#### APPENDIX E

## COMBAT HEALTH SUPPORT ASSESSMENT CHECKLIST

#### E-1. General

I.

- a. This appendix provides a tool for use in assessing the health care delivery system and the medical needs of a HN or US-backed group. This checklist is intended only as a guide and may be modified for use as the situation dictates.
- b. This checklist is arranged by category of information. The more detailed the information obtained, the better this checklist will aid the CHS planner in correctly identifying the medical threat, assessing the medical requirements, and developing the requisite programs for alleviating the identified deficiencies. Additional information in the form of brochures, magazine or newspaper articles, or advertisements of medical facilities, health service education programs, and medical equipment or supplies available will also assist in the planning effort.
- c. The mission reconnaissance checklist presented in Appendix M is more limited in scope and is intended for the assessment of a specific village, town, or district.
  - d. Predeployment medical assessments may be available through supporting CA units.

#### E-2. Sample Medical Assessment Checklist
