Subject: SI and H experimentation, 10 March 1954

On 10 March 195h, Wednesday, SI and H experimentation and research was carried on in Building 13 by Messrs. and and using the following subjects: Misses.

In view of the fact that there were a considerable number present and Him and not yet attained considerable depth and was new, the session was devoted to routine induction and simple tests and PII.

The writer rave the standard security briefing and tested in the falling back and hand-raising test. She responded somewhat better than usual. As mentioned above, all other tests were routine and nothing unusual was accomplished.
