Dear ██████████

Enclosed you will find two (2) copies of the draft Remote Viewing report. The conclusions are solid. However, we do need to have Ray and Jessica check the material. Additionally, in the final draft we will obviously need to add a table of contents, title page, etc. We will also use a "tab" organization in Chapter 3 to make things easier for the reader.

In the meantime, this draft will let you start to process things. We hope to have a final draft to you by next Friday.

Cordially,
