Re: FEMA FOIA Case Number 2016-FEFO-01950

Dear Mr. Greenewald:

This is the final response to your Freedom of Information Act (FOIA) request to the Department of Homeland Security (DHS), Federal Emergency Management Agency (FEMA), dated June 16, 2016 and received in this office on June 16, 2016. You are requesting a copy of the contents of the administrative processing, tracking file folder and notes to include emails, notes, memos, letters, correspondence, etc. associated with the 10 oldest pending FOIA requests at FEMA

A search of FEMA'S Office of the Chief Information Officer (OCIO) for documents responsive to your request produced a total of 771 pages. Of those pages, I have determined that 361 pages of the records are releasable in their entirety, 410 pages are partially releasable, pursuant to Title 5 U.S.C. § 552 (b)(6), FOIA Exemptions 6.

FOIA Exemption 6 exempts from disclosure of personnel or medical files and similar files the release of which would cause a clearly unwarranted invasion of personal privacy. This requires a balancing of the public's right to disclosure against the individual's right to privacy. The privacy interests of the individuals in the records you have requested outweigh any minimal public interest in disclosure of the information. Any private interest you may have in that information does not factor into the aforementioned balancing test.

You have the right to appeal if you disagree with FEMA's response. The procedure for administrative appeals is outlined in the DHS regulations at 6 C.F.R. § 5.8. In the event you wish to submit an appeal, we encourage you to both state the reason(s) you believe FEMA's initial determination on your FOIA request was erroneous in your correspondence, and include a copy of this letter with your appeal. Should you wish to do so, you must send your appeal within 90 days from the date of this letter to fema-foia@fema.dhs.gov, or alternatively, via mail at the following address:

FEMA
Office of the Chief Administrative Officer
Information Management Division (FOIA Appeals)
500 C Street, SW, Seventh Floor, Mail Stop 3172
Washington, D.C. 20472-3172

As part of the 2007 amendments, the Office of Government Information Services (OGIS) was created to offer mediation services to resolve disputes between FOIA requesters and Federal agencies. You may contact OGIS in any of the following ways:

Office of Government Information Services
National Archives and Records Administration
8601 Adelphi Road- OGIS
College Park, MD 20740-6001
E-mail: ogis@nara.gov
Web: <https://ogis.archives.gov>
Telephone: 202-741-5770/Toll-free: 1-877-684-6448
Facsimile: 202-741-5769

Provisions of the FOIA allow us to recover part of the cost of complying with your request. In this instance, because the cost is below the \$25 minimum, there is no charge.

If you need any further assistance or would like to discuss any aspect of your request, please contact us and refer to FOIA case number **2016-FEFO-01950**. You may send an e-mail to fema-foia@fema.dhs.gov, call (202) 646-3323, or you may contact our FOIA Public Liaison in the same manner.

Sincerely,

John Maniha

Good Afternoon Monique,

OCIO has provided responsive documents on compact disc. These are PST Files. Both, Roman and I together tried with a great deal of effort to get this case uploaded. We met with failure.

The frustration is having responsive documents and not being able to access them.

Good Afternoon (b)(6)

Per your request, I am writing to you in order to again ask you to narrow the scope of your FOIA request (2013-FEFO-00816) to the Federal Emergency Management Agency following our telephone conversation this afternoon. The agency component tasked with providing the responsive documents to your request has contacted this office to express the voluminous nature of responsive records being sought. Therefore, you are being asked to cite specifically the best way you can the documents you desire in order that these records may be retrieved with more immediate accuracy.

We apologize for any inconvenience, but simply wish to express our need of your cooperation in order to proceed with a more successful search.

Thank You,

Christopher,

I will not be further narrowing this request. This request has already been narrowed. I have assessed this situation and this request is perfectly reasonable. Should this request be rejected, I will appeal, and-- if necessary-- I will commence litigation against FEMA for failure to comply with a lawful and reasonable FOIA request.

Please provide me with an estimate for this request's processing time. Also, I expect that you will acknowledge receipt of this response in writing.

Sincerely,

(b)(6)

Good Afternoon (b)(6)

Per your request, I am writing to you in order to again ask you to narrow the scope of your FOIA request (2013-FEFO-00816) to the Federal Emergency Management Agency following our telephone conversation this afternoon. The agency component tasked with providing the responsive documents to your request has contacted this office to express the voluminous nature of responsive records being sought. Therefore, you are being asked to cite specifically the best way you can the documents you desire in order that these records may be retrieved with more immediate accuracy.

We apologize for any inconvenience, but simply wish to express our need of your cooperation in order to proceed with a more successful search.

Thank You,

Hello Eric,

I have been working this ADR case and here is the search terms I have been using. Below shows the results. I noticed when I search W. Ross Ashley for I got over 6,000 hits but a good chunk of them are facebook messages. I marked them as nonresponsive, my question is do you have any suggestions on how to avoid getting the facebook messages? Or is my only option to review all 6,000 plus documents and mark them nonresponsive?

Subject: FEMA FOIA # 2013-FEFO-00816 - Records Search

Good Afternoon (b)(6)

Per our discussion over the phone today for 2013-FEFO-00816, you would like to narrow the scope of this FOIA Request search to the following information.

FEMA Employees to Search:

Wiley Ross Ashley, III (Also known as W. Ross Ashley, III and/or Ross Ashley)

Timeframe:

July 1, 2007 - August 28, 2009 (for the duration of his tenure as Assistant Administrator for Grant Programs)

Keywords:

1. State Homeland Security Grant Program---all documents
2. SHSGP---all documents
3. Urban Area Security Initiative---non-email documents only
4. UASI---non-email documents only

You clarified that you are still interested in the following formats of records, if releasable under the FOIA:

- News clips
- Listserv emails
- Draft documents

Kevin,

I do not see that as an issue. As an FYI, Eric and I discussed this request on Friday at which time I recommended that we weed through the subfolders and identify the folders that are going to be referred outside Disclosure. This way I am not redacting names and such from the folders that do not require our redactions/review. It is my understanding that we are going to do this on Friday as I will be in the office then; however, if you want to go through the folder before then and mark the subfolders that are being referred to another agency please do so.

Respectfully,

Ruthann Parise

Kevin,

I do not see that as an issue. As an FYI, Eric and I discussed this request on Friday at which time I recommended that we weed through the subfolders and identify the folders that are going to be referred outside Disclosure. This way I am not redacting names and such from the folders that do not require our redactions/review. It is my understanding that we are going to do this on Friday as I will be in the office then; however, if you want to go through the folder before then and mark the subfolders that are being referred to another agency please do so.

Subject: 2013-FEFO-00816 ADR questions

Hello Eric,

I have been working this ADR case and here is the search terms I have been using. Below shows the results. I noticed when I search W. Ross Ashley for I got over 6,000 hits but a good chunk of them are facebook messages. I marked them as nonresponsive, my question is do you have any suggestions on how to avoid getting the facebook messages? Or is my only option to review all 6,000 plus documents and mark them nonresponsive?

2013-FEFO-00816 ADR search/results

Subject: RE: Assignment

Hi Kevin,

Please coordinate with Pearlene, I leave case assignments in her hands. With that being said we should consider interim responses due to voluminous records. Based on the docs I saw, I think production schedule of 2,500 to 3,000 pages per month (400 pages per day) is reasonable. Pearl- thoughts?

Keep in mind that I want this request closed before the end of the fiscal year, so if you believe more pages can be worked and reviewed, then let's do it.

Subject: FEMA FOIA # 2013-FEFO-00816 - Records Search

Good Afternoon (b)(6),

Per our discussion over the phone today for 2013-FEFO-00816, you would like to narrow the scope of this FOIA Request search to the following information.

FEMA Employees to Search:

Wiley Ross Ashley, III (Also known as W. Ross Ashley, III and/or Ross Ashley)

Timeframe:

July 1, 2007 - August 28, 2009 (for the duration of his tenure as Assistant Administrator for Grant Programs)

Keywords:

1. State Homeland Security Grant Program---all documents
2. SHSGP---all documents
3. Urban Area Security Initiative---non-email documents only
4. UASI---non-email documents only

You clarified that you are still interested in the following formats of records, if releasable under the FOIA:

- News clips
- Listserv emails
- Draft documents

Good Morning Pearlene,

I included you on my response to Kevin re this case but wanted to answer this one as well. Eric and I discussed this case on Friday. I am not currently working on this case as I was assigned another request in which I was asked for a projected completion date. Additionally, I recommended that we weed through the 2013-FEFO-00816 case and identify the subfolders that would be referred to other agencies so as to not waste time redacting names, etc. if the subfolders were actually going to be processed by another office.

Re: **FEMA 2014-FEFO-00816**

Dear (b)(6)

This acknowledges receipt of your July 8, 2014 Freedom of Information Act (FOIA) request to the Department of Homeland Security (DHS)/Federal Emergency Management Agency (FEMA). You are seeking copies regarding all records and report relating to an explosion and fuel farm fire at Allied Aviation Services, Inc. at the Miami International Airport on March 25, 2011, including photographs, CD or DVD copies of audio records, as well as transcripts of the recording. Your request was received in this office on July 8, 2014.

Due to the increasing number of FOIA requests received by this office, we may encounter some delay in processing your request. Per Section 5.5(a) of the DHS FOIA regulations, 6 C.F.R. Part 5, the Department processes FOIA requests according to their order of receipt. Although FEMA's goal is to respond within 20 business days of receipt of your request, the FOIA does permit a 10-day extension of this time period. As your request seeks numerous documents that will necessitate a thorough and wide-ranging search, DHS/FEMA will invoke a 10-day extension for your request, as allowed by Title 5 U.S.C. § 552(a)(6)(B). If you care to narrow the scope of your request, please contact our office. We will make every effort to comply with your request in a timely manner; however, there are currently 823 open requests ahead of yours.

Provisions of the Act allow us to recover part of the cost of complying with your request. We shall charge you for records in accordance with the DHS Interim FOIA regulations as they apply to commercial requestors; i.e., you will be charged 10-cents per page for duplication and for search and review time at the per quarter-hour rate (\$4.00, \$7.00, \$10.25) of the searcher and reviewer. You stated in your request that you are willing to pay assessable fees up to \$100.00. You will be contacted before any additional fees are accrued.

More information concerning the FOIA and implementing DHS regulations is available on-line at: www.dhs.gov/xfoia/editorial_0318.shtm.

We have queried the appropriate program offices of FEMA for responsive records. If any responsive records are located, they will be reviewed for determination of releasability. Please be assured that one of the FOIA Specialist in our office will respond to your request expeditiously as possible. We appreciate your patience as we proceed with your request.

Your request has been assigned reference number **FEMA 2014-FEFO-00816**. Please refer to this identifier in any future correspondence. Should you have questions or concerns regarding your request please contact FOIA Team Lead, Pearlene Robinson at (202) 646-5797 or electronically at Disclosure-Unit-TeamC@fema.dhs.gov.

Kevin,

I do not see that as an issue. As an FYI, Eric and I discussed this request on Friday at which time I recommended that we weed through the subfolders and identify the folders that are going to be referred outside Disclosure. This way I am not redacting names and such from the folders that do not require our redactions/review. It is my understanding that we are going to do this on Friday as I will be in the office then; however, if you want to go through the folder before then and mark the subfolders that are being referred to another agency please do so.

Ruthann,

For 2013-FEFO-00816, it was recommended to me by Eric that we break this one up into interim responses. Given there's two folders, are you able to make the first one interim 1 and the second the final response? Let me know. I have cc'ed Pearlene for awareness.

Good Morning Pearlene,

I included you on my response to Kevin re this case but wanted to answer this one as well. Eric and I discussed this case on Friday. I am not currently working on this case as I was assigned another request in which I was asked for a projected completion date. Additionally, I recommended that we weed through the 2013-FEFO-00816 case and identify the subfolders that would be referred to other agencies so as to not waste time redacting names, etc. if the subfolders were actually going to be processed by another office.

Subject: RE: FOIA Case 2013-FEFO-00899 New Task

Christopher,

4 documents and the SST are attached. The document that begins with "1505-DR-CA..." is a copy of a relevant second appeal. "Archived policy 9527.3" was in effect at the time of the disaster, but has now been superseded. The "paguide" and "padigest" are policy documents used by Public Assistance to make policy decisions.

Let me know if you have questions.

Thanks,

Allen

Christopher,

We would like to request additional time to process this request. We do have documents that are responsive. However, many of the documents are pre-decisional. Due to the volume, it is going to take a while to review all the documents. In addition, our SME has been deployed temporarily to work on a Preliminary Damage Assessment.

Mr. Henderson,

The requester has withdrawn his request. Thanks for letting me know!

Can I ask your help in researching another for a possible closure? The request is attached--- Casey had send records for Region IX but the request is still open (2013-FEFO-00899). This one was also filed by a law firm, so Region IX may have had related litigation. Can you please advise if there was lawsuit, and if so, what the litigation status is?

Thank you.

Mr. Henderson,

The requester has withdrawn his request. Thanks for letting me know!

Can I ask your help in researching another for a possible closure? The request is attached--- Casey had send records for Region IX but the request is still open (2013-FEFO-00899). This one was also filed by a law firm, so Region IX may have had related litigation. Can you please advise if there was lawsuit, and if so, what the litigation status is?

Thank you.

Hi Kevin,

Unfortunately, that matter is still going on. We'll be issuing a PA first appeal decision at some point in the next month or two. The City may file a second appeal as it will likely be a partial denial.

Mr. Henderson,

The requester has withdrawn his request. Thanks for letting me know!

Can I ask your help in researching another for a possible closure? The request is attached--- Casey had send records for Region IX but the request is still open (2013-FEFO-00899). This one was also filed by a law firm, so Region IX may have had related litigation. Can you please advise if there was lawsuit, and if so, what the litigation status is?

Thank you.

Re: FEMA FOIA 2013-FEFO-00899 First Interim Response

Dear (b)(6)

This is the first interim response to your Freedom of Information Act (FOIA) request to the Department of Homeland Security (DHS), Federal Emergency Management Agency (FEMA), dated July 1, 2013 and received in this office on July 5, 2013. You requested the following documents:

1. A complete copy of the FEMA file for the City of Atascadero, FEMA disaster number FEMA-1505-DR-CA and CAL EMA & FEMA ID 079-03064;
2. All records related to the Department of Homeland Security's Office of the Inspector General (OIG) Audit Report # DS 12-07;
3. All legal determinations, case studies, legal opinions, law references, correspondence, and related documents concerning FEMA's decision to authorize the obligation of funds for the City of Atascadero to lease a temporary facility from the Community Redevelopment Agency of Atascadero to be used as City Hall (the City's request for temporary facilities was made in a letter dated September 29, 2004, to Rebecca Wagoner of the California Emergency Management Agency [OES] and was approved by FEMA in PW 239, version 2);
4. All legal determinations, case studies, legal opinions, law references, correspondence, and related documents concerning FEMA's conclusion that the City's lease of the temporary facility from the Community Redevelopment Agency of Atascadero was an arm's-length transaction, that the lease was the only feasible and the least costly option at the time it was approved, and that all the time extensions for the reconstruction of the Atascadero Historic City Hall and associated relocation were justified, as set forth in the December 3, 2012 memorandum from Nancy Ward, Regional Administrator for FEMA Region IX to Humberto U. Melara, Director of the Western Regional Office, Office of Inspector General;
5. All legal determinations, case studies, legal opinions, law references, correspondence, and related documents concerning FEMA's later conclusion that Finding B of the Department of Homeland Security Office of Inspector General's Audit Report Number DS-12-07 is correct, as set forth in PW 239, version 5;

6. All documents and materials, including, but not limited to, reports, and legal authority, provided by the Department of Homeland Security Office of Inspector General to FEMA in connection with the Department of Homeland Security Office of Inspector General's Audit Report Number DS-12-07; and,
7. All manuals, written policies, practices, procedures, and guidelines regarding appeals of FEMA determinations concerning applications for the provision of federal assistance, as set forth in 44 C.P.R. § 206.206.

For this first interim release, FEMA reviewed 2,206 pages of records located during a search of FEMA's Region V, Region IX, Flood Insurance Mitigation Administration (FIMA), and Office of Response and Recovery - Public Assistance (ORR-PA). Of the 2,206 pages reviewed, we have determined that 1,237 pages are releasable in their entirety, and 969 pages are partially releasable pursuant to Title 5 U.S.C. § 552 (b)(4) and b(6), FOIA Exemptions 4 and 6.

FOIA Exemption 4 protects trade secrets and commercial or financial information obtained from a person that is privileged or confidential. The courts have held that this subsection protects (a) confidential commercial information, the disclosure of which is likely to cause substantial harm to the competitive position of the person who submitted the information and (b) information that was voluntarily submitted to the government if it is the kind of information that the provider would not customarily make available to the public.

FOIA Exemption 6 exempts from disclosure of personnel or medical files and similar files the release of which would cause a clearly unwarranted invasion of personal privacy. This requires a balancing of the public's right to disclosure against the individual's right to privacy. The privacy interests of the individuals in the records you have requested outweigh any minimal public interest in disclosure of the information. Any private interest you may have in that information does not factor into the aforementioned balancing test.

You have the right to appeal if you disagree with FEMA's response, however, the inception of the 90 day appeal period is tolled until the final release for this request. The procedure for administrative appeals is outlined in the DHS regulations at 6 C.F.R. § 5.8. In the event you wish to submit an appeal, we encourage you to both state the reason(s) you believe FEMA's initial determination on your FOIA request was erroneous in your correspondence, and include a copy of this letter with your appeal. Should you wish to do so, you must send your appeal within 90 days from the date of this letter to fema-foia@fema.dhs.gov, or alternatively, via mail at the following address:

FEMA
Office of the Chief Administrative Officer
Information Management Division (FOIA Appeals)
500 C Street, SW, Seventh Floor, Mail Stop 3172
Washington, D.C. 20472-3172

As part of the 2007 amendments, the Office of Government Information Services (OGIS) was created to offer mediation services to resolve disputes between FOIA requesters and Federal agencies. You may contact OGIS in any of the following ways:

Office of Government Information Services
National Archives and Records Administration
8601 Adelphi Road- OGIS
College Park, MD 20740-6001
E-mail: ogis@nara.gov
Web: <https://ogis.archives.gov>
Telephone: 202-741-5770/Toll-free: 1-877-684-6448
Facsimile: 202-741-5769

Provisions of the FOIA allow us to recover part of the cost of complying with your request. In this instance, because the cost is below the \$25 minimum, there is no charge.

If you need any further assistance or would like to discuss any aspect of your request, please contact us and refer to FOIA case number **2013-FEFO-00899**. You may send an e-mail to fema-foia@fema.gov, call (202) 646-3323, or you may contact our FOIA Public Liaison in the same manner.

Sincerely,

Eric Neuschaefter
Disclosure Branch Chief

(b)(6)

Can you move files from the ADR Server folder "Reports" to "Data?" I exported the folder below to reports (The export location is \\D2isevphq002\foia\ADR\Reports\3279\2014-FEFO-00032), but can only see data folder.

What I can upload:

Not the case, I'm still doing the keyword searches in ADR before moving records to the review log.
Please don't delete that one yet.

Not excited about deleting 2015-FEFO-00093, because this one is ripe for appeal, given the requester.
Can you return the disks to me in the event he does appeal? We might have to re-upload them to the
server if you delete that one.

Good Afternoon (b)(6)

Thanks for the call. I am writing to memorialize our conversation from this afternoon on the priority of this records search. Below is the order in which you would prefer documents be searched and produced. As discussed, the Disclosure Branch may provide records on a rolling interim basis, based on document sizes and page numbers. At this point, you would still like for all of the keywords to be searched.

Keywords to Search:

1. "data mining"
2. "open source intelligence"
3. Glenn Archer
4. IJIS Institute (or "IJIS")
5. Choicepoint (or "Choice Point")
6. Templar Corporation (or "Templar")
7. Lockheed Martin
8. ISX Corporation (or "ISX")
9. Scientific Research Corporation (or "SRC")
10. Defense Advanced Research Projects Agency (or "DARPA")

11. Defense Intelligence Agency (“DIA”)
12. Office of the Director of National Intelligence (“ODNI”)
13. Information Sharing Environment General Manager (“ISE GM”)
14. Department of Defense (“DOJ or “Pentagon”)

Good afternoon.

On 7/12/2013 our office submitted a FOIA request regarding records for the Teanaway River in Kittitas County. Due to an address issue, it appears your office didn't actually receive the request until 8/2/13. Attached you will find our original request, along with the 10/18/13 acknowledgment letter. I've also attached my 10/25/2013 email to Roman Jankowski from the Disclosure Team at the National office (I

believe). Due to the scope of the request and the time it would take to respond, I had a telephone conversation with Mr. Jankowski. We spoke about potential records, and exchanged some ideas on how to narrow the scope of the request. I've not heard from the disclosure unit since then. If I'm wrong, please let me know; this is where my records stop.

Is the request still pending? Has it been closed? T

Thank you.

Importance: High

Good afternoon.

On 7/12/2013 our office submitted a FOIA request regarding records for the Teanaway River in Kittitas County. Due to an address issue, it appears your office didn't actually receive the request until 8/2/13. Attached you will find our original request, along with the 10/18/13 acknowledgment letter. I've also attached my 10/25/2013 email to Roman Jankowski from the Disclosure Team at the National office (I believe). Due to the scope of the request and the time it would take to respond, I had a telephone conversation with Mr. Jankowski. We spoke about potential records, and exchanged some ideas on how to narrow the scope of the request. I've not heard from the disclosure unit since then. If I'm wrong, please let me know; this is where my records stop.

Is the request still pending? Has it been closed? T

Thank you.

6601 Westown Parkway, Suite 200
West Des Moines, IA 50266-7733

Re: FEMA 2014-FEFO-00212 Response

Dear (b)(6)

This is the final response to your Freedom of Information Act (FOIA) request to the Department of Homeland Security (DHS)/Federal Emergency Management Agency (FEMA), dated and received by this office on October 31, 2013. You requested records, documents and information created during the processing of applications for federal disaster aid for Iowa as a result of a severe winter storm (Iowa Severe Winter Storm DR-4114, April 9-11, 2013). Specifically, all records referencing and/or pertaining to the processing of the applications for disaster aid under the Public Assistance program that have been submitted by Lyon Rural Electric Cooperative, Iowa Lakes Electric Cooperative, Osceola Electric Cooperative and Sanborn Municipal Electric Utility (the Applicants). Request is for all records produced or created by FEMA personnel, including Mr. Frank Cintron, or contractors, including Bicentennial Volunteers Inc., pertaining to the applications including, but not limited to the following:

- 1- The applicability of FEMA Policy 9580.6, "Electric Utility Repair" and any other 9500 Series Policies to the applications;
- 2- The determination that the Applicants are required to have performed laboratory tests of the physical characteristics of the conductor, (for example, testing of a minimum of three (3), twenty (20) foot sections of wire per mile on an annual basis), in order to be able to substantiate the physical condition of their conductor prior to the April storm event;
- 3- The determination that the Applicants have not substantiated that their electric line was damaged during the April storm event due to a lack of laboratory test data substantiating the physical characteristics following the storm event.

FEMA 2014-FEFO-00212

Our first interim response, dated March 2, 2015, included 50 pages of responsive records. We conducted a search of FEMA's Region VII and Office of the Chief Information Officer (OCIO) for documents responsive to your request. Unfortunately, we were unable to locate or identify any responsive records.

While an adequate search was conducted, you have the right to appeal this determination that no records exist within Region VII and OCIO that would be responsive to your request. Should you wish to do so, you must send your appeal and a copy of this letter, within 60 days of the date of this letter, to: Associate General Counsel (General Law), U.S. Department of Homeland Security, Washington, D.C. 20528, following the procedures outlined in the DHS FOIA regulations at 6 C.F.R. § 5.9. Your envelope and letter should be marked "FOIA Appeal." Copies of the FOIA and DHS regulations are available at www.dhs.gov/foia.

Provisions of the FOIA allow us to recover part of the cost of complying with your request. In this instance, because the cost is below the \$14 minimum, there is no charge. 6 C.F.R. §5.11(d)(4).

If you have any questions or would like to discuss this matter, you may contact FEMA at (202) 646-3323 and please reference the subsequent case identifier: **2014-FEFO-00212**.

Sincerely,

Eric Neuschaefer
FOIA Program Specialist

David,

These 541 pages are in the review log scattered with 1300 non-responsive pages (John Driscoll review layer). I saw you make comments on this PDF. Will you transfer these to FX, or should I?

Subject: FEMA 2014-FEFO-00212 - Potential Litigation Regarding

Good morning, Pearlene.

I have attached two letters. One dated November 17, 2016 upholding my appeal and requiring your agency to conduct a comprehensive search for documents responsive to my FOIA request to be completed within 30 days of the letter. The second letter is dated February 1, 2017 informing me that due to your lack of response I now have the right to initiate a lawsuit to compel FEMA to respond to my FOIA request.

I wanted to reach out to you one last time to give you an opportunity to respond before I file a federal lawsuit in the Southern District of Iowa. I would really prefer that your agency conduct the review required and provide me the documents I've requested without me having to get the court involved.

Thank you for any response to this email.

Good Morning,

Please could you check this case to see if we could give the requester an estimated time of completion

An interim release was made 3/2/15 of Project workseets (50 pages)

Was tasked to

ORR PA - Project Worksheets received (which appear to be duplicate to what was released under the interim)

Region VII – Response of not involved in the decision making process

OCIO – 1 CD of responsive information was received and given to DHS around March 2016 time frame

I see a drafted response letter from (b)(6)

2014-FEFO-00212	12/16/2015	N/A	OCIO responded to the tasker with no records. We will need to task them again with the employee inbox, search terms, and timeframe identified in the request (see notes in FX). We can review this when I am at FEMA	the OCIO taker refers to Alona Barnhart (ORR) and was tasked to ORR and ORR provided Resp docs. RVII tasked but cannot find the response.	OCIO resp docs provided on CD - to give to Eric -

Good Morning (b)(6)

This responds to your inquiry made on the status of your Freedom of Information Act request to the Federal Emergency Management Agency as numbered 2014-FEFO-00212.

Your request below on the status of your case has been forwarded to me and I have been researching.

First let me extend our apologies in the delay of processing your request. Upon reviewing your FOIA request and going back over all our component responses and we have had to re-task, as we want to be certain we are not overlooking any information that might be available. Once this information is received and there are no matters need to be amended the final review will occur, and any additional responsive information will be provided to you.

I am unable to provide an exact date of return. I also have management in the loop for their visibility and notification of your concerns. We certainly understand the importance of your request and are working diligently to provide the information you have requested.

Thank you for your continued patience. Have a pleasant day.

Dear Ms. Robinson,

One week from today will be the one year anniversary of your interim response to my above-referenced FOIA request. In that March 2, 2015 response to me you indicated that you have tasked FEMA Region VII for additional records responsive to the request and that if additional records are located “they will be processed and sent to [me] expeditiously”.

I am writing to inform you that as, of this email, I have heard nothing further regarding my FOIA request and to inquire if and/or when any additional records responsive to my

FOIA request (which was actually received by your agency on October 31, 2013) will be sent to me.

Thank you for your consideration of this request. Please contact me if you have questions.

The FEMA Disclosure Branch

From: (b)(6) [mailto:(b)(6)@sullivan-ward.com]
Sent: Thursday, October 31, 2013 3:49 PM
To: FEMA-FOIA
Subject: Request under the Freedom of Information Act

Good afternoon.

This is a request under the Freedom of Information Act. I hereby request the following records:

This request pertains to records, documents and information created during the processing of applications for federal disaster aid made available to the area of Iowa affected by a severe winter storm designated as Iowa Severe Winter Storm DR-4114 during the incident period of April 9-11, 2013.

I am requesting all records referencing and pertaining to the processing of the applications for disaster aid under the Public Assistance program that have been submitted by Lyon Rural Electric Cooperative, Iowa Lakes Electric Cooperative, Osceola Electric Cooperative and Sanborn Municipal Electric Utility (the Applicants). My request is for all documents, information, reports, memos, notes and emails produced or created by FEMA personnel, including Mr. Frank Cintron, or contractors, including Bicentennial Volunteers Inc., pertaining to these applications including, but not limited to, the information, without limitation, regarding the following:

- 1.) The applicability of FEMA Policy 9580.6, "Electric Utility Repair" and any other 9500 Series Policies to the applications.
- 2.) The determination that the Applicants are required to have performed laboratory tests of the physical characteristics of the conductor, (for example, testing of a minimum of three (3), twenty (20) foot sections of wire per mile on an annual basis), in order to be able to substantiate the physical condition of their conductor prior to the April storm event.

3.) The determination that the Applicants have not substantiated that their electric line was damaged during the April storm event due to a lack of laboratory test data substantiating the physical characteristics following the storm event.

I am entitled to a waiver of duplication fees because disclosure of the requested records is in the public interest within the meaning of 5 U.S.C. § 552(a)(4)(A)(iii) and 6 C.F.R. § 5.11(k). This standard is satisfied when requesters demonstrate that disclosure is "likely to contribute significantly to public understanding of the operations or activities of the government". The requested records clearly concern the "operations or activities of the government." 6 C.F.R. § 5.11(k)(2)(i). The connection to government operations and activities is "direct and clear." *Id.* Second, the information sought is "likely to contribute" to "an understanding of government operations and activities." 6 C.F.R. § 5.11(k)(2)(ii). Third, the records sought will result in greater "public understanding" of government policies, not just greater awareness within the requesting organizations. 6 C.F.R. § 5.11(k)(2)(iii). Fourth, the disclosure will contribute "significantly" to the public's knowledge and understanding of the government's policies. 6 C.F.R. § 5.11(k)(2)(iv).

The primary purpose of this Request is to obtain information to further the public's understanding of how FEMA is implementing its written policy, DAP 9580.6, which establishes criteria to determine eligibility for the repair and replacement of disaster-damaged electric distribution and transmission systems under the authority of electric utilities rural electric cooperatives and municipal electric utilities. This policy does not establish as criteria for eligibility for funding the testing described above which is being required of the Applicants.

In the event that fees cannot be waived, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not.

Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires.

Subject: RE: Problems with FX Review Log

We need to have AINS to fix the issue within FX. This isn't unique to this record set. It happened to another record set as well and we were able to fix it. We just need more time to be able to set up a WebEx session with AINS so they can remote in and work on the backend. (b)(6) will be able to coordinate that with their programmers. In the meantime, we need to identify every folder that has this issue for this case. Otherwise, we will not know which ones to try to fix. Kevin said there was more than one folder/subfolder.

Eric,

You can certainly process those 95 pages again outside of FOIAXpress if you really need them done soon. Do you already have the original 95 pages or do we need to provide those to you?

Thanks,

(b)(6)

Hi (b)(6)

Is there anything you can do to speed up the process? We have concerns that if we do not produce a response soon that the requester will take us to court. Citing technical issues will not go well with any court. Thank you.

Regards,
Eric

Kevin,

I can bring in all of those pages in that section again. You will lose your redactions for that section. Is this ok? I can do this right now.

We might be able to get the redactions back, but it will take me through Friday to figure out. If at all possible. I still have to see.

Assisting David with this FX issue...the lightning bolt button is disabled so long as the 'Message from webpage' is up. We tried clicking OK and then refreshing within the folder and/or with the lightning bolt, and neither worked. I timed the loading of 'Page 20' in this folder, and waited 25 minutes without it changing from this screen. Suggestions welcome because we have to get records out for this one. Thanks.

David,

This is related to the PNG cache meaning that the system is still loading the records. You need to refresh the records while you are in document management for that folder. You can either hit the lightning bolt highlighted below or right click on the folder/subfolder you want to refresh and click refresh.

West Des Moines, Iowa 50266-7733

Re: FEMA 2014-FEFO-00212 Interim Response

Dear (b)(6)

This is an interim response to your Freedom of Information Act (FOIA) request to the Department of Homeland Security (DHS)/Federal Emergency Management Agency (FEMA), dated and received by this office on October 31, 2013. You requested records, documents, and information created during the processing of applications for federal disaster aid for Iowa as a result of a severe winter storm (Iowa Severe Winter Storm DR-4114, April 9-11, 2013). Specifically, you sought all records referencing and/or pertaining to the processing of the applications for disaster aid under the Public Assistance program that have been submitted by Lyon Rural Electric Cooperative, Iowa Lakes Electric Cooperative, Osceola Electric Cooperative, and Sanborn Municipal Electric Utility (the Applicants) for all records produced or created by FEMA personnel, including Mr. Frank Cintron, or contractors, including Bicentennial Volunteers Inc., pertaining to the applications including, but not limited to the following:

- 1.) The applicability of FEMA Policy 9580.6, "Electric Utility Repair" and any other 9500 Series Policies to the applications.
- 2.) The determination that the Applicants are required to have performed laboratory tests of the physical characteristics of the conductor, (for example, testing of a minimum of three, twenty foot sections of wire per mile on an annual basis), in order to be able to substantiate the physical condition of their conductor prior to the April storm event; and
- 3.) The determination that the Applicants have not substantiated that their electric line was damaged during the April storm event due to a lack of laboratory test data substantiating the physical characteristics following the storm event.

We conducted a comprehensive search of FEMA's Public Assistance for documents responsive to your request. The search produced a total of 50 pages. Of those pages, we have determined that 45 pages are releasable in their entirety, and portions of five (5) pages are exempt from release, pursuant to Title 5 U.S.C. § 552(b)(4) and (b)(6).

FEMA 2014-FEFO-00212

FOIA Exemption 4 protects trade secrets and commercial or financial information obtained from a person that is privileged or confidential. The courts have held that this subsection protects (a) confidential commercial information, the disclosure of which is likely to cause substantial harm to the competitive position of the person who submitted the information and (b) information that was voluntarily submitted to the government if it is the kind of information that the provider would not customarily make available to the public.

FOIA Exemption 6 exempts from disclosure of personnel or medical files and similar files the release of which would cause a clearly unwarranted invasion of personal privacy. This requires a balancing of the public's right to disclosure against the individual's right to privacy. The privacy interests of the individuals in the records you have requested outweigh any minimal public interest in disclosure of the information. Any private interest you may have in that information does not factor into the aforementioned balancing test.

You have a right to appeal the above withholding determination. Should you wish to do so, you must send your appeal and a copy of this letter within 60 days of the date of this letter to the subsequent address: OCAO/Records Management Division (FOIA Appeals), FEMA, 500 C. Street SW, Seventh Floor, Mail Stop 3172, Washington, DC, 20472-3172, following the procedures outlined in the DHS regulations at 6 C.F.R. § 5.9. Your envelope and letter should be marked "FOIA Appeal." Copies of the FOIA and DHS regulations are available at www.dhs.gov/foia.

We have tasked FEMA's Region VII for additional records responsive to your request. If additional records are located, they will be processed and sent to you expeditiously.

Provisions of the FOIA allow us to recover part of the cost of complying with your request. In this instance, because the cost is below the \$14 minimum, there is no charge. 6 C.F.R. §5.11(d)(4).

If you have any questions or would like to discuss this matter, please contact this office at (202) 646-3323 or electronically at FEMA-FOIA@dhs.gov and refer to **FEMA 2014-FEFO-00212**

Sincerely,

PEARLENE

Re: FEMA 2014-FEFO-00212 Response

Dear (b)(6)

This is the final response to your Freedom of Information Act (FOIA) request to the Department of Homeland Security (DHS)/Federal Emergency Management Agency (FEMA), dated and received by this office on October 31, 2013. You requested records, documents and information created during the processing of applications for federal disaster aid for Iowa as a result of a severe winter storm (Iowa Severe Winter Storm DR-4114, April 9-11, 2013). Specifically, all records referencing and/or pertaining to the processing of the applications for disaster aid under the Public Assistance program that have been submitted by Lyon Rural Electric Cooperative, Iowa Lakes Electric Cooperative, Osceola Electric Cooperative and Sanborn Municipal Electric Utility (the Applicants). Request is for all records produced or created by FEMA personnel, including Mr. Frank Cintron, or contractors, including Bicentennial Volunteers Inc., pertaining to the applications including, but not limited to the following:

- 1- The applicability of FEMA Policy 9580.6, "Electric Utility Repair" and any other 9500 Series Policies to the applications;
- 2- The determination that the Applicants are required to have performed laboratory tests of the physical characteristics of the conductor, (for example, testing of a minimum of three (3), twenty (20) foot sections of wire per mile on an annual basis), in order to be able to substantiate the physical condition of their conductor prior to the April storm event;
- 3- The determination that the Applicants have not substantiated that their electric line was damaged during the April storm event due to a lack of laboratory test data substantiating the physical characteristics following the storm event.

FEMA 2014-FEFO-00212

Our first interim response, dated March 2, 2015, included 50 pages of responsive records. We conducted a search of FEMA's Region VII and Office of the Chief Information Officer (OCIO) for documents responsive to your request. Unfortunately, we were unable to locate or identify any responsive records.

While an adequate search was conducted, you have the right to appeal this determination that no records exist within Region VII and OCIO that would be responsive to your request. Should you wish to do so, you must send your appeal and a copy of this letter, within 60 days of the date of this letter, to: Associate General Counsel (General Law), U.S. Department of Homeland Security, Washington, D.C. 20528, following the procedures outlined in the DHS FOIA regulations at 6 C.F.R. § 5.9. Your envelope and letter should be marked "FOIA Appeal." Copies of the FOIA and DHS regulations are available at www.dhs.gov/foia.

Provisions of the FOIA allow us to recover part of the cost of complying with your request. In this instance, because the cost is below the \$14 minimum, there is no charge. 6 C.F.R. §5.11(d)(4).

If you have any questions or would like to discuss this matter, you may contact FEMA at (202) 646-3323 and please reference the subsequent case identifier: **2014-FEFO-00212**.

Sincerely,

Eric Neuschaefer

Subject: Problems with FX Review Log 2016-FEAP-00212

Good morning Eric,

(b)(6) is expecting some type of production schedule today. We only need the 543 pages Kevin has provided me to get started. The system currently will not allow us access to the document. Any suggestions of what time frame we should tell him. Thanks.

Good morning, David.

I'm confirming the receipt of your email again from my desk. Yesterday I did so from my phone.

I look forward to hearing from you later this week.

Have a good day.

Subject: RE: Problems with FX Review Log

I added the same pages to the bottom. Same issue. There is something wrong with this entire folder. I'm looking into it. I will have to get some developers from AINS involved. I apologize for the inconvenience. I will remove the section I just added. The case also auto locks itself, which is bizarre.

David,

This is related to the PNG cache meaning that the system is still loading the records. You need to refresh the records while you are in document management for that folder. You can either hit the lightning bolt highlighted below or right click on the folder/subfolder you want to refresh and click refresh.

(b)(6)

Sullivan & Ward, P.C.
6601 Westown Parkway, Suite 200
West Des Moines, IA 50266-7733

Re: FEMA 2014-FEFO-00212 Response

Dear (b)(6)

This is the final response to your Freedom of Information Act (FOIA) request to the Department of Homeland Security (DHS)/Federal Emergency Management Agency (FEMA), dated and received by this office on October 31, 2013. You requested records, documents and information created during the processing of applications for federal disaster aid for Iowa as a result of a severe winter storm (Iowa Severe Winter Storm DR-4114, April 9-11, 2013). Specifically, all records referencing and/or pertaining to the processing of the applications for disaster aid under the Public Assistance program that have been submitted by Lyon Rural Electric Cooperative, Iowa Lakes Electric Cooperative, Osceola Electric Cooperative and Sanborn Municipal Electric Utility (the Applicants). Request is for all records produced or created by FEMA personnel, including Mr. Frank Cintron, or contractors, including Bicentennial Volunteers Inc., pertaining to the applications including, but not limited to the following:

- 1- The applicability of FEMA Policy 9580.6, "Electric Utility Repair" and any other 9500 Series Policies to the applications;
- 2- The determination that the Applicants are required to have performed laboratory tests of the physical characteristics of the conductor, (for example, testing of a minimum of three (3), twenty (20) foot sections of wire per mile on an annual basis), in order to be able to substantiate the physical condition of their conductor prior to the April storm event;
- 3- The determination that the Applicants have not substantiated that their electric line was damaged during the April storm event due to a lack of laboratory test data substantiating the physical characteristics following the storm event.

FEMA 2014-FEFO-00212

Our first interim response, dated March 2, 2015, included 50 pages of responsive records. We conducted a search of FEMA's Region VII and Office of the Chief Information Officer (OCIO) for documents responsive to your request. Unfortunately, we were unable to locate or identify any responsive records.

While an adequate search was conducted, you have the right to appeal this determination that no records exist within Region VII and OCIO that would be responsive to your request. Should you wish to do so, you must send your appeal and a copy of this letter, within 60 days of the date of this letter, to: Associate General Counsel (General Law), U.S. Department of Homeland Security, Washington, D.C. 20528, following the procedures outlined in the DHS FOIA regulations at 6 C.F.R. § 5.9. Your envelope and letter should be marked "FOIA Appeal." Copies of the FOIA and DHS regulations are available at www.dhs.gov/foia.

Provisions of the FOIA allow us to recover part of the cost of complying with your request. In this instance, because the cost is below the \$14 minimum, there is no charge. 6 C.F.R. §5.11(d)(4).

If you have any questions or would like to discuss this matter, you may contact FEMA at (202) 646-3323 and please reference the subsequent case identifier: **2014-FEFO-00212**.

Hi Eric,

I just received notification from IQ that Non Responsive has appeal his case 2014-FEFO-00212.

Has this also been delivered to DHS?

What action do I need to take if any? (e.g. notify Monique that DHS is working etc..)?

Subject: RE: FEMA items

Afternoon Kevin,

1. There is an issue with the pst files on the ADR server. I took one of them and tried to open it up I outlook. It instantly crashes outlook. The original pst files on the share drive open fine. So there seems to be some sort of an issue when these files were copied to ADR server. I'm bringing one of the psts over again myself. Will update with results.
2. The original pages have annotations, see attached. They are causing errors. We are working on fixing this so you can view and upload these pages. As a workaround, if it is ok with you, we can remove the annotations so the pages will be viewable again. This will take less time than getting the pages with annotations to work. Let me know if this is acceptable for now.
3. I have about 3 more cases to upload to the share drive. Then I will ask the IT team to move them over to ADR server.

Subject: RE: Problems with FX Review Log

If by accurate, you mean my keyword searches in February and today got all the appropriate hits, then mostly yes (all but for three documents---see green arrows---but my memo notes on the number of tagged items is the same). Very strange. The red arrows marking the same documents that now miraculously have more pages in the same document is even more mind boggling. Some of these subfolders still won't open, so it really makes no difference. And I can't save to disk the folders that won't load, so we can't work around FX.

Subject: RE: Problems with FX Review Log

I think something is corrupted with the individual files. When I imported the same saved review list from February, the page counts were off (currently the Folder #3 in review log). So I started a brand new ADR search, and it was still off (Saved this new search in the review log as folder #2). Here's a side-by-side comparison of the first folder and my new ADR search folder #2. Attached is a larger copy.

Subject: RE: Problems with FX Review Log

We need to have AINS to fix the issue within FX. This isn't unique to this record set. It happened to another record set as well and we were able to fix it. We just need more time to be able to set up a WebEx session with AINS so they can remote in and work on the backend. Boris will be able to coordinate that with their programmers. In the meantime, we need to identify every folder that has this issue for this case. Otherwise, we will not know which ones to try to fix. Kevin said there was more than one folder/subfolder.

Subject: RE: Problems with FX Review Log

David,

Please provide more details of the actual issue. It is isn't clear what he actual issue is. Is it saving to disk from the review layer? Is it moving the records to the review layer from ADR? Are there any error messages or failure messages that appear? Screen shots would help.

(b)(6) will work on any issue when he is in tomorrow.

Thanks,

(b)(6)

Subject: Problems with FX Review Log

Good morning, (b)(6)

We are processing case 2014-FEFO-00212. The documents have been thru ADR. We are having a problem unloading some sections. This is a potential Litigation!! Thanks!!

Subject: RE: Problems with FX Review Log

If by accurate, you mean my keyword searches in February and today got all the appropriate hits, then mostly yes (all but for three documents---see green arrows---but my memo notes on the number of tagged items is the same). Very strange. The red arrows marking the same documents that now miraculously have more pages in the same document is even more mind boggling. Some of these subfolders still won't open, so it really makes no difference. And I can't save to disk the folders that won't load, so we can't work around FX.

Regards,
Kevin

Subject: RE: Problems with FX Review Log

I think something is corrupted with the individual files. When I imported the same saved review list from February, the page counts were off (currently the Folder #3 in review log). So I started a brand new ADR search, and it was still off (Saved this new search in the review log as folder #2). Here's a side-by-side comparison of the first folder and my new ADR search folder #2. Attached is a larger copy.

Eric,

You can certainly process those 95 pages again outside of FOIAXpress if you really need them done soon. Do you already have the original 95 pages or do we need to provide those to you?

Thanks,

(b)(6)

Kevin,

I can bring in all of those pages in that section again. You will lose your redactions for that section. Is this ok? I can do this right now.

We might be able to get the redactions back, but it will take me through Friday to figure out. If at all possible. I still have to see.

(b)(6) –these pages were not yet viewed by me or David McCoy. They may have been viewed by an analyst who left FEMA for DHS PRIV.

(b)(6) –see screenshot below for the appeal you processed at FEMA. Were you ever able to view this folder starting at page 20, and the folders below it, while processing this? I think you had, because the pages appear to be redacted in full.

(b)(6)

Assisting David with this FX issue...the lightning bolt button is disabled so long as the 'Message from webpage' is up. We tried clicking OK and then refreshing within the folder and/or with the lightning bolt, and neither worked. I timed the loading of 'Page 20' in this folder, and waited 25 minutes without it changing from this screen. Suggestions welcome because we have to get records out for this one. Thanks.

Regards,
Kevin

David,

This is related to the PNG cache meaning that the system is still loading the records. You need to refresh the records while you are in document management for that folder. You can either hit the lightning bolt highlighted below or right click on the folder/subfolder you want to refresh and click refresh.

David,

Please provide more details of the actual issue. It is isn't clear what the actual issue is. Is it saving to disk from the review layer? Is it moving the records to the review layer from ADR?

Are there any error messages or failure messages that appear? Screen shots would help.

(b)(6) will work on any issue when he is in tomorrow.

Thanks,

(b)(6)

Subject: RE: Problems with FX Review Log

I think something is corrupted with the individual files. When I imported the same saved review list from February, the page counts were off (currently the Folder #3 in review log). So I started a brand new ADR search, and it was still off (Saved this new search in the review log as folder #2). Here's a side-by-side comparison of the first folder and my new ADR search folder #2. Attached is a larger copy.

Eric,

You can certainly process those 95 pages again outside of FOIAXpress if you really need them done soon. Do you already have the original 95 pages or do we need to provide those to you?

Thanks,

(b)(6)

Hi (b)(6)

Is there anything you can do to speed up the process? We have concerns that if we do not produce a response soon that the requester will take us to court. Citing technical issues will not go well with any court. Thank you.

Kevin,

I can bring in all of those pages in that section again. You will lose your redactions for that section. Is this ok? I can do this right now.

We might be able to get the redactions back, but it will take me through Friday to figure out. If at all possible. I still have to see.

I'm double checking. I did notice that the for section named REC Workgroup Member... it has 95. Pages. Past page 20, you cannot view any of the pages.

Is there any way to replace those pages, or resolve the error, short of reloading the whole set of unredacted originals from ADR again? Let us know.

Thank you. The reason I ask, is because I think the pages are corrupted. When I look at the file size on those pages, it is OKB.

(b)(6) —these pages were not yet viewed by me or David McCoy. They may have been viewed by an analyst who left FEMA for DHS PRIV.

(b)(6) --see screenshot below for the appeal you processed at FEMA. Were you ever able to view this folder starting at page 20, and the folders below it, while processing this? I think you had, because the pages appear to be redacted in full.

Assisting David with this FX issue...the lightning bolt button is disabled so long as the 'Message from webpage' is up. We tried clicking OK and then refreshing within the folder and/or with the lightning bolt, and neither worked. I timed the loading of 'Page 20' in this folder, and waited 25 minutes without it changing from this screen. Suggestions welcome because we have to get records out for this one. Thanks.

David,

This is related to the PNG cache meaning that the system is still loading the records. You need to refresh the records while you are in document management for that folder. You can either hit the lightning bolt highlighted below or right click on the folder/subfolder you want to refresh and click refresh.

David,

Please provide more details of the actual issue. It is isn't clear what the actual issue is. Is it saving to disk from the review layer? Is it moving the records to the review layer from ADR? Are there any error messages or failure messages that appear? Screen shots would help.

(b)(6) will work on any issue when he is in tomorrow.

Thanks,

Attachments: 2014-FEFO-00212 Compare Folders.jpg

I think something is corrupted with the individual files. When I imported the same saved review list from February, the page counts were off (currently the Folder #3 in review log). So I started a brand new ADR search, and it was still off (Saved this new search in the review log as folder #2). Here's a side-by-side comparison of the first folder and my new ADR search folder #2. Attached is a larger copy.

Subject: RE: Problems with FX Review Log

(b)(6)

Explained this to (b)(6) yesterday, but that's not the only folder with the loading error. It's just the first from the top.

Eric,

You can certainly process those 95 pages again outside of FOIAXpress if you really need them done soon.
Do you already have the original 95 pages or do we need to provide those to you?

Thanks,

(b)(6)

Hi (b)(6)

Is there anything you can do to speed up the process? We have concerns that if we do not produce a response soon that the requester will take us to court. Citing technical issues will not go well with any court. Thank you.

Regards,
Eric

Kevin,

I can bring in all of those pages in that section again. You will lose your redactions for that section. Is this ok? I can do this right now.

We might be able to get the redactions back, but it will take me through Friday to figure out. If at all possible. I still have to see.

Thank you. The reason I ask, is because I think the pages are corrupted. When I look at the file size on those pages, it is OKB.

(b)(6) —these pages were not yet viewed by me or David McCoy. They may have been viewed by an analyst who left FEMA for DHS PRIV.

(b)(6) —see screenshot below for the appeal you processed at FEMA. Were you ever able to view this folder starting at page 20, and the folders below it, while processing this? I think you had, because the pages appear to be redacted in full.

(b)(6)

Assisting David with this FX issue...the lightning bolt button is disabled so long as the 'Message from webpage' is up. We tried clicking OK and then refreshing within the folder and/or with the lightning bolt, and neither worked. I timed the loading of 'Page 20' in this folder, and waited 25 minutes without it changing from this screen. Suggestions welcome because we have to get records out for this one. Thanks.

David,

This is related to the PNG cache meaning that the system is still loading the records. You need to refresh the records while you are in document management for that folder. You can either hit the lightning bolt highlighted below or right click on the folder/subfolder you want to refresh and click refresh.

David,

Please provide more details of the actual issue. It is isn't clear what the actual issue is. Is it saving to disk from the review layer? Is it moving the records to the review layer from ADR? Are there any error messages or failure messages that appear? Screen shots would help.

(b)(6) will work on any issue when he is in tomorrow.

Thanks,

(b)(6)

Subject: RE: Problems with FX Review Log

Thanks Kevin,

Yeah, I don't want to sit and wait for AINS to fix what seems to be a rather serious technical flaw

I would suggest reprocessing, if it's not a huge lift.

Regards,
Eric

David,

This is related to the PNG cache meaning that the system is still loading the records. You need to refresh the records while you are in document management for that folder. You can either hit the lightning bolt highlighted below or right click on the folder/subfolder you want to refresh and click refresh.

(b)(6)

Assisting David with this FX issue...the lightning bolt button is disabled so long as the 'Message from webpage' is up. We tried clicking OK and then refreshing within the folder and/or with the lightning bolt, and neither worked. I timed the loading of 'Page 20' in this folder, and waited 25 minutes without it changing from this screen. Suggestions welcome because we have to get records out for this one. Thanks.

Regards,
Kevin

Subject: RE: Problems with FX Review Log

We need to have AINS to fix the issue within FX. This isn't unique to this record set. It happened to another record set as well and we were able to fix it. We just need more time to be able to set up a WebEx session with AINS so they can remote in and work on the backend. Boris will be able to coordinate that with their programmers. In the meantime, we need to identify every folder that has this issue for this case. Otherwise, we will not know which ones to try to fix. Kevin said there was more than one folder/subfolder.

Thank you. The reason I ask, is because I think the pages are corrupted. When I look at the file size on those pages, it is OKB.

David,

This is related to the PNG cache meaning that the system is still loading the records. You need to refresh the records while you are in document management for that folder. You can either hit the lightning bolt highlighted below or right click on the folder/subfolder you want to refresh and click refresh.

Assisting David with this FX issue...the lightning bolt button is disabled so long as the 'Message from webpage' is up. We tried clicking OK and then refreshing within the folder and/or with the lightning bolt, and neither worked. I timed the loading of 'Page 20' in this folder, and waited 25 minutes without it changing from this screen. Suggestions welcome because we have to get records out for this one. Thanks.

David,

This is related to the PNG cache meaning that the system is still loading the records. You need to refresh the records while you are in document management for that folder. You can either hit the lightning bolt highlighted below or right click on the folder/subfolder you want to refresh and click refresh.

(b)(6)

Assisting David with this FX issue...the lightning bolt button is disabled so long as the 'Message from webpage' is up. We tried clicking OK and then refreshing within the folder and/or with the lightning bolt, and neither worked. I timed the loading of 'Page 20' in this folder, and waited 25 minutes without it changing from this screen. Suggestions welcome because we have to get records out for this one. Thanks.

Regards,
Kevin

Subject: Problems with FX Review Log

Good morning (b)(6),

We are processing case 2014-FEFO-00212. The documents have been thru ADR. We are having a problem unloading some sections. This is a potential Litigation!! Thanks!!

Can you check into this for me, it seems the ALJ is still having issues with this file and now claims we uploaded the wrong set.

Thank you, (b)(6)

Eric,

Please see below. The review layer which was used for the "interim response" is giving me an error message when I load it up on FX in the request folder section. Can you check whether it works for you, please? Thanks.

Best,

(b)(6)

Subject: Kevin Need Your Help

Kevin, thanks for all your help!!!

Please create a review new section in FX for 2017-FEAP-00006 (2016-FEFO-02128) (b)(5) with only the responsive docs from ADR (303) docs to the FX review log.

Also Kevin, after reviewing 2016-FEAP-00027 and 2014-FEFO-00212, there are some responsive documents that were tagged non-responsive. Please create a new section in FX for supplemental responses and place those documents in there. Please also unlock the file so we can continue the review. These documents may be protected under B-5 for draft docs. Thanks.

Memorandum on 2014-FEFO-00212

FOIAXpress ADR software search of returned OCIO Records

Results of search on 2/8/2017 and 2/9/2017

Note---duplicate records were identified and tagged in the ADR software, so only one copy of the records mentioning two or more keywords was produced in the final records set.

RECORDS FOUND: The following 33 keywords produced results of records (or is it times mentioned, or pages, or records total---cant be records because we have 103, and cintron came up 218 times?)

1. Cintron = 218
2. "Frank Cintron" = 231
3. Frank Cintron = 231
4. "DR-4114"= 40
5. DR-4114 = 40
6. April 9 2013= 3
7. April 9, 2013= 3
8. April 11 2013= 3
9. April 11, 2013= 3
10. Iowa Serve Winter Storm= 1
11. "Iowa"= 51
12. Iowa = 51
13. Iowa Lakes = 14
14. Iowa Lakes Electric Cooperative= 9
15. "Lyon"= 16
16. Lyon = 16

Subject: 2016-FEAP-00027 Appeal

Eric,

Paula asked me to work on appeal # **2016-FEAP-00027**, a remand of # **2014-FEFO-00212**. Here is a summary of important facts.

1. 10/31/2013---Request for applications of disaster aid for Iowa Severe Winter Storm DR-4114 (b)(6) PA and Region 7 were tasked. PA produced 50 pages.
2. 3/2/2015--Interim response of 50 pages from PA (cleared by Pearlene), letter mentions Region 7 was tasked and if records are located, they will be processed and sent.
3. 10/28/2015--Region 7 no records.
4. 12/15/2015—Eric Request note: "We will need to re-task OCIO for records." Also left a note in the DHS IAA tracking sheet.
5. 1/5/2016- -Eric note on tracking sheet **1/5/2016**- Records from ORR were located, but are in the share drive. May have meant OCIO.
6. 2/25/2016--tasked OCIO for records. No response found in correspondence log.
7. 3/22/2016--Eric note on tracking sheet: **3/22/2016**- OCIO search complete, records received. Ready for ADR and FX upload
8. 5/2/2016--- Eric note on tracking sheet: **5/2/2016**- May have to re-task Region VII.
9. 5/27/2016-- Eric note on tracking sheet: **5/27/2016**- Uploaded PA records to review log and removed duplicates. Need OCIO CD records uploaded and ADR before processing.
10. 7/19/2016--(b)(6) request note:

(b)(6) (Task: 9 – Other) ADR search terms used: "FEMA Policy 9580.6", FEMA Policy 9580.6, 9580.6, FEMA Policy, Policy "Electric Utility Repair", Electric Utility Repair, Utility Repair "9500 Series Policies", 9500 Series Policies, Series Policies, 9500 "Lyon Rural Electric Cooperative", Lyon Rural Electric Cooperative, Electric Cooperative "Iowa Lakes Electric Cooperative", Iowa Lakes Electric Cooperative, Iowa "Osceola Electric Cooperative", Osceola Electric Cooperative, Osceola "Sanborn Municipal Electric Utility", Sanborn Municipal Electric Utility, Sanborn Municipal. July 19 2016 11:50:46 AM

11. 7/19/2016- Eric request note:

Neuschaefer, Eric (Task: Re-Assign Request) ADR search complete, no records located. Please draft a no records response and send to me for QC. OCIO was the tasking office. Thanks. July 19 2016 12:47:46 PM

12. 7/19/2016—Eric note on tracking sheet. **7/19/2016**- ADR complete, no responsive records located (see request notes for search details. Assigned to John for processing- No Records
13. 7/27/2016—Eric cleared the response no records and Contractor team (John) emailed a no records final response.
14. 8/26/2016- Appeal logged in FX by DHS Kevin Tyrell.
15. 2/1/2017--Appeal remanded—Three justifications **(1) requester supplied "numerous exhibits" showing that additional responsive documents did , in fact exist but were not located and**

provided. (2) Internal tracking documents were missing, precluding ALJ's meaningful review (3) Search of Frank Cintron's emails, and other personal, appeared "from the record before me to be inadequate."

My analysis: This no records response was based on Jibrán & Eric's search on July 19, 2016 of the OCIO ADR records.

For more history on this, see tracking sheet entries below.

2014-FEFO-00212	Request pertains to records, documents and information created during the processing of applications for federal disaster aid for Iowa as a result of a severe winter storm (Iowa Severe Winter Storm	Iowa Severe Winter Storm DR-4114	10/31/2013	PA, Region VII, OCIO	0	Yes	Yes	John	<p>10/29/2015</p> <p>- Records appear to be in order. Good morning Eric, in light of our conversation on yesterday, this is another case in which the requester is appealing expedited processing. Both cases are open. Recommend that we close the appeal and continue to process the request. Thanks.

Here are Kevin notes from below:

2014-FEFO-00212

David, do you know this one is ready to process? The records are in the original case number and not the appeal number. I finished the ADR search and put the records in review log. My memo is saved in correspondence log.

Regards,
Kevin

Memorandum on 2014-FEFO-00212

FOIAXpress ADR software search of returned OCIO Records

Results of search on 2/8/2017 and 2/9/2017

Note---duplicate records were identified and tagged in the ADR software, so only one copy of the records mentioning two or more keywords was produced in the final records set.

RECORDS FOUND: The following 33 keywords produced results of records (or is it times mentioned, or pages, or records total---cant be records because we have 103, and cintron came up 218 times?)

1. Cintron = 218
2. "Frank Cintron" =
3. Frank Cintron =
4. "DR-4114"= 40
5. DR-4114 = 40
6. April 9 2013= 3
7. April 9, 2013=
8. April 11 2013= 3
9. April 11, 2013=
10. Iowa Serve Winter Storm= 1
11. "Iowa"= 51
12. Iowa = 51
13. Iowa Lakes = 14
14. Iowa Lakes Electric Cooperative= 9
15. "Lyon"= 16
16. Lyon = 16
17. Lyon Rural= 6
18. Lyon Rural Electric Cooperative= 6
19. "Osceola's"=9
20. Osceola's = 9
21. Osceola Electric Cooperative= 10
22. "Sanborn" = 11
23. Sanborn= 11
24. Sanborn Municipal = 9
25. Sanborn Municipal Electric Utility= 5
26. "Bicentennial volunteers"=4
27. Bicentennial volunteers= 4
28. "9580.6"= 103
29. 9580.6 = 103
30. "9500"=4
31. 9500 = 4
32. "electric utility repair"=40
33. Electric Utility Repair= 40

RECORDS NOT FOUND: The following 3 keyword searches produced no records found:

1. "Mr. Frank Cintron" = 0
2. April 10 2013= 0
3. April 10, 2013=

Memorandum on 2014-FEFO-00212

FOIAXpress ADR software search of returned OCIO Records

Results of search on 2/8/2017 and 2/9/2017

Note---duplicate records were identified and tagged in the ADR software, so only one copy of the records mentioning two or more keywords was produced in the final records set.

RECORDS FOUND: The following 33 keywords produced results of records (or is it times mentioned, or pages, or records total---cant be records because we have 103, and cintron came up 218 times?)

1. Cintron = 218
2. "Frank Cintron" = 231
3. Frank Cintron = 231
4. "DR-4114"= 40
5. DR-4114 = 40
6. April 9 2013= 3
7. April 9, 2013= 3
8. April 11 2013= 3
9. April 11, 2013= 3
10. Iowa Serve Winter Storm= 1
11. "Iowa"= 51
12. Iowa = 51
13. Iowa Lakes = 14
14. Iowa Lakes Electric Cooperative= 9
15. "Lyon"= 16
16. Lyon = 16
17. Lyon Rural= 6
18. Lyon Rural Electric Cooperative= 6
19. "Osceola's"=9
20. Osceola's = 9
21. Osceola Electric Cooperative= 10
22. "Sanborn" = 11
23. Sanborn= 11
24. Sanborn Municipal = 9
25. Sanborn Municipal Electric Utility= 5
26. "Bicentennial volunteers"=4
27. Bicentennial volunteers= 4
28. "9580.6"= 103
29. 9580.6 = 103
30. "9500"=4
31. 9500 = 4
32. "electric utility repair"=40
33. Electric Utility Repair= 40

RECORDS NOT FOUND: The following 3 keyword searches produced no records found:

1. "Mr. Frank Cintron" = 0
2. April 10 2013= 0
3. April 10, 2013= 0

Subject: RE: 2014-FEFO-00889

Hi Kevin,

I would not advise bundling requests into a single appeal as this opens way to many doors. Each request should be treated individually. If for some reason this one gets appealed, then we treat this one separately as well.

I am not aware of any active FOIA litigation involving the requester.

Regards,
Eric

Subject: RE: Appeal Cases

Eric/Kevin

This appeal was one you wanted Kevin to take a look at –

Here are my concerns or thoughts:

Final response on his 2014-fefo-00212 was July, 27, 2016. No records

The appeal was made in August. The remand was said to have been in November, but we never got a copy and I cannot see a copy of that from November (the one in the system is not for this client)

I don't think we caught wind of it until this second hit from the ALJ this week.

No additional searches were done after the final response went out on July 27, 2017

I have the requesters Appeal attached (its 60+ pages with examples of emails from this Frank Citron)

Kevin, are you saying that the adequacy of the searches were correct from the original request?

Subject: FEMA 2014-FEFO-00212 - Potential Litigation Regarding

Good morning, Pearlene.

I have attached two letters. One dated November 17, 2016 upholding my appeal and requiring your agency to conduct a comprehensive search for documents responsive to my FOIA request to be completed within 30 days of the letter. The second letter is dated February 1, 2017 informing me that due to your lack of response I now have the right to initiate a lawsuit to compel FEMA to respond to my FOIA request.

I wanted to reach out to you one last time to give you an opportunity to respond before I file a federal lawsuit in the Southern District of Iowa. I would really prefer that your agency conduct the review required and provide me the documents I've requested without me having to get the court involved.

Thank you for any response to this email.

David,

For your awareness, I was in touch with (b)(6) (Appeal of 2014-FEFO-00212/2016_FEAP-000027) on his similar but not duplicate open request. Below are some emails after our call.

Regards,
Kevin

Subject: RE: FEMA FOIA #2014-FEFO-00889 - Narrowed Records Search

Thanks, Kevin.

Your email is consistent with what we discussed and I agree with the process that you have described.

By way of example of the process we are envisioning, I have attached the cover page of the Technical Report that was prepared in support of FEMA Region 7's determination regarding eligibility. This Technical Report consists of 2,176 pages. I have a copy of it. If it was filed in each of the four application/appeal records, that is nearly 9,000 pages that do not need to be produced.

I am also attaching the first pages of the "Administrative Records" that I was provided in April 2014. The two pdf files are entitled "Lyon REC FEMA Administrative Record" (1,092 pages) and "Osceola Admin Record" (1,524 pages). That could be another 2,616 pages that do not need to be set to me. So, its a start.

Thanks again for your call. I look forward to working with you on this.

Have a good weekend.

Subject: FEMA FOIA #2014-FEFO-00889 - Narrowed Records Search

Good Afternoon (b)(6)

Thank you for speaking with me today. To clarify the scope of this records search, and to expedite our review of a large records set, you expressed to me that you are not interested in documents that appear to be created by the Cooperatives involved in the FEMA policy at issue (Lyon Rural Electric, Iowa Lakes Electric, Osceola Electric, and Sanborn Electric). These will be removed from the records set.

Further, because of the large number of pages, we may process and produce records on a rolling/ interim basis. Lastly, if our analysts determine that there's a format or repetition of records, even though they come under the scope of your request, we may send a sample of those records as an interim response before spending more time and resources on similar records sets.

Thank you again for your time. Feel free to call me with any questions.

Regards,
Kevin Hill

Can you get those folders visible without annotations, and let us know which ones *had* annotations? That way something is visible, even if we can't see the annotations.

Yes they are, but the image of them would work. Right now they are the actual annotations. If they can make a tool to just burn the annotation as an image that would work.

Subject: RE: FEMA items

Afternoon Kevin,

1. There is an issue with the pst files on the ADR server. I took one of them and tried to open it up I outlook. It instantly crashes outlook. The original pst files on the share drive open fine. So there seems to be some sort of an issue when these files were

copied to ADR server. I'm bringing one of the psts over again myself. Will update with results.

2. The original pages have annotations, see attached. They are causing errors. We are working on fixing this so you can view and upload these pages. As a workaround, if it is ok with you, we can remove the annotations so the pages will be viewable again. This will take less time than getting the pages with annotations to work. Let me know if this is acceptable for now.
3. I have about 3 more cases to upload to the share drive. Then I will ask the IT team to move them over to ADR server.

Subject: RE: Request Assignment

Pearlene,

Many of the pages have been marked as responsive because they either fall outside the timeframe or were the subject's emails for another non-related Iowa storm. Feel free to contact the processor for questions on why he marked them non-responsive (b)(6) @associates.dhs.gov.

Subject: RE: Request FEMA 2014-FEFO-00889

They are very related. In his appeal for 2014-FEFO-00212, he asked for these 2014-FEFO-00889 Region 7 documents. The only difference, making these not duplicates is that for 212, we searched correspondence records for employee Frank Cintron using the keywords Iowa lakes, Lyon rural, etc. Those results were reasonable, 1800 pages. For this one though 281 pages, should we process the first of four PDFs (Iowa Lakes=5627 pg) and send as an interim, then check if he wants to continue? 2014-FEFO-00212 appeal of OCIO records,

Every one of the documents that I have included with this appeal was either created by Frank Cintron or other FEMA Region VII personnel during the application process or was either submitted to Region VII as part of the application process or while the appeal was pending and each is responsive to all three of my requests. At the very least, copies of these documents should have been provided to me in response to my request. It is my belief that there are documents in addition to the one's I have included with this appeal that Region VII has refused to provide.

I, therefore, respectfully appeal the finding that no records exist within Region VII and OCIO responsive to my request and ask that Region VII and OCIO be required to conduct another search of their records for any responsive records or, in the alternative, that Region VII and OCIO be required to provide me with copies of all of the documents they have in their files pertaining to the applications for federal disaster aid submitted by Iowa utilities Lyon Rural Electric Cooperative, Iowa Lakes Electric Cooperative, Osceola Electric Cooperative and Sanborn Electric and Telecommunications Utility following a severe winter storm (Iowa Severe Winter Storm DR-4114, April 9-11, 2013).

Cc: Presley, Paula <paula.presley@fema.dhs.gov>
Subject: RE: Request FEMA 2014-FEFO-00889

Are these requests at all related or similar?

There is not much we can do with the records we have on hand. Our options are to process or ask the regions to conduct a new search and provide us with individual documents. For this particular case, we should probably just process, it would look really bad if we informed the requester that we are starting the search over.

FEMA-FOIA

From: (b)(6) [mailto:(b)(6)@sullivan-ward.com]
Sent: Tuesday, August 02, 2016 10:09 AM
To: FEMA-FOIA <FEMA-FOIA@fema.dhs.gov>
Subject: Request FEMA 2014-FEFO-00889

Good morning.

I submitted the request assigned the reference number FEMA 2014-FEFO-0889 on May 1, 2014. I received acknowledgment of your receipt of this request in a letter dated August 14, 2014.

To refresh your memory, there was a severe winter storm in April 2013 that resulted in damage to four Iowa utilities electric distribution systems. A Presidential disaster declaration was made in May 2013 (FEMA-4114-DR-IA) FEMA Region 7 determined that the utilities were not eligible for Public Assistance funds. The 4 utilities appealed and Region 7's decision was overturned by FEMA Headquarters earlier this year. Although FEMA Region 7 compiled an Administrative Record relative to the appeal of its

decision I believe that FEMA Region 7 has refused to provide documents that are germane to its determination to deny eligibility.

For this reason, I have made a request for all of the documents in Region 7 possession relating to the appeals including those not in Region 7's Administrative Records associated with those appeals. The categories of documents are specifically listed in the May 1, 2014 letter and in FEMA's August 14, 2014 acknowledgement.

Thank you for your consideration of this request.

Attachment(s): SEE REQUEST

INSTRUCTIONS FROM DISCLOSURE OFFICE:

- Search your records for responsive documents. (If your search locates voluminous records, please contact us with estimated number of pages and time to process records within 5 working days. The FOIA Office will contact the requester to see if we can narrow the scope of the request).
- Request you review the document(s) for release to the requestor.
- Upon completion of your review, return this form, the document(s) (if applicable) along with the unsigned final response letter to the requester to: FEMA FOIA Office.
- Record the time spent reviewing/coordinating on the request and the number of pages on the enclosed Processing Cost form.

COMMENTS FROM FEMA COMPONENT: (Check all that apply)

- Total release. Attach the document(s) that you are going to release to the requester.
- Recommend withholding information under FOIA exemption(s) _____. Attach document(s) with the information that is to be withheld bracketed and the appropriate FOIA exemption(s) placed in the adjacent margin(s).
- Recommend withholding the entire document(s) under the following FOIA exemptions(s). Attach the document(s) to be withheld in its/their entirety.
- NO RECORDS - Our search failed to locate the responsive document(s). In order to fulfill a No Records please annotate below what and how you searched for responsive documents(i.e. database, hard files, etc.)

- We believe other FEMA office(s), DHS office(s), or other agencies should be involved in processing this request; recommend you contact: See attached.

The following statement must be signed by the appropriate Subject Matter Expert who processed FOIA. I certify that all appropriate files have been searched and all responsive documents have been reviewed, copied and provided to the FEMA FOIA Office.

From: (b)(6) [mailto:(b)(6)@sullivan-ward.com]
Sent: Thursday, October 31, 2013 3:49 PM
To: FEMA-FOIA
Subject: Request under the Freedom of Information Act

Good afternoon.

This is a request under the Freedom of Information Act. I hereby request the following records:

This request pertains to records, documents and information created during the processing of applications for federal disaster aid made available to the area of Iowa affected by a severe winter storm designated as Iowa Severe Winter Storm DR-4114 during the incident period of April 9-11, 2013.

I am requesting all records referencing and pertaining to the processing of the applications for disaster aid under the Public Assistance program that have been submitted by Lyon Rural Electric Cooperative, Iowa Lakes Electric Cooperative, Osceola Electric Cooperative and Sanborn Municipal Electric Utility (the Applicants). My request is for all documents, information, reports, memos, notes and emails produced or created by FEMA personnel, including Mr. Frank Cintron, or contractors, including Bicentennial Volunteers Inc., pertaining to these applications including, but not limited to, the information, without limitation, regarding the following:

- 1.) The applicability of FEMA Policy 9580.6, "Electric Utility Repair" and any other 9500 Series Policies to the applications.
- 2.) The determination that the Applicants are required to have performed laboratory tests of the physical characteristics of the conductor, (for example, testing of a minimum of three (3), twenty (20) foot sections of wire per mile on an annual basis), in order to be able to substantiate the physical condition of their conductor prior to the April storm event.

3.) The determination that the Applicants have not substantiated that their electric line was damaged during the April storm event due to a lack of laboratory test data substantiating the physical characteristics following the storm event.

I am entitled to a waiver of duplication fees because disclosure of the requested records is in the public interest within the meaning of 5 U.S.C. § 552(a)(4)(A)(iii) and 6 C.F.R. § 5.11(k). This standard is satisfied when requesters demonstrate that disclosure is "likely to contribute significantly to public understanding of the operations or activities of the government". The requested records clearly concern the "operations or activities of the government." 6 C.F.R. § 5.11(k)(2)(i). The connection to government operations and activities is "direct and clear." *Id.* Second, the information sought is "likely to contribute" to "an understanding of government operations and activities." 6 C.F.R. § 5.11(k)(2)(ii). Third, the records sought will result in greater "public understanding" of government policies, not just greater awareness within the requesting organizations. 6 C.F.R. § 5.11(k)(2)(iii). Fourth, the disclosure will contribute "significantly" to the public's knowledge and understanding of the government's policies. 6 C.F.R. § 5.11(k)(2)(iv).

The primary purpose of this Request is to obtain information to further the public's understanding of how FEMA is implementing its written policy, DAP 9580.6, which establishes criteria to determine eligibility for the repair and replacement of disaster-damaged electric distribution and transmission systems under the authority of electric utilities rural electric cooperatives and municipal electric utilities. This policy does not establish as criteria for eligibility for funding the testing described above which is being required of the Applicants.

In the event that fees cannot be waived, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not.

Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires.

Mr. Hawkins,

In consideration of current delays in FOIA processing, I wanted to to give your office some extra time to respond to my request; it's now been more than 2 months, and I am anxious for an update. Please get back to me as soon as you are able to inform me of progress on the matter.

Thank you

Afternoon Kevin,

I've restarted this ADR job. We've made a change to the services. ADR should no longer stall out other services (such as document delivery and OCR).

Earlier today, before the fix, we had to kill the service and restart it. This broke the ADR job.

I am currently monitoring the new ADR job and other jobs to make sure this does not happen again (ADR job has been running for an hour now).

Thanks. Because I suspected that was the folder, I started an Index/identify job, but it's been running for 30 hours. Any end in sight for this? I'm a bit worried.

Regards,
Kevin

(b)(6)

I checked the ADR Server and the only one that's possibly done is 2014-FEFO-00723, but the folder name is 2014-FOIA-000732, not FEFO, so it's not clear.

Can you follow up with DC2 and keep us posted?

Afternoon Kevin,

I am waiting on DC2 to transfer the files to the ADR repository server. I've finished the transfer from CD to share drive a while back. Waiting on a response from DC2. I will check the ADR server again to see if they have placed the files there today.

Subject: FEMA FOIA Request 2014-FEFO-00383

Alexis,

Hope you can help with this FOIA Request.

There are two because the requester is seeking FEMA correspondence with two government entities: NYC Parks and Recreation and NYC Economic Development Corporation.

However, the requester would not be aware that we keep our correspondence filed by a project, in this case it is correspondence with the entities that concern all the **Rockaway Boardwalk Projects**

He is also asking about **Piping Plovers**, an endangered bird, and I can only assume also in the Rockaways from his e-mail address being a local newspaper in the Rockaways. Would this issue be kept in EMMIE through a keyword search and/or might EHP have this information?

Regards,
Harvey

Alexis,

Hope you can help with this FOIA Request.

There are two because the requester is seeking FEMA correspondence with two government entities: NYC Parks and Recreation and NYC Economic Development Corporation.

However, the requester would not be aware that we keep our correspondence filed by a project, in this case it is correspondence with the entities that concern all the **Rockaway Boardwalk Projects**

He is also asking about **Piping Plovers**, an endangered bird, and I can only assume also in the Rockaways from his e-mail address being a local newspaper in the Rockaways. Would this issue be kept in EMMIE through a keyword search and/or might EHP have this information?

Regards,
Harvey

Subject: FX ADR - Testing

Kevin,

The large 20GB 2014-383 case that you had ADR had some issues and didn't complete. It was actually stuck initializing. It was running for over 2 days. (b)(6) will have to figure out the issue with that specific record set. Please hold off on running any other ADRs until (b)(6) is able to troubleshoot and do additional testing.

Thanks,

(b)(6)

Afternoon Kevin,

I've restarted this ADR job. We've made a change to the services. ADR should no longer stall out other services (such as document delivery and OCR).

Earlier today, before the fix, we had to kill the service and restart it. This broke the ADR job.

I am currently monitoring the new ADR job and other jobs to make sure this does not happen again (ADR job has been running for an hour now).

Subject: RE: ADR files

As long as the files have been moved to a folder in Document Management, we can delete the
source. It sounds like this is the case for 2014-fefo-00032.

You can delete 2015-FEFO-00093 since it's closed. 2014-FEFO-00032 is still opened, but its index/identified/moved into the case. Does the data source still pull from the server at that point? If not, you can delete that one too.

All the rest I still need on the server.

Hi Paula,

I left you messages on your office and mobile phones earlier today regarding some questions I have for this request. Superstorm Sandy affected multiple states, plus there was initial activity at the NRCC with definite interaction between FEMA and ARC. Just looking for some clarity on the scope of the request. You sent the request to the VAL section and PA. Is that the only information needed (from those 2 program areas)?

Please call me at your earliest convenience. Hopefully you can shed some clarity :-)

Thank you!
Miriam

Miriam,

Please review the FOIA request below and attached and provide a recommendation as to whether HQ VALs should search their archives to provide the requested information or request a search on the server.

A response by Friday of this week would be great.

Thanks,
Janice

Good Morning Mr. Mones,

I work in the FOIA office within Records and am assisting with some older cases. Through some research I was given your name as working in the Voluntary Agency Liaison Section, and that you might be able to assist with this request.

Please could you look at the attached FOIA request and see if you have information that can be provided? If you are not able to assist, my apologies and ask if you know who may be able to assist.

(As a note: I have also simultaneously tasked this over to PA as well)

Morning Eric,

Could I scratch around in your brain and ask your assistance please?

This is the (b)(6) case with ProPublica
This has already been tasked to RII, IA, PA, OCIO, Voluntary Liaison group and Mass Care which directly associated with the Red Cross and/or are the liaisons in FEMA.

Responses from everyoneand just received the below message with excel spreadsheet from Mass Care....

Is it safe to say to Mass Care.....provide us with everything and we will weed out what is not needed?

Paula,

Please see the attached. I have actually not been involved with a FOIA where we actually produced any quantity of documents other than a single report which provided specifically sought data. I find myself when reviewing the Suspense Tracker that was sent, not sure how to complete it, and I don't feel qualified to determine what among the documents we located on our network drive that would be appropriate to release. So after you review the attached spreadsheet, if you could advise what documents / files you feel we should provide we will gladly prepare a folder of those files which could be transferred to another drive, or if directed we will print out the material; although, not all the documents will likely print cleanly on our system printers supplied with 8x11, or 8x14 paper.

Standing by for further direction.

Mark

E-mail: FEMA-FOIA@dhs.gov.

FOIA REQUEST

Dear FOIA Officer:

Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request access to and copies of

*** all records from the Office of the Administrator or the Office of the Office of Response and Recovery, dated between October 15, 2012, and June 1, 2013, mentioning the American Red Cross in the context of the response to Superstorm Sandy. This request includes but is not limited to emails or other communications between FEMA officials and officials of the American Red Cross related to the response to Superstorm Sandy.**

I would like to receive the information in the following format: electronic.

As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages. Through this request, I am gathering information on the American Red Cross and its relationship with FEMA that is of current interest to the public because of the lingering effects of Superstorm Sandy on tens of thousands of citizens, and persistent questions about the Red Cross' use of donated dollars in disaster relief. This information is being sought on behalf of ProPublica for dissemination to the general public.

Please waive any applicable fees. Release of the information is in the public interest because it will contribute significantly to public understanding of government operations and activities, including the response to Sandy and the fates of billions of taxpayer dollars and donations.

If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I will also expect you to release all segregable portions of otherwise exempt material. I, of course, reserve the right to appeal your decision to withhold any information or to deny a waiver of fees.

As I am making this request as a journalist and this information is of timely value, I would appreciate your communicating with me by telephone, rather than by mail, if you have questions regarding this request.

I look forward to your reply within 20 business days, as the statute requires.

Thank you for your assistance.

Sincerely,

(b)(6)

Hey Chris,

I did get this one and it is currently in processing with IT Security. I checked on it last week and there wasn't any information available to send back thus far. I will check on the progress again on Wednesday.

Good Afternoon (b)(6)

Per your request, I am writing to you in order to again ask you to narrow the scope of your FOIA request (2013-FEFO-00816) to the Federal Emergency Management Agency following our telephone conversation this afternoon. The agency component tasked with providing the responsive documents to your request has contacted this office to express the voluminous nature of responsive records being sought. Therefore, you are being asked to cite specifically the best way you can the documents you desire in order that these records may be retrieved with more immediate accuracy.

We apologize for any inconvenience, but simply wish to express our need of your cooperation in order to proceed with a more successful search.

Thank You,

Good Afternoon (b)(6)

Per your request, I am writing to you in order to again ask you to narrow the scope of your FOIA request (2013-FEFO-00816) to the Federal Emergency Management Agency following our telephone conversation this afternoon. The agency component tasked with providing the responsive documents to your request has contacted this office to express the voluminous nature of responsive records being sought. Therefore, you are being asked to cite specifically the best way you can the documents you desire in order that these records may be retrieved with mor
