TO: FILE

Subject: SI and H Experimentation, 13 January 1953.

On 13 January 1953, SI and II experimentation was carried on in Building 13, Room 20, with present.

Since previous work in the making of motion pictures with concerning illusions, hallucinations, etc. had been either destroyed or misplaced by accident, it was decided by the writer and that the evening would be devoted to a retake of the demonstrations in question. Accordingly, the apparatus was set up and the series of scenes were run off using as the subject in all sequences.

As far as the writer is able to tell at this time these sequences were successful, but the developed films will not be available for some time. Since the above michure taking consumed over two hours, it was decided to abandon all other experimentation for, the evening.
