Dear Dr. Ullyot:

Thank you for your letter of 24 April 1961. I will be expecting you. When you know your arrival time, let me know and I can pick you up at the airport.

I think perhaps we should wait on the sample of tetrahydrocannabinols you have until we have had a chance to discuss the matter.

Is the 1,2-dimethyl hepto analog of tetrahydrocannabinol which you mentioned in your letter one of the compounds studied by Loewe? I should appreciate receiving the structural formula.

I also hope Dr. Tedeschi can send me his data prior to arrival here so I will have a chance to look it over.

Kindest personal regards,

Yours very sincerely,

Harris Isbell, M. D.  
Director
