SITUATION INFORMATION REPORT

The peace and tranquility formula of Cornell's President James A. PERKINS, one of soft permissiveness, has imbued the campus black militants with sufficient courage to utilize brute belligerence: A study of recent Cornell history clearly pointed to the recent armed takeover of a University building and hopefully will assist other college heads in formulating their strategy in dealing with the white as well as the black radical revolution in Academe. The Hessburgh approach or the use of a court order seems far more advisable and utilitarian as academic self-preservation methods than the pusillanimous exemplar of President PERKINS.

That the Ithaca campus could be so deformed by strife is in part attributable, ironically, to the president's well-meaning liberalism in recruiting black students, many of whom were ill-equipped for Cornell's academic demands.

Storm clouds erupted last spring when three Negro students, infuriated by an economics professor's classroom contention about the superiority of a western civilization seized the offices of the economics department and held the department's chairman prisoner. When the Perkins administration did not press charges against the three, it flashed the green light for anarchy.

In December 1968 black militant activities erupted again, this time with increased irrationality, increased violence and with an incredible lack of firm discipline and counter force from PERKINS. The April armed takeover cannot be attributed to the cross burning at the Negro coed dorm (widely believed in Ithaca to have been started by Negroes, incidentally) but rather is a culmination of a series of black militant acts of arrogance. Pushing a campaign for black studies (the administration's non-resistance posture had already been tested the previous spring), the militants took over a building (actually promised them for a later date), dispossessed into the streets the professors and their belongings, stole furniture to furnish the building, vadalized the library, and danced on the tables from the dining hall. At faculty insistance charges were brought

against six of the most flagrant offenders. The last week in April even these charges were dropped.

In a December demonstration of utter contempt, black militants staged a sit-in outside PERKINS' office. Still believing he could make friends with a wild-cat, PERKINS sent milk and doughnuts. The militants responded predictably (not to PERKINS) by smashing the refreshments against the wall.

Last February an even more bizarre and outlandish demand was forthcoming from the Cornell Afro-American Society. The group insisted on \$2,000 from the administration to buy bongo drums to celebrate Malcolm X day. The administration scraped together \$1,700 and dispatched two black students to New York City in the University airplane to purchase the drums.

On February 28, to the accompaniment of the Cornell-purchased drums, PERKINS was physically pulled from the speaker's platform at a conference on South Africa. A few days later job recruiters from the Chase Manhattan Bank were physically assaulted on campus. In mid-March three white students were beaten at night on campus by Negro students, one to the point of death.

PERKINS is now the open target of derision by the black militants who describe him to his face with obscenity widely used in the black ghetto. It would appear that PERKINS must reform or resign if Cornell is to be saved increasing problems from militant black radicals. Although he feels he has the full confidence of the board of trustees, PERKINS' position at Cornell must be regarded as shaky at best.

In an appearance before the Canadian House of Commons, Mr. W. H. KELLY, Deputy Commissioner of the Royal Canadian Mounted Police related campus unrest in Canada to visits by militant agitators from the United States. Mr. KELLY said any "real serious demonstrations" have been found to be linked to such visits.

"Red power in Canada is linked with black power in the United States," said Mr. KELLY.

A "New Right" student organization has in recent weeks emerged on the university scene. The National Youth Alliance,

headquartered at 208 3rd Street, S. E., Washington, D. C., has counteracted the takeover tactics of the SDS at several campuses in the past week or two.

Although the initial impulse is to cheer them on as they route the SDS from a Columbia_University building, a closer examination of the organization and its foundations and pronouncements gives food for considerable, sober thought. NYA is by no means revitalized and a reconstituted Young Americans for Freedom but instead more closely resembles the Hitler Youth of the 1930's:

A recent statement by Louis T. BYERS, organizer of the NYA (and former coordinator of the John Birch Society) exemplifies the basic philosophy of the new force from the radical "New Right." BYERS starts by calling SDS an "anarchistic" group which is neither new nor startling. As he continues, however, the radical color shows through. The Alliance, he continues, aims to neutralize and overcome black power. SDS members who occupy buildings will be forcibly ejected by Alliance members and their supporters. If students are molested by "Black Power animals" the Alliance will set up a protective security force,

One of the guiding lights of NYA if not the "owner" of it, is none other than Willis CARTO whom Drew PEARSON has been throwing darts at in recent weeks. CARTO, head of Liberty Lobby (another PEARSON target) was a major financial supporter of the Wallace Youth Movement. Because he controlled the pursestrings he had the organization's membership list and solicited all previous Wallace Youth leaders to reform the group as NYA. CARTO got their agreement that the NYA would take its ideology from the book "Imperium." PEARSON characterizes the book as the "Mein Kampf" of the American Nazi Movement.

NYA will be closely monitored in coming months. The organization in its initial machinations appears clearly as destructive

and threatening to the free university concept as SDS, the various black militant groups and the old left parties. The emergence of NYA may force moderate college administrators to exercise more authority in campus riots more promptly, before their prerogatives are usurped by the equally, anarchistic NYA. Two wrongs still don't make a right.
