamlined reporting procedures be approved in security-type cases which will substantially eliminate paper work and accordingly allow field personnel more time to actively investigate and develop sources.

Reference is made to memorandum dated 8/11/72 from T. J. Smith to Mr. E. S. Miller regarding the necessity for effecting economy and the development of streamlining methods in the Domestic Intelligence Division in order to attain maximum economy consistent with the discharge of our responsibilities in the internal security field. In keeping with the spirit of this effort, the following proposed change is being made the effect of which should greatly reduce the amount of paper work in the field and release Agent personnel to zero in on more important security work.

Currently the Administrative Index (ADEX) reporting requirement, as set out in airtel to all offices dated 11/15/71, (Section 87G, Manual of Instructions) states that reports or LHMs are to be submitted semiannually, annually, or biennially, dependent upon the category in which the individual has been placed in the Administrative Index.

REC-41 EX-116
100-358086 - 4479

The recommended change would eliminate the periodic report or LHM requirement which actually places a requirement on the field to report merely for the sake of reporting. This ties up a considerable amount of manpower who do nothing more, in some instances, than research files, indices, and correlate data into a report. It must be recognized that any really

important data has or should have been previously submitted to Bureau for dissemination. Therefore, in submitting such reports we unavoidably have much duplicative reporting.

In its place we recommend that the only report required be the initial nonprosecutive summary report which should be as complete as possible and prepared at the time subject is recommended for inclusion on the Administrative Index. Thereafter, no scheduled reports need be submitted unless the complexity or prosecutive potential of the case or other reason so dictates. In such instance, the SAC or Headquarters could instruct that a report be prepared. Nothing would be lost by adopting such procedure as the field will be specifically instructed that all significant data developed must be submitted on current basis concisely by teletype or LHM in form for dissemination so we can take advantage for dissemination purposes of the freshness of the intelligence product.

This recommended change in no way alters the present investigative and reporting requirements as they pertain to organizations.

This procedure would conserve a substantial amount of Agent time in the field preparing reports and/or LHMs and stenographic time necessary for typing and assembling.

ACTION:

If approved, the attached memorandum be sent to all SACs and that necessary changes be made in the Manual of Instructions and the FBI Handbook.

SUBJECT: INTERVIEWS WITH SUBJECTS OF SECURITY INVESTIGATIONS
#238-13

Purpose is to recommend change in Bureau policy, which currently requires that interviews of security subjects be conducted by two Agents, to allow Special Agents-in-Charge to have responsibility and option of determining when two Agents necessary in conducting interviews of this nature.

Bureau regulations presently require that interviews with subjects of security investigations should be conducted by two Agents. Actual approach need not be made by both Agents; one Agent may observe from secure distance. Further instructions direct that two Agents should be physically present during interview or contact with known or suspected Nation of Islam members in all cases. Regarding investigations of white extremists, such as the Klan, current policy specifies two Agents should be present at interview when considerations of sensitivity or security warrant or when good judgment dictates.

Due to the diversity in the philosophies and propensity for violence of the numerous organizations and individuals that are within the purview of our security investigative jurisdiction, our current policies, cited above, appear to be over expansive and/or unnecessarily arbitrary.

In order to streamline operations and provide greater latitude to the field, it is recommended that Special Agents-in-Charge be given the responsibility and option of deciding when two Agents should be present during interview of security subject. This authority would be applicable to all types of security investigations, i.e., revolutionary, subversive and extremist.

ACTION:
Based on the assumption that SACs will give 1st priority to safety & SA's I approve. In short safety may dictate two.
Recommend attached be incorporated in SAC Memorandum to field in line with above recommendation. Manual and Handbook changes will follow.

ADMINISTRATIVE INDEX (ADEX) REVISION
ESTIMATED MANPOWER SAVINGS
BUDED: 10/20/72

Reference is made to SAC Memorandum 21-72, dated 9/12/72.

Deletion of Categories III and IV in revision of ADEX will effect reduction in security workload by eliminating verification and reporting in these Categories. Resulting manpower savings will be directed to other critical areas of security work. To enable Bureau to make estimate of savings on field-wide basis, each office is instructed to furnish estimate of its monthly savings. Assume one-twelfth of total cases in Categories III and IV as of 9/1/72 as average monthly number of cases to be handled. Based on this monthly average furnish the following:

1. Estimated Agent workdays per month, or fractions thereof, which would have been expended in verifying and reporting Category III and IV subjects under old ADEX verification schedule.

2. Estimated Agent workdays per month now required to review cases in these Categories as they are reopened under old schedule to determine if they meet current criteria.

3. Estimated savings in terms of Agent workdays (difference between 1 and 2 above). Also furnish number of cases used as monthly average.

It is recognized that variable factors could affect these monthly computations, i.e., retention under new ADEX criteria of some few cases formerly in Categories III and IV; opening of new

investigations on former Category III and IV subjects because of increased activity. However, this effect will be minimal field-wide and is not to be considered for purposes of the estimate. STREAMLINING PROCEDURES

Reference is made to T. J. Smith to Mr. E. S. Miller memorandum 8/29/72, captioned as above, by which streamlining procedures for ADEX, and Memorandum to All SACs explaining these procedures, was approved.

It was indicated in this memorandum that when the field was furnished with the new criteria, a canvass would be made of all offices to determine what manpower savings have been effected by these streamlining procedures.

In accordance with this, there is attached an airtel to all offices instructing that each office furnish estimate of its monthly manpower savings. Offices are to estimate Agent workdays per month expended in verifying and reporting ADEX Category III and IV subjects under old verification schedule, and workdays per month required to review cases in these Categories to determine if they meet new criteria. Difference between these computations is to be reported as estimated monthly savings.

Monthly savings reported by field offices will be totaled by Domestic Intelligence Division, on the basis of Agent workdays per year, to obtain field-wide estimate of manpower saved through these particular streamlining procedures.

(C) ADEX - SECURITY INVESTIGATIONS OF INDIVIDUALS --

The revision of ADEX initiated by Memorandum to All SACs 21-72, dated September 12, 1972, should not be construed as a reduction in this Bureau's efforts in the national security field. While the ADEX is now to contain only individuals determined by investigation to be "dangerous now," there has been no change or relaxation in our responsibilities to identify on a continuing basis through appropriate investigations those individuals who may be dangerous or potentially dangerous to the national security. It is important also to keep in mind that to obtain vital information relating to national security matters, we must not relax our efforts to develop and maintain a strong security informant program. The continued maintenance of a strong informant program will enable us to identify those who represent a current threat to the national security and who should be included in ADEX. Additionally, a good informant program makes it possible to redirect manpower resources to other high priority matters in the internal security field.

Insofar as policy of instituting security investigations of individuals is concerned, there has been no change in the policy set forth in Section 87D of the Manual of Instructions. The same is true regarding dissemination of information developed during security investigations of individuals. Aside from the provisions set forth in SAC Memorandum 21-72 (D) streamlining reporting procedures, policy on dissemination of data developed in security investigations of individuals outlined in Section 87H of the Manual of Instructions continues to apply. Agents and supervisors handling security investigations should be thoroughly familiar with these two sections of the Manual of Instructions.

For your information, a system of listing subversive and extremist individuals for future identification and reference aside from those included in ADEX is presently being formulated at the Bureau.

Following the implementation of revisions of the ADEX as set forth in Memorandum to All SACs 21-72, dated 9/12/72, a number of telephone calls have been received by the Research Section at Headquarters which indicate that some offices believe that the Bureau intends to cut back on its national security efforts as a result of the revision in the ADEX program. It is noted that the New York Office inquired as to whether or not the ADEX change could also result in a reduction of our security informant coverage.

Of course, the changes in ADEX in no way are to be regarded as a signal to reduce or relax our responsibilities regarding national security matters and it is quite obvious that the proper implementation of the ADEX program depends on a good and strong security informant effort. Because of the above comments from the field, it is believed that the attached Memorandum to All SACs should be issued to advise the field that the ADEX revisions must not be construed as any reduction in our national security efforts.

Proposed SAC Memorandum notes that there is no change in policy on instituting security investigations of individuals. Section 87D of the Manual of Instructions (MOI) sets forth policy requiring the FBI to conduct thorough investigations into the background and activities of all persons in the United States and Puerto Rico who are dangerous or potentially dangerous, including individuals who are members of, or affiliated with, basic revolutionary organizations or other Marxist revolutionary organizations or splinter groups. The field is also being reminded that aside from provisions set forth in SAC Memorandum 21-72 (D) streamlining reporting procedures, policy on dissemination of data developed in security investigations of individuals outlined in Section 87H of the MOI continues to apply. The policy in that manual requires information

obtained during investigations should be forwarded to other agencies in the Executive Branch unless compelling reasons preclude such dissemination. Agreements reached with other agencies, including the Secret Service, also call for the FBI to furnish information developed concerning subversive activities, espionage, sabotage, and related matters.

We are separately formulating a system of listing subversive and extremist individuals for future identification aside from those included in ADEX. Memorandum which submitted for approval the above-mentioned SAC Memorandum 21-72 also outlined our plan to implement a computerized communist index and extremist index for the above purpose.

Proposed SAC Memorandum requires no manual changes.

Dear [redacted]

I have received your suggestion that a form you designed be adopted for use in connection with a particular program. Your proposal has been considered and it is not being adopted. We are unable to print carbon-interleaved forms at FBI Headquarters and the format is such that it would be undesirable to send it elsewhere for printing.

Although your idea was not approved in this instance, I appreciate your interest in submitting it to me.

Sincerely yours,

SUGGESTION

I am submitting this suggestion in connection with the recent instructions regarding the Administrative Index (ADEX) set forth in Memorandum 21-72 dated 9/12/72. I suggest that 3 x 5 cards with one carbon copy be printed up similar to the attached example to be used as administrative ticklers for the review of ADEX cases at two-year intervals.

EXP. PROC.
34 OCT 25 1972

Current practice or rule (Include manual citation as well as facts)

This is a new procedure.

Advantages of suggestion and annual savings (include basis for estimate)

The advantage of this is that it would not be necessary to type a tickler every time an individual is recommended for the ADEX. It would simply be a matter of adding the date, the file number and the subject's name. The original tickler could then be routed to the Agent to whom the case is assigned, and the copy could be maintained by a secretary to follow. If it is determined by the Agent that the subject should be maintained on the ADEX, he would record the date of review on the tickler and return it to the secretary to be set up for another two years. It would appear this procedure would save clerical time in preparing ticklers and supervisory time in not having to prepare a Routing Slip or other reminder for the Agent to review the case.

Disadvantages of suggestion

ADEX - GENERAL

SUBJECT: FORM FD-165
SUGGESTION 206-73 SUBMITTED BY
SA [redacted] NEW YORK OFFICE

b6
b7C

62-24151-1

SUGGESTION: As with the FD-238 (sample attached) which is always maintained as the top serial in the most current volume of the administrative section of an informant file, suggests Form FD-165, FBI Field Office Wanted-Flash-Cancellation Notice (sample attached), also be maintained as the top serial in the current volume since in the case of long-time subjects on the Administrative Index (ADEX) whose files can consist of several volumes, the information contained thereon (FBI or local identifying numbers, description, etc.) is not otherwise always readily available.

CURRENT PRACTICE: Suggester states the FD-165 is currently serialized into the file in chronological order.

ADVANTAGES: Basic descriptive data such as date and place of birth, description, FBI and other identifying numbers would be readily available as would the date the FD-165 was originally submitted and whether or not it was placed and/or later cancelled for purposes of completing the FD-305, Last Cover Page for ADEX Report, when submitting a current report.

OBSERVATIONS: General Investigative Division believed suggestion should be adopted. Identification Division stated suggestion did not affectits operations however, as there might be some benefit in filing FD-165 as a top serial in security case as a reminder to cancel the security flash when no longer needed, this division concurred with the idea.

ST-102 REC-70 100-358086-4185

Special Investigative Division deferred to opinion of Domestic Intelligence Division since that latter division handles ADEX subjects. Special Investigative Division stated, however, the suggestion would circumvent our serialization rules. It also noted present procedures require preparation of special index card on each ADEX subject on which is noted among other things, the description, FBI number and a photograph.

15 NOV 1 1972

Domestic Intelligence Division opposed adoption of the idea. It commented that the fact that FD-165 has been posted with Identification Division will be shown in the administrative pages of the most recent report on the ADEX subject and, when the FBI number was available at the time FD-165 was submitted, it is the only identifying data necessary. In addition, good records management dictates that all serials in a file

should be maintained in chronological order and serialized.

Training Division also opposes adoption for reasons set forth by Special Investigative and Domestic Intelligence Divisions. Further, in the experience of the Suggestion Desk we are constantly getting suggestions for floating top serials of various types for various reasons which, if adopted, would have created several "top" serials which is a practical impossibility.

RECOMMENDATION: That the suggestion not be adopted and the suggester be advised in attached letter.

I have received your suggestion that Form FD-165 be maintained as the top serial in the current volume of the particular case file. Your proposal has been considered and it has been decided it should not be adopted because of various disadvantages. In addition, for good records management all material in a file should be properly serialized.

The information obtained from [redacted] standing alone, is of borderline value to the Bureau. It merely concerns the participation of individuals in an antiwar demonstration. There is no indication of any subversive association or any definite propensity for violence. If the British Campaign for Peace in Vietnam is a subversive organization, same is not indicated in any of the correspondence. b6 b7C b7D

The submission of such borderline information to the Bureau should have been by the simplest and least effort-expending manner practical. A single LHM with a single cover letter would have sufficed. It not only would have saved effort at Bureau Headquarters, but also in your office. It is especially noted that your office apparently opened seven individual cases, and action unjustified on the basis of facts known. U

It is hoped that the constructive guidance rendered herein will be of value to your office in future handling of similar situations. U

You are being separately advised concerning the classification aspects relating to referenced correspondence. U

By SAC Memorandum dated 9/12/72, field was advised of number of changes being made in criteria and procedures relating to the Administrative Index (ADEX). Among these changes were the abolishing of prior requirements regarding the periodic verification of residence and employment addresses of ADEX subjects.

Section 105 of the Manual currently requires that the residence and employment of a certain type ADEX subject be verified every 90 days; namely, subjects included in ADEX as a result of disaffection for the U.S. This would include persons who have returned to this country after having renounced U.S. citizenship, expressed a desire for citizenship of a communist country, indicated antipathy for the U.S., or an intent to remain in a communist country because of preference for the communist system. The rule relative to 90-day verification of addresses of such individuals was adopted as internal FBI policy after assassination of President Kennedy by Lee Harvey Oswald who fit the criteria of a disaffected person. In order to be consistent with newly adopted ADEX procedures, the 90-day rule relative to disaffected persons included in ADEX should be rescinded. Other policy relative to disaffected persons would not be changed; such persons would continue to be investigated and considered for ADEX where appropriate.

ACTION:

Attached is proposed revision of Section 105 to delete the requirement for 90-day verification of address of disaffected persons on the ADEX.

Reurairtel 11/30/72, and your letterhead memorandum (LHM) 11/29/72, both concerning the Students for a Democratic Society (SDS).

Reairtel referred to bumper stickers and fliers regarding an SDS-sponsored demonstration at Washington, D. C., on Inauguration Day, 1/20/73. Names of various individuals together with telephone numbers were listed at the bottom of the above flier. The individuals apparently represented contacts for the SDS in the areas shown on the flier.

The Bureau noted with concern that the only lead set out in reairtel was for Boston to continue contacts with sources to develop further specific information regarding the SDS demonstration. It is evident that the individuals listed on the bottom of the above flier are local contacts in the areas specified and are in some form of SDS leadership at the present time. Therefore, Boston will submit, by return airtel, results of a check of the names referred to in its indices, and, if not already done, furnish all pertinent information available concerning this matter to offices covering the areas where the SDS contacts are located. Each office involved is to be told that they are to identify the individuals and to bring investigation

up to date concerning their activities. In the event investigations have not been instituted concerning any of the individuals listed, cases are to be opened immediately and investigations handled on an expedite basis. Any activities of these individuals pertaining to demonstrations at the Inaugural ceremonies are to be handled in accordance with specific instructions set out in Buairtel, 11/17/72, captioned "Protests During Presidential Inaugural Ceremonies, Seventy-Three."

In addition, results of your investigations of the individuals referred to are to be submitted by report suitable for dissemination under individual case captions.

The Bureau is following this matter closely and will insist that this matter be given immediate and continuous attention. Boston, as office of origin, will be expected to correlate the identification of the above individuals and will keep the Bureau immediately advised.

SUBJECT: ADMINISTRATIVE INDEX (ADEX)
REVISION OF FORMS

In view of the revision of the ADEX implemented through SAC Memorandum 21-72 (E), dated 9/12/72, a review has been made of the attached forms utilized in connection with ADEX to determine the necessity for any changes in these forms. The following conclusions have been reached:

1) It is necessary to change forms FD-128 (Letter Changing Office of Origin), FD-186 (Memorandum regarding Posting of Information on ADEX Card), and FD-305 (Last Cover Page for ADEX Report) as noted on copies attached. Changes made to delete references to categories no longer used in ADEX and to specify use of an FD-122 (Recommendation for Preparation or Change in ADEX Card) with succinct summary attached in order to recommend cancellation of ADEX card.

2) Form FD-154 (Verification of Information on ADEX Cards), copy attached, is recommended for deletion inasmuch as verification required under old ADEX procedures have been eliminated by the above-referenced SAC Memorandum.

3) No change is required for ADEX purposes in forms FD-165 (FBI Field Office Wanted--Flash--Cancellation Notice) and FD-413 (Cover Letter for Chinese Alien Interviews).

It is noted that FD-122, which is used regarding recommendation for, or change in, ADEX cards, is being studied for extensive revision and recommendation for the new format will be submitted in the future.

Reference T. J. Smith memorandum to you 10/5/72 entitled "Administrative Index, Revision of Forms," which made recommendations for necessary changes in various Bureau forms to conform with the new ADEX procedures adopted in September, 1972. Referenced memorandum pointed out that the necessary revisions in form FD-122 (which is used to recommend subject for and delete subjects from ADEX as well as to update background information on ADEX cards) will be recommended separately.

Attached is copy of proposed new FD-122. Format has been changed to conform with the new ADEX regulations involving elimination of separate categories from ADEX. A number of other minor streamlining improvements have been made when compared with the form now in use. They include the following:

1. Current form lists 17 different types of organizational or nationalistic affiliation relating mostly to specific subversive groups. This has involved frequent changes to keep abreast of the formation of new subversive organizations, changes in names, etc. In our revised form we have not listed any specific organizations but instead have provided check-off boxes for 8 principal types of subversive activity. It is believed this will prove more useful and at the same time eliminate the need to constantly bring the form up to date.

ENCLOSURE

2. The new form provides check-off boxes to include subjects in the unavailable section of ADEX as well as to remove a subject from the section. It also provides boxes to check "Special Interest" subjects, such as U.S. Government employees. Under current procedures, the field is required to add this information to the form with special notations.

RE: ADMINISTRATIVE INDEX
REVISION OF FORM FD-122

A copy of form currently in use is also attached for comparison purposes.

Revisions have been coordinated with all interested sections in Domestic Intelligence Division as well as with the Computer Systems Division which handles the program and computer print-outs connected with ADEX. Necessary changes in the Manual of Instructions (Section 87) are being handled separately.

RECOMMENDATION:

That the attached form be approved but that printing and distribution to the field be deferred until Computer Systems Division has had opportunity to prepare necessary new computer program. When necessary program has been completed, Domestic Intelligence Division will prepare necessary instructions for the field and we will set a uniform effective date for the use of this form.

ADDENDUM: Computer Systems Division: WDG:mb 1/30/73 Done

Computer Systems Division concurs in the above recommendation; however, Domestic Intelligence Division should check with Computer Systems Division before ordering printed up forms on the chance there will be some modification on account of computer programming.

SUBJECT: ADMINISTRATIVE INDEX (ADEX)

Reference Memorandum to All Special Agents in Charge 9/12/72, paragraph (E), instituting new ADEX procedures.

Under separate cover, each office is being furnished with revised FD-122. The format has been changed to conform with new ADEX regulations involving the elimination of separate Categories. At the same time a number of other streamlining improvements have been made as follows:

(1) Under Type of Activity, specific organizations are no longer listed. Instead, check-off boxes are provided for eight principal types of subversive activity. It is believed this will prove more useful and at the same time will eliminate the necessity to repeatedly change the form to keep abreast of changes in names of subversive groups.

(2) The new form provides check-off boxes to include subjects in the Unavailable Section as well as to remove subject from this Section. Check-off boxes are provided with respect to "Special Interest" subjects. This eliminates the requirement to type in such information at the top of the form.

All offices should commence using revised FD-122 as of 4/1/73. Prior to that date, current version of this form should continue to be used. In the event you have any questions regarding the revised form, promptly call them to the attention of FBIHQ making reference to this letter. Appropriate manual changes are being made.

Re Bureau letter, 3/23/73.

Enclosed for the Bureau are 2 copies of Boston letter dated 4/27/72, captioned, [redacted] SM-C," which sets forth results of investigation by Boston concerning [redacted]

[redacted] as noted in the enclosed letter, was born [redacted] at Portsmouth, N.H., and would be [redacted] at Portsmouth.

There has been no indication of activity on the part of [redacted] coming to the attention of the Boston Division subsequent to Boston letter of 4/27/72 with the exception of the information mentioned in re Bureau letter.

In view of the foregoing, it is not felt that additional investigation of [redacted] is warranted at this time; and Boston is maintaining this case in a closed status.

Further, the indices of the Boston Division are negative concerning [redacted] with the exception of the reference to her as mentioned in re Bureau letter.

Boston informants familiar with phases of SWP and YSA activities advised that [redacted] was unknown to them.

It is noted that "The Militant", in its edition of 3/16/73, also carried an article reporting that on 2/23/73 a Federal District Court had ruled that high school students have the right to distribute literature in school, have access to outside speakers and have a hearing before being suspended for more than five days. According to the article, the ruling, which would affect all high schools, stems from a case brought by [redacted] Black Student Union and [redacted] of the Young Socialists for [redacted] at the high school.

It would, therefore, appear that [redacted] in the matter of the suit against school authorities for refusal to permit [redacted] to speak at Portsmouth High School [redacted] in the Black Movement, it being noted that [redacted], rather than from any staunch support of YSA and/or SWP ideals.

Accordingly, Boston does not feel at this time that investigation of [redacted] should be instituted.

Boston informants and sources have been alerted concerning [redacted] and should information be subsequently developed warranting investigation, Boston will take appropriate action.

ReNKlet 3/21/73, concerning Spartacist League (SPL).

For your information, the Bufiles indicate that the Milwaukee Office conducted a security investigation concerning [redacted] (MIfile 100-19749), who may be identical with the [redacted] referred to on page two of relet. Newark may desire to contact Milwaukee for identifying data in an effort to resolve identity.

Bufiles also show that an investigation of one [redacted] possibly identical with [redacted] listed on page two of relet has been conducted by New York and that a pending case now exists in the New York Office concerning one [redacted] possibly identical to the individual having the same name and also identified on page two of relet. New York and Newark resolve identity.

KEY EXTREMIST PROGRAM
EXTREMIST MATTERS
BUDED: 7/2/73

A preliminary analysis of the Key Extremist Program (KEP) by FBIHQ, including discussions with supervisory and investigative personnel who have been attending special Extremist Matters In-Service classes, indicates that constant investigative attention is not always being afforded individuals who have been designated as Key Extremists. All offices are reminded that KEP was instituted in 1970 as the Key Black Extremist Program to provide guidelines for intensive investigation of certain black extremist leaders and activists whose endorsement and/or involvement in revolutionary and terrorist activity warranted priority attention. In January, 1973, the program was redesignated KEP and revised to include key white-hate Klan-type extremists and American Indian extremists in addition to black extremists. There are approximately 90 individuals throughout the country currently designated as Key Extremists in some 27 field offices.

Specific instructions as to the nature and extent of investigation to be conducted on Key Extremists are outlined in Manual of Instructions, Section 122 A, Item 5, Pages 5 and 6, and all supervisory and investigative personnel handling extremist matters should be specifically reminded of the requirements set forth therein.

Re: Key Extremist Program
157-8415

In order to make a thorough overall analysis and reevaluation of the KEP at FBIHQ and to assist each office in analyzing the effectiveness of its own program, the following survey is to be conducted:

I. Each office is to examine pending cases on individual extremists (black, white-hate Klan-type, and American Indian) within its territory to insure all who warrant designation as a Key Extremist are so designated and those individuals currently designated as Key Extremists warrant retention as same. By airtel to reach the Bureau by 7/2/73 under the caption "Key Extremist Program, _____ Division, Extremist Matters," advise the Bureau that this survey has been completed and identify appropriate individual extremists by name, character, Bureau and field file numbers under the following self-explanatory captions:

A. "Individuals Currently Designated Key Extremists"

B. "Individuals Designated Key Extremists Who No Longer Warrant Retention as a Key Extremist"

C. "Individuals Who Warrant Designation as a Key Extremist"

If the answer under any one of the three captions is "None," so state.

II. Those offices with individual extremists listed under above captions B and C, submit by the same date in airtel form under the individual's case caption your recommendation for inclusion or deletion of that individual from the KEP. Full justification should be set out and Bureau will act on your recommendation.

III. Those offices with current individual Key Extremists (caption A above) submit by the same date in airtel form under the individual case caption the answer to the following questions, by number, relative to that individual:

1. Is the subject included on the ADEX? If not, and recommendation to include or to delete from the old ADEX criteria has not yet been submitted, submit your recommendation to include or delete promptly with full justification in accordance with current instructions. If a recommendation has been submitted and the individual has not been included or has been deleted, so state.

2. Is the subject included in the Extremist Photograph Album? If not, immediately submit Form FD-432 for inclusion therein.

3. Outline the nature of the coverage you have of subject's finances, specifically indicating if bank accounts are or are not being monitored. If bank accounts are not being monitored, give reasons therefor.

4. If warranted, has the Bureau been specifically requested to obtain subject's tax returns? If not, give your reasons for not considering this investigative step.

5. Have you developed or placed an informant close to the subject? If so, identify such informant(s) by symbol number, indicate his relationship to the subject, and succinctly summarize the type of information informant is in a position to furnish.

6. Have handwriting specimens been obtained and filed in the National Security File of the FBI Laboratory?

7. Have fingerprints been filed in the Single Fingerprint File, Latent Fingerprint Section, of the Identification Division?

8. Have you been successful in obtaining a written record or a witness's statement of inflammatory and/or revolutionary-type writings or statements by the subject?

9. Has a full and thorough background investigation been completed on the subject?

If the answers to questions number 5 through 9 above are in the negative, outline in another paragraph immediately under the answer the specific steps underway or being instituted by your office to fulfill this investigative requirement.

Some confusion regarding Key Extremists has arisen over the new ADEX criteria outlined in Memorandum to All SACs 21-72 dated 9/12/72. This revised criteria make it possible to have an extremist who warrants designation as a Key Extremist and yet does not meet the new criteria for inclusion on the ADEX. Such individuals may continue to be designated as Key Extremists.

Additional confusion has also arisen over reporting requirements which were relaxed by above-mentioned Memorandum to All SACs. Hereafter, individuals designated as Key Extremists are to be considered as exceptions to the above memorandum under Item 4d, Page 8, and reports on Key Extremists are to be regularly submitted every 90 days. If no report has been submitted on a Key Extremist within the past 90 days, promptly prepare and submit an up-to-date report and submit follow-up reports thereafter on a 90-day basis.

Section 122 of the Manual of Instructions is being revised to outline more clearly the criteria for designating black, white-hate Klan-type, and American Indian extremists as Key Extremists as well as the ADEX status of and reporting procedures for Key Extremists.

All offices insure in the future that new cases on individual extremists are carefully scrutinized to see if they warrant designation as a Key Extremist, and that an appropriate recommendation is promptly submitted to the Bureau.

NOTE:

This is to recommend that the attached airtel to all offices be sent to remind the field of the requirements of the Key Extremist Program (KEP), to request data to aid in analysis and reevaluation of KEP, and to assist offices in analyzing the effectiveness of their own program.

A preliminary analysis of KEP by IS - 1 Section, including discussions with field supervisory and investigative personnel attending a series of Extremist Matters In-Service classes, has determined that continuing investigative attention is not always being afforded individual extremists who have been designated as Key Extremists.

KEP was instituted in 1970 as the Key Black Extremist Program to provide guidelines for intensive investigation of certain black extremist leaders and activists whose endorsement and/or involvement in revolutionary and terrorist activities warrant priority attention. In January, 1973, the program was redesignated KEP and revised to include key white-hate Klan-type extremists and American Indian extremists in addition to black extremists.

In view of the preliminary analysis, it is believed the field should be reminded of the investigative and reporting requirements for KEP and to obtain from each field office an analysis of its program to include the identity of their Key

Extremists under investigation, the identity of Key Extremists who no longer warrant designation as such, the identity of individual extremists who should be designated Key Extremists, and to determine if required investigative steps are being followed with respect to those individuals designated as Key Extremists.

Originally, all Key Extremists were to be included in the ADEX. Recent changes in ADEX criteria require an individual included therein to be dangerous now to national security and some confusion has resulted in the field over whether or not Key Extremists must be removed as Key Extremists if they do not qualify for ADEX. The field is being instructed that this is not necessary and an individual can be a Key Extremist and still not qualify for ADEX. Confusion also exists as to when reports are to be submitted on Key Extremists due to recent relaxation of reporting rules. Original instructions required reports on Key Extremists every 90 days and this is being reiterated.

We currently have throughout the United States a total of 90 individual extremists designated as Key Extremists in 27 separate field offices. The New York Office has 19 and the San Francisco Office has 16. The number of Key Extremists in the remaining 25 offices range from one to eight. The results of analysis by each field office will be thoroughly analyzed and evaluated by the IS - 1 Section with additional instructions issued, if warranted.

ACTION:

If you approve, the attached airtel to all offices in line with the above will be sent.

SUGGESTION

That form FD-305 be amended to include check block data concerning designation or inclusion of subject in Key Extremist or Key Activist program and in Extremist Photograph Album or Arab Terrorist Photograph Album.

(See attached example)

ADEX GENERAL

Current practice or rule (Include manual citation as well as facts) Manual of Instructions, Volume III, Section 87H, page 49, and Manual Rules and Regulations, Part II, Section 4 (3), page 13, require form FD-305 be included as a part of cover pages (see page 2)

Advantages of suggestion and annual savings (Include basis for estimate)

The Key Extremist and Key Activist programs are ones calling for extensive investigation of certain potentially dangerous security subjects. The Extremist Photograph Album and Arab Terrorist Photograph Album are albums maintained in each office which include photograph and background on known extremists and terrorists who travel.

Inasmuch as these are key programs in the security field and many subjects included in one or more of these four programs are also on the ADEX, by amending the form to include above it would flag the subject's status to all investigative, supervisory, and clerical personnel.

Disadvantages of suggestion

None

(The use by the United States of my suggestion shall not form the basis of a further claim of any nature by me, my heirs, or assigns upon the United States. I understand that I will be considered for any justified award only if my suggestion is adopted within two years after submission.)

SUBJECT: SECTION 87
MANUAL OF INSTRUCTIONS

Supervision - Security matter

Adex General

Attached for approval is complete revision of Section 87 of the Manual of Instructions which governs our basic policies and procedures in handling domestic security matters. This rewrite represents a major step in the evolution of our policies in this area from heavy reliance upon various Presidential Directives dated back to the 1930s to a jurisdictional approach based on existing Federal statutes. As indicated in prior communications, including a detailed "Position Paper" submitted by this Division 7/31/72, we have for some time recognized the need to more closely relate our work in this field to its underlying statutory authority.

Actually, FBI's authority to conduct investigations of subversive elements has not been seriously challenged until recently. There was little, if any, demand that we specify our investigative jurisdiction in terms of statutes. Not only the general public but even our own personnel came to accept the FBI's right to handle internal security matters and to investigate subversive activities without reference to specific statutes. We operated on the basis of custom and precedent supplemented by references to various Presidential Directives issued in the past, notably a September, 1939, Directive of President Roosevelt which charged the FBI with the responsibility to coordinate matters relating to internal security.

This rationale has proved adequate for a number of years. Moreover, we have had tight controls on the handling of these cases

(CONTINUED - OVER)

to preclude any unwarranted or excessive inquiries. Our investigations have been soundly based even though we did not spell out the statutory basis on which they rested.

The need to emphasize our statutory authority more clearly became evident in the Spring of 1971 when Senator Ervin initiated efforts to obtain from the Justice Department the specific guidelines governing the FBI's operation in this area. Later in 1971, [redacted] presented his detailed study of FBI domestic intelligence operations at the Princeton University conference held under the auspices of the Committee for Public Justice. [redacted] study was concerned to a major degree with questioning the validity of the Presidential Directives as a firm basis for our security investigations. b6 b7C

Based on our detailed consideration of this matter, we believe the answer to this matter is relatively simple although it will require some adjustment on our part. We should base our investigations of domestic subversion squarely on statutory basis and make it clear in our communications and reports that this is the case. This is the principal objective of the attached rewrite of Section 87 which includes the following major changes:

(1) Title of Section has been changed from "Security Investigations" to "Investigations of Subversive Organizations and Individuals." We believe the term "security investigations" is too broad and indefinite whereas the new title conveys the idea that investigations covered under this Section (namely, investigations of persons or groups seeking to overthrow or subvert the Government) are directed at a particular type of activity.

(2) We have revamped the basis and criteria for investigations to make it clear throughout that our investigations are based on existing laws, the chief of which are the statutes dealing with rebellion or insurrection (Title 18, U. S. Code, Section 2583), seditious conspiracy (Title 18, U. S. Code, Section 2584), and advocating the overthrow of the Government (Title 18, U. S. Code, Section 2585).

(3) Rules covering Administrative Index (ADEX) have been updated in line with changes approved last Fall. At the same time, the

influence of the ADEX program as a controlling factor in investigations has been eliminated. Revised chapter stresses that ADEX is strictly an administrative device and should not play a part in investigative decisions or policies.

(4) We have eliminated overemphasis on Communist Party (CP) which has characterized this Section in the past. CP is no longer singled out as the prime subversive organization as this is no longer the case.

(5) Instructions regarding FBI responsibilities and agreements with Defense Department agencies regarding individuals employed at key facilities and with private contractors holding defense contracts are being eliminated from Section 87. They will be incorporated in Section 102 (Coordination with Other Government Agencies) where they are believed to more properly belong. This will be handled separately.

(6) Current rule requires that FBIHQ approval be secured for members of other law enforcement agencies to accompany FBI Agents in handling these investigations. This is being revised to provide for SAC approval. Actually, necessity to use officers from other agencies rarely occurs. Where the need does arise, it is believed the SAC should be able to make the decision.

(7) Entire chapter has been streamlined and made more readable and better organized. It is about one-third the size of existing Section.

The new concept advanced in the revised Section 87 with its stress on a statutory approach will no doubt prove to be a difficult adjustment for many of our Agents who have become accustomed to handling these cases under the existing procedures, format, etc., for many years. In addition, there may be some "bugs" in the new system which we have overlooked.

Accordingly, it is felt that we should allow a certain amount of time for the field Agents and Supervisors to review the new procedures.

and policies prior to their actual implementation. In this regard, we will arrange so that when the new chapter has been printed and is being distributed to the field, we will instruct the field by SAC Memorandum that they are not to be put into effect for a certain period of time, for example, 30 days.

During this interval, field will have an opportunity to carefully study the new format and to raise any questions which arise with FBIHQ. In addition, it is believed we should hold several regional-type conferences with key Supervisory personnel of the major security offices to iron out any problems which may exist in connection with converting to the revised format. Such conferences could be led by several knowledgeable supervisors from FBIHQ staff. Such conferences would be invaluable in eliminating misunderstandings or confusion and insuring that we make a smooth adjustment to the new policies.

RECOMMENDATION:

That the attached revision Section 87 be approved. Additional recommendations will be submitted relative to the distribution of this Section when printing is completed and for the holding of regional field conferences.

It is requested that, upon approval, the printing of revised Section 87 be expedited so that we can distribute it to the field as soon as possible. As indicated, there will be some delay involved to allow the field to assimilate the new procedures and we want to keep the overall delay in implementing them to a minimum.

(See Addendum page 5)

INTELLIGENCE DIVISION ADDENDUM, 5/30/73, RDC:nlb:

In order to expedite this matter and also allow for possible changes in Section 87 which may be suggested by the field, we will defer the preparation of Section 87 in final form. Instead, we will provide the field with Xerox copies of the attached version for the field's review during the interim period before the new procedures actually take effect. At the conclusion of this period, we will prepare Section 87 in final form for printing and distribution.

Employee Suggestion
FD-232 (Rev. 9-11-59)

#55-44

Date: July 13, 1973

To: Director, FBI

From: (Suggester's name) [redacted]

Division of Assignment: Intelligence

SUGGESTION

~~Form~~ FD-122 be amended to include the category American Indian (AIN) under the caption of "Type of Activity." (See attached example.)

O Security Index - General

Current practice or rule (Include manual citation as well as facts)

Manual of Instructions, Volume III, Section 87 E.

Advantages of suggestion and annual savings (include basis for estimate)

With the increased activities by members of the American Indian Movement and its supporters including the demonstrations and violent confrontations with local authorities in Scottsbluff, Nebraska, and the Rapid City and Custer areas of South Dakota as well as the armed takeover and occupation of the community of Wounded Knee, South Dakota, it is anticipated an additional number of subjects will warrant designation on the Administrative Index. The advantages of this additional descriptive category will alleviate any confusion created by the present form as to whether the block for Revolutionary or Miscellaneous should be checked.

Disadvantages of suggestion

None.

PROPOSED CHANGES IN
MANUAL OF INSTRUCTIONS GENERAL

SECURITY INDIVIDUALS
Section 87, Investigations of Subversive Organizations and Individuals, Manual of Instructions, should be amended as follows.

1. Page 5, paragraph A 5 should read as follows:

Predication for investigation
In all cases handled under the provisions of this section, the first communication prepared for outside dissemination (report or LHM) should show specifically the statute upon which the investigation is based together with necessary supporting facts. Where investigation has been specifically requested by Department, this should be indicated. The following examples are illustrative; however, the basis for each individual case must be tailored to the circumstances of such case.

a. "This investigation is based on information that the subject's activities could involve violation of T18, USC, Section 2383 (Rebellion or Insurrection), and Section 2384 (Seditious conspiracy). A source whose reliability has not been determined has informed that the subject is planning, along with others, to travel to Washington, D. C., on April 30, 1971, to participate in planned violent demonstrations during the first week in May, 1971, to 'shut down the Government.' Demonstration plans include the blocking of streets and highways, [redacted] of personal and Government property, and physical obstruction to prevent Government employees from reporting to work."

"This investigation is based on information that the subject's activities could involve a violation of T18, USC, Section 2385 (Advocating the overthrow of the Government). The subject is an admitted

member (or has been identified as a member by a confidential source who has provided reliable information in the past) of (name of group). The (name of group) in its public statements and publications advocates the desirability and necessity of overthrowing the U. S. Government by force or violence, and the assassination of U. S. Government officers. The same source has reported that the subject actively supports these positions."

Where possible, the first intra-Bureau communication prepared which indicates that investigation is being initiated (intra-office memorandum, letter, airtel, teletype, etc.) should specifically indicate the statutory basis for the investigation. However, there may be occasions involving individuals or groups in contact with known subversive elements where the purpose of the contact is not initially known and where a preliminary inquiry must be made to determine whether a statutory basis exists for full investigation. In these instances, a preliminary inquiry may be undertaken, through established sources, for a period not to exceed 90 days, without specifically indicating the specific statutory basis for the inquiry. If after the conclusion of 90 days it has not been possible to establish a statutory basis but further inquiry appears necessary, FBIHQ must be furnished a succinct summary of the facts by letter together with specific recommendations as to further action. In all cases, of course, investigations must be based on indications that subject may be engaged in subversive activity, whether or not a specific statutory basis is cited.

In the event preliminary inquiries fail to establish a sound basis for investigation, the case should be promptly closed and there is no need to advise FBIHQ (unless FBIHQ has been previously advised of the inquiry). Nor is there any need to prepare an LHM or report where no pertinent subversive derogatory information has been developed.

If the statutory basis for an investigation should change or be expanded to include an additional statute or statutes, the first communication prepared subsequent to such change or expansion should specifically show such changes. Similarly, this information should be included in the next report or LHM prepared in the case.

2. Page 8, paragraph B 7 a., line 2, ...(See B 3. above)...

3. Page 10, paragraph C 2 a (1) (b), Date and place of birth, Where practicable, verify through appropriate Bureau of vital statistics or birth registrar.

4. Page 4, paragraph A 1 d., heading of this subparagraph should be changed as follows: The Internal Security Act of 1950 (Title 50, USC, Sections 781-798) and the Communist Control Act of 1954 (T50, USC, Sections 841-844).

5. Page 6, paragraph B 2, last sentence of this paragraph should be changed to read as follows: Within 90 days submit results by letter...

6. Page 11, paragraph C 2 c. (1), the first sentence should be changed to read as follows: Subjects of investigation should be interviewed unless there is a sound basis for not doing so.

7. Page 11, C 2 (3) (a), this subparagraph should be deleted in its entirety and subparagraphs (b) and (c) should be redesignated (a) and (b).

8. Page 15, paragraph C 3 k. (4), following sentence should be added immediately after first sentence: Reference any prior memoranda dealing with the subject's travel.

9. Page 17, paragraph D 2 c., following material should be added prior to the last sentence of this subparagraph: Also disseminate pertinent information concerning such individuals to the Chief Defense Industrial Security Clearance Office (DISCO), Defense Supply Agency, Columbus, Ohio 43215, Attention Chief Adjudication Division and advise interested military intelligence agency of such dissemination to DISCO. However, with regard to facilities having classified contracts with the Atomic Energy Commission (AEC), dissemination to AEC is made only at FBIHQ.

Proposed Changes in Manual of Instructions

10. Page 16, paragraph C 3, add the following subparagraph p.:

p. Destruction of Channeling Memoranda

At the option of appropriate field supervisors, in order to avoid the accumulation of channeling memoranda in a case file as well as to facilitate the subsequent preparation of letterhead memoranda or reports, the following procedure may be used. Files may be reopened for preparation of an "investigative insert" for later inclusion in an LHM or report, using T symbols identifying informants who have furnished prior information. Agents preparing this insert should also prepare a cover memorandum showing what serials in the file have been covered by his review and also identifying all symbol number informants involved and indicating the location of the original data (similar to documentation in the cover pages of a report). The channeling memoranda covered in the review can then be destroyed and the "investigative insert" along with its cover memorandum can, if necessary, be forwarded to another field division in the event the subject moves.

11. Page 23 paragraph K 12, redesignate subparagraph 13 and a new subparagraph 12 should be inserted as follows:

12. Reporting Procedures on ADEX subjects

(a) An initial summary report must be submitted at time subject is recommended for inclusion in ADEX.

(b) Additional reports should not be submitted solely for sake of reporting; however, in the event complexity of case or other reasons so dictate, the SAC or FBIHQ may instruct that reports be submitted.

(c) Current significant pertinent information and/or activities of subject should be reported on current basis as it occurs utilizing teletypes, nitels or airtels with letterhead memoranda suitable for dissemination.

Proposed Changes in Manual of Instructions

(d)In the absence of unusual circumstances (imprisonment, prolonged absence on foreign travel, etc.), ADEX cases should be kept pending and a communication submitted to FBIHQ at least every 90 days reporting on subject's activities. In the event subject has been inactive for 90 days, you should comment as to whether continuation on ADEX is warranted.

NOTE:

These changes have been justified in memorandum R. D. Cotter to Mr. E. S. Miller, 8/1/73, entitled, "Section 87, Manual of Instructions," RDC:nlb.

SECURITY INVESTIGATIONS OF INDIVIDUALS - General
(IS-2 SECTION)

Reurep 6/28/73, captioned "Socialist Workers Party - National; IS-C (TROTSKYIST)."

On page 8 of rerep, names were set out concerning individuals who had been elected to the Political Committee of the SWP as of May, 1973.

A check of those names through indices at FBIHQ indicated some were on the ADEX and some were currently under investigation by your office. With regard to the following named individuals, Bufiles reveal that your cases on these individuals were closed and in most instances, had recently been removed from the ADEX due to lack of leadership activity:

In view of the above election to the Political Committee, review your files concerning each of the above subjects and carefully evaluate the additional information showing leadership and furnish your evaluation under individual case captions concerning your reevaluation. Where you resolve that names should be included on the ADEX, submit an appropriate FD-122 in the respective cases furnishing your recommendation.

Dear [redacted]

Thank you for the suggestion that Form FD-122 be revised to include a particular category. After evaluation, it has been decided this action is not warranted in view of the limited application it would have with respect to this format at this time.

Although your idea was not adopted in this instance, I appreciate the interest which prompted you to submit it to me.

Sincerely yours,

NOTE: Suggests Form FD-122 (Recommendation for Preparation of, or Change in, ADEX Card) be amended to include the category American Indian (AIN) under the caption of "Type of Activity." Sample of proposed revision to form attached.

Intelligence Division opposes adoption noting American Indian is a racial description and is not descriptive of revolutionary activity. Any reason for placing an Indian on ADEX would fall within revolutionary or extremism

category. If a category of American Indian (AIN) is approved, the same argument could be made for Mexican-American extremism or Chinese extremism. As of end of June, 1973, of the 2,376 individuals on ADEX, only 25 are categorized as "Other" which category includes Indians, Chinese, and other racial groupings. In view of the limited application, it would not appear this suggestion warrants approval at this time. Due to these observations, Training Division recommends the idea not be adopted.

NOTE:

The item to be deleted required the field to prepare an administrative tickler on each Administrative Index (ADEX) subject at two-year intervals. Recent changes to the ADEX made this requirement obsolete. During the recent Intelligence Division Inspection, the Inspector recommended and the Intelligence Division concurred that this change be made.

PROPOSED MANUAL CHANGE
SECTION 87E
MANUAL OF INSTRUCTIONS

The Manual of Instructions, Section 87E, paragraph 2c, last two lines, page 19, should be changed to read as follows:

in the case of individuals who have gone into hiding or temporarily left the country. Following guidelines should be followed with respect to imprisoned subjects. If already on the ADEX and sentence is such that the earliest possible release date from actual incarceration is more than two years after sentencing, subject should be recommended for removal from ADEX. If possible, stop should be placed with facility where incarcerated so office will receive notification of release, after which subject should be considered for possible reactivation on ADEX. Whether or not a stop can be placed, necessary administrative procedure should be set up so that subject's continued incarceration is verified at least every six months. If case is not pending, it should be placed in a pending inactive rather than closed status. If a subject under investigation appears to qualify for ADEX but is under sentence for over two years as described above, do not recommend for ADEX but follow procedures described above to consider for ADEX upon release from imprisonment. Sentences which permit releases in less than two years should be ignored as a factor

in considering ADEX status. These guidelines are for application only as to ADEX status and have no bearing on whether or not subjects should be investigated. Recommending manual changes to clarify effect imprisonment should have on considerations relative to individuals being included in the ADEX.

Current instructions (Manual of Instructions, Section 87E, 2c, page 19) are not precise as to how imprisonment should affect a person's ADEX status. In order to effect a realistic approach to the problem and to achieve uniformity, we are proposing that a "two-year rule" be implemented to serve as a guideline as to whether or not an imprisoned subject, otherwise qualifying for the ADEX, should be included. Actual sentences received will not be the determining factor but rather we will use earliest possible release date as a determinant. The "two-year rule" will be consistent with our criteria for ADEX which requires a person's subversive or extremist activities to have been within the prior two years in order to qualify him as a "current threat" to national security.

Our manual revision stresses that the imprisonment factor is applicable only to a subject's ADEX status and has no bearing on whether or not a subject should be investigated.

SUBJECT: STATEMENT BY MR. KELLEY CLARIFYING FBI'S POSITION IN NEW LEFT AND OTHER INTERNAL SECURITY MATTERS

ADC

General Investigation of Individuals - 62-115768-1CH

Mr. Kelley has noted two recent editorials which have been critical of FBI policy with regard to the New Left. The first editorial captioned, "The New FBI," appeared in "The Dallas Morning News," Dallas, Texas, on 12-22-73 and quoted Mr. Kelley as stating that the FBI will "never again" infiltrate New Left activities unless Congress allows it to do so by law. The editorial generally indicated that the "new FBI" is not closely pursuing its responsibilities in the internal security field. Mr. Kelley noted on this editorial, "This editorial does not properly project our thinking."

SAC J. Gordon Shanklin, Dallas Division, has advised that he contacted [redacted] of "The Dallas Morning News," and determined that the editorial in question was written by [redacted] indicated there was no intention of being critical of the FBI. He acknowledged the incompleteness of the editorial and indicated that he would handle the matter appropriately.

The second editorial, captioned "To Destroy Is To Save," appeared in the "Nashville Tennessean," Nashville, Tennessee, on 12-18-73. This editorial claims that the FBI investigated New Left activities by utilizing unconstitutional and illegal means. On 12-20-73, SAC Theodore L. Gunderson, Memphis Division, contacted [redacted] of the "Nashville Tennessean," pointed out the inaccuracies in the editorial, and learned that the editorial was written by a "young reporter." At the conclusion of the interview, [redacted] indicated full support of the FBI and its investigations of violence-prone individuals and organizations.

RESEARCH SECTION

Mr. Heim to Mr. Franck Memorandum
RE: STATEMENT BY MR. KELLEY CLARIFYING, FBI'S POSITION IN NEW LEFT AND OTHER INTERNAL SECURITY MATTERS

Upon reviewing Memphis letter to the Bureau dated 12-21-73, captioned "Editorial 'To Destroy Is To Save,' Nashville, Tennessean, 12-18-73," which letter set out the editorial and SAC Gunderson's rebuttal thereto, Mr. Kelley made the following remarks:

"I believe SAC Gunderson did a good job in this instance. In matters such as cointelpro however I believe we should anticipate possible adverse criticism and set out policy insofar as responses SACs might make to them. Some critical editorials were not answered for example. Draw up a memo to outline our policy in such events so the field can be kept informed."

Pursuant to Mr. Kelley's request of you (Mr. Franck), attached is a draft statement which clarifies FBI policy concerning investigations of New Left and other internal security matters.

The External Affairs Division has coordinated the preparation of this statement with the Intelligence Division and the Office of Legal Counsel.

The attached statement was prepared to supplement Bureau-Wide Information Program 73-2, issued 12/7/73, pertaining to counterintelligence programs previously directed against the New Left. The statement serves the purpose of assuring that the FBI will fully discharge its responsibilities in the internal security field and is designed to counter any criticism that we employ illegal or unethical tactics.

RECOMMENDATIONS:

(1) That Mr. Kelley approve this statement for transmittal to each SAC under the Bureau-Wide Information Program and for use in responding to public and news media inquiries in this area.

RECOMMENDATIONS CONTINUED - OVER

(2) That this memorandum be returned to the Research Section, External Affairs Division, for appropriate handling.

STATEMENT OF MR. CLARENCE M. KELLEY CLARIFYING FBI POLICY IN INVESTIGATIONS OF NEW LEFT AND OTHER INTERNAL SECURITY MATTERS

In early December, 1973, the FBI, as the result of a suit filed under the Freedom of Information Act, released certain documents relating primarily to an FBI counter-intelligence program directed against a hard-core revolutionary movement known as the New Left. During the late 1960's, this group preached Marxist-Leninist revolutionary doctrine and was involved in numerous violent incidents which led to killings and extensive property damage across the Nation. The FBI program was an effort to reduce the threat to the country's security. I believe the program was successful in reducing the crisis facing the Nation at that time. It has now been discontinued.

Because of the release of the documents, many questions and some misconceptions have arisen as to the Bureau's present policy relative to the New Left and in the security field in general. For that reason I should like to restate our position in these matters.

Our responsibilities in the internal security field remain basically identical today with what they were yesterday.

~~ENCLOSURE~~

The FBI has responsibility for investigations of matters involving the internal security of the United States and we will continue to vigorously and effectively pursue this responsibility. Where lawlessness or violence is indicated, we will respond appropriately, under the law, to fully discharge our duty to this country. No group will be permitted to bring the Government to its knees through force or violence. The discontinuance of the special counterintelligence program does not mean that we are no longer investigating the New Left or other fields of internal security. The FBI has not withdrawn from its responsibility under the law of investigating allegations of criminal violations and gathering intelligence regarding threats to the security of the Nation.

Moreover, our investigations are strictly based on law and in no way are dependent upon politics, minority standing, unpopular causes, or any criteria other than that I have described. Our investigations are conducted under legal and ethical standards. We, for example, utilize informants to develop information concerning those in violation of law. We do not use illegal tactics or employ agents provocateurs designed to agitate or inflame a situation.

I want every American to know that this Bureau will not fight lawlessness with lawlessness. We do not

breach rights under the guise of protecting them. I can assure you that we make every effort humanly possible to protect all rights of all citizens. I feel that an unbiased observer will conclude that our approach to our duties is acceptable to, respected and even demanded by the vast majority of the American public.

SUBJECT: UTILIZATION OF FD-302 TO RECORD SECURITY-TYPE INTERVIEWS

GENERAL

SECURITY INVESTIGATION OF INDIVIDUALS

During the recent Inspection of the Intelligence Division (INTD) a suggestion memorandum under this caption was submitted suggesting a memorandum to all Special Agents in Charge (SACs) be prepared to remind Agents of the necessity for recording interviews of security-type subjects on an FD-302. After citing the general rule for recording on FD-302 information that may become testimony (Manual of Rules and Regulations, Part II, Section 4C, Page 4a) the suggestion memorandum referred to the Manual citation concerning Investigation of Subversive Organizations and Individuals (Section 87C, c. (8) (a), Page 12) that instructs in connection with interviews of subjects, "Record results of interview on FD-302." The basis for the suggestion was that during a review of INTD files it was noted that only a small portion of interviews with subjects was being reported on an FD-302 form.

Your attention is directed to Manual of Instructions, Section 87C, c. (8) (b), Page 12, which provides that only pertinent results (emphasis added) of an interview with subversive subjects need be included in the next report or letterhead memorandum (LHM). A thorough review and analysis of this matter reveals that the latter instruction is interpreted by both the field and the INTD as follows: In reporting in form suitable for dissemination the results of an interview with a subject the entire interview as set out on the FD-302 need not be included and only pertinent parts thereof germane to the subversive investigation need be reported. The FD-302 containing the results of the entire interview is maintained in the field office file. The field, however, can include the FD-302, if it so desires, showing the entire interview rather than an abbreviation thereof. In the event a prosecutive summary report is prepared, the FD-302 is, of course, included.

ADDENDUM OF THE INSPECTION DIVISION PAGE THREE

Consequently, a review of field reports and LHMs in Bureau files would naturally find only a small number of FD-302s in the file recording an interview with a subject. Inasmuch as the field is currently following existing Manual instructions, which we feel do not merit change, we have concluded that no memorandum to all SACs is warranted in this matter.

ACTION:

For information.

TJS/RLS

ADDENDUM OF THE INSPECTION DIVISION J.M. POWERS:gms 2/4/74

The original thrust of this suggestion was that a reminder, in the form of an SAC Memorandum, regarding preparation of FD-302s by the field in connection with interviews of subversive subjects, might be beneficial. Although aware that the field has the discretion of reporting only pertinent parts of interviews with subversive subjects (with some exceptions), rather than the entire FD-302, Inspection Division felt that the paucity of interviews on FD-302s detected in Intelligence Division (INTD) files, based on statistical considerations, gave rise to a concern that necessary FD-302s were not being prepared by the field and warranted such reminder to insure continuing compliance with existing instructions. In its initial addendum to the suggestion dated 11/6/73 INTD felt it merited adoption and no objection was noted.

INTD now states that the field is following existing Manual instructions in this area and concludes that no SAC Memorandum is warranted. The conclusion drawn by INTD appears warranted on the assurance given. Inspection Division, during field inspections, will insure that this is being done.

(B) INVESTIGATIONS OF SUBVERSIVE INDIVIDUALS - REPORTING PROCEDURES -- During recent months, FBIHQ has observed an increasing tendency on the part of some offices to include extraneous information and needless detail in reports, letterhead memoranda, and other communications submitted in cases covered by Section 87 of the Manual of Instructions. Our investigative reports should clearly identify the subject and set forth whatever information concerning subject's education, employment, military service, associates, etc., provides an insight into the nature and extent of subversive activities involved. However, these investigations should be focused entirely on the subject's subversive activities and are not concerned with subject's personal affairs, social activities, or other background factors which are not relevant to the subject's subversive activities or affiliates. Security Investigation of Individuals

You are reminded of the provisions of GENERAL Section 87 of the Manual of Instructions, Paragraph C. 3., "Reporting Procedures," to the effect that all communications in these cases should be limited to information regarding subject's subversive activities, sympathies, and affiliations; pertinent background data concerning subversive individuals or groups with which subject is connected; and essential background data regarding subject.

This matter should be thoroughly discussed with all Agent personnel handling subversive matters and any questions should be promptly brought to the attention of FBIHQ.

TO : MR. JENKINS

DATE: 4 11/74

FROM : W. G. CAMPBELL

SUBJECT: ABC NETWORK TV TAPING WITH DIRECTOR
MARCH 19, 1974

ADEX General

At about 4:30 p.m., 4/10/74, the Director instructed me to call [redacted] ABC, New York, and handle the questions set forth in [redacted] letter to [redacted] dated 4/8/74, copy attached.

I reached [redacted] by telephone about 5:30 p.m., 4/10/74, explaining that [redacted] was out of town and volunteered to assist with the questions presented in his letter.

The first item involved the claim by Congressman Barry Goldwater, Jr., concerning information allegedly obtained during a tour of the FBI Office in Los Angeles based on an inquiry made through a computer terminal device there. I told [redacted] we had pursued this story and determined the inquiry involved was one using Mr. Goldwater's aide's drivers license number only, for an inquiry of the State of California data bank. Such an inquiry produces drivers license information that includes only name, address, effective date of drivers license, birth data, sex, height, weight, color of hair and eyes, and social security account number. That data bank does not include employment, military record, wife's name, or the fact the aide had [redacted] I told him we cannot explain the story other than to suggest that the Congressman may be mistaken in his recollection as to some of the items of information received. It was explained again to [redacted] that this is not an NCIC data bank and that such information is not contained in NCIC either.

We next discussed the "Security Index" cabinet label. I told [redacted] that the Security Index was a part of the Emergency Detention Program and was discontinued in 1971 with the repeal of the Security Act of 1950 since that Act had been the authority for the Program.

Memorandum for Mr. Jenkins
Re: ABC NETWORK TV TAPING WITH DIRECTOR

I said that in all candor this discontinuance occurred before Mr. Kelley came back to the FBI as its Director and that in Mr. Kelley's response to the question he had frankly misinterpreted the phrase. From the wording of his letter to [redacted] it appeared that [redacted] had somehow connected the Security Index with NCIC operations. I asked him if this were in fact the case and he said yes he had because the cabinet label in question was in the NCIC Room. I explained to him that he was actually in the Data Processing Section Computer Room of the FBI and that this Computer Room contains computer support for all FBI computer applications, including the NCIC, and that there had been no connection between the discontinuance of the Security Index Program and NCIC. We then got into a discussion of signs on the door and I assured [redacted] that the sign on the door says "Computer Room" and the only NCIC label is on the log tape cabinet and he might be confusing the sign he saw in the NCIC Control Room on the third floor in the same building. [redacted] was somewhat noncommittal as to his acceptance of this explanation. We left it that he wished to review the script wherein Mr. Kelley's answer was made and that he would phone me again on the morning of 4/11/74 with any additional questions he might have. As of 4:00 p.m. he had not called and presumably he has no additional questions on this item.

The next item concerned the Lenexa incident wherein the question arose as to whether that Police Department had been reprimanded or a threat made to take away its computer terminal privilege on its Kansas City ALERT system. On this point, [redacted] was advised that Mr. Kelley's response at the taping session to this question was based on a recollection derived by him from a memorandum submitted by Assistant Chief James Newman to Mr. Kelley which stated that a letter would be written to the offending Chief setting out the Board policy as it relates to release of information and requesting that such information not be released in the future.

Our discussion then went to some statistical confirmations that [redacted] desired. I corrected his 500,000 Computerized Criminal History (CCH) figure to 450,000 and confirmed that there were 21,000,000 individuals represented in the manual criminal fingerprint files of the FBI. His proposed script also indicated that by 1984 there will be 8,000,000 CCH files in the computer and I suggested that based on the rate of development in the first three years of its existence, a 5,000,000 figure is probably more realistic. He then quoted the figure

CONTINUED - OVER

also by 1984 there will be 40,000 law enforcement agencies accessing CCH files. I told him I had seen this figure quoted repeatedly by the news media but I frankly know nothing to support such a total. There are, for example, 11,000 fingerprint contributors and 15,000 full-time law enforcement agencies, i.e., ones which provide 24-hour, 7-day per week service. I told him that I had no reason to believe that within the next ten years an increase to 40,000 agencies would be reasonably expected.

[redacted] attitude was generally cordial and he seemed to appreciate the help rendered; however, just what treatment we will receive in the final presentation is still unpredictable. b6 b7C

PROPOSED CHANGE IN FBI HANDBOOK

Preface, Page i, paragraph three, should be revised as follows:

SECURITY INVESTIGATIONS

In matters affecting the security of the United States, under no circumstances is an investigation conducted of any individual on the basis that such individual supports unpopular causes or opposes Government policies. All investigations of subversive or extremist activities are directed to the collection of information pertinent to a determination as to whether or not the subject has violated, or is engaged in activities which may result in a violation of, one of several specifically enumerated Federal statutes; or are in fulfillment of instructions from the Department of Justice. All communications regarding these cases must be limited to information regarding the subject's subversive activities, sympathies and affiliations; pertinent background data covering subversive individuals or groups with which subject is connected; and essential background data regarding the subject. No electronic surveillance may be instituted without the specific authority of the Attorney General. Prior FBIHQ approval is required to institute an investigation of a faculty member or an organization connected with an institution of learning or to interview a student or faculty member other than established sources. Investigations of foreign diplomatic or official personnel are not instituted without specific approval by FBIHQ and clearance from the Department of State. No investigations are conducted of active or retired members of the U. S. military forces under terms of a delimitations agreement entered into between the FBI and the counterintelligence services of the armed forces.

NOTE: This change is made to bring Handbook in line with revisions already approved for Manual of Instructions.

SECURITY INVESTIGATIONS OF INDIVIDUALS - General

ReNYairtel and LHM 3/22/74 captioned "Progressive Labor Party; IS - PLP."

Page 1 of referenced memorandum identifies [redacted] from Boston, and an [redacted] from Philadelphia, as being in attendance at a meeting held in Boston 3/9/74 for the purpose of building the Workers Action Movement (WAM) and to reorganize what was left of the Progressive Labor Party (PLP) in the Boston area. FBIHQ indices fail to indicate that [redacted] have been the subjects of a security-type investigation. These indices contain no references identifiable with [redacted] but the following references may or may not be identical to the [redacted] mentioned in referenced memorandum.

Boston airtel and LHM dated 8/19/71, captioned "Peoples Coalition for Peace and Justice; IS - New Left," indicates that on 8/6/71 a number of individuals were arrested by the Lexington, Massachusetts, Police Department as a result of a demonstration at the gates leading to an Air Force base in Bedford, Massachusetts. One of those arrested was identified as [redacted] resident of [redacted] Cambridge, Massachusetts.

Newark report of SA [redacted] captioned [redacted] SM - SDS," dated 2/11/72 (Newark file 100-52299), no copy furnished Boston, advises that [redacted] Fort Dix, New Jersey (protect), made available information that [redacted] a PLP member, appeared as a character witness at court-martial of [redacted] who was described as an activist from Harvard University and who had been inducted into the U.S. Army.

Letter to Boston and Philadelphia
RE: Security Investigations of Individuals

New York report of SA John W. Robinson dated 1/28/74, captioned "Progressive Labor Party; IS - PLP," on page 3, sets forth information that [redacted] on 7/15/73 identified [redacted] from Boston, as being in attendance at the PLP National Convention held in New York City 7/13-15/73. b6 b7C b7D

If not already done, recipients should immediately initiate investigation to fully identify above-named individuals who attended the 3/9/74 meeting mentioned above. Purpose of these investigations is to determine the extent of their association with organizations of investigative interest to this Bureau and to ascertain if their activities could be in violations of Federal statutes. Results should be furnished FBIHQ under appropriate caption, accompanied by recommendations as to additional action to be taken in each instance.

NOTE:

PLP was founded in 1962 by individuals expelled from the CPUSA for following the Chinese communist line. Its objective is the establishment of a militant working class movement based on Marxist-Leninist and Mao Tse-tung thought. WAM is a front group of the PLP.

Dear [redacted]

The suggestion submitted by you has been received that a form which you designed be approved for use in lieu of a letterhead memorandum or report when closing certain investigations. After consideration, it has been decided our present system is preferred since in the vast majority of such cases more facts are needed than those called for on the proposed format.

I appreciate the interest and thoughtfulness you displayed in submitting your idea to me.

SUGGESTION

Implementation of attached form in investigations of individuals alleged to be supporters, members and/or active in regard to organizations investigated by the Field (100 and 105 classifications), cases which are opened and closed in the field with no FBIHQ notification except by closing communication.

Form is to be used in lieu of LHM or report in closing the investigation.

"Security Investigations of Individuals - General"

See page 2

Current practice or rule (Include manual citation as well as facts) M of I 87 pg. 13

LHM or report is to be submitted when setting out results of extended inquiries such as summary of subject's activities. See p

Advantages of suggestion and annual savings (include basis for estimate) Results in an Annual Savings estimated at $48,128.96

1. Reduces amount of file storage space necessary at FBI Hq.

2. Eliminates duplication of "paper" in individual case file in the field (presently background in file -reset out in LHM or report sent to FBI Hq.

Recommendations and comments of Division Head I recommend this suggestion not be adopted. While this procedure could be used in a limited number of cases, the vast majority of investigations in the 100 and 105 classifications necessitate that more facts than those set out on the proposed form be furnished to FBIHQ and the LHM is the best vehicle for this for a number of reasons.

Two copies of the form is sent to FBI Hq by OO and one in the field. A control sub-file to the main organizational file should be established in which the form would be maintained.

At FBI Hq information on form would be indexed and form maintained in similar control sub-file.

The form would be sent to FBI Hq once a month (must be sent by the 5th of the following month) listing all individual cases investigated and closed by the field. The form being sent under caption of organization.

In practice OO submits closing LHM or report after all investigation has been completed and no further investigation contemplated.

When received by FBI Hq, a Bufile is opened. Appropriate information is indexed and case is closed. File then sent to closed file storage.

3. Supervisor, Agent, Stenographic, Typist and clerical time saved and can be better used in other areas.

4. In the event FBI Hq or field desire a full scale investigation and/or reinterview of all members and alleged members of organizations under investigation, the form allows for instant retrieval of names and field file numbers of all individuals investigated and closed by the field.

Basis of estimation of yearly savings:

Typist time used in typing LHM or report (grade 3-2 used as average salary)	1500 hrs.	4,800.00
Clerk time - both FBI Hq and field used in mailing receiving and filing LHM or report (grade 3-2 used as average salary)	3000 hrs.	9,600.00
Supervisor time used in reading and handling LHM and report (FBI Hq and field)	1500 hrs.	18,630.00
Reduction in FBI Hq files cabinets needed (@ $60 a cabinet)	5 cabinets	300.00
Space saving (3 sq. feet @ $3.00 a sq. foot)	15 sq. ft.	45.00

SUGGESTED FORM

TO: DIRECTOR, FBI
FROM: SAC,

SUBJECT: (name of organization)

The following individuals who have been fully identified were investigated for alleged membership, support, and/or activity in regard to captioned organization.

These subjects do not possess the potential or attitude for development as a source. Their activity with and in behalf of captioned organization has not been such that would warrant a recommendation for inclusion on the ADEX.

No further investiagtion re these individuals is contemplated. In the event further information is developed indicating activity on their part, this matter will be reopened and recommendations made as to what if any, investigation should be conducted.

SUBJECT: SECURITY INVESTIGATIONS
SUGGESTION 761-74 SUBMITTED BY
SA [redacted] NEW YORK OFFICE

SUGGESTION: Proposes the attached form be used in investigations of individuals alleged to be supporters, members and/or active in regard to organizations investigated by the field (100 and 105 classifications), cases which are opened and closed in the field with no FBIHQ notification except by closing communication. Form is to be used in lieu of LHM or report in closing the investigation. Two copies of the form are sent to FBIHQ by the office of origin (OO) and one in the field. A control subfile to the main organizational file should be established in which the form would be maintained. At FBIHQ information on the form would be indexed and form maintained in similar control subfile. The form would be sent to FBIHQ once a month (must be sent by the fifth of the following month) listing all individual cases investigated and closed by the field. The form being sent under caption of organization.

CURRENT PRACTICE: Suggester states an LHM or report is to be submitted when setting out results of extended inquiries such as summary of subject's activities. In practice, the OO submits closing LHM or report after all investigation has been completed and no further investigation contemplated. When received by FBIHQ, a Bureau file is opened. Appropriate information is indexed and case is closed. File is then sent to closed file storage.

ADVANTAGES: SA [redacted] states this procedure would result in an annual savings estimated at $48,128.96. He goes into great detail showing how he computes this savings. The procedure would reduce the amount of file storage space necessary at FBIHQ; eliminate duplication of "paper" in individual case file in the field (presently background in file - reset out in LHM or report sent to FBIHQ); supervisor, Agent, stenographer, typist, and clerical time would be saved which could be used in other areas; and in the event FBIHQ or field desire a full scale investigation and/or reinterview of all members and alleged members of organizations under investigation, the form allows for instant retrieval of names and field file numbers of all individuals investigated and closed by the field.

Memorandum J. D. Jamieson to Mr. Jenkins
Re: Security Investigations
Suggestion 761-74 Submitted By
SA [redacted] New York Office

b6
b7C

OBSERVATIONS: SAC Baker, New York, recommended the idea not be adopted. While this procedure could be used in a limited number of cases, the vast majority of investigations in the 100 and 105 classifications necessitate that more facts than those set out on the proposed form be furnished to FBIHQ and the LHM is the best vehicle for this purpose for a number of reasons.

Intelligence Division concurred with above views adding that the information on the proposed form is insufficient for any practical purpose. More facts than those suggested on the form should be reported in these types of investigations. In addition, it should be noted a synopsized reporting procedure is under consideration at this time and when implemented will more adequately fulfill need of streamlining reporting procedures.

Files and Communications Division stated the use of such a form would not affect its operations; however, it appeared the main point is whether the proposed form would contain sufficient information to satisfy the needs of the Intelligence Division. The information called for on the form is so minimal that the question arises if the information furnished would be of much practical assistance to FBIHQ. The suggester states when a case under one of the previously noted classifications is received at FBIHQ, a Bureau file is opened, appropriate information is indexed, the case is closed and the file is subsequently sent to "closed file storage." This is partially incorrect since the suggester is under the impression that FBIHQ files are maintained in the same manner as field office files, i.e., investigative files are pending or closed and maintained separately. FBIHQ does not make such a separation of the files.

Training Division agrees and notes that it would appear that should dissemination of information set forth in the proposed form be necessary, it would require extracting that information from the form and setting forth in LHM form for proper dissemination which would result in duplication of effort.

RECOMMENDATION: That the suggestion not be adopted and the attached letter be forwarded to the suggester advising him of this fact.

To recommend Form FD-305 (last cover page for ADEX report) be revised to more fully comply with current classification requirements prior to the restocking of such form.

Training Division advised it is about to restock supply of FD-305.

Recent changes have extended classification to intra-Bureau communications. As a result, a determination must be made by the dictating Agent as to whether the details of a report, beginning with FD-204, and the cover pages of the report, beginning with FD-263, should be classified. It is possible that either or both could be classified.

To assist the field in complying with this recent change in classification, it is recommended that Item Number 6 on the FD-305 be changed to read:

"Reason for classification where exemption category does not provide a self-evident basis.

SECURITY INVESTIGATIONS
INDIVIDUALS AND ORGANIZATIONS - DOMESTIC MATTERS

Reurlet 6/3/74.

Suggestions submitted by you in referenced communication appear to have merit but, obviously, numerous problems of both an investigative and administrative nature would first have to be resolved prior to suggestions being implemented. For this reason, your suggestions are being afforded a detailed study at FBIHQ and you will be appropriately advised of the results.

The Bureau appreciates the interest and thought exercised by you concerning instant matter and welcomes additional recommendations which you believe will improve Bureau operations in the security field.

NOTE:

NK, in referenced letter, recommended a change in this Bureau's approach to investigations of individuals and organizations by placing increased emphasis on the investigation of organizations. Specifically, NK suggested that this be accomplished by limiting investigations of rank and file members to a preliminary inquiry and also suggested that such preliminary inquiries be handled out of the organizational file rather than individual case files. Implementation of this suggestion would involve considerable change in present investigative and administrative procedures and would encompass work handled by several sections at FBIHQ. A detailed analysis of all ramifications would be prudent prior to any decisive action being taken upon these suggestions.

Security Investigations of Individuals - Gen. Supervision - Subversive Matter

SA [redacted] suggests the adoption of a form to be utilized involving individuals alleged to be supporter, members, and/or active in organizations investigated by the field in the 100 and 105 classifications. This form will be utilized in lieu of a letterhead memorandum or report to close the investigation. Comments of the Files and Communications Division were requested.

Files and Communications Division has no objection to the above suggestion and its implementation would in no way interfere with the operation of this Division. However, it appears that the crucial point in this suggestion is whether the proposed form would contain sufficient information to satisfy the needs of the Intelligence Division and in that regard the Intelligence Division would be in a better position to resolve this matter. But the Files and Communications Division does note that the information contained on the proposed form is so minimal that the question arises if the information furnished would be of much practical assistance to FBIHQ.

The suggester also states that when a case under one of the previously noted classifications is received at FBIHQ, a Bureau file is opened, appropriate information is indexed, the case is closed and the file is subsequently sent to "closed file storage." This is partially incorrect since the suggester is under the assumption that FBIHQ files are maintained in the same manner as field office files, i.e., investigative files are pending or closed and maintained separately. FBIHQ does not make such a separation of the files.

TO : DIRECTOR, FBI
Attention: Intelligence Division

DATE: 6/3/74

FROM : SAC, NEWARK

SUBJECT: SECURITY INVESTIGATIONS
OF INDIVIDUALS AND ORGANIZATIONS - DOMESTIC MATTERS

An analysis has been made of our investigations involving organizations and individuals in the category domestic matters and it is felt consideration should be given at this time to our approach and the type of investigations that should be conducted. This letter, accordingly, is being submitted as a suggestion for whatever consideration the Bureau deems appropriate.

Our domestic intelligence investigations could possibly be streamlined substantially through certain changes in policy in investigating rank and file members of subversive organizations. Specifically there would be eliminated full field investigations of individuals except in unusual circumstances. Current regulations require that in many organization cases a preliminary inquiry be conducted upon receipt of information that an individual is a leader or a member of a subversive organization. If this inquiry, through a check of office indices and established sources, determines positive information, a complete investigation is demanded. It is recommended that these complete investigations of individuals be limited to the preliminary inquiry only and handled in the organization file. It is recommended that a complete investigation of officers of any organization be continued.

The change in approach involved here is increased emphasis on organization and deemphasis on individual. A key to such an approach, of course, is the development and utilization of productive informants. The organization concept would provide vast intelligence data pertaining to activities as well as individuals who are a part of the organization.

In considering the applicable statutes it should be noted that Title 18, U. S. Code, Section 2385 (Advocating Overthrow of the Government); 2383 (Rebellion or Insurrection); 2384 (Seditious Conspiracy); and Title 50, US Code, Section 781 (Internal Security Act of 1950 and the Communist Control Act of 1950) are the primary basis for our investigations of this type. It is observed that there have not been any prosecutions of an individual member in connection with these statutes for over twenty years. The Bureau's responsibility in collecting intelligence data to protect the security of the United States, which responsibility arises in part from these statutes, can be accomplished thoroughly with the organizational concept. The change recommended would affect considerable streamlining, resulting in reduced caseloads and make available special agent personnel for assignment to other investigative matters such as counterintelligence investigations.

In making this suggestion full consideration has been given to the Bureau's responsibilities as an intelligence gathering agency of domestic security threats. It is sincerely believed that with the appropriate application of effort the organizational concept will fulfill completely the responsibilities and in many instances be more effective than disjointed, individual investigative efforts. In those instances where an individual would be thoroughly investigated our efforts should be directed toward a criminal statute which can be applied effectively. It will be noted that in many instances the organizations, such as the Black Liberation Army, have been made ineffective by utilization of criminal statutes and individual investigations from an intelligence standpoint have, accordingly, not been the effective weapon.

DIRECTOR, FBI 7/31/74

SAC, BOSTON (100-46339)(P)

[redacted]

SM-SWP

Re Boston letter dated 5/30/74 captioned [redacted] SM-SWP;" Boston report of SA ARTHUR V. SULLIVAN, JR. dated 4/9/74 entitled "YOUNG SOCIALIST ALLIANCE OF BOSTON, IS-SWP" which named a [redacted] as a member of the South Boston local of the Young Socialist Alliance of Boston (YSA-B); Bureau letter dated 7/15/74 captioned "SECURITY INVESTIGATIONS OF INDIVIDUALS (IS-2SECTION)".

This investigation is based on information which indicates that captioned subject is engaged in activities which could involve a violation of Title 18, USC, 2383 (Rebellion or Insurrection), 2384 (Seditious Conspiracy), 2385 (Advocating Overthrow of the Government); or Title 50, USC, 781-798 (Internal Security Act of 1950).

On 2/11/74, [redacted] identified subject as a member of the YSA-B, South Boston local.

The YSA-B is the local affiliate and follows the aims and purposes of the national YSA which is the youth arm of the SWP.

The SWP, headquartered in New York City, is a revolutionary, Trotskyist-communist organization which has as its purpose the overthrow of the U.S. Government, the institution of a dictatorship of the working class and the eventual achievement of a communist society. SWP was founded in the U.S. in 1938 as the American section of the worldwide Trotskyist revolutionary organization named the Fourth International (FI), which is headquartered in Europe. In 1940, SWP withdrew its formal affiliation with the FI to

escape application of the Voorhis Act, which regulates certain types of organizations subject to foreign control. From 1940 to the present time, however, SWP has continued a close association with the FI and participates and votes as a "sympathizing group" in FI meetings.

While the SWP does not openly advocate the use of violence at the present time to overthrow the U.S. Government, the SWP believes that eventual violent revolution in the U.S. is inevitable. SWP seeks to precipitate revolution when conditions are ripe and to direct and seize control of the revolution when it occurs.

Importantly, the FI at its World Congress in Europe in 1974 took a position favoring the current use of guerrilla warfare and armed struggle to achieve revolution in South America and elsewhere if local conditions indicate that such violence would enhance revolution. A majority of the SWP delegation to the FI opposed the current use of violence only on the ground that it is premature whereas a minority of the SWP delegation favored the FI endorsement of violence.

Investigation at Boston, to date, has determined that the subject and [redacted] continue to be active members of the YSA-B and also of the SWP, Boston, and investigation is continuing to develop additional background information concerning both. In this regard, leads are currently outstanding within the Denver Division, set out in Philadelphia letter dated 6/21/74 entitled [redacted] SM-SWP" (IO)(BUfile 100-454683) and following receipt of the requested information from Denver, Boston will submit an appropriate disseminable communication.

Purpose is to obtain approval to send airtel to all offices requesting opinion and comments of each Special Agent in Charge (SAC) as to whether current policy of conducting limited preliminary inquiries on all male Nation of Islam (NOI) members, which has been in effect since April, 1972, due to increased violence involving NOI members, should be continued; and to have the Chicago Division determine if a directory of NOI members exists at the NOI national office which Chicago sources can obtain regular access to.

The NOI is a nationwide black separatist group headquartered at Chicago, Illinois, with about 10,000 total members in 150 United States, and 3 foreign mosques.

Prior to 4/24/72, our policy for investigating NOI members was limited to functionaries, leaders, and those known or suspected of participating in violent acts. Due to increased violence involving NOI members, our policy was extended on 4/24/72, to include limited preliminary inquiries on all male members. FBIHQ is advised on cover pages of field NOI organizational reports of names and identifying data on all members identified through these inquiries, for indexing at FBIHQ.

25-330971-

Recent FBIHQ reevaluation of this policy reveals some factors in favor of continuing it include: (1) Acts of violence involving NOI members continue to occur frequently. (2) Having male NOI members included in FBIHQ and field indices is of assistance regarding outside agency name checks and applicant matters; and in recognizing possible NOI association when an

individual is arrested on criminal charges or interview is contemplated. (3) Some subjects of preliminary inquiries have, as a result of same, been developed as informants.

Some factors against continuing current policy include: (1) Considerable manpower is expended in conducting these inquiries which number about 1,000 per year field-wide. (2) The vast majority of subjects of these inquiries are determined not to possess a strong propensity for violence, nor to fit into other categories requiring active investigation. (3) Informants developed through these inquiries are usually rank-and-file NOI members not in positions with direct access to information on policy and possible plans for violence.

Our NOI investigation strongly indicates that a directory of all NOI members probably including, at a minimum, each member's true name, NOI "X" name and mosque of assignment, is maintained by NOI headquarters at Chicago, Illinois. If Chicago sources could verify existence of such a directory and obtain lists of NOI members from same on a regular basis, this factor could also have a bearing on our decision regarding continuing or discontinuing our policy of conducting preliminary inquiries on all male members.

In view of the above comments and considerations, there are indications that these inquiries could possibly be discontinued in the future without seriously affecting overall intelligence aspects of our NOI investigation. Before a final decision is reached, however, it appears appropriate to survey all SACs for their opinions in this regard, and to have Chicago determine if a directory of NOI members exists which their sources can obtain regular access to.

ACTION:

Attached airtel be approved for sending to all offices in line with the above.

EXTREMIST MATTER
BUDED: 9/27/74

ReBUairtel to Albany 4/24/72, captioned "Security Investigations of Individuals, Extremist Matters - Nation of Islam."

GENERAL

Referenced communication set forth the current policy requiring limited preliminary inquiries be conducted on all male Nation of Islam (NOI) members. Prior to this policy, investigation of NOI members was limited to functionaries, leaders, and those known or suspected of participating in violent acts. Our current policy was prompted by increased violence throughout the United States involving NOI members.

Recent FBIHQ reevaluation of this policy reveals some factors in favor of continuing it include: (1) Acts of violence involving NOI members continue to occur frequently. (2) Having male NOI members included in FBIHQ and field indices is of assistance regarding outside agency name checks and applicant matters; and in recognizing possible NOI association when an individual is arrested on criminal charges or interview is contemplated. (3) Some subjects of preliminary inquiries have, as a result of same, been developed as informants.

Some factors against continuing current policy include: (1) Considerable manpower is expended in conducting these inquiries which number about 1,000 per year field-wide. (2) The vast majority of subjects of these inquiries are determined not to possess a strong propensity for violence, nor to fit into other categories requiring active investigation. (3) Informants developed through these inquiries are usually rank-and-file NOI members not in positions with direct access to information on policy and possible plans for violence.

Before a final FBIHQ decision is made as to whether to continue or discontinue our current policy as pertains to conducting these inquiries, the opinion and comments of each SAC are solicited in this regard. Responses should be forwarded to reach FBIHQ by 9/27/74 and copies should be forwarded to the Chicago Division, office of origin, regarding the NOI.

It is noted that our NOI investigation strongly indicates that a directory of all NOI members probably including, at a minimum, member's true name, NOI "X" name and mosque of assignment, is maintained by NOI headquarters at Chicago, Illinois. If Chicago sources can verify existence of such a directory and obtain regular access to same, this factor could also have a bearing on our decision regarding continuing or discontinuing our current preliminary inquiry policy. Accordingly, Chicago should target sources to verify directory's existence and, if verified, to obtain, through sources, regular access to same. Chicago, in addition to rendering opinion and comments as to continuance of current preliminary inquiry policy, should also, by 9/27/74, advise of results of efforts regarding above-mentioned directory.

SUBJECT: SUBVERSIVE AND EXTREMIST INVESTIGATIONS OF INDIVIDUALS - STREAMLINED REPORTING

Reference memoranda 6/28/74 and 7/10/74 (attached) proposing institution of six-month trial of summary reporting system with regard to many of our subversive and extremist investigations. This streamlining system, which has been approved in principle by the Director, would greatly streamline the information being reported to FBIHQ and being disseminated to other agencies with regard to rank-and-file extremist and subversive subjects who are not of special interest. Field would not be required to itemize background and subversive or extremist data concerning such subjects but would summarize essential background information and prepare a concise summary of meaningful subversive/extremist activities.

During six-month trial, this system will be applied to all subversive and extremist cases (governed by Sections 87 and 122 of Manual of Instructions) with following exceptions: (1) Adex subjects; (2) Individuals who have in past year personally and directly engaged in subversive/extremist activities involving violence; (3) Individuals who in past year have been actively and directly connected with hostile foreign elements; (4) Cases involving likely prosecution; and (5) In other special cases where detailed reporting is deemed desirable by FBIHQ or Special Agent in Charge.

REC-16 100-358086-1030

These exceptions have been slightly modified since our 6/28/74 memorandum which set out the details of this program. In particular, a category relating to "top leaders of major subversive or extremist groups" was deleted. It is felt this was too vaguely worded and that persons falling within such a category would already be covered as ADEX subjects.

SEP 16 1974

The six-month trial period will begin 9/16/74 and will run until 3/15/75.

ACTION: That attached airtel be approved. You will be kept advised of developments.

The YSA-B is the local affiliate and follows the aims and purposes of the National YSA, the youth arm of the SWP.

The SWP is a revolutionary, Trotskyist-communist organization, which is headquartered in New York City. Its purpose, as stated in its Declaration of Principles, is the overthrow of the U.S. Government and the institution of a dictatorship of the working class and the eventual achievement of a communist society. It was founded in 1938 and maintains close association with international Trotskyist organizations as a "sympathizing" group, but it denies formal membership in any foreign group to escape application of the Voorhis Act, which regulates certain types of organizations subject to foreign control. overthrow the U.S. Government, it believes that eventual violent revolution in the U.S. is inevitable. Its objection to the current use of violence is based on the ground that it believes violence is premature at this time. The SWP seeks to precipitate a revolution and to direct it when it occurs.

Investigation at Boston to date has established that subject, a member of the [redacted] Boston, resides at [redacted] and is a rank and file member of the YSA-B, South Boston sub-local, but not a member of the SWP, Boston.

A lead is currently outstanding in the Albany Division to verify subject's birth of [redacted] New York, and following receipt of the results of Albany's inquiry, Boston will submit appropriate disseminable communication.

Albany is requested to expedite inquiry in order that this matter may be brought to a logical conclusion.

This investigation is based on information which indicates that the captioned subject is engaged in activities which could involve a violation of Title 18, United States Code, Section 2383 (Rebellion or Insurrection), 2384 (Seditious Conspiracy), 2385 (Advocating Overthrow of the Government); or Title 50, United States Code, Section 781-798 (Internal Security Act of 1950).

On April 8, 1974, a source who has furnished reliable information in the past identified the subject as a member of the Young Socialist Alliance of Boston (YSA-B).

The YSA-B is the local affiliate and follows the aims and purposes of the National YSA, the youth arm of the Socialist Workers Party (SWP).

The SWP, headquartered in New York City, is a revolutionary, Trotskyist-Communist organization which has as its purpose the overthrow of the United States Government, the institution of a dictatorship of the working class and the eventual achievement of a communist society. SWP was founded in the United States in 1938 as the American Section of the worldwide Trotskyist revolutionary organization named the Fourth International (FI), which is headquartered in Europe. In 1940, SWP withdrew its formal affiliation with the FI to escape application of the Voorhis Act, which regulates certain

types of organizations subject to foreign control. From 1940 to the present time; however, SWP has continued a close association with the FI and participates and votes as a "sympathizing group" in FI meetings.

While the SWP does not openly advocate the use of violence at the present time to overthrow the United States Government, the SWP believes that eventual violent revolution in the United States is inevitable. SWP seeks to precipitate revolution when conditions are ripe and to direct and seize control of the revolution when it occurs.

Importantly, the FI at its World Congress in Europe in 1974, took a position favoring the current use of guerilla warfare and armed struggle to achieve revolution in South America and elsewhere if local conditions indicate that such violence would enhance revolution. A majority of the SWP delegation to the FI opposed the current use of violence only on the grounds that it is premature, whereas a minority of the SWP delegation favored the FI endorsement of violence.

The Bureau notes information in last paragraph of relet indicates that preliminary inquiries are being made concerning six individuals who had participated in referenced demonstration.

Based upon information available to FBIHQ, it does not appear that inquiries are warranted concerning the individuals named and accordingly, no investigation should be conducted of them in the absence of specific information in your files which would dictate otherwise.

In the event you have cases on these individuals and no other information exists concerning them, the files should be closed.

INVESTIGATIONS OF MEMBERS OF SUBVERSIVE AND EXTREMIST ORGANIZATIONS WHO ARE CANDIDATES FOR AND/OR ELECTED TO PUBLIC OFFICE

As you are aware, recent correspondence from this Bureau has shown a considerable increase in the number of candidacies for public office on the part of members of organizations under investigation by the FBI concerning possible violations of Title 18, U.S. Code, Sections 2383 (Rebellion or Insurrection), 2384 (Seditious Conspiracy), 2385 (Advocating Overthrow of the Government) and related statutes.

Inasmuch as investigation of such individuals could possibly be misconstrued as interfering with lawful political processes and abridging rights guaranteed under the Constitution, this Bureau, unless instructed by you to the contrary, will not, in the absence of evidence of a violation of a specific Federal statute, conduct investigations of such individuals during the period of their candidacy for public office or, if elected, during the period they actually occupy public office. Unsolicited pertinent information indicating a specific violation of Federal law(s), as well as other pertinent related subversive information similarly obtained, concerning such individuals during the above periods, will be promptly furnished to you along with a statement as to additional action contemplated by this Bureau in each instance. At such time as individuals referred to above no longer are candidates for or hold public office, investigations under above-enumerated statutes will be resumed, if necessary, and followed to a logical conclusion.

Subject: INVESTIGATIONS OF MEMBERS OF SUBVERSIVE AND EXTREMIST ORGANIZATIONS WHO ARE CANDIDATES FOR AND/OR ELECTED TO PUBLIC OFFICE

As evidenced by recent communications furnished your agency by this Bureau, the number of members of subversive and extremist organizations seeking public office has increased substantially.

Inasmuch as investigation of such individuals for possible violations of security-related Federal statutes could possibly be misconstrued as interfering with lawful political processes and abridging rights guaranteed under the Constitution, this Bureau will not, in the absence of evidence of a violation of a specific Federal statute, conduct investigations of such individuals during the period of their candidacy for public office, or, if elected, during the period they occupy public office. Unsolicited pertinent information indicating a specific violation of Federal law(s), as well as other pertinent related subversive information similarly obtained, concerning such individuals during the above periods, will be promptly furnished to you. At such time as individuals referred to above no longer are candidates for or hold public office, investigations of such individuals will be resumed, if necessary, and followed to a logical conclusion. Results of investigations conducted under the latter category will likewise be furnished you.

PURPOSE: To recommend the establishment of a uniform policy of handling investigations of members of subversive or extremist organizations who are candidates for and/or elected to public office and to so advise the Department, Secret Service and appropriate Bureau personnel.

DETAILS: The proliferation in candidacies for public office on the part of members of subversive and extremist organizations currently being investigated by this Bureau under statutory basis has created a serious problem. Continued investigation during the time of candidacy could leave Bureau open to unwarranted charges of abridging individual's Constitutional rights by interfering with lawful political processes. However, termination of such investigations would establish the undesirable precedent of granting investigative immunity to subversive and extremist candidates for public office. In the past, such matters were handled on an individual case basis. Recent substantial increase in such candidacies, mainly by organizations attempting to generate an aura of political responsibility, coupled with the likelihood of civil suits being filed against this Bureau by such individuals under investigation, dictates need for uniform field-wide handling of this type investigation.

EX-101 REC-43 100-358086-4237

In instances referred to above, it is recommended that a field office, upon learning of the candidacy for public office of a subject under investigation, should furnish FBIHQ with a dissemi-native communication to that effect incorporating previously unreported pertinent information concerning the activities of that subject. In the absence of evidence indicating a violation of a specific Federal statute, no investigation should be conducted until the individual's candidacy for public office is resolved. Information received during the period of candidacy indicating a specific violation of Federal law(s), should be furnished FBIHQ by means consistent with exigencies of situation along with recommendations for additional action warranted. Other unsolicited subversive

information received from informants and sources or obtained incidental to other investigations should be channeled to the individual's file and, when appropriate, furnished to FBIHQ in disseminative form with recommendations as to additional action warranted.

Results of candidacy in each instance should be furnished to FBIHQ. Should the candidate have been defeated, necessary communication should contain recommendations as to additional action warranted. Should the candidate have been successful, necessary communication should contain statement that, in the absence of information indicating a specific violation of Federal statute, no additional investigation will be conducted. At such time as the individual ceases to serve in public office, field should submit such information to FBIHQ accompanied by recommendations as to additional action warranted. Should information be received indicating a violation of a specific Federal statute while individual is in office, field should submit pertinent information to FBIHQ by means consistent with the exigencies of the situation along with recommendations as to additional action deemed warranted.

Apropos of the foregoing, FBIHQ memorandum to the Department dated 7/3/74 and letter to all offices dated 7/17/74, both concerning National Caucus of Labor Committees (NCLC), advised the Department and instructed the field along similar lines concerning investigations of NCLC members seeking public office. No information was contained therein, however, concerning investigations of individuals holding public office.

OBSERVATIONS: Inasmuch as the foregoing has a direct bearing on Bureau investigations conducted under statutory basis and could have bearing on future litigation involving this Bureau, a memorandum will be forwarded to the Department advising of the policy being instituted above. As subjects of security and extremist investigations are of interest to U.S. Secret Service (USSS), a similar letter will be forwarded to that agency. Correspondence to the Department and USSS will be handled under the more descriptive title "Investigations of Members of Subversive and Extremist Organizations Who Are Candidates for and/or Elected to Public Office."

There is attached a memorandum to the AAG, Criminal Division (CD), and a letter to USSS advising of the above. Also attached is a Memorandum to All SACs advising of establishment of a uniform policy handling investigations of a type described above. If approved, appropriate changes will be made to Manual of Instructions.

SUBJECT: THE SMITH ACT
(TITLE 18, U. S. CODE, SECTION 2385)

On 10/25/74, Mr. Wannall asked whether the Smith Act has been invalidated by Brandenburg v. Ohio, 395 U. S. 444 (1969). For your information, defendant in Brandenburg was convicted under Ohio's criminal syndicalism statute for "advocating the duty, necessity or propriety of crime, sabotage, violence or unlawful methods of terrorism as a means of accomplishing industrial or political reform and for voluntarily assembling with any society, group, or assemblage of persons formed to teach or advocate the doctrines of criminal syndicalism." In a unanimous opinion the U. S. Supreme Court reversed defendant's conviction and held that the constitutional guaranties of free speech and free press do not permit a State to forbid or proscribe advocacy of the use of force or of law violation except where such advocacy is directed to inciting or producing imminent lawless action and is likely to incite or produce such action. "The mere abstract teaching . . . of the moral propriety or even moral necessity for a resort to force and violence is not the same as preparing a group for violent action and steeling it to such action." 395 U. S. at 449. The Court went on to say that a statute which fails to draw this distinction impermissibly intrudes on the First and Fourteenth Amendments, for it includes within its condemnation speech which our Constitution has immunized from Government control. Id. Measured by this test, the Court stated, Ohio's Criminal Syndicalism Act was unconstitutional.

EX-105 REC-1 100-358086-4238

Thus, we may inquire whether the Smith Act has any validity today. Review of the Smith Act reveals that it forbids and proscribes the advocacy of the use of force or of law violations. The statute does not, on its face,

DISSEMINATION OF FBI INTELLIGENCE
REPORTS AND LETTERHEAD MEMORANDA

Reference is made to your memorandum dated November 18, 1974, captioned as above.

The FBI has undertaken a thorough study of its authority for investigative programs in the field of internal security. Since supervision by the Attorney General constitutes an essential element of our legal authority to conduct these programs, we viewed the streamlined dissemination procedures outlined in your November 18 memorandum as being of relevance to our jurisdictional study. Consequently, we have held our response to your request in abeyance pending completion of our analysis.

MAILED 7
MAY 9 1975
FBI

We foresee no administrative difficulties in restricting distribution of FBI reports and letterhead memoranda within the Criminal Division. In addition, it would not appear that such action would have an adverse impact upon the legal basis for our internal security programs so long as you continue to evaluate our investigative product rigorously for consistency with policies of the Attorney General and prosecutive potential.

In accordance with your request, we will discontinue disseminating to the General Crimes Section of the Criminal Division those categories of FBI reports and letterhead memoranda enumerated in your November 18 memorandum, unless dissemination is being made to a local United States Attorney's Office.

We will continue to furnish to the Internal Security Section of the Criminal Division reports and letterhead memoranda concerning these matters, together with information necessary to enable the Attorney General to fulfill his responsibilities under Section 13 of Executive Order 10450. We will also continue to disseminate information concerning civil disturbances to the Analysis and Evaluation Unit in the Office of the Deputy Attorney General.

It is our understanding that it will be the responsibility of the Criminal Division's Internal Security Section to review FBI reports and letterhead memoranda for consistency with policies of the Attorney General and to detect prosecutable violations of law in those categories of cases which will be subject to the streamlined dissemination procedures being implemented.

As you are aware, it has not been our practice to present internal security matters to local United States Attorneys. It is our understanding that this procedure is to be continued and that you will advise us when information developed in connection with an investigation in the internal security field should be brought to the attention of a United States Attorney.

Your concurrence is requested.

SUBJECT: Dissemination of FBI Intelligence Reports and Letterhead Memoranda

In order to eliminate duplication of effort and avoid unnecessary paperwork, the FBI is requested to discontinue disseminating duplicate copies of the following FBI reports and letterhead memoranda to the General Crimes Section or the Special Litigation Unit of the General Crimes Section unless they are disseminated to the concerned U.S. Attorney Office (for your information the Special Litigation Unit is now known as the Prosecution Unit of the General Crimes Section):

1). Reports and letterhead memoranda resulting from investigations of subversive organizations engaged in activities that may result in violations of 18 U.S.C. 2383, rebellion or insurrection; 18 U.S.C. 2384, seditious conspiracy and 18 U.S.C. 2385, advocating overthrow of Government.

2). Reports and letterhead memoranda resulting from investigations of subversive organizations that seek to deny constitutional rights to others; and

3). Reports and letterhead memoranda containing information obtained by the FBI incidental to its investigative function in the intelligence field.

The Bureau, however, is requested to continue to send the above reports and letterhead memoranda to the Internal Security Section as it has in the past. In addition, the Bureau is requested to continue to forward copies of all

DOJ—1973—04

teletypes, reports, and letterhead memoranda concerning possible violations of the Protection of Foreign Officials Statute and the explosives provisions of the Organized Crime Control Act of 1970 to the General Crimes Section. Further, the Bureau is requested to continue to disseminate teletypes regarding civil disturbances as indicated in your memorandum dated May 7, 1974 to the Attorney General and memoranda regarding violence and civil unrest as indicated in your memoranda dated May 10, 1974 to the Attorney General.

ADDENDUM: Intelligence Division (continued)

An in-depth analysis is being conducted by INTD concerning our statutory authority for domestic intelligence investigations which will involve consultation with the Office of Legal Counsel. At that time consideration will be given to requesting a definitive opinion from the Department of Justice regarding The Smith Act in light of the Brandenburg decision as it relates to our basis for domestic intelligence investigations.

WRW/PLM

ADDENDUM: Intelligence Division, 11/5/74, PLM:jlb

At the present time there are three statutes which formulate the basis for domestic intelligence investigations and The Smith Act (Title 18, U.S. Code, Section 2385) is one of these statutes. While it appears the Brandenburg v. Ohio decision may have invalidated The Smith Act, the following should be noted:

On 8/7/73, we sent a memorandum to the Attorney General describing our then study into our domestic intelligence jurisdiction and the study's conclusion that it was based on three statutes (Title 18, U.S. Code, Sections 2383, 2384, 2385). At that time we suggested the alternatives of enactment of a new statute or a clarifying Executive Order.

On 8/24/73, we sent a copy of the study and the newly revised Section 87, Manual of Instructions (which includes and cites the three specific statutes as statutory bases for our domestic intelligence investigations) to Mr. Jack Goldklang who was conducting a study of FBI domestic security jurisdiction for then Deputy Attorney General Ruckelshaus.

No response has been received from the Department regarding our request for an Executive Order. On 5/20/74 we submitted memorandum to the Attorney General referring to our letter 8/7/73 and took cognizance of present conditions which could lead to a delay in obtaining legislation or Executive Order and suggested amending our enabling statute to include authority "to detect" as well as "to investigate." By memorandum dated 10/10/74 the Attorney General advised he felt addition of "to detect" would not add to our authority.

The Department of Justice thus has never responded specifically to our statutory thesis as basis for domestic intelligence investigations.

While the absence of a response may or may not signify Departmental approval, the testimony of Kevin T. Maroney, Deputy Assistant Attorney General, before House Committee on Internal Security as cited by Legal Counsel would tend to be a clearer endorsement of the Department of Justice as to the validity of The Smith Act as a basis for our investigations.

distinguish between advocacy and the incitement to imminent lawless action. Accordingly, it would appear that Brandenburg, supra, has invalidated the Smith Act. Note, however, that on 2/20/74, Kevin T. Maroney, Deputy Assistant Attorney General, Criminal Division, speaking before the House Committee on Internal Security cited, among numerous other Federal statutes, the Smith Act as a basis for the FBI's authority for national security investigations. In view of Mr. Maroney's statement it does not appear that we should adopt a public position that the Smith Act does not provide us with a basis for our authority in the domestic security area or publicly state that the Act has been vitiated by Supreme Court holdings. On the other hand, because of Brandenburg it would appear that we should look to and emphasize other sources for our authority in this area.

(D) SECURITY INVESTIGATIONS OF INDIVIDUALS - EXTREMIST INVESTIGATIONS OF INDIVIDUALS -- The recent proliferation in candidacies for public office on the part of members of subversive and extremist organizations currently being investigated by this Bureau under statutory basis has created a serious problem. Continued investigation of these individuals during the time of their candidacy could lead to unwarranted charges that this Bureau is intimidating political candidates and interfering with lawful political processes. On the other hand, automatic suspension of investigation of an individual once his candidacy for public office becomes known could result in termination of an investigation where substantive violations exist. Such action would result in the establishment of the unwise precedent of granting investigative immunity to subversive and extremist candidates for public office.

In the past, instances such as the foregoing were relatively rare and were handled on an individual case basis. Recent political activities, however, on the part of organizations such as the National Caucus of Labor Committees; Communist Party, USA; and Black Panther Party (which run candidates for public office at various levels of political life), coupled with the likelihood of civil suits being filed against this Bureau by such individuals under investigation, dictate the establishment of a uniform manner of handling such matters.

Upon learning of the candidacy for public office of a member of a subversive or extremist organization, the office of origin should promptly furnish FBIHQ with a communication suitable for dissemination setting forth sufficient identifying data and a brief summary of the individual's subversive or extremist activities, together with the details of the individual's candidacy for public office. In the absence of evidence of a violation of a specific Federal statute, no investigation should be conducted until subject's candidacy for public office is resolved. Information received during the period of the individual's candidacy indicating a specific violation of Federal law(s) should be furnished FBIHQ by means consistent with the exigencies of the situation along with recommendations as to additional action warranted. Other unsolicited subversive information received from sources and informants or obtained incidental to other investigations, should be channeled to the individual's file and, when appropriate, furnished to FBIHQ in disseminative form with recommendations as to additional action warranted.

SECURITY MATTER

Enclosed is one xeroxed copy of College Placement Council, Inc. letter dated 10/11/74, and memorandum from the law offices of Wilkinson, Cragun and Barker dated 8/30/74.

Wilkinson, Cragun and Barker are the counsel for the College Placement Council, Inc., an organization which represents the interests of college and university placement offices.

The enclosures were obtained from Louisiana Tech University, Ruston, La., and discussion with administration officials indicates that they are considering adopting the policy that each and every record of a student comes within the pervue of the Family Education Rights and Privacy Act of 1974, including observations of faculty and that inquiries re student ~~type~~ made only by formal request accompanied by release and replies to the inquiries will be furnished in writing with copy to student.

This development is being brought to attention of the Bureau in recognition of the apparent effect this may have on applicant and security matter investigations.

POSTPONEMENT OF EFFECTIVE DATE OF THE ACT BEING SOUGHT

While this mailing was being printed, several late, major developments were occurring. Among them, the College Placement Council was joining efforts to have the effective date of the Family Educational Rights and Privacy Act postponed from November 19, 1974 to the start of the 1975-76 academic year. Since Congress is scheduled to recess shortly for the upcoming elections and would, for practical purposes, have to take such action prior to the recess, the outcome of these efforts should be made known momentarily. In the event that provisions of the Act and their possible impact have not already been discussed with your administrators, we would suggest that you seek their advice and, as may be indicated, that of legal counsel.

Subject: Family Educational Rights and Privacy Act of 1974

Strict new requirements giving students access to official student records and protecting their confidentiality (including those maintained by College Placement Offices) will go into effect November 19, 1974, as a result of enactment by Congress of the "Family Educational Rights and Privacy Act of 1974" -- signed into law on August 21, 1974, by President Ford. This national "Sunshine Law" was enacted largely without public attention, as part of a bill extending the Elementary and Secondary Education Act of 1965, with little or no prior notice to colleges and universities which will be affected by its rigorous provisions. It calls for:

1) Full access to student records by parents of students under 18, and to students over 18;

2) Hearings to contest contents of personal records;

3) Requirements of notice and written consent by students over 18 and parents of students under 18, before records can be transmitted to most third parties;

4) Federal supervision by HEW of educational record-keeping;

5) And cut-off of federal funds where institutions fail to comply with the Act.

OCT 1974

The Secretary of HEW is expected to issue tentative regulations in the near future and these will be brought to your attention as promptly as possible. A second aspect, however, is the development of privacy regulations which will apply to institutions receiving federal funds and this drafting is expected to be based upon extensive consultations with a broad range of interested parties. We have been in communication with Commissioner Bell with the request that the Council be invited to participate in these consultative activities.

While the implications of this Act are of primary interest to the career planning and placement directors of the colleges and universities, we are sending this memorandum to all current members of the Council. We believe that employer members should be kept informed on a matter of such consequence to the future availability of assessments of student qualifications.

MEMORANDUM TO COLLEGE PLACEMENT COUNCIL

Re: Family Educational Rights and Privacy Act of 1974. *

Introduction

In enacting legislation to extend and amend the Elementary and Secondary Education Act of 1965 (signed into law by President Ford on August 21, 1974), Congress added a new section designed to protect the rights and privacy of students and parents. The new section, denoted the "Family Education Rights and Privacy Act of 1974", places new burdens on educational institutions whose failure to comply therewith could result in a cut-off of funding under the Act. This memorandum is intended to identify the salient provisions of the Act for the purpose of apprising affected institutions of the requirements thereunder.

To Whom Does the Act Apply

The Family Educational Rights and Privacy Act applies to state and local education agencies, institutions of higher learning, community colleges, schools, agencies offering a pre-school program, and other educational institutions receiving funds under the Elementary and Secondary Education Act of 1965, as amended. § 438(a)(1), (b)(1), (b)(2).

Penalty for Non-Compliance

Any organization or institution to whom the Act applies will be cut-off from federal funding for its failure to comply with the Act's provisions. § 438(a), (b), (c).

---

* Section numbers refer to the General Education Provisions Act, as amended.

1 ENCLOSURE 100-358086-

Effective Date of the Act's Provisions

The Act's provisions become effective 90 days after the effective date of the Act or November 19, 1974. § 438b(1)(i).

Who Is Protected Under the Act

Students and their families are protected by the Act. In the case of students 18 years of age or older, the permission or consent required of and the rights accorded to the parents of the student shall only be required of and accorded to the student. § 438(4)(d).

Requirements Under the Act

Inspection of Personal Files

No educational institution may effectively prevent parents of students under the age of 18 years, or students 18 years or older, the right to inspect and review any and all official records, files and data directly related to the student. Included in this category are all materials incorporated into each student's record, such as identifying data, academic work completed, standardized achievement test scores, intelligence, aptitude and psychological test scores, health data, family background information, teacher or counselor ratings or observations, and verified reports of serious or recurrent behavior patterns. It would certainly include student files maintained by college placement officers. § 438(a)(1).

Establishment of Inspection Procedures

Affected institutions must establish procedures for granting request of parents within a reasonable time to review foregoing materials, but in any event, not more than 45 days after the request is made. § 438(a)(1).

Opportunity for Hearing: Correction of Records

Parents and students 18 years or older must be afforded the opportunity of a hearing to challenge contents of a student's school record where inaccuracies, misleading information or violation of rights of privacy or other rights are alleged. A mechanism must be provided for the correction of inaccurate, misleading or other inappropriate data. § 438(a)(2).

Consent Required for Release of Data

The institution or organization must not have a policy or practice of releasing records of students without written consent of the parents (or students 18 years or older) except

- to other local educational officials, including teachers or local educational agencies who have legitimate educational interest;

- to officials of other schools or school systems in which the student intends to enroll, upon the condition that the student's parents (or students 18 years or older) be notified of the transfer and receive a copy of the record if desired, and have an opportunity to challenge the contents of the record; or

- to authorized representatives of the Comptroller General of the U.S., the Secretary or an administrative head of an education agency, in connection with an audit or evaluation of federally-supported education programs. § 438(b)(1).

The institution or organization must not have a policy or practice of furnishing personal school records to anyone other than described above unless

- written consent of the student's parents (or students 18 years or older) is secured, specifying the records to be released, the reasons for the release, identifying the recipient of the records, and furnishing copies of the materials to be released to the parents (or students 18 years or older); or

- the information is furnished in compliance with a judicial order or pursuant to a subpoena, upon condition that the parents and student are notified of all such orders or subpoenas in advance of compliance therewith. § 438(b)(2).

It may be that this provision will not be of great concern to College Placement Officers if they can obtain the consent in advance on the student's application for assistance from the College Placement Office. However, § 438(b)(2) states that the consent must identify, among other things, the proposed recipient of the records and it may be that the required "consent" will have to be obtained each time the Placement Office desires to send information from a student's file to a prospective employer.

The full scope of this requirement should become clear when regulations are promulgated to implement the new law.

Parents or Students Over 18 Must Be Advised

The institution must inform parents or students 18 years of age or older, of their rights under the Act. § 438 (4)(e).

Requirements Imposed Upon Persons, Agencies or Others Desiring Student Information

Persons, agencies or others seeking to secure information from the personal records of a student must sign a written form which must be kept permanently in the student's records, the form to be available for inspection only by the parents and the student. It must indicate a legitimate educational or other interest in seeking the information. The information can only be released on the condition that the third party recipient will not permit access to others without written consent of the parents. § 438(4)(A).

This provision could be one of the most troublesome for College Placement Offices. It may be difficult to insure that prospective employers do not permit unauthorized access to the confidential materials.

Responsibility of the Secretary of HEW

The Secretary will promulgate regulations to protect rights of privacy of students and their families in connection with surveys or data-gathering activities. No survey may be conducted by the Secretary or the administrative head of an education agency unless the Act pursuant to which the survey is taken expressly provides for such a program. § 438(4)(c).

The Secretary shall designate an office and review board within HEW to investigate, process and adjudicate violations of the Act. § 438(4)(g).

Right to Refuse Data

If an organization or agency fails to administer a test or project to provide personally identifiable data on students or their families to any federal agency or department or other third party on the basis that it violates the right to privacy or confidentiality, it shall not constitute sufficient grounds for suspension or termination of federal assistance, or to delay consideration of funding in succeeding fiscal years. § 440.

SUBVERSIVE AND EXTREMIST
INVESTIGATIONS OF INDIVIDUALS
STREAMLINED REPORTING

Re Director's airtel to Albany 8/16/74.

A review of communications submitted to FBIHQ utilizing the streamlined reporting indicates that implementation has been successfully accomplished in the vast majority of cases where utilized. During the first 45 days of implementation, 1125 Reports and LHMs involving investigation of individuals were submitted. Of this total, 548 utilized the current LHM and Report format and 577 utilized the streamlined method. Of this breakdown, current LHMs and Reports averaged five pages each and the streamlined method averaged three pages each.

Several matters have arisen which appear to require clarification to facilitate preparation of Investigative Summaries and to insure that they convey meaningful results of our investigation of individuals under Sections 87 and 122 of the Manual of Instructions (MOI).

It should be clearly understood that the example contained in referenced airtel was not an absolute guide to the preparation of all Investigative Summaries and should not be followed rotely. The contents of each Investigative Summary should be determined by the facts of the case and background data tailored to the needs of each case.

Matters of form such as copy count are to be followed as set out in the MOI or as instructed by Headquarters in particular investigations. Also, the property statement should be attached to Investigative Summaries as was noted on page six of referenced airtel, although erroneously omitted from the example.

The following are problem areas which appeared most frequently and should be clarified with appropriate personnel:

The caption "INVESTIGATIVE SUMMARY" must appear immediately under the letterhead in full capital letters and be underscored. This serves as a flag to recipients of our dissemination and is descriptive of the information which follows.

Regarding predications, when an Investigative Summary is the first communication for dissemination submitted to FBIHQ or where no previously submitted communication for dissemination has contained a predication (by error or some other reason), the Investigative Summary must begin with a predication. The predication should be a concise statement of the specific statutes upon which the investigation is based and identify the subversive and/or extremist organization or activity in which the subject is involved. The latter data was noted as being frequently omitted in Investigative Summaries received at FBIHQ. Utilize "(See Appendix)" following the first reference to each subversive or extremist organization mentioned in the predication and any other such organization mentioned later in the Investigative Summary.

Because of the succinct nature of Investigative Summaries, care must be taken to avoid unattributed opinions not supported by facts. This critique can apply equally well to Reports and Letterhead Memoranda. Such unattributed comments as "subject is considered a member of..." or "it was

the opinion that...," without any facts supporting it must be avoided. If the opinion is pertinent, the Investigative Summary should identify who had the opinion, i.e., a specific organization's leader or member. If the facts creating the opinion or consideration are known, the facts should be succinctly set out. What must be avoided is conveying the thought that it was the FBI's opinion or consideration.

It is incumbent upon field supervisors to see that Agents preparing Investigative Summaries are aware of the general guidelines. It has been noted that several communications have been sent the FBIHQ labeled Investigative Summary which were nothing more than regular letterhead Memoranda. This type of situation merely diminishes any good which can come from this effort for efficiency and sets a poor precedent for all future Investigative Summaries prepared by the Agent or patterned after his work product.

Field Supervisors are encouraged to raise any questions or call attention to any apparent problems with this streamlined reporting. Additionally, considerations and comments are requested regarding the effect investigative summaries have on supervision of these cases in the field.

Each office should review these instructions in conjunction with the original instructions contained in referenced airtel and brief interested personnel. Instant communication may be reproduced to facilitate advising appropriate personnel.

Re: Subversive and Extremist Investigations
of Individuals

NOTE:

Memorandum of A. B. Fulton to W. R. Wannall 8/9/74 approved implementation of a summary reporting system for a six-month trial period. The field was advised by Director's airtel dated 8/16/74. A review of Investigative Summaries submitted since implementation on 9/16/74 has raised several areas which appear to cause the most confusion. These areas are covered in this airtel. The figures regarding number of disseminative communications are being gathered by supervisors handling MOI Sections 87 and 122 and coordinated by R. H. Ross. No value has been attached to these statistics in view of the early phase of implementation, but it is noted that Investigative Summaries have been applied to 50 percent of communications for dissemination submitted pertaining to the investigation of individuals. No communications have as of yet been received from the field as to problems encountered.

SUBVERSIVE AND EXTREMIST
INVESTIGATIONS OF INDIVIDUALS
STREAMLINED REPORTING, BUDED 3/10/75

As you are aware, a streamlined LHM reporting method referred to as Investigative Summary was implemented on 9/16/74 on a trial basis. This method applied only to investigations of individuals conducted under Sections 87 and 122 of the Manual of Instructions (MOI). Whether this streamlined reporting method is adopted permanently is dependent upon an overall assessment of the field and FBIHQ.

Consequently, you should canvass those supervisors handling MOI, Sections 87 and 122 investigations to obtain answers to the questions listed below:

1. Does the method necessitate significantly more or less Agent time in preparation?

2. Does the method necessitate significantly more or less stenographic time?

3. Has the method positively or negatively affected Field Supervision of the cases?

4. Has the method improved or reduced the quality of the disseminated product? If so, how?

5. Give your general comments as to the overall advisability of adopting this streamlined reporting method.

Until such time as a final decision is made, you should continue to utilize the streamlined reporting method.

This is to recommend a survey of field offices and FBIHQ be conducted to assess the merits of the Investigative Summary streamlined reporting method.

The Director approved a six-month trial program to test the streamlined reporting method which began on 9/16/74. Statistics have been maintained regarding the streamlined method and will be considered in the overall analysis of the method.

The field should be surveyed to determine whether the streamlined method is beneficial or detrimental from its point of view. Specifically, field offices should be asked to comment whether more time is required in preparation, whether case supervision is affected, whether a better product is prepared, and last, to make an overall comment as to adoption of the reporting method. To date, no field office has officially expressed comment regarding the method.

EX-115 REC-48 100-358086-42-4584

FBIHQ should also be surveyed to assess the effect on case supervision and manpower usage. Once these assessments have been obtained, a final recommendation will be made regarding the streamlined reporting method. The field will be advised to continue the method until a final determination is made.

BUDED 3/10/75

Re Bureau airtel to SAC, ~~Albany 2/21/75~~ Security Investigation of Individuals Memorandum.

The following observations are submitted in connection with the questions posed in referenced airtel as follows:

1. Significantly less Agent time

2. Significantly less stenographic time

3. It is not believed that this method has either positively or negatively affected field supervision of such cases inasmuch as all case supervision substantially remains the same regardless of reporting methods.

EX 104 REC-37 100-358086-4248

4. In all probability the quality of the disseminative product has improved by using this method mainly by eliminating extraneous material which is not germane, and therefore, does not really contribute to the overall quality of the product.

5. In general, I believe the streamline method of reporting is advantageous both from an economy and quality standpoint; however, Richmond's experience in this area has been necessarily limited due to our extremely low volume of cases falling within these categories.

In response to a previous request of GAO auditors, I met on 3/26/75 with GAO Supervisory Auditors [redacted] plus [redacted] of the GAO legal staff to discuss the Administrative Index (ADEX). Also present from the Intelligence Division (INTD) were Section Chief A. B. Fulton and Supervisor E. P. Grigalus.

A lengthy discussion was held regarding the history, basic authority and procedures connected with the maintenance of the ADEX and its predecessor, the Security Index with its Reserve Index adjunct. GAO auditors had previously been furnished sections of the Manual containing current instructions on the ADEX and they are aware of its existence and operation. Also discussed was the now defunct Agitator Index.

The ADEX is an index of approximately 1,476 security-type subjects currently under investigation who are classified as "dangerous now." It was established with the authorization of the Department after the Security Index was discontinued in 1971, when Congress repealed Title II of the Internal Security Act of 1950. The Security Index had been established in accordance with Department regulations to implement Title II of the above Act which was the Emergency Detention Program. The Agitator Index (originally Rabble Rouser Index) was maintained from August, 1967, to April, 1971, as a means of identifying individuals with a demonstratcd propensity for instigating disorder around the country.

The GAO auditors also raised the question of other current or former INTD programs such as the Key Activist Program, Key Extremist Program, Extremist Photograph Album, and the Computerized Telephone Number File. It was explained to them that these programs were not indices but investigative aids to assist the Bureau in its investigative coverage and/or priorities.

Where possible, the first intra-Bureau communication prepared which indicates that investigation is being (conducted) should specifically indicate the statutory basis for the investigation. However, there may be occasions involving individuals or groups in contact with known extremist elements where the purpose of the contact is not initially known and where a preliminary inquiry must be made to determine whether a statutory basis exists for full investigation. In these instances, a preliminary inquiry may be undertaken, through established sources, for a period not to exceed 90 days, without specifically indicating the specific statutory basis for the inquiry. If after the conclusion of 90 days it has not been possible to establish a statutory basis but further inquiry appears necessary, FBIHQ must be furnished a succinct summary of the facts by letter together with specific recommendations as to further action. In all cases, of course, investigations must be based on indications that subject may be engaged in extremist activity, whether or not a specific statutory basis is cited. Advocacy of extremist activities, while a basis for a preliminary inquiry, is not a basis for a full investigation.

PROPOSED CHANGES IN FBI HANDBOOK FOR SPECIAL AGENTS

Part III, Chapter 62:

Delete pages 153b, 154 and 154a and substitute the following:

1. GUIDELINES FOR INVESTIGATIONS

Investigation of Individuals - General

A. Investigations under this section are to be directed to the gathering of material pertinent to determination whether or not subject has violated or is engaged in activities which could result in a violation of one or more of the statutes enumerated below; or in fulfillment of Departmental instructions. There are four principal statutes which provide a basis for these investigations:

1. Rebellion or insurrection (T 18, USC, Section 2383)
2. Seditious conspiracy (T 18, USC, Section 2384)
3. Advocating the overthrow of the Government (T 18, USC, Section 2385)
4. Civil Rights Act of 1968 (T 18, USC, Section 241)

In all cases, the first communication prepared for outside dissemination should show specifically the statute upon which investigation is based with necessary supporting facts.

FBIHQ approval is required to institute investigation of a faculty member or organization connected with an institution of learning, or to interview any student or faculty member other than an established source.

B. INVESTIGATION OF ORGANIZATIONS

When information is received indicating an organization may be engaged in extremist activities which could result in violation of one of the statutes enumerated above, the field should initiate appropriate investigation and notify FBIHQ. Within 90 days submit results with recommendation as to further investigation.

C. INVESTIGATION OF INDIVIDUALS

Investigations should be initated concerning following:

(1) Officers of extremist organizations who are in policy-making positions or who are able to direct activities of other members of group.
(2) All other members of extremist organization who have demonstrated propensity for violence.
(3) Persons who, while not affiliated with extremist organization, have demonstrated strong extremist attitudes coupled with inclination to employ violence.

Investigations should be conducted to fully identify and determine the activities and affiliations of persons who are reported to be engaged in activities which may result in a violation of the statutes previously listed.

Subjects of investigations should be interviewed in the absence of a sound basis for not doing so. Interviews must be approved by FBIHQ if the subject is a leader (state level or above) of an extremist group, is nationally prominent or connected with educational institutions, civil rights organizations, religious groups and news media, or other sensitive areas.

D. DISSEMINATION

Pertinent investigative results on extremist organizations and individuals should be furnished locally to Secret Service and to local branches of other Federal investigative agencies having a clear-cut interest.

PURPOSE:

To recommend approval of Memorandum to All Special Agents In Charge designed to clarify possible misinterpretation contained in Manual of Instructions (M of I) relating to basis for investigations conducted in captioned classifications.

DETAILS:

Sections 87 and 122 of M of I deal with Security Investigations of Organizations and Individuals and Extremist Investigations of Organizations and Individuals respectively.

In the M of I, Section 87, page 4, item captioned "Definitions," line 6, and Section 122, page 1b, item e, line 7; page 1c, item 2a, line 2; and page 2, item (6) (a), line 2, the words "or advocate" and variations thereof are being deleted from above locations as mere advocacy of subversive or extremist activity could possibly be interpreted as forming the basis for a full investigation. At an appropriate place in each of the above sections of the M of I, the following sentence, "Advocacy of subversive activities, while a basis for a preliminary inquiry, is not a basis for a full investigation.," is being added to insure that no misinterpretation can result in this regard.

ORIGINAL FILED IN

ReDEtel 3/24/75, captioned "Socialist Workers Party, IS."

Detel set forth the results of the candidacy of individuals who have been active in SWP matters in the Detroit Division.

Contained in this letter on page two was a list of seven individuals on whom cases were open prior to the 11/74 elections. With the exception of [redacted] a letter submitted on 2/26/75 concerning (DEfile 100-42161; Dufile 100-450374), the results of the candidacy of these individuals were not submitted under individual case caption.

Security Investigations & Individuals - General

By memorandum, dated 11/18/74, the Assistant Attorney General, Criminal Division, requested that we discontinue disseminating to the Criminal Division's General Crimes Section reports and letterhead memoranda concerning subversive matters, those seeking to deny civil rights to others (hate groups), and communications containing "intelligence information" derived from internal security investigations, unless dissemination was also being made to a local United States Attorney's Office.

After coordinating this matter with appropriate representatives of the Criminal Division, we held our response in abeyance, since INTD concluded that reduced dissemination to the Department might not be fully consistent with the legal authority for the FBI's internal security investigative program.

As you are aware, the President's National Security Action Memorandum 161, dated 6/9/62, the Attorney General's memorandum to former FBI Director Hoover, dated 3/5/64, as well as other pertinent documents, have been the objects of in-depth analysis as part of INTD's recently completed analysis of the legal basis for the FBI's internal security investigations.

100-358086-4254X1

It does not appear that complying with the Department's request would be inconsistent with our legal authority to conduct internal security inquiries. Nevertheless, our research indicates that there should be a clear understanding between the FBI and the Criminal Division confirming the Department's responsibility to ensure that our investigations are compatible with policies of the Attorney General and to detect prosecutable violations.

SL 114 REC-23 100-358086-4254

To achieve a clear understanding as to Departmental responsibilities which relate to the legal basis for the conduct of internal security investigations, we have asked that the Department concur in procedures whereby FBI internal security reports and letterhead memoranda would be evaluated for consistency with policies of the Attorney General and prosecutive merit.

Re: Dissemination of FBI Intelligence Reports and Letterhead Memoranda

In the past, we have not presented internal security matters to local United States Attorneys, leaving detection of prosecutable violations to the Department. It is our understanding that the Department's 11/18/74 memorandum is not intended to alter this procedure. However, to ensure that no change in current procedure is intended, we have requested the Criminal Division to advise us when a matter should be brought to the attention of a United States Attorney's Office.

On 5/29/75 a meeting was held at the Federal Triangle Building to discuss any changes in disseminating communications from the FBI to the Department of Justice occasioned by some reorganization within the Department. This meeting was suggested by [redacted] Departmental Attorney, General Crimes Section (GCS), when he was contacted 5/21/75 relative to such reorganization and in an effort to obtain accurate information to be used in updating form 0-6.

Attending the meeting were SAs [redacted] General Investigative Division, and [redacted] Intelligence Division, FBIHQ; [redacted] GCS; and [redacted] Analysis and Evaluation Unit, Deputy Attorney General's Office, all U. S. Department of Justice. The meeting dealt primarily with the dissemination of teletypes and the following changes were suggested.

1. No dissemination to the Special Litigation Unit, as that Unit is now known as the Prosecution Unit in the GCS, and there is now a Special Litigation Section which deals with civil litigation and prison matters. The new Prosecution Unit does not need mail directed specifically to them as their routing will be accomplished "in house" by the GCS.

2. GCS does not desire "intelligence information" such as meetings of various groups, i.e., Klan, Black Panther Party, American Indian Movement, Communist Party, USA; group activities such as elections, general meetings, social gatherings, etc.; and such items as group infiltration of labor unions, teachers' organizations, etc. The expression used to describe

the type of teletypes GCS desires to receive are those containing information regarding "imminent criminal activity or criminal acts that have been committed."

3. No further dissemination to Civil Disturbance Unit, GCS, as that Unit has been disbanded and a new Unit, Analysis and Evaluation Unit (AEU), Deputy Attorney General's Office, is desirous of receiving civil disturbance information.

4. AEU, as set forth in the teletype of Francis W. Niland, Chief, AEU, to the Director dated 5/21/75 (copy attached) desires information they are currently receiving plus messages (including teletypes) concerning bombings, extremist activities, subversive and terrorist activities/organizations, and American Indian activities/organizations.

In addition to the changes in Units noted above, these requests are the result of the physical relocation of AEU to Room 6101, Justice Building. Previously, the teletype machine for the Federal Triangle Building was in the AEU Unit and they made copies of all messages they desired and which were addressed to Internal Security Section (ISS) and GCS before routing them to ISS and GCS.

In regard to dissemination to ISS, the above Departmental representatives stated they were not in a position to speak for ISS and suggested a meeting be scheduled with ISS on this matter.

On 5/30/75 SA [redacted] met with [redacted] ISS; [redacted] GCS; and [redacted] AEU, in the office of [redacted]

The discussions in the meeting of 5/29/75 were reviewed. As a result of the meeting of 5/30/75, the following changes were suggested for dissemination of teletypes.

Memorandum to Mr. W. R. Wannall
Re: Dissemination of FBI Teletypes, Intelligence Reports, and Letterhead Memoranda

1. Information regarding civil disturbances, including bombings, need not be disseminated to ISS but rather to AEU.

2. Intelligence information regarding meetings, elections, etc., as set forth in number 2 above, is to be disseminated to ISS and AEU.

3. The character Registration Act is to be included after the title in teletypes containing information revealing a possible violation of the Registration Act. Specific reference was made to information regarding the African Liberation Support Committee and their efforts to raise money in the U. S.

Regarding "Dissemination of FBI intelligence reports and letterhead memoranda," the Departmental representatives in attendance agreed that their response requested in the letter from the Director, FBI, to the Assistant Attorney General, Criminal Division, dated 5/6/75 (copy attached) would clarify any questions concerning such dissemination.

RECOMMENDATION:

That upon receipt of the response to the above referenced letter from the Director to the Assistant Attorney General, Criminal Division, dated 5/6/75, a memorandum be prepared incorporating and instituting appropriate changes mentioned above and/or set forth in the response from the Criminal Division.

Director, FBI

DISSEMINATION OF FBI INTELLIGENCE
REPORTS AND LETTERHEAD MEMORANDA

Reference is made to your memorandum dated November 18, 1974, captioned as above.

The FBI has undertaken a thorough study of its authority for investigative programs in the field of internal security. Since supervision by the Attorney General constitutes an essential element of our legal authority to conduct these programs, we viewed the streamlined dissemination procedures outlined in your November 18 memorandum as being of relevance to our jurisdictional study. Consequently, we have held our response to your request in abeyance pending completion of our analysis.

We foresee no administrative difficulties in restricting distribution of FBI reports and letterhead memoranda within the Criminal Division. In addition, it would not appear that such action would have an adverse impact upon the legal basis for our internal security programs so long as you continue to evaluate our investigative product rigorously for consistency with policies of the Attorney General and prosecutive potential.

In accordance with your request, we will discontinue disseminating to the General Crimes Section of the Criminal Division those categories of FBI reports and letterhead memoranda enumerated in your November 18 memorandum, unless dissemination is being made to a local United States Attorney's Office.

We will continue to furnish to the Internal Security Section of the Criminal Division reports and letterhead memoranda concerning these matters, together with information necessary to enable the Attorney General to fulfill his responsibilities under Section 13 of Executive Order 10450. We will also continue to disseminate information concerning civil disturbances to the Analysis and Evaluation Unit in the Office of the Deputy Attorney General.

Assistant Attorney General
Criminal Division

It is our understanding that it will be the responsibility of the Criminal Division's Internal Security Section to review FBI reports and letterhead memoranda for consistency with policies of the Attorney General and to detect prosecutable violations of law in those categories of cases which will be subject to the streamlined dissemination procedures being implemented.

As you are aware, it has not been our practice to present internal security matters to local United States Attorneys. It is our understanding that this procedure is to be continued and that you will advise us when information developed in connection with an investigation in the internal security field should be brought to the attention of a United States Attorney.

Your concurrence is requested.

SUBJECT: DISSEMINATION OF FBI INTELLIGENCE REPORTS AND LETTERHEAD MEMORANDA

Adv - Sen,

On 5/29/75 a meeting was held at the Federal Triangle Building to discuss changes in the disseminating process of communications from the FBI to the Department of Justice (DOJ). Present at this meeting were SA [redacted] General Investigative Division (GID), SA [redacted] Intelligence Division, [redacted] and [redacted] of the Criminal Division, General Crimes Section, DOJ, and [redacted] of Analysis and Evaluation Unit (AEU), DOJ.

Information discussed pertinent to GID related to disseminating teletypes on Indian matters, Crime on Indian Reservation to AEU and that no Civil Rights violations be disseminated to the Criminal Division, General Crimes Section, DOJ, unless there is imminent or actual criminal activity.

The above-mentioned procedure is presently being followed by the General Crimes Unit and Civil Rights Unit, therefore, no changes in the disseminating procedure for GID is necessary.

Attached for information is memorandum to the Director of the FBI dated 11/18/74 from the Assistant Attorney General, Criminal Division, DOJ, and teletype dated 5/21/75 to the Director of the FBI from AEU, DOJ, regarding dissemination procedures.

(H) SECURITY INVESTIGATIONS OF ORGANIZATIONS AND INDIVIDUALS - EXTREMIST INVESTIGATIONS OF ORGANIZATIONS AND INDIVIDUALS -- Review of manual provisions relating to captioned matters indicates some possibility of misinterpretation of our basis for conducting these type investigations and the following changes are being made to clarify existing instructions:

In Manual of Instructions (M of I), Section 87, page 4, item captioned "Definitions," line 6, the words "or advocate" will be deleted as they more appropriately apply to a basis or predication for investigation. On page 5, item 5b, at the end of paragraph 2, the following sentence will be added: "Advocacy of subversive activities, while a basis for a preliminary inquiry, is not a basis for a full investigation." Similarly, in M of I, Section 122, page 1b, item e, line 7, the words "or advocate" will be deleted; page 1c, item 2a, line 2, the words "or advocated" will be deleted; and page 2, item (6) (a), line 2, the words "advocating or" will be deleted.

With regard to preliminary-inquiry-type investigations, instructions contained in Section 87, M of I, page 5, item 5b, paragraph 2, as amended above, equally apply to extremist investigations conducted under Section 122, M of I. Manual and Agent Handbook changes follow.

General

(C) ADMINISTRATIVE INDEX (ADEX) -- Present criteria provide for inclusion in ADEX of only those persons who, on a current basis, demonstrate a willingness and capability of engaging in acts of treason, rebellion or insurrection, sedition, sabotage, espionage, terrorism, guerrilla warfare, assassination of government officials, or other such acts which would result in interference with/or a threat to the survival and effective operation of national, state or local governments. This includes leaders of organizations, the aims of which involve the overthrow or destruction of the U. S. Government by unlawful means. The term "leaders" has been defined as those individuals who are in a position to significantly influence the policies or direct the activities of an organization.

FBIHQ has had occasion in the past to deny a number of recommendations for ADEX inclusion. Denials were based on the conclusion that subjects being recommended had marginal leadership positions within structured and disciplined subversive or extremist organizations of nationwide scope. While such subjects were nominal leaders on various levels of authority within these organizations, they had not significantly influenced the policies or activities of such organizations.

To eliminate unwarranted recommendations, you are to insure that each case considered under ADEX is closely evaluated. Each communication submitted recommending a subject for ADEX inclusion should include full justification and not be limited to a statement that a subject occupies a position in a leading body on a national, regional or state level. A statement documenting a subject's current active participation in policy-making activities or significant influence on policy or activities in a structured and disciplined subversive or extremist organization would serve to justify an ADEX recommendation.

PURPOSE:

To send an SAC Memorandum instructing the field of need for clear justification of each ADEX recommendation made.

BACKGROUND:

The stated purpose of ADEX is "to have a readily available and up-to-date listing of individuals deemed currently dangerous to the national security."

Manual of Instructions (MOI), Section 87, page 19, Item E.b., states:

"This would include leaders of organizations whose aims include the overthrow or destruction of the Government of the United States or the government of any state, territory, district, or possession thereof, or the government of any political subdivision therein, by unlawful means. The term "leaders" denotes those individuals, irrespective of title, who are in a position to significantly influence the policies or direct the activities of the group. Mere membership in an organization, without the element of leadership or without a demonstrated willingness and capability described in paragraph a, is not sufficient for inclusion in ADEX."

REC-36 100-358086-426

Another criterion applies to individuals who are considered currently dangerous, who are not leaders of organizations, supra.

Memorandum to Mr. W. R. Wannall
Re: Administrative Index (ADEX)

Concerning structured and disciplined subversive and extremist groups, policy flows from the national leadership level. There are subjects, however, occupying state and regional leadership positions, who significantly influence the policies or direct the activities of these groups. Others, while occupying such a position, have no real authority and, therefore, are not leaders under the above definition. Experience has shown that the field's recommendations to include subjects in ADEX occasionally fail to show cognition of this distinction, as to what constitutes leadership in a structured and disciplined subversive and extremist group.

OBSERVATIONS:

It is believed that a memorandum directed to all SACs pointing out the need for close evaluation of each case considered under ADEX will tend to eliminate unwarranted recommendations for ADEX inclusion. By requiring the field to fully justify each ADEX recommendation, the memorandum should also have the effect of increasing uniformity in the field relative to ADEX handling.

RECOMMENDATIONS:

1. That attached SAC memorandum be approved.

2. That enclosed manual revision be forwarded to Training Division for handling.

Section 87E. 2. d., page 19, should be revised as follows:

Line 11 - criteria enumerated above. Insure that each case considered under ADEX is closely evaluated. Each communication submitted recommending a subject for ADEX inclusion should include full justification and not be limited to a statement that a subject occupies a position in a leading body on a national, regional or state level. The purpose of this memorandum is to alert you to items appearing in New York City and local newspapers 8/3/75 written by Mr. John M. Crewdson relating to the "Security Index."

The 8/3/75 issue of "The New York Times" contained an article captioned "FBI Reportedly Listed Citizens to Detain in Crisis." Attributing information to undisclosed sources, this article disclosed that the Federal Bureau of Investigation began in the early 1950s to compile a secret list, known as the "Security Index," of American citizens who were "targeted for detention" in a national emergency under the Subversive Activities Control Act. At its peak this list reportedly contained approximately 15,000 names, including suspected agents of hostile Governments, and virtually all known members of the American Communist Party. According to newspaper sources, the list also contained several clergymen, some persons who were quite "elderly" and others who posed no genuine internal security threat. Although the emergency detention provisions of the Subversive Activities Control Act under which the Index was established were repealed by Congress in 1971, one of the sources said the Index was still being maintained by the FBI in anticipation of the reinstatement of such authority.

EX-104 REC-16 100-358086-4262

The newspaper account also disclosed that an FBI spokesman acknowledged that the FBI does "maintain a list of individuals felt to be dangerous to the internal security of the U.S." This list was "not for detention purposes" but is merely for administrative control within the FBI. An unnamed Justice Department official reportedly stated that, in addition to suspected terrorists, the list was likely to include at any given time political dissidents and members of Marxist organizations ranging from the Communist Party to the pro-Chinese Revolutionary Union.

7 AUG 22 1975

These newspaper accounts also disclosed that according to an unidentified Justice Department official, the FBI asked the Department of Justice whether it could continue to maintain the Index as a part of the Bureau's record keeping system following repeal of the Emergency Detention Authority in 1971. This Justice Department source recalled that the FBI was informed they could keep records.

These newspaper accounts concluded with information regarding gradual decrease in numbers of individuals included in the Index. The 10,000 or so names that were weeded out, according to the newspaper sources, were placed into a "reserve index" which

TJS:ekw

for practical purposes served as an inactive file. It could not be learned whether the reserve index was still in existence.

The Emergency Detention Program operated by us emanated from Title II of the Internal Security Act of 1950 commonly cited as the Emergency Detention Act (EDA) of 1950. This enactment authorized the President during self-declared internal security emergencies such as an invasion or insurrection to confine in detention camps persons concerning whom there was reasonable grounds to believe might commit or conspire with others to commit espionage or sabotage. The Attorney General charged the FBI with responsibility for apprehension of persons falling within the scope of the EDA. The names of those to be arrested under the EDA of 1950 were included in a Security Index (SI).

The SI was an operational guide for apprehension maintained by the FBI and included the names of persons deemed potentially dangerous in the event of a national emergency. Dangerousness was assessed through investigation, and final approval for inclusion rested with the Department of Justice.

Following the termination of World War II, all SI cards were cancelled at the Bureau in September, 1945, with the exception of those relating to communists, Russians, and certain other individuals affiliated with Marxist groups. As of February, 1946, cards were being maintained only on individuals of great importance. As of February, 1946, we had 10,736 cards on individuals included in the SI.

In early 1948, the United States was threatened with difficulties with the Soviet Union and we realized the need for being prepared for the possible detention of communists should an armed conflict between the two nations arise. In order to more effectively cope with the situation, a reevaluation was made of our investigations in the communist field and the Communist Index (CI) was set up and was comprised of all known Communist Party members and reported members of communist organizations. The CI should be distinguished from the SI and was designed to include those individuals who should be continually borne in mind from the standpoint of the security of the country with a view toward possible investigation, interrogation or action at some future date. In June, 1960, the CI became known as the Reserve Index (RI) as the latter name was more descriptive since the Index actually contained the names of individuals formerly affiliated with subversive organizations other than the Communist Party. The RI represented a group of individuals who, next to SI subjects, presented the greatest potential threat to the internal security of this country in time of an emergency.

On 9/25/71 Title II of the Internal Security Act of 1950 was repealed by an act of Congress and simultaneously we discontinued the SI and the RI. Simultaneously, the maintenance of SI and RI cards both at Headquarters and in the field was discontinued and all plans for apprehension of those listed on the SI were set aside.

Memorandum to Mr. W. R. Wannall
RE: SECURITY INDEX

On 10/22/71, the Attorney General advised that our investigative authority remained unaffected by repeal of the EDA, and the FBI was not prohibited from maintaining an Administrative Index (ADEX) on security subjects. Thereafter, ADEX was created as an administrative device for internal FBI use only. The Department of Justice has been informed of FBI policy regarding ADEX which provides a listing of individuals posing a danger to the internal security of the U. S. ADEX affords us a record of individuals which may merit close investigative attention pending legal steps by the President to take further action. Only those individuals are included on ADEX who have shown a willingness and capability of engaging in activities including but not restricted to treason, rebellion, sabotage, espionage and terrorism.

The number of individuals included on ADEX has declined from 15,500 (August, 1972) to 1,351 as of 6/15/75.

RECOMMENDATION:

Will follow and you will be advised of any additional pertinent information.

SUBJECT: ~~LIST OF SECURITY SUBJECTS~~ Security Investigation of Individuals - General

Enclosed herewith is one copy each of the following lists of security subjects for transmittal to the Training Division, Quantico, for storage with other vital records maintained there.

1. Alphabetical list
2. Geographical list
3. Special Section
4. Specials out of country
5. Subjects whose citizenship status is unknown
6. Aliens
7. Missing subjects

Training Division, Quantico, should destroy by burning the lists furnished 7/23/75. When this action has been taken, that Division should so note on this memorandum and return it to E. P. Grigalus, 4433 JEH Building.

ACTION:

If you approve, this memorandum and the attached lists will be furnished to Training Division, Quantico, for the above action.

SUBJECT: SECURITY INDEX

Adep - General

On 8/27/75, [redacted] of the Deputy Attorney General's Office, called and said that the Deputy Attorney General had received a note from the Attorney General relating to the recent "NY Times" article regarding the Security Index. She indicated that the Deputy was aware that the Security Index no longer existed, but that we did maintain a current index under a different name of the most prominent subversive individuals. She asked that we send to the Deputy for his background information a memorandum indicating the history of the Security Index, the criteria used for it, a description of the current index, the criteria used, and any authority for its maintenance.

RECOMMENDATION:

That the Intelligence Division prepare an appropriate memorandum.

which the individual is engaged is placed on the cards. This index is reviewed continuously and on a monthly basis is brought up-to-date with names being added and deleted. Once deletions are made, former lists cannot be reconstructed. The index on January 15, 1975, contained the names of 1,537 individuals and as of August 15, 1975, there were 1,294 names on the index.

As an administrative aid the index currently utilized by the FBI enables the FBI to remain alert to individuals who have exhibited a propensity to conduct acts inimical to the national security and affords the FBI a record of individuals who would merit close investigative attention pending legal steps by the President to take further action. It also serves as an extremely valuable list of individuals who pose a threat to the safety of the President of the United States, thereby enabling the FBI to provide current data to the United States Secret Service concerning these individuals.

The SI program was reviewed on a continuous basis at FBIHQ and whenever revisions of policy or criteria were made in the program, such revisions were submitted to the Attorney General for approval. The authority of the FBI in every phase of the SI program prior and subsequent to the passage of the Internal Security Act of 1950 has emanated from the Attorney General. Individuals were never investigated for the purpose of placing them on the SI; however, if an investigation of an individual disclosed potential dangerousness to the internal security of the United States in the event of a national emergency, then inclusion on the SI was considered.

On September 25, 1971, the EDA was repealed by Congress and the SI was discontinued as well as all plans for the apprehension of those listed on the SI.

Following repeal of the EDA during September, 1971, the Attorney General was requested to advise whether repeal of the EDA limited the authority of the FBI to conduct security investigations or maintain an administrative index of security subjects. The Attorney General advised on October 22, 1971, that the investigative authority of the FBI was not affected and the FBI was not prohibited from maintaining an index of security subjects. As a result of the Attorney General's notification the FBI instituted an Administrative Index (ADEX) for use as an administrative aid to maintain a readily available and up-to-date list of individuals deemed dangerous to the internal security and who would be afforded priority investigative coverage in the event of a national emergency. Individuals are not included on this index merely because of opposition to Government policies or because they exercise their constitutional rights of protest or dissent. Membership in a subversive organization is not sufficient to warrant inclusion on this index. Individuals who are included are those who have exhibited a willingness or capability of engaging in treason, rebellion, sedition, sabotage, espionage, assassination of Government officials, terrorism, guerrilla warfare, or other acts which would result in interference with or a threat to the survival and effective operation of national, state, or local government. During 1972 the operation of this index was evaluated and revised to include only those individuals who pose a realistic, direct and current danger to the national security.

The ADEX is printed on 5 x 8 cards which are maintained at FBIHQ in the Intelligence Division. Name, background information, file numbers, and type of activity in

espionage investigations then being conducted by the FBI. The Attorney General was apprised of this list so the Attorney General could advise whether such action met with his approval. As far back as September 20, 1946, the Department of Justice advised the FBI that a program was under consideration for the detention of communists in the event of a national emergency or hostilities between the United States and the USSR through Presidential Directive which would empower the Secretary of War to define a military exclusion area and would provide for the detention of persons by the Bureau of Prisons. During August, 1948, the Department provided the FBI with a Departmental Portfolio entitled, "Program For Apprehension and Detention of Persons Considered Potentially Dangerous to the National Defense and Public Safety of the United States." This program established guidelines for the apprehension by the FBI of individuals considered dangerous to the national defense of the United States during times of emergency. In time of an emergency a Presidential Proclamation would be issued and brought before Congress for ratification.

On September 23, 1950, the Internal Security Act of 1950 became a law and with it the passage of Title II concerning the Emergency Detention Act (EDA). Title II of the Internal Security Act declared that when a state of internal security emergency is proclaimed by the President, he, through the Attorney General, would direct the apprehension and detention of each person as to whom there WEILE reasonable grounds to believe that such person probably would engage in, or probably conspire with others to engage in acts of espionage or sabotage. The list, or SI, being maintained by the FBI of those persons who should be considered dangerous during times of an emergency was to be utilized to aid in the apprehension and detention of individuals under the auspices of the EDA. During 1951, a list of names which were maintained on the SI was prepared and furnished the Department. Criteria for inclusion on the SI were furnished the Department and on October 8, 1952, the Attorney General approved the standards used by the FBI.

The SI consisted of 5 x 8 cards which contained background information, nationalistic tendency, file numbers, and organizational affiliation of the individuals included thereon. Additions to and deletions from the SI were reviewed for approval or rejection at FBI Headquarters (FBIHQ) and final approval was furnished by the Department except for a period during 1955 when the Department had neither funds nor manpower for the review.

OF THE HOUSE COMMITTEE ON THE JUDICIARY

Reference is made to a letter dated August 6, 1975, to the Attorney General from the Chairman of captioned subcommittee requesting information relating to the Federal Bureau of Investigation (FBI) maintaining a Security Index (SI) and opening mail in connection with the FBI's foreign counter-intelligence responsibilities.

The SI actually predated the passage of the Internal Security Act of 1950. During 1939 and 1940, a custodial detention list was compiled by the FBI consisting of the identity of those individuals whose presence at liberty in the United States in time of war or national emergency would be dangerous to the public peace and safety of the United States Government. On June 26, 1940, the Attorney General was advised of such a list and on March 18, 1941, information pertaining to the identity and tendencies of individuals on this list was forwarded to the Department of Justice. The use of the term custodial detention list was discontinued on August 14, 1943, and the list then became known as the SI. During 1945 the SI was cancelled except for those portions relating to communists, Russians, and individuals whose nationalistic tendencies resulted from an ideological or organizational affiliations with Marxist groups. On March 8, 1946, the FBI advised the Attorney General a list was being prepared of all members of the Communist Party and any others who would be dangerous or potentially dangerous in the event of a break in diplomatic relations with the Soviet Union, or other serious crisis, involving the United States and the USSR. This list was to be prepared as a result of developments in the international situation during that time period and in light of Soviet

PROPOSED CRITERIA FOR PLACING AND RETAINING NAMES IN THE SECURITY INDEX

1) No name shall be added to or retained in the Security Index unless one or more of the following situations has been established through investigation:

(a) Subject has had membership or participation in the activities of a basic revolutionary organization within the last 5 years as shown by overt acts or statements established through reliable sources, informants, or individuals;

(b) Subject has had membership or participation in the affairs of one or more front organizations, which adhere to the policies and doctrines of a revolutionary group, in a leadership capacity or by active substantial participation in the furtherance of the aims or purposes of the front organization within the last 3 years as shown by overt acts or statements established through reliable sources, informants, or individuals;

(c) Investigation has developed information that an individual, though not a member or a participant in the activities of a subversive organization, has anarchist or revolutionary beliefs and is likely to seize upon the opportunity presented by a national emergency to endanger the public safety as shown by overt acts or statements within the last 3 years established through reliable sources, informants, or individuals;

(d) Although investigation has failed to establish overt acts or statements on the part of a subject within the time limits set out above, facts have been developed which clearly and unmistakably depict the subject as a dangerous individual who could be expected to commit acts inimical to the security of the country in time of emergency.

100-358086-4265

2) In evaluating interviews insofar as Security Index status is concerned you should be guided as follows:

(a) Whenever a subject of a security investigation by a positive statement to interviewing Agents clearly indicates a continued adherence to the doctrines, aims or purposes of a revolutionary organization or a front organization, the positive statement shall be considered an overt act on the part of the subject in establishing continued adherence.

(b) Other than as indicated above, interviews with Security Index subjects or potential Security Index subjects are not to be considered as factors requiring the placing or retaining of names of persons on the Security Index; for example, lack of cooperation or partial cooperation are not to be regarded as such factors.

OF PERSONS CONSIDERED POTENTIALLY

Reference is made to your memorandum dated December 22, 1954, in which you requested that I furnish you with the general criteria or standards utilized in determining whether or not names should be included on the list of persons to be considered for apprehension in an emergency under the above-captioned program.

In compliance with your request, there are set out hereinafter the general criteria or standards which we apply in determining dangerousness or potential dangerousness. Based on our experience it is not possible to categorize all subjects of security investigations because of their varying degrees of subversive activity and revolutionary dispositions. The following criteria or standards are not relied upon as all-inclusive, but are used as guides to assist in determining whether a subject should be considered for apprehension in the event of an emergency.

A. Any subject of a current espionage investigation.

B. Any individual who has knowledge of or who has given or received instructions or assignment in espionage, counterespionage or sabotage services or procedures of a government or political party of a foreign country - except where such activity was obtained for lawful purposes on behalf of the United States Government or where such activity has been offset by subsequent cooperation with the United States Government.

Any individual who has participated in the past in any act of espionage, counterespionage, sabotage, or any attempt or conspiracy to commit any act of espionage, counterespionage or sabotage for a foreign power or foreign political party against the interests of the United States - except where such activity has been offset by subsequent cooperation with the Government of the United States.

I desire to call your attention to another proposed innovation with respect to the Security Index. It is felt that the hard core of subversives in leadership capacities and those subjects known to be of extreme revolutionary disposition should be designated for priority of apprehension. These particular individuals would be placed in a separate category and procedures perfected whereby they might be taken into custody under captioned Program upon a declaration of war. The remaining subjects in the Security Index would be apprehended under the Emergency Detention Program, of course, should an invasion occur.

It is respectfully requested that you advise me at the earliest opportunity if the proposed modifications in the criteria for Security Index status and the proposed priority of arrest procedure meet with your approval.

THE ATTORNEY GENERAL March 9, 1955

DIRECTOR, FBI

PROGRAM FOR APPREHENSION AND DETENTION OF PERSONS CONSIDERED POTENTIALLY DANGEROUS TO THE NATIONAL DEFENSE AND PUBLIC SAFETY OF THE UNITED STATES

I have been advised in Mr. [redacted] memorandum of December 1, 1954, that the Department will be unable to resume the general review of all Security Index cases. It was indicated that it will not be possible to contemplate such a review even in fiscal year 1956.

In my memorandum of December 8, 1954, I re-emphasized my conviction that all Security Index cases should be subjected to review by the legal staff of the Department. I pointed out that authority for the arrests under captioned Program is vested in the Department and representatives from the Department will handle the hearings relating to the Emergency Detention Program.

I have continued to study this problem in all its aspects. As you can appreciate, unless these cases are reviewed by the Department, it places the FBI in the anomalous position of being both the investigator and the prosecutor with respect to thousands of persons, most of whom are United States citizens. Under such circumstances, I am convinced that if the FBI is to continue to both investigate and pass on the soundness of these cases, it is incumbent upon us to take every step at our disposal to minimize the inevitable criticism of the dual role now assumed by the FBI. Mass arrests under this Program would have a cataclysmic effect upon the public. To minimize this reaction we propose to put into effect new criteria for placing and retaining individuals in the Security Index which, to a great extent, limit and modify the standards which have previously been made available to the Department. The basis for this action, as indicated previously, lies in the fact that the Department is unable to pass upon each case in advance of a national emergency.

The proposed new criteria are set out in the attachment to this memorandum.

DEPARTMENT OF JUSTICE

Memorandum

TO : Director
Federal Bureau of Investigation

DATE: October 22, 1971

FROM : The Attorney General

SUBJECT: EMERGENCY DETENTION PROGRAM

This will acknowledge your memorandum of September 30, 1971 regarding the effect that the repeal of Title II of the Internal Security Act of 1950, as amended, has on the FBI's authority "to investigate subversive activities and related matters."

With respect to your initial inquiry, I wish to advise you that the FBI's authority to investigate violations of the espionage, sabotage, Smith Act, Atomic Energy Act and related statutes, as well as subversive activities and related matters in accordance with its statutory responsibilities and the Presidential directives, cited in your memorandum, remains unaffected by the repeal of the Emergency Detention Act.

Furthermore, the repeal of the aforementioned Act does not alter or limit the FBI's authority and responsibility to record, file and index information secured pursuant to its statutory and Presidential authority. An FBI administrative index compiled and maintained to assist the Bureau in making readily retrievable and available the results of its investigations into subversive activities and related matters is not prohibited by the repeal of the Emergency Detention Act.

While the Department does not desire a copy of any lists that you may compile on the basis of such records or indices, the Internal Security Division should be furnished a monthly memorandum reflecting the identity of government employees who by significant acts or membership in subversive organizations, have demonstrated a propensity to commit acts inimical to our national security.

With regard to Department instructions to the United States Attorneys and Marshals and related materials maintained in sealed envelopes in each of the Bureau's field offices, it is noted that such emergency documents were prepared on the basis of authority other than the Emergency Detention Act. A study is being undertaken within the Department as to the disposition to be made of those pre-positioned sealed instructions. When such a review has been completed you will be appropriately advised.

The Attorney General

You are therefore requested to advise whether you concur in our opinion that the FBI's authority and responsibility to investigate subversive activities and related matters has not been eroded by repeal of the Emergency Detention Act. You are further requested to advise if you concur in our opinion that the repeal of the Emergency Detention Act does not prohibit or limit the FBI's authority and responsibility to keep and maintain administrative records, including an administrative index of individuals under investigation in connection with subversive activities and related matters, which are necessary in fulfilling our investigative authority and responsibility.

In the past we have furnished the Internal Security Division on a monthly basis a current list of individuals listed on the Security Index. This has been discontinued. However, in the event you approve of our maintaining an administrative index, as described above, please advise whether the Internal Security Division desires a copy of any current list we might prepare in this regard.

You are also requested to advise what disposition should be made of warrants, sealed envelopes captioned "Department of Justice Instructions to United States Attorneys" and "Department of Justice Instructions to United States Marshals" which have been maintained in each of our field offices in connection with the Emergency Detention Program.

In view of the urgency of the matter and the critical need to continue an uninterrupted program of investigating subversive activities and related matters, you are requested to furnish a reply to the foregoing questions at the earliest possible time.

Internal Security Division

The Attorney General

On January 8, 1943, the President issued a Directive reiterating his previous Directive of September 6, 1939, and subsequently on July 24, 1950, the President issued a third Directive, reiterating previous Directives of September 6, 1939, and January 8, 1943, and broadened the scope of investigative activity by the FBI to include "subversive activities and related matters" as well as the specific matters involving espionage and sabotage. On December 15, 1953, the President issued a statement in which he set forth the language contained in the combined Presidential Directives dated September 6, 1939, January 8, 1943, and July 24, 1950, concerning the investigative responsibility of the FBI in matters relating to "espionage, sabotage, subversive activities and related matters." The statement then pointed out the FBI is also charged with investigating all violations of the Atomic Energy Act and requested cooperation of all enforcement officers, as in the previous Directives, in reporting all information relating to violations of the Atomic Energy Act to the nearest representative of the FBI.

Based on interpretation of existing statutes and the language set forth in the various Presidential Directives cited above, we feel that the repeal of the Emergency Detention Act of 1950 has not eroded the FBI's authority and responsibility to conduct investigation of subversive activities and related matters. Likewise, we feel that the repeal of this Act does not limit the FBI's authority and responsibility to keep and maintain administrative records, including various indices, which may be necessary in fulfilling such responsibility and authority.

I strongly feel that irrespective of the repeal of the Emergency Detention Act, the Federal Government must take whatever steps are necessary, within the law, to protect itself from all hostile forces bent on its destruction. We, therefore, feel that it is absolutely incumbent upon the FBI to continue investigations of those who pose a threat to the internal security of the country and to maintain an administrative index of such individuals as an essential part of our investigative responsibility. Such an index not only enables the FBI to pinpoint individuals who have exhibited a propensity to conduct acts inimical to national security, but also serves as an extremely valuable list of individuals who pose a continuing threat to the safety of the President and thereby enables us to provide current data to U. S. Secret Service concerning backgrounds and whereabouts of such individuals.

Director, FBI

EMERGENCY DETENTION PROGRAM

In view of the fact the President has signed the Act repealing Title II of the Internal Security Act of 1950, which was commonly referred to as the Emergency Detention Act of 1950, your views are being solicited concerning FBI authority to continue investigations of subversive activity covered, in part, by this Act.

We have discontinued all planning for emergency apprehension and detention of those subjects listed in the Security Index, which is a list of individuals whose histories show they might engage in or conspire to engage in acts of espionage or sabotage during a national emergency. We have likewise discontinued operation of the Security Index, which was an integral part of implementation of emergency apprehension.

In addition to statutory authority provided in the Smith Act of 1940, Title I of the Internal Security Act of 1950, the Communist Control Act of 1954, and statutes relating to espionage, sabotage, rebellion and insurrection, sedition and seditious conspiracy, we feel that authority for the FBI to conduct investigations of subversive activity and related activity is clearly set forth in certain Presidential Directives. For example, on June 26, 1939, the President issued a confidential Directive to the heads of various Government Departments which stated: "It is my desire that the investigation of all espionage, and sabotage matters be controlled and handled by the Federal Bureau of Investigation of the Department of Justice...." On September 6, 1939, the President issued a Directive as follows: "The Attorney General has been requested by me to instruct the Federal Bureau of Investigation of the Department of Justice to take charge of investigative matters relating to espionage, sabotage, subversive activities and violations of neutrality regulations." This Directive also pointed out that "the investigations" (by the FBI) "must be conducted in a comprehensive and effective manner, on a national basis, and all information carefully sifted out and correlated in order to avoid confusion and irresponsibility."

organization or front organization but who has continued to adhere to the policies and doctrines of revolutionary groups since the outbreak of Korean hostilities (June 25, 1950) by espousing the line of such organizations.

H. Independent adherence to revolutionary ideology

Any individual who has not been determined to have at any time been a member of or to have associated with any basic revolutionary or front organization but has by statement or action declared his continued adherence to and support of the revolutionary ideology of a foreign government or foreign political party as opposed to the best interests of the United States Government, or any individual who, because of anarchist or revolutionary beliefs, is likely to seize upon the opportunity presented by a national emergency to endanger the public safety and welfare.

i. Served with the Office of Strategic Services during World War II.

j. Is employed by a municipal or state government or the Federal Government.

k. Is employed in or connected with any industry or facility vital to the national defense, health or welfare.

l. Is employed in any position having potentialities for espionage or sabotage.

m. Who has access to explosives, chemicals, weapons, ammunition or other material or equipment which could logically be utilized by revolutionary groups in an armed uprising.

n. Has had experience as a picket captain, strong-arm man or has otherwise actively participated in violent strikes, riots or demonstrations.

o. Is employed as an organizer or official of a labor union.

p. Has held positions which determined the destiny of front or mass organizations.

F. Membership in front organizations only

Any individual who is not known to have held membership in one of the basic revolutionary organizations but who has continued to adhere to the policies and doctrines of revolutionary groups subsequent to the outbreak of Korean hostilities (June 25, 1950) by continuing activity in the affairs of one or more front organizations in a leadership capacity or by active participation in the furtherance of the aims and purposes of the front organization.

G. Espousing the line

Any individual who has not been determined to have been a member of or associated with either a basic revolutionary

revolutionary organization or world Communist movement - except where such activity has been offset by subsequent cooperation with the Government of the United States.

E. Membership in basic revolutionary organization (Communist Party, USA, Socialist Workers Party, Independent Socialist League, Proletarian Party of America, Nationalist Party of Puerto Rico, Socialist Union of America.)

1. Any individual who is known to have been a member of one of the basic revolutionary organizations after January 1, 1949, and who is not known to have defected therefrom or his activities have not been offset by cooperation with the United States Government.

2. Any individual who is known to have been a member of a basic revolutionary organization prior to January 1, 1949, who is not known to have defected therefrom or his activities have not been offset by cooperation with the United States Government and:

   a. Has had years of training and experience in the organization.

   b. Has been responsible for actual execution of the organization's orders.

   c. Has received special training in the organization or has had training in the Lenin School or Far Eastern Institute in Moscow.

   d. Has occupied one or more positions of leadership in the organization.

   e. Has at any time been involved in the Red Army Intelligence, the MVD, or MGB, or intelligence service of any foreign country.

   f. Has been used as a courier or mail drop by the revolutionary organization.

   g. Has served in the armed forces of any country.

   h. Served in the Loyalist forces in Spain during the Spanish Civil War.

Pursuant to your telephonic request on 8/27/75, attached background information is being submitted pertaining to the Security Index and the ADEX. The ADEX is the current indices being utilized by the FBI and is a readily available up-to-date list of individuals deemed dangerous to the internal security and who would be afforded priority investigative coverage in the event of a national emergency.

Attached is a copy of a memorandum submitted to the Subcommittee on Courts, Civil Liberties and the Administration of Justice of the House Committee on the Judiciary, through the AG on 9/4/75.

Also attached are copies of five documents which are believed to be responsive to your request.

SUBJECT: SECURITY INVESTIGATIONS OF INDIVIDUALS; USE OF PERSONNEL INTERNAL SECURITY general

PURPOSE:

To comment on a possible problem area in implementation of Memorandum to All Special Agents in Charge 38-75 (A), captioned "Use of Personnel," for use of Office of Planning and Evaluation (OPE) and Intelligence Division (INTD) in following the progress of the field.

BACKGROUND:

Before implementation of this program, four offices operated a pilot program whereby the individual Special Agents in Charge (SACs) established priorities on a local basis and allotted manpower and resources accordingly. Subsequently, one of the pilot offices advised as a means of diverting manpower and resources to areas of higher local priority, cases would not be opened on rank-and-file members of national subversive organizations - which was and is contrary to the Manual of Instructions (MOI) concerning these matters.

Because this practice of the office appeared to place local priorities in conflict with what were considered national priorities and because it was strongly felt it was essential that national priority matters receive uniform attention and handling by all offices (in absence of crisis or "special" case situations), a conference was held between Mr. Adams and representatives of INTD and OPE on 10/23/74.

After presentation of facts and discussion by participants, Mr. Adams expressed the view that the survey did not exclude the pilot offices from following FBIHQ directives which are set forth in the MOI. Mr. Adams stated priorities in the security area must be established by FBIHQ on a national basis. It was his belief that basic revolutionary/extremist organizations must be investigated as must their members in spite of the fact that measurement of the productivity of these investigations was difficult, if not impossible, to assess. It was also his view that

national priorities would supersede local priorities of a field office. A letter was directed to the office to comply with existing MOI instructions in these matters.

OBSERVATIONS:

It is apparent and understandable there will be some problems in implementation of an entirely new concept such as this. Because the inherent local priorities versus national priorities conflict has existed previously, it is believed essential that this particular facet of implementation be given close scrutiny and followed carefully by the INTD and OPE.

RECOMMENDATION:

If approved, OPE and INTD will follow implementation of this program to insure local priorities being established do not supersede existing national priorities in the security field or contravene FBIHQ directives which are set forth in the MOI concerning these matters.

ADDENDUM OFFICE OF PLANNING AND EVALUATION H. E. Hoxie/imt 9/5/75

The "Use of Personnel" program as set forth in referenced SAC Memo 38-75(A) does not establish any variance in Manual of Instructions requirements currently in existence in any category. As indicated in general conference held on 9/5/75, attended by representatives of Intelligence, General Investigative, Special Investigative, Administrative, Inspection Divisions and the Office of Planning and Evaluation, the various targets selected by each office will be submitted for review by both OPE and the pertinent investigative divisions for review. Should the targets selected fail to recognize an existing problem of which the substantive investigative division is aware, that division will have every opportunity and prerogative to make its observations and instructions made known to the pertinent field office. The mere fact of the existence of the "Use of Personnel" project will not be justification for variance with existing Manual of Instructions requirements. As normal, however, should individual justification be present any field office should feel free to bring to the attention of the pertinent investigative division facts which conceivably could justify a variance. Such facts then would be subject to review by pertinent divisions to see if, in fact, a variance was justified. The "Use of Personnel" project is not a "wheeler-dealer" program divesting the investigative divisions of their proper supervisory functions.

SUBCOMMITTEE ON COURTS, CIVIL LIBERTIES AND THE ADMINISTRATION OF JUSTICE OF THE HOUSE COMMITTEE ON THE JUDICIARY

Reference is made to a letter dated August 6, 1975, to the Attorney General from the Chairman of captioned Subcommittee requesting information relating to this Bureau's maintaining a Security Index and opening mail in connection with our foreign counterintelligence responsibilities.

Attached for your approval and forwarding to the Subcommittee is an original of a memorandum which contains a response to the requests in referenced letter.

A copy of the memorandum is being furnished for your records.

It should be noted seven documents which are being submitted with the memorandum pursuant to the above requests set forth information relating to the Department's Portfolio concerning the Program for Apprehension and Detention of Persons Considered Potentially Dangerous to the National Defense and Public Safety of the United States, commonly referred to as the Emergency Detention Program. These documents are classified up to and including "Secret" with original classifying authority stemming from the Department. The decision as to whether or not these documents should be declassified at this time is being left to the Department.

NOTE:

Since EDA has been repealed and details relating to its operation have been made public, decision is being left to Department as to declassification of material relating to this matter.

Documents being submitted with this memoranda have been compiled from a Senstudy project and have been made available for review at FBIHQ by appropriately cleared Senate Select Committee staff members. LHM is being classified "Secret" inasmuch as information contained therein discusses aspects of the Emergency Detention Program, which program was classified by the Department.

SUBCOMMITTEE ON COURTS, CIVIL
LIBERTIES AND THE ADMINISTRATION OF JUSTICE
OF THE HOUSE COMMITTEE ON THE JUDICIARY

Reference is made to a letter dated August 6, 1975, to the Attorney General from the Chairman of captioned subcommittee requesting information relating to the Federal Bureau of Investigation (FBI) maintaining a Security Index (SI) and opening mail in connection with the FBI's foreign counter-intelligence responsibilities.

The SI actually predated the passage of the Internal Security Act of 1950. During 1939 and 1940, a custodial detention list was compiled by the FBI consisting of the identity of those individuals whose presence at liberty in the United States in time of war or national emergency would be dangerous to the public peace and safety of the United States Government. On June 26, 1940, the Attorney General was advised of such a list and on March 18, 1941, information pertaining to the identity and tendencies of individuals on this list was forwarded to the Department of Justice. The use of the term custodial detention list was discontinued on August 14, 1943, and the list then became known as the SI. During 1945 the SI was cancelled except for those portions relating to communists, Russians, and individuals whose nationalistic tendencies resulted from an ideological or organizational affiliation with Marxist groups. On March 8, 1946, the FBI advised the Attorney General a list was being prepared of all members of the Communist Party and any others who would be dangerous or potentially dangerous in the event of a break in diplomatic relations with the Soviet Union, or other serious crisis, involving the United States and the USSR. This list was to be prepared as a result of developments in the international situation during that time period and in light of Soviet

espionage investigations then being conducted by the FBI. The Attorney General was apprised of this list so the Attorney General could advise whether such action met with his approval. As far back as September 20, 1946, the Department of Justice advised the FBI that a program was under consideration for the detention of communists in the event of a national emergency or hostilities between the United States and the USSR through Presidential Directive which would empower the Secretary of War to define a military exclusion area and would provide for the detention of persons by the Bureau of Prisons. During August, 1948, the Department provided the FBI with a Departmental Portfolio entitled, "Program For Apprehension and Detention of Persons Considered Potentially Dangerous to the National Defense and Public Safety of the United States." This program established guidelines for the apprehension by the FBI of individuals considered dangerous to the national defense of the United States during times of emergency. In time of an emergency a Presidential Proclamation would be issued and brought before Congress for ratification.

On September 23, 1950, the Internal Security Act of 1950 became a law and with it the passage of Title II concerning the Emergency Detention Act (EDA). Title II of the Internal Security Act declared that when a state of internal security emergency is proclaimed by the President, he, through the Attorney General, would direct the apprehension and detention of each person as to whom there were reasonable grounds to believe that such person probably would engage in, or probably conspire with others to engage in acts of espionage or sabotage. The list, or SI, being maintained by the FBI of those persons who should be considered dangerous during times of an emergency was to be utilized to aid in the apprehension and detention of individuals under the auspices of the EDA. During 1951, a list of names which were maintained on the SI was prepared and furnished the Department. Critoria for inclusion on the SI were furnished the Department and on October 8, 1952, the Attorney General approved the standards used by the FBI.

The SI consisted of 5 x 8 cards which contained background information, nationalistic tendency, file numbers, and organizational affiliation of the individuals included thereon. Additions to and deletions from the SI were reviewed for approval or rejection at FBI Headquarters (FBIHQ) and final approval was furnished by the Department except for a period during 1955 when the Department had neither funds nor manpower for the review.

[redacted]

[redacted]

The SI program was reviewed on a continuous basis at FBIHQ and whenever revisions of policy or criteria were made in the program, such revisions were submitted to the Attorney General for approval. The authority of the FBI in every phase of the SI program prior and subsequent to the passage of the Internal Security Act of 1950 has emanated from the Attorney General. Individuals were never investigated for the purpose of placing them on the SI; however, if an investigation of an individual disclosed potential dangerousness to the internal security of the United States in the event of a national emergency, then inclusion on the SI was considered.

On September 25, 1971, the EDA was repealed by Congress and the SI was discontinued as well as all plans for the apprehension of those listed on the SI.

Following repeal of the EDA during September, 1971, the Attorney General was requested to advise whether repeal of the EDA limited the authority of the FBI to conduct security investigations or maintain an administrative index of security subjects. The Attorney General advised on October 22, 1971, that the investigative authority of the FBI was not affected and the FBI was not prohibited from maintaining an index of security subjects. As a result of the Attorney General's notification the FBI instituted an index for use as an administrative aid to maintain a readily available and up-to-date list of individuals deemed dangerous to the internal security and who would be afforded priority investigative coverage in the event of a national emergency. Individuals are not included on this index merely because of opposition to Government policies or because they exercise their constitutional rights of protest or dissent. Membership in a subversive organization is not sufficient to warrant inclusion on this index. Individuals who are included are those who have exhibited a willingness or capability of engaging in treason, rebellion, sedition, sabotage, espionage, assassination of Government officials, terrorism, guerrilla warfare, or other acts which would result in interference with or a threat to the survival and effective operation of national, state, or local government. During 1972 the operation of this index was evaluated and revised to include only those individuals who pose a realistic, direct and current danger to the national security.

This index is printed on 5 x 8 cards which are maintained at FBIHQ in the Intelligence Division. Name, background information, file numbers, and type of activity in

[redacted]

[redacted]

which the individual is engaged is placed on the cards. This index is reviewed continuously and on a monthly basis is brought up to date with names being added and deleted. Once deletions are made, former lists can not be reconstructed. The index on January 15, 1975, contained the names of 1,537 individuals and as of August 15, 1975, there were 1,294 names on the index.

As an administrative aid the index currently utilized by the FBI enables the FBI to remain alert to individuals who have exhibited a propensity to conduct acts inimical to the national security and affords the FBI a record of individuals who would merit close investigative attention pending legal steps by the President to take further action. It also serves as an extremely valuable list of individuals who pose a threat to the safety of the President of the United States, thereby enabling the FBI to provide current data to the United States Secret Service concerning these individuals.

As noted above, past lists can not be reconstructed and the index contains only the names and background information which would identify individuals listed thereon. For reasons of privacy and inasmuch as release of information on this index could adversely affect current operations and investigations being conducted by the FBI, information contained on the index is not being furnished.

The Assistant Attorney General, Criminal Division, Department of Justice, is currently conducting an inquiry into activities of the FBI with the respect to determining whether any violation of the law has occurred in connection with this Bureau's alleged improprieties involving the United States mail. Until such time as this inquiry is completed, we will not be able to respond to the request concerning mail openings.

Seven classified documents are being submitted pertaining to matter discussed in this memorandum and are considered appropriate in response to the request concerning the SI. These documents are classified through authority stemming from the Department.

Reference is made to HSC request dated August 27, 1975, for "delivery of all ADEX lists that have been maintained since January 1, 1973 until the present." It is also noted on the occasion of the testimony of Assistant Director E. W. Walsh of the Federal Bureau of Investigation (FBI) before the HSC on August 7, 1975, on the subject matter "Budget Inquiry on Intelligence Activities," pages 1278-1279 of the testimony transcript indicates that Representative Ronald V. Dellums inquired "What is the SI?; What was the authority for it?; Is it still in operation?; If not, when did it end?; Was operation ever discussed with Congress or OMB; Did Bureau budget show funds for operation of SI?"

As the subject matter of both the Administrative Index (ADEX) and the Security Index (SI) programs are interrelated, there is set forth below background information concerning these programs which is believed will be responsive to inquiries of the HSC.

Additions to and deletions from the SI were reviewed for approval or rejection at FBI Headquarters (FBIHQ) and final approval was furnished by the Department except for a period during 1955 when the Department had neither funds nor manpower for the review.

The SI program was reviewed on a continuous basis at FBIHQ and whenever revisions of policy or criteria were made in the program, such revisions were submitted to the Attorney General for approval. The authority of the FBI in every phase of the SI program prior and subsequent to the passage of the Internal Security Act of 1950 has emanated from the Attorney General. Individuals were never investigated for the purpose of placing them on the SI; however, if an investigation of an individual disclosed potential dangerousness to the internal security of the United States in the event of a national emergency, then inclusion on the SI was considered.

On September 25, 1971, the SDA was repealed by Congress and the SI was discontinued as well as all plans for the apprehension of those listed on the SI.

Following repeal of the SDA during September, 1971, the Attorney General was requested to advise whether repeal of the SDA limited the authority of the FBI to conduct security investigations or maintain an administrative index of security subjects. The Attorney General advised on October 22, 1971, that the investigative authority of the FBI was not affected and the FBI was not prohibited from maintaining an index of security subjects. As a result of the Attorney General's notification the FBI instituted an ADEX for use as an administrative aid to maintain a readily available and up-to-date list of individuals deemed dangerous to the internal security and who would be afforded priority investigative coverage in the event of a national emergency. Individuals are not included on this index merely because of opposition to Government policies or

[redacted]

[redacted]

because they exercise their constitutional rights of protest or dissent. Membership in a subversive organization is not sufficient to warrant inclusion on this index. Individuals who are included are those who have exhibited a willingness or capability of engaging in treason, rebellion, sedition, sabotage, espionage, assassination of Government officials, terrorism, guerrilla warfare, or other acts which would result in interference with or a threat to the survival and effective operation of national, state, or local government. During 1972 the operation of this index was evaluated and revised to include only those individuals who pose a realistic, direct and current danger to the national security.

The ADEX is printed on 5 x 8 cards which are maintained at FBIHQ in the Intelligence Division. Name, background information, file numbers, and type of activity in which the individual is engaged are placed on the cards. This index is reviewed continuously and on a monthly basis is brought up to date with names being added and deleted. Once deletions are made, former lists cannot be reconstructed. The index on January 15, 1975, contained the names of 1,537 individuals and as of August 15, 1975, there were 1,294 names on the index.

As an administrative aid the index currently utilized by the FBI enables the FBI to remain alert to individuals who have exhibited a propensity to conduct acts inimical to the national security and affords the FBI a record of individuals who would merit close investigative attention pending legal steps by the President to take further action. It also serves as an extremely valuable list of individuals who pose a threat to the safety of the President of the United States, thereby enabling the FBI to provide current data to the United States Secret Service concerning these individuals.

As noted above, the past lists cannot be reconstructed and the index contains only the names and background information which would identify individuals listed thereon. For reasons of privacy and inasmuch as release of information on this index could adversely affect current operations and investigations being conducted by the FBI, information contained on the index is not being furnished.

Re: UNITED STATES HOUSE OF REPRESENTATIVES
SELECT COMMITTEE ON INTELLIGENCE (HSC)

[redacted]

From a review of pertinent FBI files and from contact with knowledgeable FBI personnel, it does not appear the operation of the SI was discussed with Congress or the Office of Management and Budget (OMB) nor has the budget of the FBI indicated a specific breakdown of funds for operation of the SI.

NOTE:

LHM is being classified "Secret" inasmuch as information contained therein discusses aspects of the Emergency Detention Program, which program was classified by the Department.

Questions pertaining to the budget and whether the SI had been mentioned to Congress or OMB were discussed with Section Chief L. Clyde Groover of the Administrative Division. Mr. Groover indicated he was unaware of any previous testimony before Congress or information being provided OMB regarding the SI. He further indicated the Bureau budget did not specifically break down costs for operation of the SI.

SUBCOMMITTEE ON COURTS, CIVIL LIBERTIES, AND THE ADMINISTRATION OF JUSTICE OF THE HOUSE COMMITTEE ON THE JUDICIARY

To advise communications submitted to the above-captioned subcommittee in connection with LHM dated 9/8/75 which were classified have been declassified.

LHM captioned as above and dated 9/8/75 set forth information pertaining to the Security Index and the Emergency Detention Program. Enclosed with this LHM were two classified documents as follows: Director, FBI, memorandum to Attorney General (AG) dated September 30, 1971, serial 100-356062-3012; and AG letter to Director, FBI, dated 10/22/71, serial 100-356062-3017.

On 9/16/75 SA [redacted] Legal Counsel Division, telephonically contacted SA [redacted] to advise the above classified documents which had been submitted as enclosures to LHM to the above-mentioned subcommittee had been declassified per authority of the AG. SA [redacted] advised [redacted] Office of Legislative Affairs, Department of Justice, advised him on 9/16/75 that these items should be declassified in accordance with the desires of the AG.

It should be noted copies of these two communications have been requested by the General Accounting Office (GAO) in connection with their request for information pertaining to the Security Index and the Administrative Index. These items which are being submitted to GAO have been declassified also.

ACTION:

File copies of these two communications located in 100-356062 and 100-358086 will be declassified.

SUBCOMMITTEE ON COURTS, CIVIL LIBERTIES AND THE ADMINISTRATION OF JUSTICE OF THE HOUSE COMMITTEE ON THE JUDICIARY

Reference is made to a general letter dated August 6, 1975, to the Attorney General from the Chairman of captioned subcommittee requesting information relating to this Bureau's maintaining a Security Index and opening mail in connection with our foreign counterintelligence responsibilities. Reference is also made to Director, FBI, memorandum to the Attorney General dated September 8, 1975, with enclosures. Enclosures consisted of a classified memorandum responding to the above referenced letter of August 6, 1975, and seven documents relating to the Department's portfolio concerning the Program for Apprehension and Detention of Persons Considered Potentially Dangerous to the National Defense and Public Safety of the United States, commonly referred to as the Emergency Detention Program. Of these seven documents, which are currently being maintained by the Department, two were classified; however, on September 16, 1975, [redacted] Office of Legislative Affairs, Department of Justice, advised [redacted], FBI, that these two documents should be declassified on authority of the Department. These documents were located in FBI files and were classified with original classifying authority stemming from the Department; however, pursuant to the above decision, these documents have been declassified in FBI files and, accordingly, you should declassify these documents in your possession which were submitted with the referenced September 8, 1975, memorandum.

Additionally, the memorandum submitted to captioned subcommittee as an enclosure to the Director, FBI, memorandum to the Attorney General on September 8, 1975, was classified

NOTE:

Memorandum being submitted in unclassified format pursuant to a conversation on 9/29/75 between SA [redacted] and SA [redacted] and in accordance with instructions from [redacted] as noted above.

As indicated above, the memorandum and documents which were classified and submitted to the Department were so classified inasmuch as they referred to aspects of the Emergency Detention Program, which program was a Departmental program and was originally classified by the Department. Classified communications in our files pertaining to this program indicate they were classified inasmuch as the Department had so classified the program.

Per SA [redacted] documents submitted as enclosures with the 9/8/75 memorandum are being held by the Department and will be forwarded the subcommittee with attached unclassified memorandum.

ADMINISTRATIVE INDEX (ADEX)

In view of our recent discussion concerning the ADEX, I am submitting the history of the ADEX and those programs which preceded the ADEX for your information along with pertinent supporting documents. Also being furnished are my views why the ADEX should be continued in its present form by this Bureau.

On August 1, 1919, a General Intelligence Division was formed as a part of the Department of Justice which was to handle investigations of radical activities in the United States. This Division was formed following numerous bombing incidents during 1919. This Division was to collect evidence and data in revolutionary and radical movements in the United States and abroad for use in any such proceedings as might be instituted against individuals and organizations involved in these movements.

REC-3 100-358086-4270

Established as part of the Division was a card index system which as of October 5, 1920, contained over 150,000 cards which listed detailed data not only on individual agitators connected with the radical movements but also on organizations, associations, societies, publications and special conditions existing in certain localities. The index made it possible to obtain in a few moments the numerous ramifications of individuals connected with the radical movement and their activities in the United States. Although the index was started primarily to assist in investigations of individuals in the radical movement, it was later expanded to include matters abroad and economic and industrial disturbances. As a result of the index, it was found that numerous Communist and anarchistic agitators were involved in the radical movement. Due to a lack of Federal statutes to handle the radical situation from a criminal standpoint, existing laws utilized in deportation proceedings against aliens were utilized against the radical movements. It was noted the General Intelligence Division did not participate in investigations of radicals in the United States

but collected evidence and prepared this evidence for presentations and this was done by a careful review of reports received from Agents of the Bureau of Investigation.

In a memorandum to the Attorney General from J. Edgar Hoover, dated March 16, 1939, Mr. Hoover quoted verbatim a communication the Attorney General had sent to the President on October 20, 1938. The latter communication contained information concerning an index being maintained on various subjects appearing in the files of the Intelligence Section of the FBI. These subject matters included maritime, government, industry, general strikes, armed forces, educational institutions, Fascisti, Nazis, organized labor, Negroes, youth, strikes, newspaper field and miscellaneous. Information of a subversive or general intelligence nature received at FBI Headquarters was reviewed, summarized and placed on cards filed by subject matter as well as by individual name. Through this index, it was possible to find a collection of names of individuals engaged in a particular activity, either in any section of the country or in a particular industry or movement. The index at that time consisted of approximately 2,500 names of individuals engaged in activities involving communism, Nazism and various types of foreign espionage.

During 1939 and 1940, a custodial detention list was compiled by the FBI consisting of the identity of those individuals whose presence at liberty in the United States in time of war or national emergency would be dangerous to the public peace and safety of the United States Government. On June 26, 1940, the Attorney General was advised of such a list and on March 18, 1941, information pertaining to the identity and tendencies of individuals on this list was forwarded to the Department of Justice. The use of the term custodial detention list was discontinued on August 14, 1943, and then the list became known as the Security Index (SI).

During 1945 the SI was cancelled except for those portions relating to communists, Russians, and individuals whose nationalistic tendencies resulted from an ideological or organizational affiliation with Marxist groups. On March 8, 1946, the FBI advised the Attorney General a list was being prepared of all members of the Communist Party and any others who would be dangerous or potentially dangerous in the event of a break in diplomatic relations with the Soviet Union,

417685

or other serious crisis, involving the United States and the USSR. This list was to be prepared as a result of developments in the international situation during that time period and in light of Soviet espionage investigations then being conducted by the FBI. The Attorney General was apprised of this list so the Attorney General could advise whether such action met with his approval. As far back as September 20, 1946, the Department of Justice advised the FBI that a program was under consideration for the detention of communists in the event of a national emergency or hostilities between the United States and the USSR through Presidential Directive which would empower the Secretary of War to define a military exclusion area and would provide for the detention of persons by the Bureau of Prisons. During August, 1948, the Department provided the FBI with a Departmental Portfolio entitled, "Program For Apprehension and Detention of Persons Considered Potentially Dangerous to the National Defense and Public Safety of the United States." This program established guidelines for the apprehension by the FBI of individuals considered dangerous to the national defense of the United States during times of emergency. In time of an emergency a Presidential Proclamation would be issued and brought before Congress for ratification.

On September 23, 1950, the Internal Security Act of 1950 became a law and with it the passage of Title II concerning the Emergency Detention Act (EDA). Title II of the Internal Security Act declared that when a state of internal security emergency is proclaimed by the President, he, through the Attorney General, would direct the apprehension and detention of each person as to whom there were reasonable grounds to believe that such person probably would engage in, or probably conspire with others to engage in, acts of espionage or sabotage. The list, or SI, being maintained by the FBI of those persons who should be considered dangerous during times of an emergency was to be utilized to aid in the apprehension and detention of individuals under the auspices of the EDA. During 1951, a list of names which were maintained on the SI was prepared and furnished the Department. Criteria for inclusion on the SI were furnished the Department and on October 8, 1952, the Attorney General approved the standards used by the FBI.

The SI consisted of 5 x 8 cards which contained background information, nationalistic tendency, file numbers, and organizational affiliation of the individuals included thereon.

417686

Additions to and deletions from the SI were reviewed for approval or rejection at FBI Headquarters (FBIHQ) and final approval was furnished by the Department except for a period during 1955 when the Department had neither funds nor manpower for the review.

The SI program was reviewed on a continuous basis at FBIHQ and whenever revisions of policy or criteria were made in the program, such revisions were submitted to the Attorney General for approval. The authority of the FBI in every phase of the SI program prior and subsequent to the passage of the Internal Security Act of 1950 has emanated from the Attorney General. Individuals were never investigated for the purpose of placing them on the SI; however, if an investigation of an individual disclosed potential dangerousness to the internal security of the United States in the event of a national emergency, then inclusion on the SI was considered. In addition this Bureau maintained a separate index known as the Reserve Index (RI) which was divided into two sections, namely Section A and Section B. This index was comprised of individuals whose activities did not warrant inclusion on the Security Index but who in time of national emergency should be afforded investigative attention to determine if their activities during the emergency would warrant their inclusion on the SI. Section A of the RI consisted of individuals in various professions who were in a position to use their influence and Section B comprised all other individuals on the RI.

On September 25, 1971, the EDA was repealed by Congress and the SI was discontinued as well as all plans for the apprehension of those listed on the SI. At the time of its discontinuance, the SI was divided into three priority levels, with those individuals in Priority I and Priority II only to be considered for detention in time of emergency. The RI was cancelled at the same time as the SI.

Following repeal of the EDA during September, 1971, the Attorney General was requested to advise whether repeal of the EDA limited the authority of the FBI to conduct security investigations or maintain an administrative index of security subjects. The Attorney General advised on October 22, 1971, that the investigative authority of the FBI was not affected and the FBI was not prohibited from maintaining an index of security subjects. As a result of the Attorney General's notification, the FBI instituted an ADEX for use as an

417687

administrative aid to maintain a readily available and up-to-date list of individuals deemed dangerous to the internal security and who would be afforded priority investigative coverage in the event of a national emergency. Individuals are not included on this index merely because of opposition to Government policies or because they exercise their constitutional rights of protest or dissent. Membership in a subversive organization is not sufficient to warrant inclusion on this index. Individuals who are included are those who have exhibited a willingness and capability of engaging in treason, rebellion, sedition, sabotage, espionage, assassination of Government officials, terrorism, guerrilla warfare, or other acts which would result in interference with or a threat to the survival and effective operation of national, state, or local government. When first established the ADEX consisted of four categories. Categories I - III consisted primarily of those individuals who had been maintained on the old Security Index in the priority I - III levels. Category IV contained the names of those individuals who had formerly been placed on the old RI. Although these names were originally placed in this manner on the new ADEX, as cases were reviewed under our then existing reporting procedures, each case was to be reviewed on its own merits to determine whether continued inclusion on the new ADEX was warranted. If not, the individual's name was then deleted. During 1972, the operation of this index was evaluated and revised to include only those individuals who posed a realistic, direct and current danger to the national security and the various categories were no longer utilized. As a result of this revision, the number of individuals who were included on the ADEX began to decline.

The ADEX consists of 5 x 8 cards which are maintained at FBIHQ in the Intelligence Division. The name, background information, file numbers, and type of activity in which the individual is engaged in are placed on the cards and filed alphabetically. This index is reviewed continuously and on a monthly basis is brought up to date with names being added and deleted. Additionally, once each month a computerized print-out or listing is prepared. When a new listing is prepared, copies of the old listings are destroyed since they are by then outdated and of no use. In our various field offices, the ADEX is maintained in three sections; namely, 1) a complete alphabetical listing of individuals currently on the ADEX residing within the territory covered by the

417688

field office; 2) a geographical section broken down by area where the individual resides within the field office territory; and 3) an unavailable section which includes subjects out of the country, subjects imprisoned, and subjects whose whereabouts are unknown. The field is responsible for recommending a subject for inclusion or deletion from the ADEX and the final authority for any such action taken is at FBIHQ level. The field is also required to review the files of those subjects on the ADEX every 90 days and to submit the results of this review together with a recommendation for their continuance or deletion to FBIHQ where the recommendation is either approved or denied.

The ADEX as it is currently structured is used as an administrative aid only and thereby enables the FBI to remain alert to individuals who have expressed a propensity to conduct acts inimical to the national security and affords the FBI a record of individuals who would merit close investigative attention pending legal steps by the President to take further action during an emergency. It also serves as an extremely valuable list of individuals who pose a threat to the security of the President of the U.S., thereby enabling the FBI to provide current data to the U.S. Secret Service concerning these individuals.

Inasmuch as all subversive and internal security cases investigated by the FBI are based on existing Federal statutes, those individuals who are currently maintained on the ADEX are being investigated on a statutory basis. The principal statutes utilized in subversive investigations are Title 18, U.S. Code, Section 2383, Rebellion or Insurrection; Title 18, U.S. Code 2384, Seditious Conspiracy; and Title 18, U.S. Code 2385, Advocating Overthrow of the Government. Additional statutes which may be utilized as a basis for investigation would be the Internal Security Act of 1950 and those statutes pertaining to the violations involving sabotage, treason and assassination of Government officials to name a few. All cases on individuals who are maintained on the ADEX are continuously and actively investigated under these various statutes in order that the ADEX may be utilized for the purposes stated above. In substance, the ADEX represents an index of those cases which are actively investigated. As noted previously, each of these cases is individually reviewed every 90 days, the purpose being to establish whether a continuous basis exists for active investigation. During this period, if it is determined that the individual does not meet the criteria, the individual is deleted from the index.

417689

The Attorney General

During our recent conversation you raised the point that perhaps individuals on the ADEX should be listed on a statutory basis. Through computerization, the ADEX in its present form can be utilized to provide a narrowly defined particular type of subversive activity and the area where this activity could be expected to occur. Some of these defined activities involve, among others, pro-Soviet and pro-Chinese matters. (See attached chart of Administrative Index Card Statistics.) Because of the availability of this type of information, for example, in the event a crisis or national emergency occurred involving the People's Republic of China, the ADEX would afford a means to readily retrieve information concerning those individuals involved in pro-Chinese activities, thus enabling this Bureau to immediately afford priority investigative attention where needed.

It is our belief that if the ADEX was changed to list individuals on a statutory basis only, it would become burdensome and cumbersome inasmuch as the statutes involved are broad in definition and would not sufficiently delineate the type of activities in which the individuals were involved. Thus, during an emergency of the type described above, an ADEX maintained in this manner would necessitate massive and time consuming file reviews to determine the identity of those individuals engaged in pro-Chinese activities. This could be seriously detrimental to the national security particularly where time is of the essence. Also, an ADEX based on statutes could become duplicative if more than one statute were involved and would complicate the maintenance of the ADEX. Therefore, it is our belief that any categorizing of the ADEX on a statutory basis would still require some codification by type of activity as is presently done in order for the index to be meaningful. As mentioned above, since all cases of a subversive nature are based on Federal statutes, the adding of a statutory basis to the ADEX would not serve any additional function or purpose. The ADEX as it is now structured is an effective internal administrative aid which assists this Bureau in the handling of our responsibilities in the investigation of subversive matters. We are therefore desirous of continuing the operations of ADEX in the manner described above.

Considering the foregoing and the obvious need for maintaining the ADEX, I respectfully request your opinion as to whether you interpose any objection to our continuing the ADEX in its present form.

NOTE:

On 10/20/75, Director Kelley and Assistant Director Wannall, of the Intelligence Division, met with Attorney General Levi and Deputy Attorney General Tyler, and others for a briefing concerning the ADEX and the Security Index. During this briefing, Mr. Levi raised the point of whether individuals should be listed on the ADEX on statutory basis only. Mr. Levi also indicated that he was not aware of correspondence between the Bureau and his Department which established the ADEX. As a result it is deemed advisable that the above history of the Security Index and the ADEX with pertinent documents be submitted for his information and his opinion be obtained for continuing the ADEX in its present form.

EMERGENCY DETENTION PROGRAM

In view of the fact the President has signed the Act repealing Title II of the Internal Security Act of 1950, which was commonly referred to as the Emergency Detention Act of 1950, your views are being solicited concerning FBI authority to continue investigations of subversive activity covered, in part, by this Act.

We have discontinued all planning for emergency apprehension and detention of those subjects listed in the Security Index, which is a list of individuals whose histories show they might engage in or conspire to engage in acts of espionage or sabotage during a national emergency. We have likewise discontinued operation of the Security Index, which was an integral part of implementation of emergency apprehension.

In addition to statutory authority provided in the Smith Act of 1940, Title I of the Internal Security Act of 1950, the Communist Control Act of 1954, and statutes relating to espionage, sabotage, rebellion and insurrection, sedition and seditious conspiracy, we feel that authority for the FBI to conduct investigations of subversive activity and related activity is clearly set forth in certain Presidential Directives. For example, on June 26, 1939, the President issued a confidential directive to the heads of various Government Departments which stated: "It is my desire that the investigation of all espionage, and sabotage matters be controlled and handled by the Federal Bureau of Investigation of the Department of Justice...." On September 6, 1939, the President issued a Directive as follows: "The Attorney General has been requested by me to instruct the Federal Bureau of Investigation of the Department of Justice to take charge of investigative matters relating to espionage, sabotage, subversive activities and violations of neutrality regulations." This Directive also pointed out that "the investigations" (by the FBI) "must be conducted in a comprehensive and effective manner, on a national basis, and all information carefully sifted out and correlated in order to avoid confusion and irresponsibility."

The Attorney General

On January 8, 1943, the President issued a Directive reiterating his previous Directive of September 6, 1939, and subsequently on July 24, 1950, the President issued a third Directive, reiterating previous Directives of September 6, 1939, and January 8, 1943, and broadened the scope of investigative activity by the FBI to include "subversive activities and related matters" as well as the specific matters involving espionage and sabotage. On December 15, 1953, the President issued a statement in which he set forth the language contained in the combined Presidential Directives dated September 6, 1939, January 8, 1943, and July 24, 1950, concerning the investigative responsibility of the FBI in matters relating to "espionage, sabotage, subversive activities and related matters." The statement then pointed out the FBI is also charged with investigating all violations of the Atomic Energy Act and requested cooperation of all enforcement officers, as in the previous Directives, in reporting all information relating to violations of the Atomic Energy Act to the nearest representative of the FBI.

Based on interpretation of existing statutes and the language set forth in the various Presidential Directives cited above, we feel that the repeal of the Emergency Detention Act of 1950 has not eroded the FBI's authority and responsibility to conduct investigation of subversive activities and related matters. Likewise, we feel that the repeal of this Act does not limit the FBI's authority and responsibility to keep and maintain administrative records, including various indices, which may be necessary in fulfilling such responsibility and authority.

I strongly feel that irrespective of the repeal of the Emergency Detention Act, the Federal Government must take whatever steps are necessary, within the law, to protect itself from all hostile forces bent on its destruction. We, therefore, feel that it is absolutely incumbent upon the FBI to continue investigations of those who pose a threat to the internal security of the country and to maintain an administrative index of such individuals as an essential part of our investigative responsibility. Such an index not only enables the FBI to pinpoint individuals who have exhibited a propensity to conduct acts inimical to national security, but also serves as an extremely valuable list of individuals who pose a continuing threat to the safety of the President and thereby enables us to provide current data to U. S. Secret Service concerning backgrounds and whereabouts of such individuals.

You are therefore requested to advise whether you concur in our opinion that the FBI's authority and responsibility to investigate subversive activities and related matters has not been eroded by repeal of the Emergency Detention Act. You are further requested to advise if you concur in our opinion that the repeal of the Emergency Detention Act does not prohibit or limit the FBI's authority and responsibility to keep and maintain administrative records, including an administrative index of individuals under investigation in connection with subversive activities and related matters, which are necessary in fulfilling our investigative authority and responsibility.

In the past we have furnished the Internal Security Division on a monthly basis a current list of individuals listed on the Security Index. This has been discontinued. However, in the event you approve of our maintaining an administrative index, as described above, please advise whether the Internal Security Division desires a copy of any current list we might prepare in this regard.

You are also requested to advise what disposition should be made of warrants, sealed envelopes captioned "Department of Justice Instructions to United States Attorneys" and "Department of Justice Instructions to United States Marshals" which have been maintained in each of our field offices in connection with the Emergency Detention Program.

In view of the urgency of the matter and the critical need to continue an uninterrupted program of investigating subversive activities and related matters, you are requested to furnish a reply to the foregoing questions at the earliest possible time.

UNITED STATES GOVERNMENT

DEPARTMENT OF JUSTICE

Memorandum

[redacted]

TO : Director
Federal Bureau of Investigation

DATE: October 22, 1971

FROM : The Attorney General

SUBJECT: EMERGENCY DETENTION PROGRAM

This will acknowledge your memorandum of September 30, 1971 regarding the effect that the repeal of Title II of the Internal Security Act of 1950, as amended, has on the FBI's authority "to investigate subversive activities and related matters."

With respect to your initial inquiry, I wish to advise you that the FBI's authority to investigate violations of the espionage, sabotage, Smith Act, Atomic Energy Act and related statutes, as well as subversive activities and related matters in accordance with its statutory responsibilities and the Presidential directives, cited in your memorandum, remains unaffected by the repeal of the Emergency Detention Act.

Furthermore, the repeal of the aforementioned Act does not alter or limit the FBI's authority and responsibility to record, file and index information secured pursuant to its statutory and Presidential authority. An FBI administrative index compiled and maintained to assist the Bureau in making readily retrievable and available the results of its investigations into subversive activities and related matters is not prohibited by the repeal of the Emergency Detention Act.

While the Department does not desire a copy of any lists that you may compile on the basis of such records or indices, the Internal Security Division should be furnished a monthly memorandum reflecting the identity of government employees who by significant acts or membership in subversive organizations, have demonstrated a propensity to commit acts inimical to our national security.

With regard to Department instructions to the United States Attorneys and Marshals and related materials maintained in sealed envelopes in each of the Bureau's field offices, it is noted that such emergency documents were prepared on the basis of authority other than the Emergency Detention Act. A study is being undertaken within the Department as to the disposition to be made of those pre-positioned sealed instructions. When such a review has been completed you will be appropriately advised.

SECURITY INVESTIGATIONS OF INDIVIDUALS

Reference is made to your letter dated October 22, 1971, which was entitled "Emergency Detention Program."

For the completion of your records the following instructions are now outstanding with our field offices relative to the security investigations of individuals.

"The Department has advised that the authority of the Bureau to investigate violations of the espionage, sabotage, Smith Act, Atomic Energy Act and related statutes, as well as subversive activities and related matters in accordance with Bureau statutory responsibilities and Presidential Directives, remains unaffected by the repeal of the Emergency Detention Act. The Department further advised that the repeal of the Act does not prohibit Bureau use of an administrative index compiled and maintained to assist in making readily retrievable and available the results of Bureau investigations into subversive activities and related matters.

"In connection with the security investigations of individuals, the Bureau is initiating for control purposes an administrative index which will be referred to as the ADEX and will consist of four categories.

"Each person who is the subject of a security investigation should be considered for one of the four categories. The criteria for inclusion in the categories are as follows:

"Category I:

"(1) All national leaders of revolutionary organizations whose aims and purposes include the overthrow and destruction of the Government by force and violence or other unconstitutional means, and individuals affiliated therewith who have demonstrated propensity for violence against the person rather than property or have received special training in sabotage, espionage, or guerrilla warfare or have engaged in underground-type operations.

"(2) Revolutionaries, though unaffiliated with any specific organization, who have demonstrated by acts or statements a propensity for violence, including acts of terrorism, assassination, or any interference with or threat to the survival and effective operation of national, state, and local Governments and of the defense efforts.

"(3) National leaders of extremist organizations.

"(4) Any individual who qualifies for the ADEX should be included in Category I if he is employed in or has access to a key facility.

"Category II:

"(1) Secondary leadership of revolutionary and extremist organizations. Secondary leadership would comprise, for example, regional, state and local leaders who are involved in policy making in fulfilling anti-U. S. objectives of their respective revolutionary organizations and whose activities do not justify their inclusion in Category I.

"(2) Active participants in furthering the aims and purposes of the revolutionary or extremist organizations with which affiliated.

"(3) Other unaffiliated revolutionaries or extremists who have demonstrated by acts or statements a propensity for violence against property rather than persons.

"Category III:

"(1) Rank-and-file membership in, or participation in activities of, revolutionary organizations within the last five years as evidenced by overt acts or statements established through reliable sources, informants, or individuals.

"(2) Leadership or activist position in affiliated fronts of revolutionary organizations within the last three years as shown by overt acts or statements established through reliable sources, informants, or individuals.

The Attorney General

"(3) An individual who, although not a member of or participant in activities of revolutionary organizations or considered an activist in affiliated fronts, has exhibited a revolutionary ideology and is likely to seize upon the opportunity presented by national emergency to commit acts of espionage or sabotage, including acts of terrorism, assassination, or any interference with or threat to the survival and effective operation of national, state, and local Governments and of the defense efforts.

"Category IV:

"(1) Individuals whose activities do not meet criteria of Categories I, II, or III but who are in a position to influence others to engage in acts inimical to the national defense or are likely to furnish financial aid or other assistance to revolutionary or extremist elements because of their sympathy, associations, or ideology."

As you requested, this Bureau will not furnish the Department a list of such individuals but will on a monthly basis furnish the Internal Security Division a list of Government employees who have demonstrated a propensity to commit acts inimical to our national security.

Acting Director, FBI

SECURITY INVESTIGATIONS OF INDIVIDUALS

Reference is made to letter from this Bureau dated February 10, 1972, with same caption. The referenced letter set forth for your information the instructions issued to our field offices regarding an administrative index known as ADEX, which was initiated for control purposes in connection with the security investigations of individuals. Your letter of October 22, 1971, entitled "Emergency Detention Program," had indicated that the repeal of the Emergency Detention Act did not prohibit this Bureau's use of an administrative index compiled and maintained to assist in making readily retrievable and available the results of Bureau investigations into subversive activities and related matters.

An evaluation has been made of ADEX after more than eight months of operation. Revisions have been made in the ADEX and the following instructions have been furnished to our field offices concerning the criteria to be utilized in connection with the ADEX.

"ADEX has represented a listing of individuals engaged in subversive activity who are considered a potential or actual threat to the national security. As now constituted, it is divided into four categories corresponding to varying degrees of dangerousness. The current ADEX criteria are broadly worded and allow the inclusion of individuals who, although they subscribe to subversive or revolutionary doctrines, do not necessarily represent a danger to the national security at this time.

"After a careful assessment of this matter, it is believed that ADEX criteria should be amended to provide for the inclusion only of individuals who pose a realistic, direct, and current danger to the national security. In other words, it is believed ADEX should list only persons who are regarded as dangerous now.

HEREIN IS UNCLASSIFIED
DATE 4-26-81 BY SP2 [illegible]

100-358086-4270

The Attorney General

"In reviewing existing criteria, it is believed that essentially those individuals who are presently in Categories I and II would meet the test of being dangerous now, but that most, if not all, of those in Categories III and IV would not. It is further believed that ADEX should not be broken into separate categories, but should be a single, selective listing. It is also felt that ADEX should be strictly a by-product of our investigative activity and not in and of itself generate any investigation or govern reporting procedures.

"Accordingly, the following revisions with respect to ADEX are being placed in effect immediately:

"Revised Criteria

"Only the following individuals should be included in ADEX:

"Individuals, whether affiliated with organized groups or not, who have shown a willingness and capability of engaging in treason, rebellion or insurrection, seditious conspiracy, sabotage, espionage, terrorism, guerrilla warfare, assassination of Government officials or leaders, or other such acts which would result in interference with or a threat to the survival and effective operation of national, state or local government.

"This would include leaders of organizations whose aims include the overthrow or destruction of the United States or the government of any State, Territory, district, or possession thereof, or the government of any political subdivision therein, by unlawful means. Mere membership in such organizations is not sufficient in itself to warrant inclusion in ADEX.

"The term 'leaders' denotes those individuals, irrespective of title, who are in a position to significantly influence the policies or direct the activities of the group.

"Individuals should be considered 'dangerous now' to the national security when reliable information has been received that they have engaged in activity falling within the above-described criteria during the past two years and there is no indication they have given up or ceased to engage in such activit

"There may be some instances where retention of an individual in ADEX is justified even though no specific information is available during the prior two years. For example, such retention would be warranted in the case of individuals who have gone into hiding, left the country, have been imprisoned, or similar circumstances and there is no reliable information available indicating that they have renounced activities covered in the above criteria.

"Determination of Eligibility for ADEX Inclusion

"The Bureau recognizes that anyone who has embraced a philosophy that includes advocacy of the overthrow of our form of government is a potential enemy. However, in many instances an individual may believe in some other form of government or even in the overthrow of our form of government, but without a willingness or capability of engaging in activity other than a philosophical discussion or debate. Such persons subscribe to an alien philosophy, but their activities have not gone beyond an ideological stage. This would include attendance at meetings, taking part in theoretical discussions or other activity which stops short of advocating or engaging in action to overthrow the United States.

"Examples might be members of the Communist Party, USA, or the Socialist Workers Party, or other old-line revolutionary groups which basically advocate an overthrow of our present form of government, but where the subject's activity has been ideological in nature and not oriented towards action. In this connection, however, each case must be reviewed on its individual merits, since the willingness and capability of individuals to engage in action dangerous to the national security is the primary factor in making a determination for the inclusion in ADEX.

"Under normal circumstances members of such hate groups as the Ku Klux Klan would not meet the criteria for inclusion in ADEX. There could be exceptions, however, and each case must be examined individually to determine if it meets the new criteria. These criteria can apply to persons involved with extreme right as well as extreme left organizations, or to individuals who have no affiliation with organized groups but who are anarchists and are engaged in attempts to destroy the United States.

The Attorney General

"The test is whether an individual has shown a willingness and intent coupled with a capability to engage in activity covered in the ADEX criteria and represents a current danger to the national security."

As you requested in your October 22, 1971, letter, this Bureau will not furnish the Department a list of individuals in the ADEX but will, on a monthly basis, continue to furnish the Internal Security Division a list of Government employees who pose a realistic, direct, and current danger to the national security.
